Government Printing Works
REPUBLIC OF SOUTH AFRICA

HIGH ALERT: SCAM WARNING!!!

TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works (GPW)*.

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

PROCUREMENT@GPW-GOV.ORG

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

GPW has an official email with the domain as [@gpw.gov.za](mailto:gpw@gpw.gov.za)

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

Government Printing Works gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at www.gpwonline.co.za
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

PROVINCIAL NOTICE 320 OF 2019

**EXTRACT OUT OF MINUTES A SPECIAL COUNCIL MEETING HELD ON 11 OCTOBER
2019****C830. UPDATE REPORT ON DECLARATION OF STATE OF MUNICIPAL
DISASTER: DROUGHT****Purpose:**

To report to Council about the status of drought in the district. To further report to Council for the purposes of declaring a state of municipal disaster throughout the district.

Authority:

CHDM Council.

Legislative framework:

The Municipal Structures Act (117 of 1998) section 84 provides that district municipalities are responsible for the provision of bulk and reticulation services in relation to "potable water supply, domestic wastewater and sewage disposal systems". Therefore under the Municipal Structures Act, Chris Hani District Municipality is designated both as a Water Services Authority and a Water Services Provider. In its capacity has a duty to all consumers or potential consumers, in its area of jurisdiction to progressively ensure efficient, affordable, economical and sustainable access to water and sanitation services.

Background:

The current status of Chris Hani DM is that all water sources are declining in levels and most of them have since dried out leaving the communities vulnerable. This decline in water levels and drying out is associated with prolonged drought. CHDM last had the rain as far back as February 2019. The shortage of rain has serious water resources challenges. The sources are drying out leaving communities with compromised livelihood. This state of affairs is attributed to poor rainfall patterns. The report seeks the declaration

of the district as drought stricken region so as to source additional funding to mitigate the situation before human lives are lost due to day zero status.

Exposition of facts:

CHDM has benefitted from the previous declaration through the WSIG Drought funding. An allocation of R87.3 million was made available for the district to mitigate the situation. Drilling and retrofitting was prioritised for the district. Certain boreholes that were drilled happen to be unsuccessful and resulted in delays with implementation of the projects. Other projects were delayed through Supply Chain Processes that were to be followed. In some instances it was an issue with community interests that have to be considered. Nonetheless, most projects have started with implementation. Those projects that received the grant will not form part of this submission.

This submission seeks the declaration of the Mayoral to declare the district as drought stricken in order to source funding from Provincial and National Government. The submission will further be subjected to the verification process that will confirm the state of affairs of the affected areas. It is also possible that certain areas will be serviced by water-carting as there are no possible sources including groundwater itself due to the dryness of the area. Certain sources have dried completely and communities rely now on water-carting that is also not guaranteed because of the distances of hauling water. Carting is also considered in areas where there are no alternative sources. Below is the table of prioritised schemes and areas in need of financial assistance and intervention.

CHDM has conducted workshops for Operators on groundwater monitoring with an aim of capacitating them to be able to manage the groundwater. These workshops are meant to ensure that the groundwater is being monitored to avoid over-abstraction and collapse of boreholes. CHDM had about 2 Interns graduated as Geologist with Hydrogeology.

Only 1 Intern that is currently available to assist with groundwater monitoring and exploration working with Hydrogeologists that are Professional Service Providers. The effect of drought on businesses, farmers, etc can never be measurable. The area of Komani has factories that produce Dairy products and Fizzy drinks (Twizza) which are threatened with closure thus resulting to job losses.

Small and commercial farmers are also affected as the dams and streams are no longer having water. Animals travel long distances to look for water and get lost or hit by cars on the road. The situation of Komani was further hit a blow around February 2019 when there were rains that lasted a week.

The rain could not make any impact on Bonkolo dam as there were stock-dams that are situated at the catchment area of Bonkolo dam. All the run-off was collected by the commercial farmers leaving nothing for Bonkolo dam. The issue of stock-dams at catchment areas becomes a challenge as there is no certainty about their registration with DWS.

Financial Implications:

A minimum amount required is to the tune of **R178 600 000** will have to be declared to mitigate the impact of a natural disaster.

Other implications:
