Local Government: Municipal Finance Management Act  
Fourth Quarter Consolidated Statement: 2019/20

**LOCAL GOVERNMENT: MUNICIPAL FINANCE MANAGEMENT ACT  
QUARTERLY CONSOLIDATED STATEMENT:  
QUARTER 4 ENDING 30 JUNE 2020**

I, Mr David Maynier, Provincial MEC for Finance and Economic Opportunities in the Western Cape, in terms of section 71(7) of the Local Government: Municipal Finance Management Act (No. 56 of 2003), publish the consolidated statement on municipal budgets in the Western Cape Province. The consolidated statement reflects the financial performance of municipalities as at the end of the fourth quarter (ending 30 June 2020) of the 2019/20 municipal financial year. The performance reporting of this period presents the preliminary financial budget performance for 2019/20 and is subject to change with the finalization of the annual financial statements.

Subsequent to the announcement by the President of South Africa, declaring a nationwide lockdown, the Minister of Finance issued a conditional Exemption Notice in terms of section 177(1)(b) of the Municipal Finance Management Act, 2003 (Act No. 56 of 2003) (MFMA) on 30 March 2020 to facilitate and enable the performance of legislative responsibilities by municipalities and municipal entities during the national state of disaster. The national lockdown affects amongst others, the monthly and quarterly performance reporting in terms of section 71 and section 52(d) of the MFMA respectively resulting in some limitations to this publication.

National Treasury's Local Government Database is the primary data source used for analysis and this publication. It should be noted that the quality of the report is compromised when municipalities fail to submit all the required data strings. Furthermore, the quality of this publication depends on the credibility of the mSCOA data string information.

This quarterly consolidated statement (1 April 2020 to 30 June 2020) is informed by the mSCOA data strings submitted by municipalities to the National Treasury database. A number of anomalies were noted with the information reported by municipalities which significantly impacted on the credibility of the information reported for the period to-date. Key concern is raised with negative cash and cash equivalent budgets and year-to-date actuals as well as misaligned capital funding and expenditure reported.

Underlying reasons contributing to these inconsistencies between the MBRR schedules and mSCOA data strings are amongst others, mSCOA mapping errors, incorrect use of mSCOA segments, municipalities budgeting and transacting outside the core financial system as well as required updates to the mSCOA chart. The municipal capital budget performance presented in this publication are therefore significantly low as compared to the actual capital budget spending reported by municipalities to their respective Council's through the Financial Management Reports (FMR).

Notwithstanding the inconsistent reporting, the COVID-19 lockdown had a significant impact on the implementation of municipal capital projects particularly during the last quarter of the financial year. The underperformance on capital spending is also attributable to the on-going delays experienced in supply chain management processes, delays in the implementation of the procurement regulatory framework, electricity supply constraints as well as disputes and delays in the appointment of contractors.

The aggregate municipal capital budget was adjusted downwards by 10.2 per cent, from R12.087 billion to R10.797 billion for the 2019/20 financial year due to the effects of the National Lockdown. The City of Cape Town's adjusted capital budget amounts to R6.768 billion (or 62.7 per cent) of the aggregate capital budget. Aggregate expenditure on the Capital Budgets of municipalities in the Western Cape as at 30 June 2020, amounted to R3.604 billion or 33.4 per cent. The City reported capital expenditure of R1.298 billion or 19.2 per cent against the adjusted budget amount of R6.768 billion. This amount is inconsistent against the reported 88.3 per cent reported in the MBRR C-schedules. The capital tables in the MBRR C-Schedules reflect expenditure as it is incurred on a WBS element (project), which is line with the City's Asset Life Cycle process. The mSCOA data strings are, however, based on assets at the time of capitalisation, which only takes place as and when the asset has been completed. The City will implement a changed reporting regime, which will prevent this anomaly from 1 July 2020.

The aggregate municipal capital expenditure is however expected to increase as year-end accruals are completed with the finalization of the Annual Financial Statements.

Western Cape municipalities remain committed to improve the credibility of information with active support from National and Provincial Treasuries who is responsible for driving the successful implementation of mSCOA.

The information on budget variances in the tables (YTD Variance column) is incorrectly reflected. This is a formula error and does not effect totals reported. The National Treasury has been made aware of the error and it will be corrected for the next reporting period.

Signed at Cape Town on this 30th day of July 2020.

Misalignments between mSCOA data strings and MBRR schedules in terms of Financial Reporting

The information on budget variances in the tables (YTD Variance column) is incorrectly reflected. This is a formula error and does not effect totals reported. The National Treasury has been made aware of the error and it will be corrected for the next reporting period.

Misalignments between mSCOA data strings and MBRR schedules in terms of Cash Flow Budget Performance.

MFMA Exemption Notice No. 43181 was utilised in terms of Debtors Age Analysis.

A "nil return" was submitted for Creditors Age Analysis.

The information on budget variances in the tables (YTD Variance column) is incorrectly reflected. This is a formula error and does not effect totals reported. The National Treasury has been made aware of the error and it will be corrected for the next reporting period.

Misalignments between mSCOA data strings and MBRR schedule in terms of Financial Reporting.

MFMA Exemption Notice No. 43181 was utilised in terms of Debtors Age Analysis

A "nil return" was submitted for Creditors Age Analysis.

The information on budget variances in the tables (YTD Variance column) is incorrectly reflected. This is a formula error and does not effect totals reported. The National Treasury has been made aware of the error and it will be corrected for the next reporting period.
