Government Printing Works
REPUBLIC OF SOUTH AFRICA

HIGH ALERT: SCAM WARNING!!!

TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works (GPW)*.

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

PROCUREMENT@GPW-GOV.ORG

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

GPW has an official email with the domain as @gpw.gov.za

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

Government Printing Works gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at www.gpwonline.co.za
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

- 5.14 In calculating the contribution required to be made to the Fund, the Directors shall as far as is practically possible:
- 5.14.1 differentiate between expenditure of a capital nature and of a current nature; and
 - 5.14.2 indicate clearly on the estimate referred to in clause 5.8.1 what is capital expenditure and what is current expenditure, provided that in arriving at such decision the Directors shall act as experts and not arbitrators.

- 7.4 The Company may in general meeting itself make any Rules which the Directors may make, and may in general meeting add to, amend, repeal or substitute any Rules made by it or by the Directors from time to time.
- 7.5 It is recorded that the Rules consist of three categories:
 - 7.5.1 ONE - Those made by the Directors which Directors may add to, amend, repeal or substitute.
 - 7.5.2 TWO - Those contained in clause 7.6 which may only be added to, amended, repealed or substituted by special resolution of the Members; and
 - 7.5.3 THREE - Those contained in clause 7.7 which may not be amended or repealed.
 - 7.5.4 Subject to the provisions contained in clause 7.5.3, rules may only be moved between categories ONE, TWO and/or THREE with at least 75% [seventy five percent] in number of the owners of Private Lodge Subdivisions voting in favour of such change.
- 7.6 The Rules contained in category **TWO** in terms of 7.5 are:
 - 7.6.1 The Improvements on a Private Lodge Subdivision shall provide for not more than 10 [ten] beds in the Improvements on each Private Lodge Subdivision. Notwithstanding the foregoing and in the event that a Member owns 2 [two] or more Private Lodge Subdivisions then the Directors may permit such Member to erect the Improvements on only 1 [one] of such Private Lodge Subdivisions in which case such Improvements may provide for not more than 10 [ten] beds for each Private Lodge Subdivision. In other words if a Member owns 2 [two] Private Lodge Subdivisions he shall be entitled to erect 1 [one] Improvement on both Private Lodge Subdivisions which provides for not more than 20 [twenty] beds. The Directors shall ensure in granting such permission that the Member may only Alienate the Private Lodge Subdivisions as 1 [one] property and shall require that the Private Lodge Subdivisions be notarially tied. The Directors shall also be entitled to impose such further conditions as they in their discretion may determine;
 - 7.6.2 The Member may not do anything to cause any fire to spread from his Private Lodge Subdivision / Commercial Subdivision to the Property;
 - 7.6.3 A Member may not make any Road whatsoever. A Member may make improvements to any Road provided such improvement is treated and the procedure is followed as if it were an Improvement as defined in clause 25.1.2;
 - 7.6.3.1 The Directors have the sole discretion from time to time to indicate, by notice to Members which roads are Thoroughfare or Private roads. A Thoroughfare Road may be used by all Members. Private Roads may only be used by a Member to give him access to his Improvements. Directors have the right to

determine on which route or routes any future Roads on the Reserve will be constructed provided that they reasonably take into account:

- 7.6.3.1.1 on the one hand the reasonable interest of a Member who is an owner of a Private Lodge Subdivision, so as to have the minimum number of Roads on his Private Lodge Subdivision; and
 - 7.6.3.1.2 on the other hand the reasonable interests of a member who is an owner of a Private Lodge Subdivision to have rights of traverse on Roads over other Private Lodge Subdivisions, with a view to traversing the Reserve as a whole.
- 7.6.4 A restriction that the Member of Commercial Subdivision no. 21 on Annexure "A, may not use more than 2 (two) game viewing vehicles at any time to exercise his rights of traverse over the Property.
- 7.6.5 Subject to the conditions set out below, the owner of each Subdivision is entitled to exceed the maximum limit of guests permitted on that Subdivision at any one time by a total of 40 bed-nights during one financial year (March through February). To prevent the overutilization of resources and the risk of failure of lodge infrastructure, a maximum of 4 excess bed-nights may be used at any time. This equates to a maximum of 14 guests per Subdivision at any time. A levy payable to the Company for each of the 40 excess bed-nights consumed will be fixed by the Board on the basis of a sliding scale. Any increase in the bed-night levy shall be presented to members together with the annual estimate of expenses contemplated in clause 5.8.1. In each instance when the maximum limit of guests per Subdivision is to be exceeded, the management of the Company must receive prior written notification of the dates and numbers. Once the 40 bed-night allowance for a financial year has been consumed by any Subdivision, permission for additional guests in excess of the maximum allowance will not be granted in that financial year. Gate entries will be monitored by the Company. The owner or designated representative will be notified as soon as the 40 bed-night allowance has been consumed. Management of visitors authorised to utilise the additional bed-night allowance is the responsibility of the member and the Company accepts no responsibility for utilisation that has not been authorised by the member. This right shall in no way affect any other provisions in the Memorandum of Incorporation or in the Regulations and Code of Conduct, such as those regulating the number of passengers allowed on a game viewing vehicle;
- 7.6.6 Subject to the conditions set out below, the owner of each Subdivision is entitled to exceed the maximum limit of guests permitted on that Subdivision at any one time by up to 4 additional children under the age of 17 (seventeen) years old. To prevent the overutilization of resources and the risk of failure of lodge infrastructure, a maximum of 4 excess bed-nights may be used at any time. This equates to a maximum of 14 guests per Subdivision at any time. This maximum of 14 shall be the total of additional guests described in this clause, together with any additional guests in terms of clause 7.6.5. Children who wish to use this right must be pre-registered at the main gate of the Reserve and be issued with identification cards. Such cards shall be valid for an extended period, but shall expire once the child no longer qualifies due to age. Children who wish to register for this right for a single visit, must be pre-registered in advance with the reserve administration and be issued with a permit, which in turn must be submitted at a gate upon entry. The board and management shall define the requirements for registration, which will include proof of age and a recent photograph. This right shall in no way affect any other provisions in the Memorandum of Incorporation or in the Regulations and Code of Conduct, such as those pertaining to bed-night levies

payable per guest per bed-night; or those regulating the number of passengers allowed on a game viewing vehicle.

7.7 The Rules contained on category **THREE** are:

- 7.7.1 No fences may be erected between the Private Lodge Subdivisions and the Commercial Subdivision;
- 7.7.2 An owner of a Private Lodge Subdivision may not Alienate or transfer a Private Lodge Subdivision or any undivided share therein without the prior written consent of the Company. The Company is obliged to give such permission provided the transferee complies with clause 4.1.1; and
- 7.7.3 Notwithstanding any law, no subdivision of any of the Private Lodge Subdivisions is permitted.

7.8 The Welgevonden Game Reserve Regulations and Conduct shall be issued and updated from time to time by the Directors. Where these Rules conflict with the Memorandum of Incorporation, the Memorandum of Incorporation shall take precedence.

8. DIRECTORS

9. REMOVAL AND ROTATION OF DIRECTORS

- 9.1 The provisions of this new clause 9.1 of the Company's Memorandum of Incorporation shall take effect, and become of full force from the commencement of the Annual General Meeting of the Company to be held in 1998, until when the existing clause 9.1 of the Company's Memorandum of Incorporation shall remain in effect and of full force.
 - 9.1.1 At the annual general meeting of the Company to be held in 1998 and at each subsequent Annual General Meeting, one-third, or the nearest whole number of Directors, shall retire from office. INTRODUCTION

The Regulations and Code of Conduct described in this publication have been derived from the WGR NPC's Memorandum of Incorporation and from periodic decisions made by its Directors. The Regulations and Code of Conduct are of course subject to the laws of the Republic of South Africa.

The purpose of this document is not to restrict Members' enjoyment of the Reserve but rather to:

- Encourage conduct that promotes the enjoyment and safety of all visitors to the Reserve;
- Protect the fauna, flora and landscape of the Reserve;
- Reduce the risks associated with operating in and/or visiting a dangerous game environment;
- Promote good and harmonious relations between all stakeholders on the Reserve.

Members are ultimately responsible for the conduct and actions of their contractors, staff and guests and should make certain that the appropriate procedures are in place at their lodges to ensure awareness of and compliance with the contents of this document. Any reference to a "contractor" in the Regulations and Code of Conduct includes employees of a contractor, a service provider and his employees.

This document attempts to balance each member's freedom to enjoy the privileges which come with membership and the legitimate expectation of fellow members that such privileges will be exercised reasonably and with due consideration for other users of the Reserve. In this regard it must be borne in mind that reckless, careless or unthinking behaviour may expose others to danger and interfere with their right to enjoy the Reserve. Members and their guests, contractors and staff visit, utilise and/or work on the Reserve entirely at their own risk.

Chapter 1 outlines legislation known to the Company to have a direct bearing on the safety of visitors to the Reserve and conduct on the Reserve. This includes, but is not limited to, legislation pertaining to field guides, game drive vehicles and firearms. Reserve rules and recommendations are subordinate to legislation and in the event of any rule or recommendation being in contradiction with prevailing legislation, then the legislation takes precedence. It goes without saying that compliance with legislation is mandatory. The Company is not however responsible for monitoring or enforcing compliance. This responsibility lies with the relevant Government Departments. Consequently, the Company accepts no responsibility for non-compliance by members or their employees. The legislation outlined in Chapter 1 should not be considered exhaustive. It simply represents relevant legislation known to the Company. The

Company is not responsible for determining what legislation governs the conduct of members and their employees.

Chapter 2 deals with regulations and recommendations concerning the conduct of members and their staff. Regulations should be interpreted as Reserve Rules ("Rules"). Compliance with these Rules, together with the additional Rules contained in the Memorandum of Incorporation (attached as Annexure A) is mandatory. However, the Company was not established to monitor and enforce compliance with stipulated standards of conduct and does not have the capacity to do so. Members are accordingly urged to comply with the Rules for the sake of the smooth functioning of the Reserve and for the benefit of their fellow members. The regulations nevertheless deal with infringements, as outlined in point 2.17 of Chapter 2. The recommendations contained in Chapter 2 are based on the Company's understanding and knowledge of industry best practices. Although they should not be viewed as definitive or mandatory, compliance with these recommendations is strongly encouraged so as to promote safety and enhance the enjoyment of the facilities the Reserve has to offer. However, since property on the Reserve is owned on the basis of freehold title and that there are a variety of interest groups who own property on the Reserve (namely commercial, private, syndicated and corporate), compliance with these recommendations is at the discretion of the Members and their staff.

It is the responsibility of lodge staff to ensure that guests visiting the lodge are made aware of this publication and are encouraged to read it before embarking on a game drive or walk. A copy of this publication must be prominently available at the lodge and the condensed version relating to game drives, walks and field guides must be available in each game drive vehicle.

LEGISLATION

1.1. Field Guides

- 1.1.1.** The Reserve is home to elephant, lion, leopard, rhino and other free-roaming wild animals whose distribution, movement and actions are not under the control of the Company. These animals, together with the venomous snakes, spiders and scorpions that occur on the Reserve, are known to be potentially dangerous to humans and the Reserve is therefore a dangerous game environment.
- 1.1.2.** All field guides working on the Reserve must comply with legislation governing the conduct of *field* guides working in a dangerous game environment. - 1.1.3.** The responsibility for attaining and enforcing compliance with prevailing legislation lies with the field guide and his or her employer respectively. The Company is not responsible for determining the prevailing legislation pertaining to *field* guides. As such, the field guide and his or her employer must determine what their legal obligations are and what is required in order to offer and undertake game drives, walks and any other activity that they may wish to offer in a dangerous game environment.
- 1.1.4.** Field guides and their employers who undertake walks on the Reserve must take cognizance of the legislation pertaining to the use of firearms and approaching dangerous game.
- 1.1.5.** Should the Company become aware of any non-compliance by a field guide working on the Reserve, then a letter will be written to the field guide and member/s in question requesting confirmation of the necessary certification and registration. Failure to produce proof of compliance will result in the matter being reported to the Provincial Registrar of Tourist Guides (LEDET) [change due to change in responsible Departments].
- 1.1.6.** Field guides are responsible for the safety of their guests and therefore must familiarise themselves with *LEDET's* Code of Conduct for Tourist Guides [change due to change in responsible Departments].

REGULATIONS & RECOMMENDATIONS

2.1. Arrival and Departure

2.1.1. Rules

- 2.1.1.1. The Main, East, South and West Gates are manned 24 hours per day. Access through Manual Gate is only by prior arrangement (at least 24-hours advance notice is required) and is limited to heavy vehicles.
- 2.1.1.2. All persons entering the Reserve are required to read and sign the WGR indemnity and entry permit. Entry into the Reserve is subject to the gate entry rules which are available from the Welgevonden office.
- 2.1.1.3. Only authorised motor vehicles may travel beyond the visitors parking at these gates. Parking is provided for vehicles that are left at gates.
- 2.1.1.4. The Main Gate Airstrip and Western Airstrip on the Reserve are closed for all air traffic that has not been given written consent to land by the WGR management. The closure signs consist of crosses of a single contrasting colour, namely white, displayed horizontally on the threshold of each runway indicating that the entire airfield is closed for all aircraft. Landing on the Reserve, either at an airstrip or helipad, is strictly subject to the Welgevonden aircraft landing procedures. These procedures are available from the Welgevonden office and all pilots/operators must comply accordingly prior to landing on the Reserve.
- 2.1.1.5. All aircraft passengers and pilots are required to complete the WGR indemnity and entry permit upon landing. The staff at the lodge being visited must ensure that these forms are returned to the Welgevonden office as soon as possible thereafter.

2.2. Number of Guests

2.2.1. Rules

- 2.2.1.1. A maximum of 10 guests/visitors are allowed to stay overnight per 10-bed lodge subdivision and a maximum of 20 are allowed to stay overnight at the commercial subdivision *unless the lodge has applied for Additional Bed-nights as per the Additional Bed-night Policy referred to in the Mol. [addition due to change in Mol at 2010 EGM and 2015 AGM]*
- 2.2.1.2. An infant or child is counted as one person.
- 2.2.1.3. In the event of visitors/guests not staying overnight on the Reserve, no more than 10 day-visitors per private lodge subdivision may enter the Reserve in a 12-hour period. For the commercial lodge subdivision, no more than 20 day-visitors may enter the Reserve in a 12-hour period. Gate entries will be monitored and transgressions will be fined as per Annexure B.
- 2.2.1.4. The total number of visitors (day-visitors and overnight-visitors) on the Reserve at any one time may not exceed 10 per private subdivision and 20 for the commercial subdivision.

2.3. Travelling in Welgevonden

2.3.1. Rules

- 2.3.1.1. Any person driving on the Reserve must comply with the stipulations by law relating to intoxication.
- 2.3.1.2. Each private lodge subdivision is permitted two vehicles on the Reserve, namely a game drive vehicle and utility vehicle. Private vehicles are not permitted into the Reserve. Driving a private vehicle into the Reserve is strictly subject to prior permission from Welgevonden management. Permission will only be granted under exceptional circumstances and subject to prior submission to Welgevonden management of a written motivation. Medical requirements must be motivated by a health practitioner's certificate.

- 2.3.1.3. All game drive and utility vehicles must be painted the approved colour which is DURAMAX DIP DP 13 2K (Mala Mala Green). The site number must be displayed in large black numbers on the rear and on the right front fender of both vehicles. Further advice on this can be obtained from the Reserve management.
- 2.3.1.4. *All vehicles travelling on the Reserve must have a Welgevonden specified vehicle tracking system and provide the necessary access to Welgevonden management to be able to receive and monitor alerts generated by the system while the vehicle is travelling on the Reserve. Such alerts to be guided by these Regulations and the Mol. Further details can be obtained from the Reserve office. [Board resolution 4-5 May 2018]*
- 2.3.1.5. The Reserve speed limit is 35 km/hr. This speed will not be safe on all roads and in all conditions, such as when travelling at night, when on secondary roads, wet roads and roads that are damaged.
- 2.3.1.6. The roads on the Reserve may be in a condition which makes driving hazardous and no representation is made about the serviceability of the roads or the airstrips on the Reserve.
- 2.3.1.7. Road closure and no entry signs must be respected. Roads will only be closed in the event that they are impassable or if a management intervention is underway. Driving on a wet road that is closed causes considerable damage to the road that then requires repair using gravel from the Reserve.
- 2.3.1.8. Driving off-road is not permitted as this causes considerable damage to the soil. Furthermore, vehicles may not drive on or over airstrips or in rivers and riverbeds except where these are crossed by a designated road. Vehicles may pull off the road for refreshment stops subject to the considerations contained within point 2.9.1.3(b). Maps can be purchased from the Welgevonden office, which indicate roads, airstrips and rivers.
- 2.3.1.9. Vehicles may not be driven or parked in such a manner as to cause obstruction or danger to other vehicles.
- 2.3.1.10. If a road looks impassable, an alternate route must be used as getting stuck causes considerable damage to roads.

2.3.1.11. The Directors can at any time and for any reason restrict night-time driving on the Reserve.

2.3.2. Recommendations

2.3.2.1. When approaching another vehicle after dark, slow down and switch lights to parking.

2.3.2.2. The use of “tracker” seats is strongly discouraged due to the high risk of falling in front of the vehicle and the increased risk to the passenger in the event of encountering dangerous game. At no time should children be allowed on a “tracker” seat.

2.3.2.3. There should on every vehicle be a fire extinguisher, first aid kit and functional radio for radio communication in the event of an emergency.

2.3.2.4. Roads are maintained for 4 x 4 passage and game drive and utility vehicles should have 4 x 4 capability.

2.3.2.5. Please stop and pick up litter when you see it on the Reserve.

2.4. **Building**

2.4.1. **Rules**

- 2.4.1.1. The WGR Building Regulations are available from the Welgevonden office on request. Before undertaking any building, the member/s in question must obtain a copy of the WGR Building Regulations and comply accordingly.
- 2.4.1.2. Dumping of any refuse, including building rubble and other construction waste, in gravel pits is not permitted. Loose thatching grass may, however, be disposed of in gravel pits *with prior written permission from Reserve management* but it must be evenly spread out. From time to time, Reserve management may require certain gravel pits to be filled and in these instances building rubble (brick and mortar only) may be disposed of in such pits strictly subject to obtaining prior permission from Reserve management.
- 2.4.1.3. A Member is obliged to maintain both the interior and exterior of his Improvements in a good and sound condition to the reasonable satisfaction of the Directors.
- 2.4.1.4. A Member may only erect signage indicating his Improvements or access to his Improvements which are approved by the Directors.
- 2.4.1.5. A Member may, with the consent of the Directors, fence his Building Area.
- 2.4.1.6. Each subdivision on which there are Improvements (a lodge) is required to have a meter to record water consumption at the lodge. This meter must be installed so as to record all water consumption. Meter readings must be called into the WGR management on the 15th of each month.

2.5. **Contractors**

2.5.1. **Rules**

- 2.5.1.1. The staff working at a lodge are responsible for the safety of all contractors called in to work at the lodge. If a contractor is required to walk outside of the lodge development, then the lodge must appoint a field guide who is legally qualified to conduct walks in a dangerous game environment to accompany the contractor. This field guide can either be an employee at the lodge or a freelance guide appointed to fulfil this function.
- 2.5.1.2. Contractors must inform the Welgevonden management if they intend working on the Reserve outside of a lodge development (i.e. to check cables, pipes etc. without having been requested to do so by a lodge) and if they intend walking, must arrange to be accompanied by a legally qualified field guide.
- 2.5.1.3. If a contractor and/or his employees intends or is requested to work outside of a lodge, residential or office complex development on behalf of the Welgevonden Reserve management, the contractor must provide Welgevonden management with prior notification of the intended date and time so that it can be arranged for a *field ranger* to accompany the contractor and/or his employees.
- 2.5.1.4. Under no circumstances may a contractor drop staff off in the Reserve away from a lodge development if they are unaccompanied by a legally qualified field guide.
- 2.5.1.5. Prior to any contractor being issued with a WGR identity card, the principal of the company must attend a minimum of the 1-day orientation programme. The principal will then be expected to communicate the relevant rules and recommendations to his or her employees.
- 2.5.1.6. *For Contractors to be allowed entry onto the Reserve the Lodge or member is required to notify Reserve management that the Contractor is expected to visit the lodge [as per Directors Resolution 26 July 2018].*
- 2.5.1.7. Contractors are not permitted onto the Reserve *afterhours*, over weekends or *public holidays* other than to undertake emergency electrical and/or

plumbing repairs. *Approval from Reserve management for such entries is required [as per Directors Resolution 26 July 2018].*

2.6. WGR Orientation Course

2.6.1. Rules

- 2.6.1.1. All persons who drive or lead walks on the Reserve must attend the WGR orientation course. The orientation course will be held at regular intervals on the Reserve and can also be conducted at a lodge if there are sufficient participants. The purpose of this orientation course is to enhance awareness and knowledge of prevailing legislation, industry best practise and Reserve regulations. Condensed programmes will be held for drivers who do not conduct game drives but who are required to transport supplies on the Reserve. Drivers who transfer guests on the reserve must attend the orientation programme and lodge owners are encouraged to determine whether or not such individuals are subject to the legislation and requirements pertaining to field guides.
- 2.6.1.2. The Company stresses that attending the orientation course does not qualify a person to conduct drives or walks in a dangerous game environment and should not be considered sufficient preparation. The responsibility of ensuring that all persons that drive or walk on the Reserve attend the course resides with members.

2.7. Field Guides

2.7.1. Rules

- 2.7.1.1. All field guides must be in possession of the minimum qualifications, licenses and registrations as stipulated by law to conduct the activities for which they are employed.

2.7.2. Recommendations

- 2.7.2.1. Field guides should familiarise themselves with accepted industry norms when dealing with dangerous animals. However, wild animals are unpredictable and can react variably depending on prevailing circumstances (including but not limited to the presence of young, injuries, hormonal fluctuations and episodes of mating and/or courtship) and individual personalities. Consequently, there can be no prescribed course of action

*Welgevonden Landowners Association
Regulations and Code of Conduct*

when dealing with a wild animal and the discretion of the guide is therefore extremely important. Hence, it is important that a field guide understands and is able to accurately interpret wild animal behaviour, but caution should ultimately be applied at all times.

- 2.7.2.2. Field guides who are suitably accredited and licensed to carry a firearm are strongly encouraged to make use of the shooting range facilities at the *Main Gate* to practise firearm drills and target shooting. Please make arrangements to use the facilities in advance with the *WGR Security Manager* *[change in this clause due to change in operational aspects]*.
- 2.7.2.3. Cognizance should also be taken of industry best practise with regards to the minimum calibre of rifle and ammunition required when walking in a dangerous game environment.
- 2.7.2.4. Field guides should not allow any person to prevent them from performing their duties as guides.
- 2.7.2.5. All activities should be conducted in such a way as to cause the least damage or disturbance to the natural environment and all components of the environment must be respected.
- 2.7.2.6. No guided excursion should:
 - a. Invade the privacy of others;
 - b. Spoil the comfort, enjoyment or experience of others;
 - c. Jeopardize the safety of others; or
 - d. Spoil or damage the environment.

2.8. Radios

2.8.1. Rules

- 2.8.1.1. The radio infrastructure on Welgevonden is shared by all users and appropriate and courteous use of the radio is therefore necessary.
- 2.8.1.2. The radio system works through a repeater, and to avoid the beginning of a message being lost, users must wait a second after depressing the transmission, or press-to-talk (PTT) button before talking. Check on the radio's "busy" indicator if a conversation is not already taking place before

Regulations and Code of Conduct*

*Version 2.1

you start your transmission. Some channels share the same repeater (e.g. channels 2, 3 and 4).

- 2.8.1.3. The radio infrastructure may not be used for long conversations or private conversations.
- 2.8.1.4. During emergencies, WGR management may request that all radio channels be kept free.
- 2.8.1.5. Communicate clearly, listen carefully and keep messages short and concise.
- 2.8.1.6. Only English may be used on channels 1 and 2.
- 2.8.1.7. When on a game drive, switch from channel 1 to channel 3 if you are unsure about the location of, and directions to, a sighting and require further assistance. First check that a conversation is not already taking place on channel 3. Only references as indicated on the map of the Reserve may be used to communicate sightings and directions.
- 2.8.1.8. The different channels are designated as follows:
 - a. **Channel 1: Game viewing use only** (dedicated repeater). This channel is to call in sightings and for requesting updates when departing from a lodge. Long conversations about sightings should be avoided. Those who call in sightings should describe the **species** and approximate **number**, the **location**, whether **stationery or mobile** and the **quality** of the sighting **ONLY**. Requests for other details about sighting are inappropriate and block the channel from use by other users.
 - b. **Channel 2: Standby channel for lodges**. Make contact on this channel and then switch to channel 3 (repeater shared with channel 3 and 4).
 - c. **Channel 3: Lodge Communications** (repeater shared with channel 2 and 4). Frequent repetition of ETA's or other arrangements must be avoided. Lodge and game viewing activities should be planned so that only short communications are necessary for confirmation.
 - d. **Channel 4: Gates** (repeater shared with channels 2 and 3). This channel must be used to contact the gate guards at Main, East, South and West gates.
 - e. **Channel 6: WGR management**. This channel is used to contact WGR management, including the office, security, water and workshop.
 - f. **Channel 9: Contractors**.

*Welgevonden Landowners Association
Regulations and Code of Conduct*

- g. **“Lodge simplex”**: This channel is for internal lodge communication over short distances. This channel may be rented from the Company at a fee per annum. This channel will be lodge specific.

2.9. **Game Drives**

2.9.1. **Rules**

2.9.1.1. General game drive conduct

- a. All game drive vehicles must have a functional radio.
- b. Drivers must not speed to sightings.
- c. A map of the Reserve must be carried in the game drive vehicle at all times for reference purposes. Maps are available from the Welgevonden office.
- d. A vehicle used for game viewing may never carry more than 10 passengers and one driver or exceed any limitation as imposed by law.
- e. Utility vehicles and/or private vehicles given permission to enter the Reserve may not be used for game viewing and must give way to game drive vehicles.
- f. The behaviour of children must be monitored. Small children should sit between adults and in the event of a child crying or becoming restless at a sighting, the vehicle must leave the sighting.
- g. Rowdy behaviour is not permitted as it can disturb animals or other guests.
- h. Do not stand up in the vehicle while it is moving or at a sighting.
- i. Do not hang onto the outside of the vehicle.
- j. Do not get off the vehicle without the permission of the person controlling the vehicle.
- k. Smoking on the vehicle while it is moving is not permitted due to the risk of starting a fire.
- l. Maintain a safe distance (i.e. where your presence is not influencing the animal's behaviour) from dangerous animals and exercise caution whilst on drive.
- m. Private roads to lodges are marked by a stone structure indicating the lodge number erected next to the last turn-off to each lodge. Travelling beyond these markers is not permitted for game viewing, but only when visiting a lodge.
- n. Drivers must treat the Reserve's flora and fauna with respect.

2.9.1.2. After dark

[as amended at the AGM of WGR NPC - July 2017]

- a. Only individuals that have attended the orientation course, or that are supervised by a person that has attended the orientation course, may operate spotlights while driving.
- b. Only individuals that have attended the orientation course may operate a spotlight at sightings.
- c. Spotlights may not be shined on diurnal animals (animals which are predominantly active during the day).
- d. Spotlights and main vehicle lights should be turned off when encountering predators that are hunting. Use park lights only.
- e. Only one spotlight per vehicle may be used.
- f. Only one spotlight from one of the vehicles at a sighting may be used.
- g. No additional lights, such as fixed LED lights may be fitted to vehicles.
- h. Spotlights may have a maximum of 1 000 000 candle power.
- i. No spotlight may be shone on any animal's head.
- j. Red filters to be used at sensitive sightings, such as kills or when young animals are present.

2.9.1.3. Refreshment stops

- a. Utility vehicles may be used to transport chairs, tables, equipment, food and drinks to a designated boma that has been previously booked by the lodge through the Welgevonden office. However, utility vehicles may not be used for this purpose for refreshment stops that are not at a designated boma and all equipment and food for such a refreshment stop must be carried on the game drive vehicle.
- b. When pulling off the road for a refreshment stop, vehicles may not be driven more than 5m off the road and care must be taken to avoid sensitive or waterlogged areas and to avoid damaging plants or the soil structure. When selecting a site for a refreshment stop, look for open areas where the visibility is good and where a rock terrace or lay-bye allows for the vehicle to be pulled off the road without causing any damage to the surrounding environment and without blocking the road.
- c. Refreshment stops may not be undertaken near or within sight of a sighting. Move well out of sight and hearing before dismounting. This includes being out of sight of sightings across open plains, regardless of the distance to the sighting. This includes being out of sight of sightings across open plains, regardless of the distance to the sighting.

*Welgevonden Landowners Association
Regulations and Code of Conduct*

- d. Refreshment stops may not be undertaken within sight of a lodge.
- e. Do not stop for refreshments if you are aware of an animal heading towards you.
- f. Ensure that the surrounding area is safe before dismounting for refreshment stops.
- g. Do not wander far from the vehicle during refreshment or other stops. Remain within sight or at least hearing. Tell others when you are moving away for a comfort break.
- h. Ensure that all litter is picked up before leaving a refreshment stop, including toilet paper. Take plastic bags for this purpose.
- i. Do not stop on main roads.
- j. Only gas may be used for cooking during refreshment stops.

2.9.1.4. Sightings

- a. The driver of the first vehicle at a sighting takes control of the sighting and should call the sighting on the radio, giving its location as per the map of the Reserve and a clear, but brief description of the animal/s.
- b. Only four vehicles are concurrently allowed at a sighting. This may be reduced at the discretion of the person controlling the sighting.
- c. A space in a sighting cannot be booked with the controlling person in advance. Permission to enter the sighting can only be requested when approaching the sighting.
- d. Vehicles approaching a sighting must stop when close enough to join the sighting (but preferably still out of sight), before requesting the controlling vehicle's permission to approach. Except in unique circumstances such as a safety risk, or when the number of allowable vehicles are already at the sighting, permission may not be refused. The person controlling the sighting may advise the route to be taken and the position to stop in.
- e. If the person controlling the sighting refuses an approach to a sighting, the requesting vehicle should stay out of sight until invited to join.
- f. The person in control of the sighting is responsible for the safety of the parked situation and for the co-ordination of movement at the sighting.
- g. Vehicles may not be parked in and a clear escape route must always be available to all vehicles.
- h. When vehicles are standing by to join a sighting, vehicles at the sighting should depart after a reasonable time (say 15 minutes) to allow others to enjoy the sighting.

- i. The driver must ensure that they have a safe route away from potentially aggressive animals. Remember all wild animals can be dangerous.
- j. Only one vehicle (arriving or departing) should have the engine running at a stationary sighting.
- k. Noise should be kept to a minimum and conversation should be in whispers. Radios may, however, not be switched off. If an earphone is not available, turn the volume down.
- l. When the controlling vehicle wishes to depart, a person on another vehicle at the sighting must be requested to take over control.
- m. Animals exhibiting signs of stress or aggression must not be called in as sightings.

2.9.2. Recommendations

- 2.9.2.1. Game drives should only be undertaken by a field guide who has, at least, the minimum legal qualifications and licenses to conduct game drives in a dangerous game environment.
- 2.9.2.2. Members who nevertheless wish to drive themselves and their guests on Welgevonden are strongly encouraged to familiarise themselves with industry best practise regarding conduct at sightings and with animal behaviour.
- 2.9.2.3. When game viewing parties depart from lodges, they should announce themselves. If requests on game activity are received over the radio, those already out should offer updates.
- 2.9.2.4. Research has shown that viewing game from a distance of 30m to 50m generally does not influence their normal behaviour. Consequently, animals, particularly potentially dangerous game, should therefore not be approached to within 30m.
- 2.9.2.5. As a courtesy to other members and visitors, interesting sightings (lion, leopard, cheetah, elephant and other) should be announced over the radio on Channel 1.
- 2.9.2.6. Drinking of alcohol on the vehicle is discouraged.

2.10. Walks

2.10.1. Rules

- 2.10.1.1. Guests may not leave the lodge surroundings, except when on an arranged game drive or walk. Jogging or other exercise outside the lodge surroundings is not permitted and caution must be exercised when walking around a lodge development, particularly if there is no electric perimeter fence.
- 2.10.1.2. Walking outside lodge developments and gate areas is subject to the legislation and recommendations pertaining to walks in a dangerous game environment.
- 2.10.1.3. When walking outside lodge developments, one person must be in control of the walk at all times and this person takes full responsibility for the conduct and safety of the participants in the walk. The person in control of the walk must be at the front of the walking party.
- 2.10.1.4. Intentionally walking into dangerous game (e.g. lions, elephants, rhinos or leopard) is not permitted. In the event of an unforeseen encounter with dangerous game, the person in control of the walk must extricate the party as quickly and safely as possible. Viewing of dangerous game on foot is permissible only at a distance where the presence of the walking party does not influence the normal, non-aggressive behaviour of the animal and where the terrain does not render the walking party vulnerable. Approaching dangerous game on foot after first viewing them from a vehicle is not permitted. In the event of an unforeseen encounter with dangerous game, the person in control of the walk must extricate the party as quickly and safely as possible.
- 2.10.1.5. Unless an emergency or problem develop and assistance is required, walking parties must avoid game viewing roads and may not approach sightings where vehicles are gathered.
- 2.10.1.6. A hand-held radio must be carried at all times when walking on the Reserve for radio communication in the event of an emergency.
- 2.10.1.7. If a member undertakes a walk with his or her guests, then the member must explain to his or her guests, prior to the walk, the associated risks and must

make them aware of the Company's recommendation that walks should not be undertaken without a legally qualified field guide.

2.10.1.8. Walks must not be conducted before sunrise or after sunset.

2.10.1.9. The Directors can at any time and for any reason restrict walking on the Property.

2.10.2. Recommendations

2.10.2.1. Walks should only be undertaken by a field guide who has obtained the minimum legal qualifications to undertake walks in a dangerous game environment. The field guide should further be equipped with a minimum of a .375 calibre rifle, at least 20 rounds of ammunition, a first aid kit and water.

2.10.2.2. Walks should preferably be conducted in the morning, after sunrise, so that, in the event of an emergency, there is adequate daylight remaining for emergency evacuation, if necessary.

2.10.2.3. It is further recommended that, in addition to the minimum legal requirements, walks should only be undertaken by guides:

- a. with a FGASA Trails Guide and/or SKS Dangerous Game qualification; and
- b. who have successfully completed a FGASA approved advanced rifle handling course; and
- c. who have at least two years' experience walking in a dangerous game environment; and
- d. who are able to provide a portfolio of evidence of regular rifle handling exercises with a minimum of a .375 calibre rifle.

2.10.2.4. Members are strongly discouraged from walking without a qualified field guide.

2.10.2.5. The guide or member should inform a third party not participating in the walk of his or her intended route and estimated time of walk.

2.10.2.6. Walking parties should not go near kills or a carcass, even if no animals appear to be close.

2.10.2.7. Participation of children under 12 in walks is strongly discouraged.

2.10.2.8. The guide or member responsible for the party should provide a detailed pre-walk briefing to guests in which he or she should, *inter alia*:

- a. Obtain information from the guests on any allergies, ailments, chronic illnesses and/or other factors that may preclude an individual from participating in the walk;
- b. Inform his or her guests of the associated risks, estimated length of the walk, required clothing, footwear and insect repellent;
- c. Tell guests to leave behind all cell phones, firearms, headphones and radios and to deactivate audio alarms and signals on wristwatches and, if possible, on cameras;
- d. Inform guests of acceptable protocol with regards to taking pictures in a sighting;
- e. Make recommendations of what to do in the event of a confrontation with dangerous game;
- f. Inform his or her guests of emergency procedures and how to use the radio in the event of an emergency; and
- g. Obtain information on subjects of interest within the party.

2.11. Firearms

2.11.1. Rules

- 2.11.1.1. Only firearms for which there is legal compliance are permitted on the Reserve.
- 2.11.1.2. All firearms must be stored, transported and issued in accordance with legal requirements.
- 2.11.1.3. Guests may not hold or tamper with a guide's or member's firearm and the guide or member must ensure that all firearms are locked away in accordance with legal requirements when not in his/her physical control.
- 2.11.1.4. Confrontations with wild animals that require the use of a firearm to prevent harm or injury must be avoided at all times. However, in the event of an unforeseen confrontation with a dangerous animal that warrants the use of a firearm, the person in control of the walk should not hesitate to use his or her firearm to prevent injury or death to any member of the party.

*Welgevonden Landowners Association
Regulations and Code of Conduct*

2.11.1.5. All shots fired must be reported to WGR management immediately.

2.11.1.6. Wounded animals must be reported to WGR management immediately.

2.12. Emergency Procedures

2.12.1. Recommendations

2.12.1.1. It is strongly recommended that each lodge formulate and record in writing a set of emergency procedures to be followed in the event of an emergency, whether arising from fire, injury or otherwise and that such document be prominently displayed at the lodge and in all game drive vehicles. It is also recommended that lodge management inform their employees and guests of the emergency procedures pertaining to that lodge.

2.12.1.2. In the event of an emergency, Welgevonden management should be contacted on channel 6 on the radio.

2.12.1.3. Lodge staff are expected to assist staff from other lodges where necessary in the event of an emergency.

2.12.1.4. On request, the WGR management will endeavour to assist in the preparation of guidelines for the formulation of such emergency procedures. It is emphasised, however, that the formulation of appropriate emergency procedures remains the sole responsibility of each lodge and the WGR NPC will not be liable for any loss or damage arising from the execution or failure to execute any particular emergency procedure by any particular lodge, nor shall the WGR NPC be responsible for any defect or omission in any emergency procedure adopted.

2.12.1.5. Lodges are strongly encouraged to obtain insurance cover for the evacuation of guests and staff in the event of an emergency.

2.12.1.6. All lodge staff should be trained and certified to a minimum of level 1 first aid.

2.13. Waste Management

2.13.1. Rules

2.13.1.1. Sewage

- a. A maintenance plan appropriate for the sewage treatment system must be produced by each lodge and this must be followed by the lodge staff. WGR management shall conduct regular tests to establish the functioning of sewage systems. If a system is found to operate below the required levels, immediate steps must be taken to rectify the problem.
- b. Be aware that foreign materials flushed down toilets have detrimental effects on sewage systems.
- c. Grease traps must be cleaned regularly, and this waste must be placed in a refuse bin. The use of soaps, detergents and other cleaning substances that are not eco-friendly also has a detrimental effect on the biological process in septic tank systems.

2.13.1.2. Solid waste

- a. Refuse generated from lodge activities may only be stored on the Building Area in such a manner that it can be easily removed.
- b. The Welgevonden service staff will collect refuse from each lodge once per week. Replacement plastic bags are issued to lodges by the refuse collection service when the refuse is collected.
- c. Refuse must be separated into different containers, namely glass, cans, *cardboard*, *plastic* and other [added due to operational improvement]. It is illegal to deposit ammunition into refuse and this must not be done.
- d. Refuse not separated into these three categories will not be collected.
- e. If the lodge is not fenced, refuse containers that cannot be opened or pushed over by animals must be used.
- f. All refuse containers should be baboon resistant, i.e. baboons and other animals should not be able to gain access to them and/or open them.

2.14. Lodge Staff

2.14.1. Rules

- 2.14.1.1. Upon appointment, lodge staff must sign the WGR indemnity and must ensure that they are issued with a Welgevonden identity card which they must display when leaving or entering the Reserve. Only lodge staff who are South African citizens or who have a valid work permit are permitted on the Reserve and all lodge staff must submit a copy of their ID or work permit to Welgevonden management.
- 2.14.1.2. Members must ensure that staff leaving the employment of the lodge return their Welgevonden identity card to the Welgevonden office when they depart.
- 2.14.1.3. Lodge staff are required to record rainfall data at their lodge and to call this data into the Welgevonden management the morning after a rainfall event.

2.15. Fires

2.15.1. Rules

- 2.15.1.1. The WGR has adopted a fire policy that allows natural fires to burn. This is for the benefit of the ecology of the Reserve and a copy of the WGR Fire Policy is available from Welgevonden management upon request. However, the Company will intervene in an effort to prevent fires from escaping onto neighbouring properties that do not subscribe to the same fire policy. Furthermore, the Company will assist where possible to protect lodges and other infrastructure on the Reserve, but this service cannot be guaranteed.
- 2.15.1.2. Members and lodge staff must ensure that the necessary precautions are in place to protect the lodge from fire. The Company shall endeavour to assist lodges on a best effort basis when threatened by fire, but this service cannot be guaranteed by the Company due to potential commitments elsewhere at the time of the fire.
- 2.15.1.3. Lodge staff are responsible for securing all lodge assets against fire. This includes transformers, telephone cables and or masts, water lines, power cables, etc.

- 2.15.1.4. Lodge staff must radio Welgevonden management on channel 6 in the event of a fire at a lodge or anywhere in the Reserve, or in close proximity of the Reserve.
- 2.15.1.5. All lodge staff must immediately go on standby should a fire be reported. The Company expects lodge staff to assist in firefighting when called upon to do so. WGR management will call for assistance if deemed necessary and give instructions on where to go and what to do.
- 2.15.1.6. Lodge staff must endeavour to contain a fire at or around a lodge until assistance arrives but may not start counter burns. These may only be started with approval from Welgevonden management or preferably under the supervision of the Welgevonden management. This is due to the fact that unauthorised and thus unknown counter burns represent a considerable threat to infrastructure and can trap people and equipment between fire fronts.
- 2.15.1.7. During fire alerts, radio communications that do not relate to the containment of the fire must be kept to an absolute minimum.
- 2.15.1.8. Open fires may only be made at lodge sites at a place intended for that purpose. Burning objects may not be discarded in a manner that may cause a fire. Cigarette and/or cigar butts must be retained by the people smoking them and care must be taken when smoking not to start a fire.
- 2.15.1.9. A 75-meter firebreak must be cleared around each lodge. This firebreak should be 75 metres from any building on the site. This must include the removal of the grass layer, with all loose grass being raked and cleared away.

2.15.2. Recommendations

- 2.15.2.1. If the lodge is fenced, an area of at least 3m outside the fence should be cleared to protect the fence. Please note, however, that this is intended only to protect the fence and therefore must not be considered as a firebreak.
- 2.15.2.2. Members should establish from their insurers what the requirements regarding protection against fires are and implement those requirements.

*Welgevonden Landowners Association
Regulations and Code of Conduct*

*Version 2.1
September 2019*

Page 27 of 38

- 2.15.2.3. Fire hydrants of the type recommended by fire protection experts should be placed outside each building and should be tested and maintained as part of the lodge maintenance procedures. Lodge staff should be trained to use them effectively.
- 2.15.2.4. At least 10 fire-beaters should be kept at the lodge site. If help can be sent, helpers should not have to first travel elsewhere to get beaters.
- 2.15.2.5. Sprinkler systems should be installed on building roofs. Such systems should be connected to a stand-alone engine and pump, drawing water from a swimming pool. Such a system should, as a preventive measure, be capable of wetting a thatch roof within minutes.
- 2.15.2.6. A 500litre firefighting "bakkie unit" equipped with an engine and a high pressure/low volume pump should be acquired and lodge staff should be trained to use it effectively. Fire-fighting trailers are not recommended due to manoeuvrability constraints.
- 2.15.2.7. A sprinkler system should be installed along the 75-metre radius cleared area around the lodge, or along the fence line. Such a system should be connected to a stand-alone engine and pump, drawing water from a swimming pool. Such a system should, as a preventive measure, be capable of wetting the area around your lodge within minutes.
- 2.15.2.8. Be aware that fires do affect the Eskom electricity supply, so it is safer to assume that your Eskom service will be interrupted during a fire.
- 2.15.2.9. If water storage tanks (and the supply to them from a borehole) are outside the cleared area around a lodge, assume that the fire will damage them. A firebreak should therefore be cleared around water tanks as well.

2.16. General

2.16.1. Rules

- 2.16.1.1. Unless prior written consent has been obtained from the Directors where applicable, no person may:
- a. Hunt, shoot or fish on the Reserve.

 - c. Plant any flora on the Reserve. Only flora indigenous to the region may be planted at lodge sites and these may not be collected from the Reserve.
 - d. Feed, injure, disturb or capture any animal on the Reserve. Wounded or injured animals must immediately be reported to Welgevonden management. Only animal licks approved by Welgevonden management may be put out and Welgevonden management retains the right to stop such licks from being put out.
 - e. Gather firewood from the Reserve.
 - f. Damage, remove, pick up, uproot or cut any object on the Reserve. No name, letter, figure or symbol may be placed, carved or written on anything within the Reserve.

 - h. Use herbicides, insecticides and rodent poisons that have not been approved by Welgevonden management.
 - i. Make any excavation on or remove any soil from the Common Land.
 - j. Bring in and/or keep pets or livestock on the Reserve.
 - k. Establish or create any drinking points for game on the Reserve. Welgevonden management retains the right to open or close artificial drinking points for game subject to the prevailing game management strategy.
 - l. Overnight in any place other than in a recognised lodge or boma. Although overnighing in a boma is permitted, it is not recommended, and members and their guests and/or staff do so entirely at their own risk. Overnighing in a boma is subject to the facility being booked through the Welgevonden office.
 - m. Provide housing for any staff on the Common Land.
 - n. House or park caravans on the Common Land. Furthermore, no person is permitted to house or park any temporary accommodation, including caravans, on the Building Area except during construction.

2.17. Infringements

- 2.17.1. If an infringement of the Rules is noticed, politely and without attempting to embarrass the offending party, remind the perpetrator/s of the relevant Rule. In turn, if you are given such a reminder, do not argue or react aggressively. Rather ask for further explanation if you need it and then thank the person that reminded you. In this way, we can deal with infringements and inadequate knowledge in a courteous way.
- 2.17.2. If you decide that an infringement should be reported, then:
 - a. Write down who did what, where and when.
 - b. Note down the vehicle or aircraft's registration and the name/s of the perpetrator/s.
 - c. Record your name and your lodge number with a telephone contact number.
 - d. If possible, please indicate a third-party witness who can corroborate allegations.
 - e. Also, please submit any photographs that support your allegations.
 - f. Please note that infringements must not be reported verbally at the meetings held between the Welgevonden management and lodge staff.
 - g. Submit or email your written complaint to the Chief Executive.
 - h. If you consider the matter to be time critical, call the Welgevonden management on channel 6 on the radio.
- 2.17.3. Should the Welgevonden management become aware of or receive notification of an infringement to the Rules, then the representative member for the offending lodge will be notified of the complaint and will be expected to respond with an explanation.

- 2.17.4. Should a valid or reasonable explanation not be forthcoming, then the Directors consider it their duty to penalise the lodge in question. Penalties may be in the form of fines, the refusal of services and even the refusal of access to the Reserve.
- 2.17.5. If lodge staff or contractors habitually disregard these regulations, the Directors shall demand their removal from Welgevonden.
- 2.17.6. A schedule of fines is presented in Annexure B.

 - 7.2.3.1 the fine shall be deemed to be part of the Member Service Charge;
 - 7.2.3.2 before imposing a fine the Directors shall ensure that:
 - 7.2.3.2.1 the Member in question must have notice of the complaint against him;

7.4 The Company may in general meeting itself make any Rules which the Directors may make, and may in general meeting add to, amend, repeal or substitute any Rules made by it or by the Directors from time to time.

7.5 It is recorded that the Rules consist of three categories:

7.5.1 ONE - Those made by the Directors which Directors may add to, amend, repeal or substitute.

7.5.2 TWO - Those contained in clause 7.6 which may only be added to, amended, repealed or substituted by special resolution of the Members; and

7.5.4 Subject to the provisions contained in clause 7.5.3, rules may only be moved between categories ONE, TWO and/or THREE with at least 75% [seventy five percent] in number of the owners of Private Lodge Subdivisions voting in favour of such change.

*Welgevonden Landowners Association
Regulations and Code of Conduct*

7.6 The Rules contained in category **TWO** in terms of 7.5 are:

- 7.6.1 The Improvements on a Private Lodge Subdivision shall provide for not more than 10 [ten] beds in the Improvements on each Private Lodge Subdivision. Notwithstanding the foregoing and in the event that a Member owns 2 [two] or more Private Lodge Subdivisions then the Directors may permit such Member to erect the Improvements on only 1 [one] of such Private Lodge Subdivisions in which case such Improvements may provide for not more than 10 [ten] beds for each Private Lodge Subdivision. In other words, if a Member owns 2 [two] Private Lodge Subdivisions he shall be entitled to erect 1 [one] improvement on both Private Lodge Subdivisions which provides for not more than 20 [twenty] beds. The Directors shall ensure in granting such permission that the Member may only Alienate the Private Lodge Subdivisions as 1 [one] property and shall require that the Private Lodge Subdivisions be notarially tied. The Directors shall also be entitled to impose such further conditions as they in their discretion may determine;
- 7.6.2 The Member may not do anything to cause any fire to spread from his Private Lodge Subdivision / Commercial Subdivision to the Property;
- 7.6.3 A Member may not make any Road whatsoever. A Member may make improvements to any Road provided such improvement is treated and the procedure is followed as if it were an Improvement as defined in clause 25.1.2;
 - 7.6.3.1 The Directors have the sole discretion from time to time to indicate, by notice to Members which roads are Thoroughfare or Private roads. A Thoroughfare Road may be used by all Members. Private Roads may only be used by a Member to give him access to his Improvements. Directors have the right to determine on which route or routes any future Roads on the Reserve will be constructed provided that they reasonably take into account:
 - 7.6.3.1.1 on the one hand the reasonable interest of a Member who is an owner of a Private Lodge Subdivision, so as to have the minimum number of Roads on his Private Lodge Subdivision; and
 - 7.6.3.1.2 on the other hand the reasonable interests of a member who is an owner of a Private Lodge Subdivision to have rights of traverse on Roads over other Private Lodge Subdivisions, with a view to traversing the Reserve as a whole.

- 7.6.4 A restriction that the Member of Commercial Subdivision no. 21 on Annexure "A, may not use more than 2 (two) game viewing vehicles at any time to exercise his rights of traverse over the Property.
- 7.6.5 Subject to the conditions set out below, the owner of each Subdivision is entitled to exceed the maximum limit of guests permitted on that Subdivision at any one time by a total of 40 bed-nights during one financial year (March through February). To prevent the overutilization of resources and the risk of failure of lodge infrastructure, a maximum of 4 excess bed-nights may be used at any time. This equates to a maximum of 14 guests per Subdivision at any time. A levy payable to the Company for each of the 40 excess bed-nights consumed will be fixed by the Board on the basis of a sliding scale. Any increase in the bed-night levy shall be presented to members together with the annual estimate of expenses contemplated in clause 5.8.1. In each instance when the maximum limit of guests per Subdivision is to be exceeded, the management of the Company must receive prior written notification of the dates and numbers. Once the 40 bed-night allowance for a financial year has been consumed by any Subdivision, permission for additional guests in excess of the maximum allowance will not be granted in that financial year. Gate entries will be monitored by the Company. The owner or designated representative will be notified as soon as the 40 bed-night allowance has been consumed. Management of visitors authorised to utilise the additional bed-night allowance is the responsibility of the member and the Company accepts no responsibility for utilisation that has not been authorised by the member. This right shall in no way affect any other provisions in the Memorandum of Incorporation or in the Regulations and Code of Conduct, such as those regulating the number of passengers allowed on a game viewing vehicle;
- 7.6.6 Subject to the conditions set out below, the owner of each Subdivision is entitled to exceed the maximum limit of guests permitted on that Subdivision at any one time by up to 4 additional children under the age of 17 (seventeen) years old. To prevent the overutilization of resources and the risk of failure of lodge infrastructure, a maximum of 4 excess bed-nights may be used at any time. This equates to a maximum of 14 guests per Subdivision at any time. This maximum of 14 shall be the total of additional guests described in this clause, together with any additional guests in terms of clause 7.6.5. Children who wish to use this right must be pre-registered at the main gate of the Reserve and be issued with identification cards. Such cards shall be valid for

an extended period, but shall expire once the child no longer qualifies due to age. Children who wish to register for this right for a single visit, must be pre-registered in advance with the reserve administration and be issued with a permit, which in turn must be submitted at a gate upon entry. The board and management shall define the requirements for registration, which will include proof of age and a recent photograph. This right shall in no way affect any other provisions in the Memorandum of Incorporation or in the Regulations and Code of Conduct, such as those pertaining to bed-night levies payable per guest per bed-night; or those regulating the number of passengers allowed on a game viewing vehicle.

7.7 The Rules contained on category **THREE** are:

- 7.7.1 No fences may be erected between the Private Lodge Subdivisions and the Commercial Subdivision;
- 7.7.2 An owner of a Private Lodge Subdivision may not Alienate or transfer a Private Lodge Subdivision or any undivided share therein without the prior written consent of the Company. The Company is obliged to give such permission provided the transferee complies with clause 4.4.1; and
- 7.7.3 Notwithstanding any law, no subdivision of any of the Private Lodge Subdivisions is permitted.

7.8 The Welgevonden Game Reserve Regulations and Conduct shall be issued and updated from time to time by the Directors. Where these Rules conflict with the Memorandum of Incorporation, the Memorandum of Incorporation shall take precedence.

ANNEXURE B: SCHEDULE OF FINES

Non-compliance with legislation will not be fined. Instead, if the WGR NPC becomes aware of an offence whereby somebody has broken the law, the offence will be reported to the South African Police or the relevant government department. Fines will therefore only be issued for transgressions of Reserve-specific rules as outlined in the table below.

Transgressions are divided into three categories of severity.

1. INTRODUCTION

This publication is directed at members who contemplate development or improvements on private lodge subdivisions in Welgevonden and at contractors performing such work.

Development or subsequent improvements may not commence without written consent from the Directors.

2. DEVELOPMENT LEVY

A building levy is charged for all developments and subsequent improvements that exceed a cost of R100 000.

Upon completion and before occupation of a lodge, the Directors must be provided with a site plan as built and a copy of the final contractor's certificate(s) of total building costs, which shall be used to calculate the building levy. For newly incorporated properties, the levy shall be calculated at 1% of the total building cost (exclusive of VAT) for buildings operations commenced within the first 12 months following incorporation, increasing by ½% every 12 months thereafter until the maximum of 3% is reached. For properties incorporated prior to August 2005, the levy is 3% of the total building costs incurred (exclusive of VAT). *In the event no costing is provided to the Directors for the work done the Directors agreed that a levy would be calculated as if the cost was R10,000/m² for lodge buildings and R 7,000/m² for outbuildings. [Minutes of AGM 30 July 2014]*

If members wish to occupy a lodge but are in dispute with a contractor(s), the levy paid before occupation will be calculated on the disputed final certificate or on the contract price. The levy paid in such circumstances can be adjusted when the dispute is settled and a final certificate is available.

3. BUILDING RESTRICTIONS

3.1. PHYSICAL

Development is restricted to a 75-metre radius surrounding the position of the site peg or reference point around which the structures will be situated. Site pegs may only be moved by agreement with the Directors.

A maximum of 10 guest beds per lodge is permitted. Up to six guest bedrooms may be constructed to accommodate these beds.

Up to 4 staff beds are permitted. This number may be increased to 15 staff beds with the Directors prior written permission *[changed as per Special Resolution AGM 2018]*. An additional staff levy as defined by the Directors is payable for each staff member exceeding the number of 4.

Double storey structures are not permitted without the prior written consent of the Directors. Roof attics are not considered double storey, but the roof and chimney height must remain within the 12 metre limit (see **Height** below).

The erection of any structure in a riverbed is not permitted.

Only blasting approved in writing by the Directors may be carried out.

3.2. HEIGHT

The height of any structure including chimneys may not exceed 12 metres above the original ground level, measured perpendicular to any point.

No part of the structure may break the surrounding skyline.

3.3. LIGHTS

Lights may not shine outwards from sites in a way that can disturb other members either while driving on the Reserve or while on their sites.

3.4. BUILDING MATERIAL & GENERAL APPEARANCE

Chimneystacks and all exterior walls should be clad in stone or painted in a colour approved by the Directors. The use of face-brick is not permitted.

All buildings should have a pitched thatch roof overall, save in circumstances where the Directors have approved the erection of a balcony, or lookout deck. The coping of the thatch should be painted in either black or a colour approved by the Directors.

No walls around private lodge sub-divisions or lodges themselves are permitted.

All door and window exteriors must be of natural unpainted wood.

Fencing, including electrified fencing, around lodges is permitted within a 100metre radius from the site peg. Such fencing should be shown on the site plan and approved by the Directors.

A concrete slab with sufficient capacity to hold a 10,000litre cylindrical plastic water tank must be laid for each water tank to be installed at the site. Water tanks should be protected with electric fencing.

Water features such as swimming pools, watering holes, etc., must either be fenced in or constructed in such a manner that it either ensures that an animal cannot fall in, or that any animal that does fall in is able to walk out. This can be done either by raising the feature off the ground or creating a slope of no greater than one in fifteen inside the water feature.

The Directors must approve the colour of swimming pools dams and water features.

4. WASTE MANAGEMENT

In the first half of 2001, the Building sub-committee of the Company undertook a major review of the approach and regulations relating to waste management. While the initial focus was on the appropriateness of existing regulations relating to sewage systems, a broad review of all aspects of waste management was done. Members are encouraged to review existing waste management installations and implement these regulations in mind when maintenance or upgrades are considered. Mr E. R. Painting of Mothopo Technologies is recognised for his input in establishing the new guidelines.

4.1. OVERVIEW

Lodges produce solid wastes, sewage and other effluents (from wash bays, swimming pool backwash, etc.). The Company's objective is to minimise pollution from any of these sources so as to protect the integrity of the Welgevonden ecosystem.

The Company therefore encourages practices that will mitigate the potential sources of pollution and has embraced the water quality guidelines of the Department of Water Affairs and Forestry (1996) for waste management systems. The Company shall measure the effectiveness of effluent treatment systems against these guidelines.

The fundamental approach should entail the following practices:

- Minimise the production of waste in the first place;
- Separate waste at source to make recycling, treatment and disposal practically possible;
- Recycle waste where possible;
- Treat waste that cannot be recycled; and
- Dispose of what remains in an appropriate way.

Following from the above it is clear that a holistic approach should be adopted which takes each lodge's specific functional behaviour into account. The primary considerations at Welgevonden are wastes produced from:

- Excessive use – i.e. exorbitant water consumption resulting from inappropriate dispensing systems or poor awareness in users;

- Everyday human behaviour – i.e. food preparation, packaging, human waste (sewage), ash, etc.

Ways of producing less sewage should be contemplated. This can be accomplished by:

- Using less water where effluent is produced:
Using less water for flushing. Various products are available that use less water to flush and that offer dual flushing systems – half of full flush.
Using tap aerators which reduce flows at basins to 6 l/min.
Using shower heads that provide constant low flow rates irrespective of the pressure.
Ensuring effective backwash requirements for pool filters, proper filtration designs with effective pool reticulation.
- Separating waste streams at source.
Much of the kitchen fats and oils, for example, must be separated in the kitchen rather than disposal into the drain and considered as a solid waste.
Bio-friendly soaps and detergents for laundry and general cleaning must be used to limit the effects on bio-organisms present in the treatment system.
Appropriate algacides and sterilization agents for swimming pools and water features must be used.
- Ensuring storm water runoff does not enter the sewers at any point.
- Ensuring leaks are detected and repaired as early as possible - this means that an effective environmental management system needs to be in place that tracks water received (similar to water bought) and water used in each bathroom, kitchens and other points (similar to water sold). Of importance here is the quality of the water source - water hardness and aggressiveness are typical properties that affect pipes and the proper functioning of valves and other water controlling devices.

4.2. LEGAL REQUIREMENTS

The two most important pieces of legislation dealing with building drainage and sewage effluent are:

- Uniformity in the law relating to the erection of buildings (the National Building Regulations and Building Standards Act 103 of 1977).

In particular Part P: Drainage of the SABS 400-1990 (South African Standard Code of Practice for the application of the National Building Regulations) is important in relation to proper drainage of sewage from buildings.

- Water resource quality guidelines (National Water Act 36 of 1998) and the South African Water Quality Guidelines (Department of Water Affairs and Forestry, 1996).

Other important legislation and so-called soft laws are also of relevance.

Any effluent discharged into the natural environment must comply with certain standards. This requirement is spelt out in the National Water Act No. 36 of 1998 (section 151) and supported by the South African Water Quality Guidelines (Department of Water Affairs and Forestry, 1996).

This legislation prescribes in Section 19, that: “a person in control of land, or a person who occupies or uses the land on which ...any activity ... which causes, has caused or is likely to cause pollution of a water resource, must take all reasonable measures to prevent any such pollution from occurring, continuing or recurring”.

The standard to which any effluent must comply depends on the use of the water resource at the point of discharge (fitness of water for use). In this case, the fitness for use may be defined as the fitness for use and for the protection of the health and integrity of aquatic systems (South African Water Quality Guidelines: Volume 7: Aquatic ecosystems).

4.3. EFFLUENT TREATMENT

Having produced the effluent (while minimised) this effluent needs to be treated to a quality conforming to the requirements of the Department of Water Affairs and Forestry (1996). -Sewage treatment typically involves three main processes:

- Primary - Removal of the heaviest solid material from sewage. Typically this would involve passing sewage through screens that trap the largest pieces of matter, and then through a grit channel where heavy inorganic matter such as sand settles. Sewage then flows to a primary sedimentation tank or settling tank where much of the suspended solids sink to the bottom of this tank and form sludge. Grease often floats to the surface. This treatment removes approximately 50 per cent of suspended solids and bacteria and about 30 per cent of organic wastes.
- Secondary - Removal of solids and oxygen-consuming wastes remaining in the sewage after it has undergone primary treatment. The most common methods of secondary treatment are 1) the activated sludge process and 2) the trickling filtration (biological filtration) process. About 85 per cent of the solids and oxygen-consuming wastes are removed at this stage. The activated sludge process is one in which air is injected into a tank containing the effluent, the useful bacteria move through the liquid and change the organic matter into less harmful substances. This effluent is then settled through a sedimentation tank.
- Tertiary - After both primary and secondary treatment, effluent quality can be further improved through a tertiary treatment process which really depends on the quality of the influent sewage (chemical treatment such as chlorination, microscopic screening, radiation treatment, storage in ponds).

A typical effluent treatment system would therefore include the following components:

- Sludge interceptor and settling tank (septic tank)
- Biological filter system
- Constructed wetland system for effluent polishing
- Sludge treatment and disposal system

All these components would need to be designed to the specific requirements of each lodge and the local environment in which each lodge has been placed.

Rural sewage treatment systems usually involve the use of septic tanks with soakaways (French drains). Typically, sewage flows into a septic tank where solids in the sewage settle to the bottom of the tank or float to the top of the tank as scum. The clear effluent (supernatant) then flows into a soakaway system consisting of slotted pipes and porous media such as rocks and soil where bacteria destroy the remaining organic material in the effluent.

Guidelines are available with recommended parameters for the design of septic tank/soakaway systems (Franceys et al, 1992; The Water Institute of southern Africa, 1988; Building Technology, CSIR, 1972; de Villiers, D.C. 1987).

Effluent discharged from a treatment system shall comply with the resource quality guidelines (National Water Act 36 of 1998) and the relevant sections of South African Water Quality Guidelines (Department of Water Affairs and Forestry, 1996).

Soakaways may not be installed within the 50year flood line or within 50 metres of any watercourse or drainage way.

All components of an effluent treatment system installed outside perimeter fence of any lodge must be sufficiently protected against possible damage from wild animals such as elephant, rhino and buffalo.

4.4. SANITATION GUIDELINES

Waste disposal plans must be submitted to the Directors for approval as part of building plans.

A Director or appointee must inspect constructed sewage systems such as septic tanks, French drains and grease traps and approve them in writing before they are closed.

All sewerage and drainage systems must comply with the National Building Regulations, with specific reference to Government Notice R 1875 dated 31 August 1979 and as detailed in Part P: Drainage, of the SABS Code of Practice for the application of the National Building Regulations (SABS 0400-1990)

All materials used must comply with the relevant SABS specifications:

- uPVC pressure pipes and fittings - SABS 966
- uPVC vent and drainage pipes and fittings - SABS 967
- uPVC soil pipes and fittings - SABS 791
- HDPE pipes and fittings - SABS 533
- Polypropylene pressure pipes - SABS 1315
- Cast iron - SABS 746
- Steel pipes - SABS 62
- Copper tubing - SABS 460
- Brass valves - SABS 776
- Brass fittings - SABS 1067
- Malleable cast iron fittings - SABS 509

Installation must comply with the relevant SABS 1200 specifications, including:

- SABS 1200 DA - Earthworks (small works)
- SABS 1200 DB - Earthworks (pipe trenches)
- SABS 1200 GA - Concrete (small works)
- SABS 1200 L - Medium pressure pipelines SABS 1200 LB - Bedding (pipes) SABS 1200 LD - Sewers

Approved grease traps must be installed at all kitchen waste outlets.

Any sewage pumping system must be installed with an approved back-up system. Such systems may include:

- Stand-by pumps with hour meters
- Back-up electrical generator in case of ESKOM power failure
- Alarm system connected to the manager's office to warn the lodge manager of any pump's inability to empty sewage from any tank.

4.5. OPERATION, MAINTENANCE AND MONITORING

It is incumbent upon Lodge owners to satisfy the Directors that the effluent treatment system installed at that particular lodge satisfies this legislation. To this end inspection data at each Lodge must be available to the Directors, including:

- sludge build up rates in any septic tank;
- effluent build-up rates in any soakaway (French drain); and
- quality of effluent from the system.

Septic tanks must be accessible to vehicles for the removal of sludge build-up.

The Company shall conduct annual periodic tests to establish the functioning of systems. If a system is found to operate outside the required levels, immediate steps must be taken to rectify the problem, after which monthly tests shall be carried out until the system operates satisfactorily.

The costs of these tests shall be borne by the Member.

5. APPROVAL PROCESS

Before any building construction or improvement may begin, detailed plans must be submitted to the Directors for approval.

5.1. PLANS

Plans must be submitted to the Directors for approval together with the signed Letter of Compliance provided by the Directors. Plans must be to scale and illustrate the following:

- The 75-metre radius surrounding the position of the site peg or reference point around which the structures will be situated;
- A detailed site plan;
- Detailed plans of all buildings to be erected;
- The design and locations of the sewage treatment system, including grease traps and septic tanks. A maintenance plan appropriate for the treatment system must be submitted with these design plans of the sewage system. The sewage system design must be approved by one of the WGR NPC's sewage consultants;
- A line indicating the 50-metre point from any river, stream or seepage;
- The physical distance between all buildings;

- An elevation plan that includes a clear indication of the highest point above natural ground level measured perpendicular to the base at that point;
- A fence plan, showing the 100metre radius from the site peg;
- External lights; and
- Helipad position and design.

5.2. SITE INSPECTION

Before any construction may begin, a member of the Directors or management will inspect the site to confirm compliance with the regulations.

Before such an inspection, the outline of all buildings on the submitted plans must be clearly marked on the site.

To determine compliance with the height restrictions and effects on the skyline, a pole measuring 12 metres in height must be erected at the highest point of each proposed structure.

If the site inspection results in changes that require, in the Directors' opinion, further inspections, the Directors reserve the right to charge a fee and recover the costs associated with such additional inspections.

At any time during or after construction a member of the Directors or Welgevonden management may inspect the site to ensure compliance with regulations. All construction must immediately cease when a member is informed of non-compliance until the non-compliance has been resolved to the satisfaction of the Directors.

6. BUILDING CONTRACTORS

A member may appoint builders approved from time to time by the Directors.

Contractors enter Welgevonden at their own risk and must at all times carry an ID document issued by the Reserve. Contractors found without a valid Welgevonden ID shall be removed at the contractor's expense. These ID documents must be returned to the management when contractors have completed their work or when employees leave the employment of the contractor

Trucks of up to 8-tons, single axle may travel on the Reserve. Materials may be delivered with larger trucks to areas allocated at gates, by prior arrangement with the Reserve management. The safekeeping, cleaning, control and protection of materials at these allocated are the responsibility of the contractor.

During the wet season, trucks may be prevented from travelling on Reserve roads to limit road damage. Contractors may stockpile materials at building sites during the dry months to prevent delays.

Contractors and all delivery vehicles are restricted to the use of roads allocated by the Reserve management and may only stop at gates or construction sites, except when giving way for other vehicles to pass. Reserve and game viewing vehicles always have right of way. Contractors are responsible for the actions of their own staff, sub-contractors' staff and delivery services on their behalf.

Contractors must be familiar with the regulations regarding firearms. Contractors may not be in possession of rifles of any calibre (including airguns). Handguns must be declared at the entrance gate or with the *Security Manager at the Main Gate* together with the firearm licence. Such firearms must at all times be in an appropriate holster or bag and may not be left unattended by the owner [changed due to operational changes].

Contractors **must provide:**

- A water container with a capacity of no less than 6,000 litres
- One toilet for every twenty workers;
- Fuel for pumps, generators and vehicles;
- A designated and secured area for open fires;

*Welgevonden Private Game Reserve
Building Regulations - Version 1.2*

- On request, proof of purchase of any fresh meat brought onto the Reserve; and
- Refuse bins (Refuse must be separated according to the Reserve regulations);

Contractors **may not**:

- Use sedan vehicles on the reserve;
- Travel on the reserve roads between 18:00 and 06:00;
- Remain on the reserve over a weekend or on public holidays unless they are working and then only with prior written permission from the Reserve management;
- Walk outside the immediate area of the site under development;
- Disturb any form of wildlife. Animals may not be fed. Plants may not be picked, cut, uprooted or damaged;
- Gather firewood anywhere in Welgevonden. *Firewood needs to be bought in from outside the Reserve [changed due to operation changes];*
- Take soil or fill from the Reserve; or
- Have any domestic pets on the Reserve;

Contractors must remove all building rubble from the site and stockpile areas. Permission may be sought from the Welgevonden management to fill borrow pits.

7. REGULATIONS AND CODE OF CONDUCT

Contractors are required to familiarise themselves with the Welgevonden **Regulations and Code of Conduct**. Non-compliance with the provisions of that publication can be dangerous. The Directors consider it their duty to penalise those who do not comply with the contents of this publication and with the **Regulations and Code of Conduct**.

Members shall ultimately be held responsible for the conduct and actions of their contractors and should make certain that the appropriate procedures are in place at their lodge to ensure awareness and compliance with the contents of this publication

Penalties may be in the form of fines, the refusal of services and even the refusal of access to the Reserve. If contractors habitually disregard these regulations, the Directors shall demand their removal from Welgevonden.

Building sites are regularly inspected and contracting staff who transgress will be removed from the Reserve. Transgressions such as the possession of, or trading in, drugs shall be reported to the SAPS for prosecution.
