Government Printing Works

Notice submission deadlines

Government Printing Works has over the last few months implemented rules for completing and submitting the electronic Adobe Forms when you, the customer, submit your notice request.

In line with these business rules, GPW has revised the notice submission deadlines for all gazettes. Please refer to the GPW website www.gpwonline.co.za to familiarise yourself with the new deadlines.

CANCELLATIONS

Don't forget!

Cancellation of notice submissions are accepted by GPW according to the deadlines stated in the table above. Non-compliance to these deadlines will result in your request being failed. **Please pay special attention to the different deadlines for each gazette.**

Please note that any notices cancelled after the cancellation deadline will be published and charged at full cost.

Requests for cancellation must be sent by the original sender of the notice and must accompanied by the relevant notice reference number (N-) in the email body.

AMENDMENTS TO NOTICES

take note!

With effect **from 01 October**, GPW will not longer accept amendments to notices. The cancellation process will need to be followed and a new notice submitted thereafter for the next available publication date.

CUSTOMER INQUIRIES

Many of our customers request immediate feedback/confirmation of notice placement in the gazette from our Contact Centre once they have submitted their notice – While GPW deems it one of their highest priorities and responsibilities to provide customers with this requested feedback and the best service at all times, we are only able to do so once we have started processing your notice submission.

GPW has a **2-working day turnaround time for processing notices** received according to the business rules and deadline submissions.

Please keep this in mind when making inquiries about your notice submission at the Contact Centre.

PROOF OF PAYMENTS

REMINDER

GPW reminds you that all notice submissions **MUST** be submitted with an accompanying proof of payment (PoP) or purchase order (PO). If any PoP's or PO's are received without a notice submission, it will be failed and your notice will not be processed.

When submitting your notice request to submit.egazette@gpw.gov.za, please ensure that a purchase order (GPW Account customer) or proof of payment (non-GPW Account customer) is included with your notice submission. All documentation relating to the notice submission must be in a single email.

A reminder that documents must be attached separately in your email to GPW. (In other words, your email should have an Adobe Form plus proof of payment/purchase order – 2 separate attachments – where notice content is applicable, it should also be a 3rd separate attachment).

REMINDER OF THE GPW BUSINESS RULES

- Single notice, single email – with proof of payment or purchase order.
- All documents must be attached separately in your email to GPW.
- 1 notice = 1 form, i.e. each notice must be on a separate form
- Please submit your notice **ONLY ONCE**.
- Requests for information, quotations and inquiries must be sent to the Contact Centre **ONLY**.
- The notice information that you send us on the form is what we publish. Please do not put any instructions in the email body.

IMPORTANT NOTICE:

THE GOVERNMENT PRINTING WORKS WILL NOT BE HELD RESPONSIBLE FOR ANY ERRORS THAT MIGHT OCCUR DUE TO THE SUBMISSION OF INCOMPLETE / INCORRECT / ILLEGIBLE COPY.

No FUTURE QUERIES WILL BE HANDLED IN CONNECTION WITH THE ABOVE.

- f) Where any change other than a change as referred to in item 5 is made in the nature of the occupation or the use of any premises which requires the application of a different tariff in terms of this Schedule, no claim for any adjustment of an account rendered or any refund of moneys paid in terms of this Schedule shall be entertained by the council unless notice in writing of the change is given to council within 30 days of the date of its occurrence.
- g) The average water consumption referred to in Part II or Part III shall be based on the average monthly water consumption calculated over the period 1 April to 31 March and shall apply to the financial year commencing on 1 July thereafter, provided that-
- (i) In case of a new consumer, the council reserves the right to base the monthly average for the first three months on the average consumption of a consumer of more or less the same consumption and in the same consumer's class for the previous period of 1 April to 31 March. The actual consumption for the first three months shall be used as basis to determining the levy from date of rendering the service up to the end of the financial year concerned.
- (ii) If the quantity of water, obtained from a source other than council's supply during a cycle, the charges will be based on council's

estimate of the total consumption on such premises during the aforementioned cycle.

- h) Notwithstanding the provisions of item 7 and without prejudice to the council's rights contained in section 79 of the by-laws, every consumer has the right to install a sewage effluent meter at his own cost on the condition that the meter must be calibrated every six months and written proof to this effect must be submitted to the engineer, failing which item 7 will be enforced. Provided that, should the meter be out of order the council shall have the right to base the charge on the last known correct reading. Where an effluent meter is installed, the actual discharge measured by such a meter shall be used to determine the charges at the rates referred to in Part II to Part IV inclusive.
- i) Where no effluent meter is available to measure the actual volume discharged the charges referred to in Part II to Part IV inclusive shall be based on actual water consumption.
- j) Where the Council receives sewage effluent of which the council is not the supplier of the water, the monthly average effluent shall be determined on an estimate or a calculation based on the flow capacity of the sewer pipelines which are connected to the council's main sewer: provided that item 8 and/or Part III shall also apply mutatis mutandis.
- k) The owner of premises situated outside the municipal area which is connected to the council's sewer shall be liable to pay all the applicable charges set out or referred to in this Schedule and, in addition, a surcharge of 25 percent thereon.

- 1. The owner or occupier of premises on which any trade or industry or of any process incidental thereto, any effluent is discharged into the council's sewer shall, in addition to any other charges for which he may be liable in terms of this Schedule, pay to the council an industrial effluent charge which shall be calculated:-
 - a-(i) according to the actual sewage effluent per month metered by a sewage effluent meter in kl; or

- a-(ii) according to the quantity of water consumed monthly: Provided that the conditions of items 9 and 10 of Part 1 under Schedule B shall also be applicable thereto.
- (b) In accordance with the "strength" of such effluent, as determined on the composite sample consisting of four scoop samples taken every hour by the engineer over a minimum period of four consecutive hours during the preceding month: alternatively, in accordance with the "strength" of such effluent, as determined on the composite sample consisting of such samples collected by an automatic sampling device as provided for in section 79 of the by-laws, provided that:
- (i) Where due to circumstances it is impossible to take such sample, the council shall take the "strength" of the last sample for the purpose of making such calculation. The "strength" shall be determined as specified in item 3. The levy per kilolitre or part thereof shall be calculated by means of the following formula:

Tariff in cent per kl = Charge (acod + BpH + Cec) where:

| | |
|--------|---------------------------|
| Charge | $1.7238 + 15\% = 1.98237$ |
|--------|---------------------------|

and where:-

- (i) $acod = (0.022368 \times cod + 0.011316 \times cod) - 25.6$
where cod is the chemical oxygen demand in milligram per litre, determined according to the method published in Government Gazette No 2512, dated 29 August 1969.
- (ii) $BpH = (20.16 - 1.965 \times pH - 1.395 \times pH)$ where pH is less than 6.0; or
 $BpH = (1.7 \times pH + 0.86 \times pH - 25.6)$ where pH is greater than 10.0 and where pH is the acidity value.
- (iii) $Cec = (0.034 \times ec + 0.0172 \times ec - 25.6)$ where ec (electrical conductivity) is measured in milli-Siemens per metre where $ec > 500$.
2. Whenever a sample is taken by the council in terms of item 1, one-half thereof, shall on his request be made available to the owner or occupier of the premises.
3. The strength referred to in item 1 shall be determined according to the chemical procedures by means of which sewage is to be analysed as

described in Government Gazette No 2512 dated 12 August 1969 where COD > 760, for the determination of the chemical oxygen demand as well as the acidity measured by means of a calibrated pH meter and the electrical conductivity measured by means of a calibrated conductivity meter expressed in milli-Siemens per meter where ec > 500.

4. (a) Where effluent is discharged into the sewer from more points than one on an industrial property, whether on the same floor or on different floors of the same premises and irrespective of the origin of the effluent, the council may in its discretion for all the purposes of making a charge in terms of this Schedule, including the taking of test samples, treat each such point of discharge as a separate point for the discharge of industrial effluent into the sewer.
- (b) For the purpose of calculating the quantity of effluent discharged from each point of discharge, as aforesaid, the total water consumed on the premises shall be allocated as accurately as is reasonably practicable, after consultation between the engineer and the occupier, among the several points of discharge: Provided that each point of discharge may be provided with a sewage flow meter in order to determine the actual sewage effluent.

PART III

PRIVATE SWIMMING BATHS
