Department:
Government Printing Works
REPUBLIC OF SOUTH AFRICA

HIGH ALERT: SCAM WARNING!!!

TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works* (GPW).

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

PROCUREMENT@GPW-GOV.ORG

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

GPW has an official email with the domain as @gpw.gov.za

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

Government Printing Works gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at www.gpwonline.co.za
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

DEPARTMENT OF AGRICULTURE, LAND REFORM AND RURAL DEVELOPMENT

NO. 1148

30 OCTOBER 2020

GENERAL NOTICE IN TERMS OF THE RESTITUTION OF LAND RIGHTS, 1994 (ACT NO.22 OF 1994), AS AMENDED

Notice is hereby given in terms of Section 11 (1) of Restitution of Land Rights Act, 1994 (Act 22 of 1994), as amended, that a claim for Restitution of Land Rights has been lodged on the farm Koppieskraal 475 KS situated in Lepelle Nkumpi Local Municipality, Capricorn District of Limpopo.

The claim was lodged on the 16th November 1998 by Matjime Abram Makgolane who is the direct descendant of the late Ramathebane Agnes Mengwai who was the originally dispossessed individual of the property under claim.

The below table depicts the property description on the farm Koppieskraal 475 KS

No	Property	Current Landowners	Extent (sqm)	Title Deed
1	Farm Koppieskraal 475 KS	Bakgaga Ba-Mphahlele Tribe	724.3376 H	T31323/1994

Take further notice that the Office of the Regional Land Claims Commissioner: Limpopo is processing this land claim. Any party that has an interest in the above-mentioned property is hereby invited to submit in writing, within 14 days of the publication of this notice, any comment, objection or information under reference number **KRP 10749**

MR. LEBJANE MAPHUTHA
REGIONAL LAND CLAIMS COMMISSIONER:

DATE: 2020/10/16

DEPARTMENT OF EMPLOYMENT AND LABOUR**NO. 1149****30 OCTOBER 2020****NOTICE IN TERMS OF SECTION 62(7) OF THE LABOUR RELATIONS ACT 66 OF 1995 (AS AMENDED)**

PLEASE TAKE NOTICE THAT:-

1. Epworth Children's Home (the applicant) has applied to the Commission for Conciliation, Mediation and Arbitration (CCMA) in terms of section 62(1) of the Labour Relations Act 66 of 1995 as amended (the LRA) for a demarcation order to the effect that the National Minimum Wage applicable to their employees be that of domestic workers, in an amount of R 15.57 per hour and not that of commercial operations of R 20.76 per hour.
2. It is their case that the Children's Home is an institution which provides accommodation and supervision for children who are orphaned, abandoned or removed from the care of their parents by welfare organisations. They describe their operations as a home for these children which is comparable to a domestic home where children are cared for by parents in a private household. The duties performed by the staff members of the home compare favourably with that of a private household.
3. The Department of Employment and Labour is opposing the demarcation application and will argue that the nature of the business of Epworth Children's Home is commercial in nature and not a private household in nature. They will argue that since the nature of the applicant's business is commercial in nature this renders the employees to be commercial employees and not domestic workers working in a private household.
4. The CCMA believes that the question raised by this demarcation dispute is potentially of wider application in that there may be a number of other businesses operating in a similar manner to the interested parties, and those businesses may well be affected by the outcome of this application. Such entities should have the right to make representations to the CCMA. The CCMA therefore invites written representations in relation to the issue in dispute by any interested party.
5. Take notice that any interested party may, within 21 days of date of publication of this notice, make written representations envisaged by section 62(7) and (9) in relation to the issues to be determined and that such written representations should be clearly marked with reference number GAEK 2457-20 and directed to:-

DEPARTMENT OF ENVIRONMENT, FORESTRY AND FISHERIES

NO. 1150

30 OCTOBER 2020

**NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998
(ACT NO. 107 OF 1998)****PROCEDURES FOR THE ASSESSMENT AND MINIMUM CRITERIA FOR REPORTING ON IDENTIFIED ENVIRONMENTAL THEMES IN TERMS OF SECTIONS 24(5)(a) AND (h) AND 44 OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998, WHEN APPLYING FOR ENVIRONMENTAL AUTHORISATION**

I, Barbara Dallas Creecy, Minister of Forestry, Fisheries and the Environment, hereby under sections 24(5)(a) and (h) and 44 of the National Environmental Management Act, 1998 (Act No. 107 of 1998), prescribe protocols in respect of specific environmental themes for the assessment of, as well as the minimum report content requirements on, the environmental impacts for activities requiring environmental authorisation, as contained in the Schedule hereto. When the requirements of a protocol apply, the requirements of Appendix 6 of the Environmental Impact Assessment Regulations, 2014, as amended, promulgated under sections 24(5) and 44 of the National Environmental Management Act, 1998 (Act No. 107 of 1998), are replaced by these requirements.

Each protocol applies exclusively to the environmental theme identified within its scope. Multiple themes may apply to a single application for environmental authorisation, and assessments for these themes must be undertaken in accordance with the relevant protocol, or where no specific protocol has been prescribed, in accordance with the requirements of the Environmental Impact Assessment Regulations, 2014, as amended.

The requirements of these protocols will apply from the date of publication, except where the applicant provides proof to the competent authority that the specialist assessment affected by these protocols had been commissioned by the date of publication of these protocols in the *Government Gazette*, in which case Appendix 6 of the Environmental Impact Assessment Regulations, 2014, as amended, will apply to such applications.

BARBARA DALLAS CREECY
MINISTER OF FORESTRY, FISHERIES AND THE ENVIRONMENT

SCHEDULE

ENVIRONMENTAL THEMES

- **Terrestrial animal species**
 - Protocol for the specialist assessment and minimum report content requirements for environmental impacts on terrestrial animal species.
- **Terrestrial plant species**
 - Protocol for the specialist assessment and minimum report content requirements for environmental impacts on terrestrial plant species.

TERRESTRIAL ANIMAL SPECIES

PROTOCOL FOR THE SPECIALIST ASSESSMENT AND MINIMUM REPORT CONTENT REQUIREMENTS FOR ENVIRONMENTAL IMPACTS ON TERRESTRIAL ANIMAL SPECIES

1. **SCOPE**

This protocol provides the criteria for the specialist assessment and minimum report content requirements for impacts on terrestrial animal species for activities requiring environmental authorisation. This protocol replaces the requirements of Appendix 6 of the Environmental Impact Assessment Regulations¹.

The assessment and reporting requirements of this protocol are associated with a level of environmental sensitivity identified by the national web based environmental screening tool (screening tool) for terrestrial animal species. The relevant terrestrial animal species data in the screening tool has been provided by the South African National Biodiversity Institute (SANBI).

The screening tool can be accessed at: <https://screening.environment.gov.za/screeningtool>

2. **SITE SENSITIVITY VERIFICATION AND MINIMUM REPORT CONTENT REQUIREMENTS**

Prior to commencing with a specialist assessment, the current use of the land and the potential environmental sensitivity of the site under consideration, identified by the screening tool, must be confirmed by undertaking a **site sensitivity verification**².

- 2.1 The site sensitivity verification must be undertaken by an environmental assessment practitioner or a specialist.
- 2.2 The site sensitivity verification must be undertaken through the use of:
 - (a) a desk top analysis, using satellite imagery;
 - (b) a preliminary on-site inspection; and
 - (c) any other available and relevant information.
- 2.3 The outcome of the site sensitivity verification must be recorded in the form of a report that:
 - (a) confirms or disputes the current use of the land and environmental sensitivity as identified by the screening tool, such as new developments or infrastructure, the change in vegetation cover or status etc.;
 - (b) contains a motivation and evidence (e.g. photographs) of either the verified or different use of the land and environmental sensitivity; and
 - (c) is submitted together with the relevant assessment report prepared in accordance with the requirements of the Environmental Impact Assessment Regulations.

¹ The Environmental Impact Assessment Regulations, 2014, as amended, and as promulgated under Section 24(5) of the National Environmental Management Act, 1998 (Act No. 107 of 1998).

² The site sensitivity verification is to confirm the actual use of the land on the ground versus that which has been identified by the screening tool. The site sensitivity verification will confirm or refute the need to employ the various specialists as identified in the screening report. The site sensitivity report does not form part of the specialist report, but is to be submitted together with the relevant assessment reports.

3. SPECIALIST ASSESSMENT AND MINIMUM REPORT CONTENT REQUIREMENTS

TABLE 1: ASSESSMENT AND REPORTING OF IMPACTS ON TERRESTRIAL ANIMAL SPECIES

1. General Information	
<p>1.1 An applicant intending to undertake an activity identified in the scope of this protocol, on a site identified by the screening tool as being of “very high” or “high” sensitivity for terrestrial animal species must submit a Terrestrial Animal Species Specialist Assessment Report.</p> <p>1.2 An applicant intending to undertake an activity identified in the scope of this protocol on a site identified by the screening tool as being of “medium sensitivity” for terrestrial animal species must submit either a Terrestrial Animal Species Specialist Assessment Report or a Terrestrial Animal Species Compliance Statement, depending on the outcome of a site inspection undertaken in accordance with paragraph 4.</p> <p>1.3 An applicant intending to undertake an activity identified in the scope of this protocol on a site identified by the screening tool as being of “low” sensitivity for terrestrial animal species must submit a Terrestrial Animal Species Compliance Statement.</p> <p>1.4 Where the information gathered from the site sensitivity verification differs from the screening tool designation of “very high” or “high”, for terrestrial animal species sensitivity and it is found to be of a “low” sensitivity, then a Terrestrial Animal Species Compliance Statement must be submitted.</p> <p>1.5 Where the information gathered from the site sensitivity verification differs from the screening tool designation of “low” terrestrial animal species sensitivity and it is found to be of a “very high” or “high” terrestrial animal species sensitivity, a Terrestrial Animal Species Specialist Assessment must be conducted.</p> <p>1.6 If any part of the development falls within an area of confirmed “very high” or “high” sensitivity, the assessment and reporting requirements prescribed for the “very high” or “high” sensitivity, apply to the entire development footprint. Development footprint in the context of this protocol means, the area on which the proposed development will take place and includes the area that will be disturbed or impacted.</p> <p>1.7 The Terrestrial Animal Species Specialist Assessment and the Terrestrial Animal Species Compliance Statement must be undertaken within the <i>study area</i>.</p> <p>1.8 Where the nature of the activity is not expected to have an impact on species of conservation concern (SCC) beyond the boundary of the preferred site, the study area means the proposed development footprint within the preferred site.</p> <p>1.9 Where the nature of the activity is expected to have an impact on SCC beyond the boundary of the preferred site, the <i>project areas of influence</i> (PAOI) must be determined by the specialist in accordance with <i>Species Environmental Assessment Guideline</i>³, and the study area must include the PAOI, as determined.</p>	
<p>VERY HIGH SENSITIVITY RATING – for terrestrial animal species:</p> <p>1. Critical habitat for range-restricted species⁴ of conservation concern, that have a global range of less than 10 km².</p>	<p>2. TERRESTRIAL PLANT SPECIES

PROTOCOL FOR THE SPECIALIST ASSESSMENT AND MINIMUM REPORT CONTENT REQUIREMENTS FOR ENVIRONMENTAL IMPACTS ON TERRESTRIAL PLANT SPECIES

1. SCOPE

This protocol provides the criteria for the assessment and minimum report content requirements for impacts on terrestrial plant species for activities requiring environmental authorisation. This protocol replaces the requirements of Appendix 6 of the Environmental Impact Assessment Regulations¹⁶.

The assessment and reporting requirements of this protocol are associated with a level of environmental sensitivity identified by the national web based environmental screening tool (screening tool). The relevant terrestrial plant species data in the screening tool has been provided by the South African National Biodiversity Institute (SANBI).

The screening tool can be accessed at: <https://screening.environment.gov.za/screeningtool>

2. SITE SENSITIVITY VERIFICATION AND MINIMUM REPORT CONTENT REQUIREMENTS

Prior to commencing with a specialist assessment, the current use of the land and the environmental sensitivity of the site under consideration identified by the screening tool must be confirmed by the undertaking a **site sensitivity verification**¹⁷.

2.1 The site sensitivity verification must be undertaken by an environmental assessment practitioner or a specialist.

2.2 The site sensitivity verification must be undertaken through the use of:

- (a) a desk top analysis, using satellite imagery;
- (b) a preliminary site inspection; and
- (c) any other available and relevant information.

2.3 The outcome of the site sensitivity verification must be recorded in the form of a report that:

- (a) confirms or disputes the current use of the land and the environmental sensitivity as identified by the screening tool, such as new developments or infrastructure, the change in vegetation cover or status etc.;
- (b) contains a motivation and evidence (e.g. photographs) of either the verified or different use of the land and environmental sensitivity; and
- (c) is submitted together with the relevant assessment report prepared in accordance with the requirements of the Environmental Impact Assessment Regulations.

¹⁶ The Environmental Impact Assessment Regulations, 2014, as promulgated in terms of Section 24(5) of the National Environmental Management Act, 1998 (Act No. 107 of 1998).

¹⁷ The site sensitivity verification is to confirm the actual use of land on the ground versus that which has been identified by the screening tool. The site sensitivity verification will confirm or refute the need to employ the various specialists as identified in the screening report. The site sensitivity report does not form part of the specialist report.

3. SPECIALIST ASSESSMENT AND MINIMUM REPORT CONTENT REQUIREMENTS

TABLE 1: ASSESSMENT AND REPORTING OF IMPACTS ON TERRESTRIAL PLANT SPECIES

1 General Information

- 1.1 An applicant intending to undertake an activity identified in the scope of this protocol, on a site identified by the screening tool as being of “very high” or “high” sensitivity for terrestrial plant species, must submit a **Terrestrial Plant Species Specialist Assessment Report**.
- 1.2 An applicant intending to undertake an activity identified in the scope of this protocol, on a site identified by the screening tool as being of “medium sensitivity” for terrestrial plant species, must submit either a **Terrestrial Plant Species Specialist Assessment Report** or a **Terrestrial Plant Species Compliance Statement**, depending on the outcome of a site inspection undertaken in accordance with paragraph 4.
- 1.3 An applicant intending to undertake an activity identified in the scope of this protocol, on a site identified by the screening tool as being of “low” sensitivity for terrestrial plant species, must submit a **Terrestrial Plant Species Compliance Statement**.
- 1.4 Where the information gathered from the site sensitivity verification differs from the screening tool designation of “very high” or “high” for terrestrial plant species sensitivity on the screening tool, and it is found to be of a “low” sensitivity, then a **Terrestrial Plant Species Compliance Statement** must be submitted.
- 1.5 Where the information gathered from the site sensitivity verification differs from the screening tool designation of “low” terrestrial plant species sensitivity and it is found to be of a “very high” or “high” terrestrial plant species sensitivity, a **Terrestrial Plant Species Specialist Assessment** must be conducted.
- 1.6 If any part of the development falls within an area of confirmed “very high” or “high” sensitivity, the assessment and reporting requirements prescribed for the “very high” or “high” sensitivity, apply to the entire development footprint. Development footprint in the context of this protocol, means the area on which the proposed development will take place and includes the area that will be disturbed or impacted.
- 1.7 The **Terrestrial Plant Species Specialist Assessment** and the **Terrestrial Plant Species Compliance Statement** must be undertaken within the *study area*.
- 1.8 Where the nature of the activity **is not** expected to have an impact on species of conservation concern (SCC) beyond the boundary of the preferred site, the study area means the proposed development footprint within the preferred site.
- 1.9 Where the nature of the activity **is** expected to have an impact on SCC beyond boundary of the preferred site, the *project areas of influence* (PAOI) must be determined by the specialist in accordance with *Species Environmental Assessment Guideline*¹⁸, and the study area must include the PAOI, as determined.

A calculation method of the efficiency of controlgear for high intensity discharged lamp(s) is also defined. It is assumed that the controlgear are designed for use on DC supplies up to 1 000 V and/or AC supplies up to 1 000 V at 50 Hz or 60 Hz. This document applies to electrical controlgear-lamp circuits comprised solely of the controlgear and of the lamp(s).	2020-12-05

SATR 21506 Ed 1	<i>Project, programme and portfolio management – Vocabulary.</i> This document defines terms used in the field of project, programme and portfolio management. It can be used by any type of organisation, including public, private and any size sector, as well as any type of projects in terms of complexity.	2020-12-05
SANS 51992-4 Ed 1	<i>Eurocode 2 - Design of concrete structures - Part 4: Design of fastenings for use in concrete.</i> This European Standard provides a design method for fastenings (connection of structural elements and non-structural elements to structural components), which are used to transmit actions to the concrete. This design method uses physical models which are based on a combination of tests and numerical analysis consistent with EN 1990:2002, 5.2. Additional rules for the transmission of the fastener loads within the concrete member to its supports are given in EN 1992-1-1 and Annex A of this EN. Inserts embedded in precast concrete elements during production, under Factory Production Control (FPC) conditions and with the due reinforcement, intended for use only during transient situations for lifting and handling, are covered by CEN/TR 15728. This EN is intended for safety related applications in which the failure of fastenings may result in collapse or partial collapse of the structure, cause risk to human life or lead to significant economic loss. In this context it also covers non-structural elements. The support of the fixture can be either statically determinate or statically indeterminate. Each support can consist of one fastener or a group of fasteners. This EN is valid for applications which fall within the scope of the EN 1992 series. In applications where special considerations apply, e.g. nuclear power plants or civil defense structures, modifications can be necessary. This EN does not cover the design of the fixture. Rules for the design of the fixture are given in the appropriate Standards meeting the requirements on the fixture as given in this EN. This document relies on characteristic resistances and distances which are stated in a European Technical Product Specification (see Annex E). At least the characteristics of Annex E are given in a European Technical Product Specification for the corresponding loading conditions providing a basis for the design methods of this EN.	2020-12-05
