(26) COLLECTION OF ARREAR DEBT THROUGH ELECTRICITY VENDING

26.1. Prepayment electricity system

26.1.1 Councils preferred metering system for domestic and certain business customers is the prepayment metering system.

26.1.2 Arrear debt of consumers with prepayment electricity meters is dealt with in terms of debt collection facilities available on the prepayment electricity system.

26.2 Debt Arrangement - Prepayment System

26.2.1 The prepayment electricity system implemented by council has a debt management facility. The debt management facility is various blocking types, which can be utilised to collect arrear debt.

26.2.2 The various blocking types can be described as follows:

26.2.2.1 Information/Partial Block

The system will inform the consumer that a purchase can be made but that after the purchase a total block will be put on the consumers account automatically by the system. To unblock the system:-

- The arrear debt must be paid in full, or
- Arrangements must be made to pay off the arrear debt and the arrangements have been captured on the system.

26.2.2.2 Total Block

The consumer is blocked from buying electricity due to arrear debt and can be unblocked when:-

- The arrear debt is paid in full
- Arrangements have been made to pay off the arrear debt and the arrangements have been captured on the system.

26.2.2.3 Minimum monthly instalment with monthly vend limit

The consumer arranges to pay a minimum monthly instalment and to purchase a limited amount of electricity. The limited amount of electricity to be purchased is to prevent consumers from purchasing more than one month's electricity to avoid arrear payments. The minimum monthly instalment includes the consumer's monthly account plus a payment to arrears. If the consumer pays

less than the minimum instalment the system will not allow the purchase of electricity. If the consumer pays more, the additional amount is taken off the outstanding arrears, but the monthly instalment stays the same until the arrears are paid off.

26.2.2.4 Minimum weekly instalment with weekly vend limit
The same as above but weekly instalments are arranged with weekly limits on the amount of electricity to be purchased.

26.2.2.5 Percentage Blocking
Every time the consumer make a purchase a percentage of the amount tendered for the purchase of electricity is allocated to arrear debt. This type of block is another method to collect arrear debt but does not collect the monthly account.

26.2.2.6 Debt Arrangement

26.2.2.6.1 The principle of limited vending to encourage customers with arrears to buy a predetermined amount of electricity per month, will apply.

26.2.2.6.2 The principle that the monthly account must be paid, will apply.

26.2.2.6.3 Indigent Customers

26.2.2.6.3.1 All indigent customers with arrears will be put on the percentage block type and a percentage to be determined by Council of payment received to purchase electricity will be allocated to arrears.

26.2.2.6.3.2 Indigent consumers will be required to pay their current monthly account before electricity can be purchased. The monthly account is the amount after the indigent subsidy has been deducted.

26.2.2.6.3.3 Indigent customers will be allowed to purchase an average monthly electricity consumption of such consumer with the maximum amount of electricity as determined from time to time.

26.2.2.6.3.4 The practical implications of the above is

that when a customer wants to buy electricity, the current monthly account, of which the amount will appear on the prepayment system, will have to be paid before electricity can be purchased. When electricity is purchased a percentage to be determined by Council of the amount tendered will be allocated towards arrears. Council may amend this percentage.

26.2.2.6.3.5 Monthly instalments not paid during a month will be accumulated on the system and will have to be paid the next month before electricity is purchased.

26.2.2.6.4 Non-Indigent Customers

26.2.2.6.4.1 Non-indigent customers with arrears will be put on the information block, which will notify them that a purchase can be made but that after the purchase the information block will be converted to a total block, and that the total block can only be removed after the necessary payment arrangement with Council.

26.2.2.6.4.2 An arrangement must be made with the customer to pay a minimum monthly instalment, which will include monthly charges plus the maximum period of twenty four (24) to thirty six (36) months, and be allowed to purchase the average monthly electricity consumption for such consumer with a maximum amount of electricity as determined from time to time.

26.2.2.6.4.3 Customers who pay their arrear debt in full will have the total block removed and can proceed with buying electricity.

(27) RIGHT OF ACCESS

(27.1) An authorised representative of the Municipality must, at all reasonable hours, be given unrestricted access to the debtor's premises in order to read, inspect, install or repair any meter, service or service connection for reticulation, or to
