REPUBLIC OF SOUTH AFRICA

HIGH ALERT: SCAM WARNING!!!

TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works (GPW)*.

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

PROCUREMENT@GPW-GOV.ORG

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

GPW has an official email with the domain as @gpw.gov.za

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

Government Printing Works gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at www.gpwonline.co.za
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

This Notice is published in terms of Section 47D(1)(c) of the National Environmental Management Act, 1998 (No. 107 of 1998) (NEMA) and the Environmental Impact Assessment (EIA) Regulations, 2014 (as amended in 2017).

Applicant: Rhino Oil and Gas Exploration South Africa (Pty) Ltd ("Rhino Oil & Gas").

Activity: Rhino Oil & Gas lodged an application for an Exploration Right (ER) to explore for "Petroleum and Gas" with the Petroleum Agency of South Africa ("PASA") in terms of Section 79 of the Minerals and Petroleum Resources Development Act, 2002 (No. 28 of 2002) (MPRDA). Minerals included in the application are oil, gas, condensate, coal bed methane, helium and biogenic gas.

The 350 ER application area falls mostly within the Free State province, with a small portion in KwaZulu-Natal (KZN). Formal residential areas and Protected Areas are excluded. In the Free State the included areas lie east of Sterkfontein Dam, north to Harrismith and beyond to Warden. From Harrismith the application area extends westward, past Kestell to Bethlehem. In the north the application area extends from Warden past Reitz up to Lindley. In KZN, the included area is from just south of Woodstock Dam north to the provincial border and east of the Kilburn Dam. Residential areas such as Rookdale, Hoffenthal, Dukuza, Moyeni, Mkuwini and Zwelisha are excluded.

The ER application is for undertaking early-phase exploration, which is aimed at indicating the presence of petroleum and gas resources that could warrant further exploration. The initial exploration work programme would be restricted to desktop data review and the undertaking of an aerial survey. No on-the-ground exploration activities are proposed and no access is required to any land.

Environmental Assessment Practitioner: SLR Consulting (South Africa) (Pty) Ltd ("SLR").

Application for Environmental Authorisation: In terms of the MPRDA, a requirement for obtaining an ER is that the applicant must comply with Chapter 5 of NEMA. Under NEMA, the proposed project requires Environmental Authorisation as it triggers Activity 18 in Listing Notice 2, 2014. As such a Scoping and EIA (S&EIA) process must be undertaken in terms of the EIA Regulations, 2014.

Rhino Oil & Gas made application for Environmental Authorisation to the competent authority in September 2019. The Scoping Report was accepted by PASA in January 2020. The S&EIA process was delayed as a result of the COVID pandemic and the S&EIA timeframes were subsequently extended with PASA's approval. Due to various challenges in sourcing contact information, not all landowners were notified at the time. Efforts have been made to identify and notify additional landowners and provide them with opportunity to participate in the S&EIA process.

SLR has prepared an Environmental Impact Assessment Report in terms of Section 23 of the EIA Regulations, 2014. The EIA report, along with those previously developed as part of the S&EIA process, are available to download from the SLR website (www.slrconsulting.com/za/slr-documents). Alternatively contact SLR and the relevant documents can be supplied (email or on CD).

All comments on the EIA report should be forwarded to SLR by no later than 6 October 2020 for inclusion the final report.
