Ward boundaries are areas of very low population density but large in geographic size that could not be demarcated by the Independent Electoral Commission using district level data. The present location of the resident population was unknown and the voting district demarcation criteria could not be applied. Voters in these areas were advised to register and vote at a voting station closest to them.

Calendar data are based on digital information supplied by the Surveyor General's Office. Place names information supplied by Statistics South Africa. Ward Districts and Schools supplied by the Independent Electoral Commission. Schools information supplied by the Education Foundation. Hospitals and Police Station information supplied by the Human Sciences Research Council.
