During the time I was at the University of Michigan, I had the opportunity to work with Dr. John C. Stumpf, who was then the Director of the Michigan State Department of Education. He was a man of great integrity and a true leader in education. He believed in the importance of research and its application to education. He was instrumental in establishing the Michigan State Department of Education's Research Division, which became the Michigan Department of Education's Research and Development Center. He was a strong advocate for the use of research findings to improve education. He was a man of great character and a true leader in education.

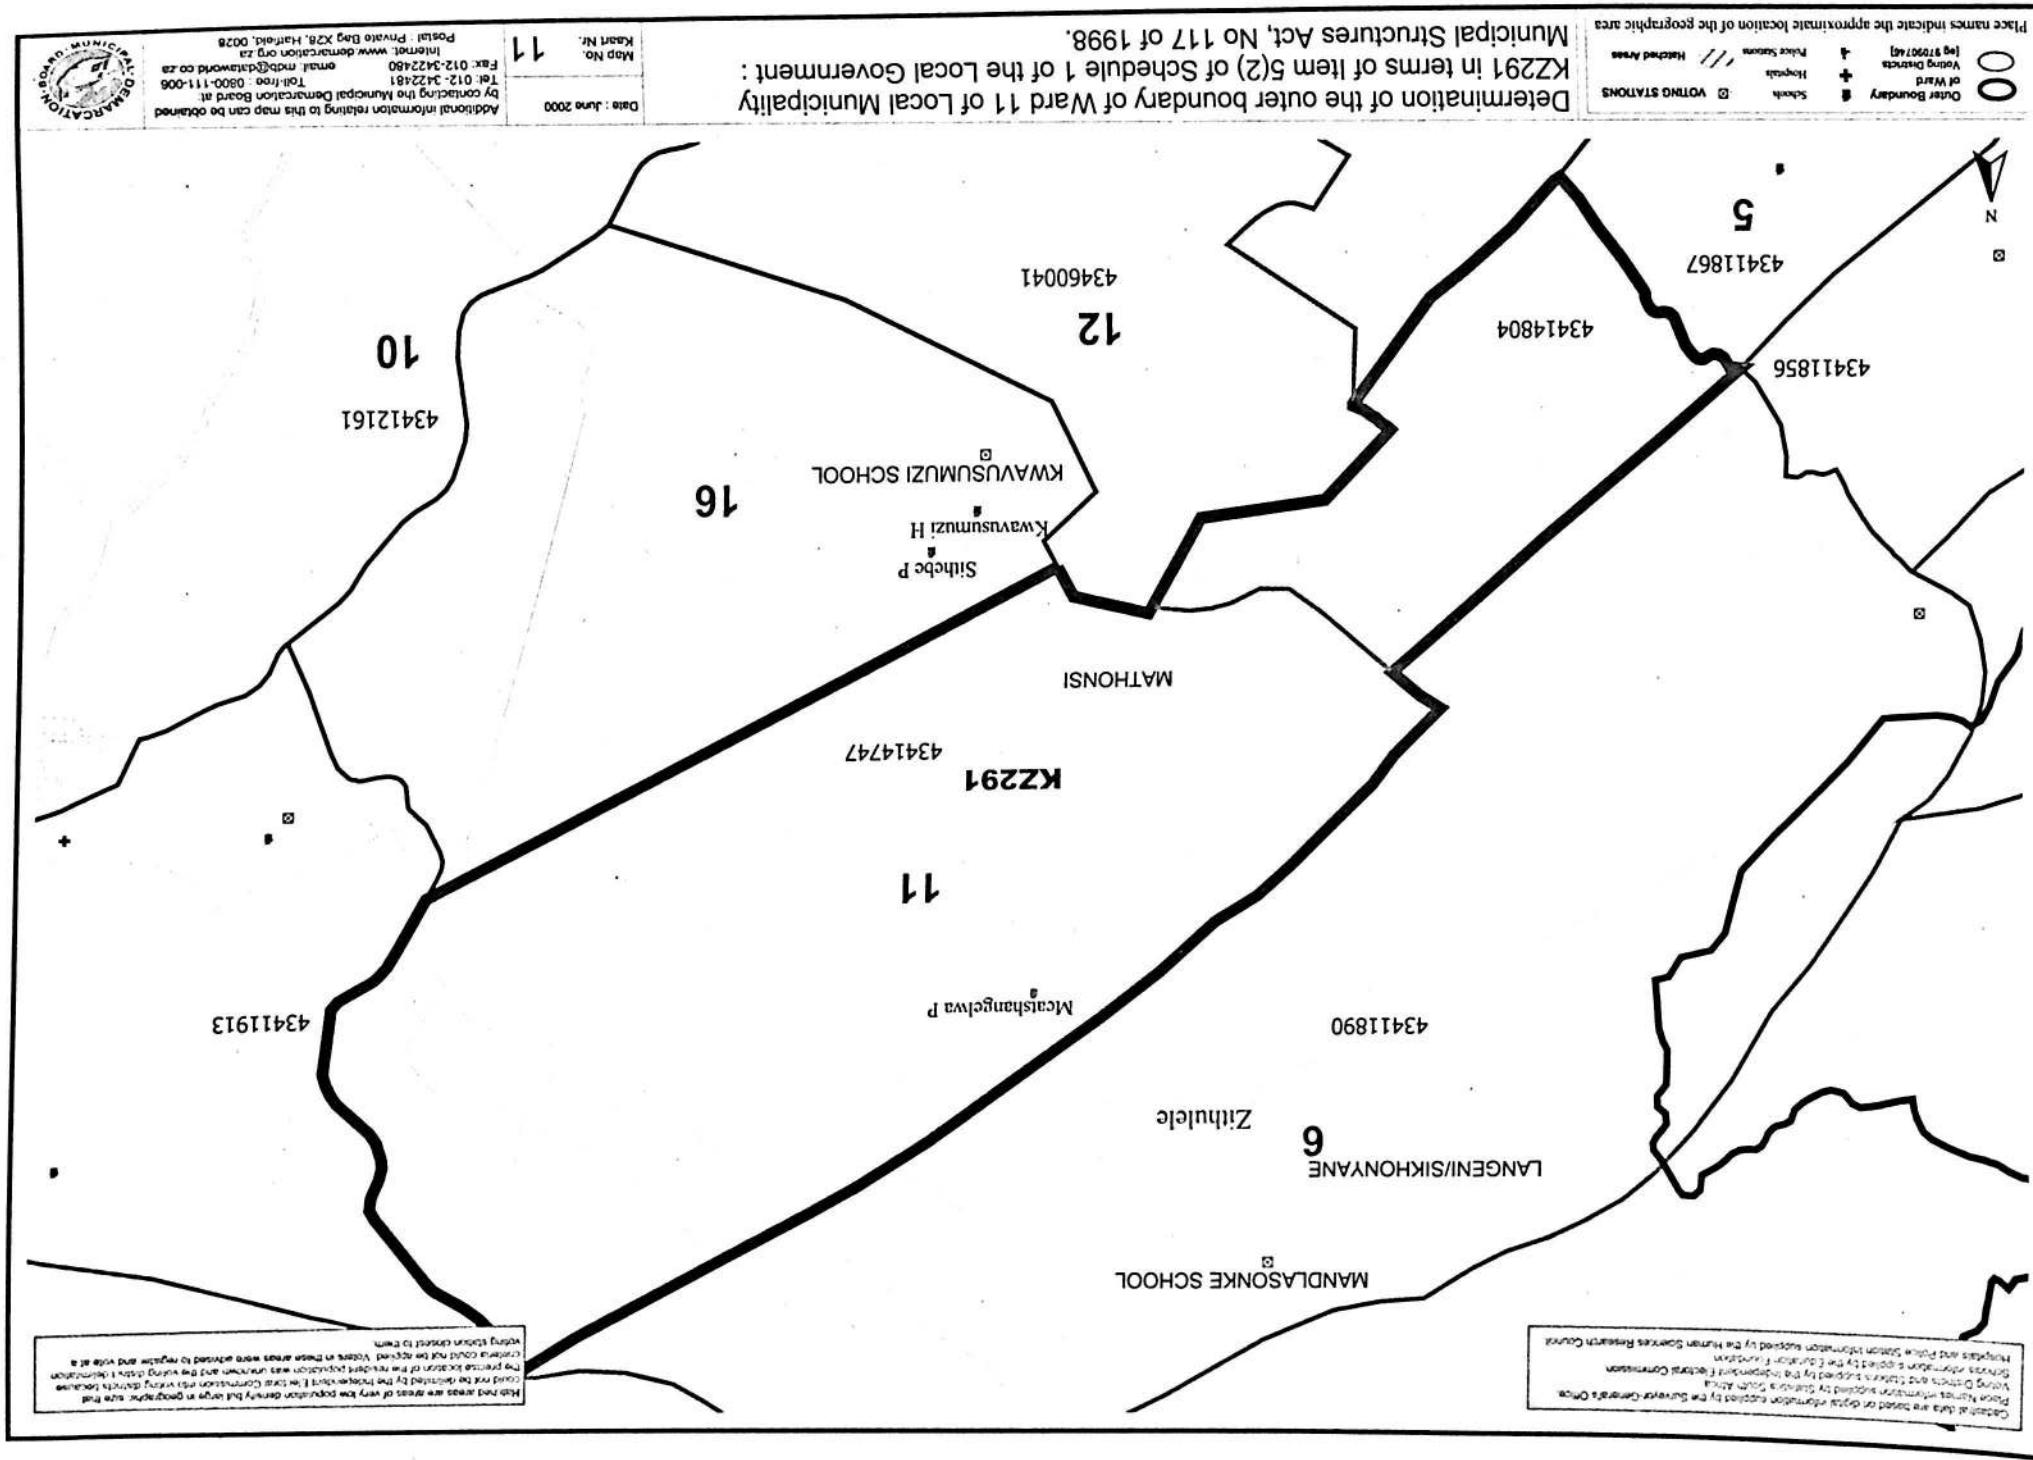

Helping to build a better world by supporting our members and their families through education, research, advocacy, and service.
