NATIONAL AGRICULTURAL MARKETING COUNCIL
MARKETING OF AGRICULTURAL PRODUCTS ACT, 1996
(ACT No. 47 OF 1996)

DECIDUOUS FRUIT INDUSTRY -
REQUEST FOR THE IMPLEMENTATION OF A NEW TERM OF STATUTORY
MEASURES RELATING TO TABLE GRAPES

It is hereby made known in terms of section 11 of the Marketing of Agricultural Products Act, 1996 (Act No. 47 of 1996) that the Minister of Agriculture has received, in terms of section 15 of the said Act, a request for the implementation of a new term of statutory measures relating to table grapes in the deciduous fruit industry.

The DFPT (Deciduous Fruit Producers Trust) acting on behalf of the, SAT (South African Table Grape Producers' Association) a Section 21 Company, a directly affected group in the deciduous fruit industry applied for the implementation of this new term.

The following statutory measures are currently in place in the deciduous fruit industry:

- Keeping of records and returns in terms of section 18 of the MAP Act
- Registration of persons in terms of section 19 of the MAP Act
- Payment of levies in terms of section 15 of the MAP Act:

Table grapes expiring 31 October 2004;

Stone fruit (plums, apricots and peaches and nectarines) expiring 30 October 2007;

Pome fruit (apples and pears) expiring 30 October 2007.

The DFPT's request for the implementation of a new term of statutory measures in the deciduous fruit industry applies to the keeping of re records and returns, registration of

producers and exporters, as well as the payments of a levy of 5c/kg on export volumes of **table grapes**.

It is proposed that this request will be for a new four-year period, to coincide with the start of the new (2004/05) deciduous fruit season, to ensure a smooth roll over from the current measures into the new period, with effect from date of publication to 30 September 2008.

Registration and records and returns

In terms of registration (of producers and exporters) and records and returns, it is argued that the maintenance of macro industry statistics and market information is critical for long-term planning relating to production, orderly marketing and infrastructural capacity by the industry (producers and exporters), Government and service/input suppliers.

Levy

The requested levy of 5c/kg (unchanged) levels applicable on export volumes of table for the funding and provision of:

a) Trade related and market access issues;

Four key aspects have been identified as being required to address trade related and market access issues. These are:

- Technical requirements and legal framework;
- Lobbying and networking;
- Trade restrictions; and
- Market development.

Various sanitary and phytosanitary (SPS) restrictions, special market protocols and Pest Risk Analysis (PRA's), coupled to food safety, tracking and tracing, as well as maximum residue limits (MRL's) resulting in a systems approach to ensure conformance to market demands (a much broader approach to quality issues than ever

before) continue to be a major challenge for the industry. Close co-operation with the National and Provincial Departments of Agriculture, Trade and Industry and Foreign Affairs, as well as with exporting agents, the PPECB and third countries is maintained in this regard.

In addition trade restrictions needs to be addressed, whilst the development of key core markets via dedicated capacity are required to ensure that South African table grapes could be marketed in any market of choice.

b) Information and communication;

The availability of macro industry and market information is vital to enhance short, medium and long-term decision making in the industry. The following elements needs to be addressed:

- Statistics to identify trends and opportunities, to enhance planning and the optimal utilisation of logistical infrastructure and fruit movement;
- Market intelligence on developments in the various market segments and competing producer countries;
- Short-term fruit flow information; and
- Dissemination/Communication of information on these aspects to producers, exporters and other stakeholders in and around the industry.

Non-proprietary information is regarded as critical for long term planning relating to production, orderly marketing and infrastructural capacity by the industry (producers and exporters), Government and service/input suppliers.

The statutory measures requested herewith, are required that the various role players indicated above, render returns on an individual basis so that market and production information for the whole of the country can be processed and disseminated. Obligatory registration will ensure that the statutory measures relating to records and returns, as well as levies, can be administered successfully and cost-effectively.

It is expressly recorded that no proprietary or confidential marketing information will be requested from any role player.

c) Research & Technology;

The South African table grape industry can only prosper over the long term if it is an effective global player. This means offering the international market only the best quality grapes, which conforms in all respects to the market demands and requirements at the lowest cost.

Applied and basic research and technological development is the basis of international competitiveness, and thus of the sustainable profitability of the industry. Sufficient and a stable source of R&D funds are therefore of the utmost importance to realise the international opportunities for the industry, whilst the effective transfer and implementation of new technology are vital to ensure cutting edge production and fruit handling practices.

A strong scientific knowledge base and capacity is also required to ensure continued access to discerning world markets and to ensure access to new markets to ensure an optimal distribution of the RSA crop.

The industry utilises various centres of excellence in the spheres of R&D technical services, training and the transfer of technology to ensure its competitive edge is maintained to ensure continued profitability in a very hostile international environment.

A number of plant improvement services, including certification of superior plant material, are being rendered on an industry basis. This includes dealing with certain quarantine organisms, genetic upgrading of cultivars, phytosanitary upgrading of plant material, horticultural evaluation, the maintenance of nucleus, foundation and mother blocks, as well as the multiplication and certification of superior plant material.

It should be noted that it is the intention of the SAT that the funding of cultivar development, which hitherto formed part of the R&D effort, will be discontinued within the next 12-18 months. The idea is to transform this programme in conjunction with the ARC into a self-sustaining, free-standing commercial venture within this time period.

d) Transformation and Training; and

The DFPT and SAT acknowledges the importance of a well-structured strategy to enhance the transformation of the industry throughout the value chain and not just on production (land reform) level.

To this effect a Transformation and Training strategy is followed which focuses on various elements relating *inter alia* to:

- I. Social Development;
- II. Learning and Education;
- III. Economic Development; and
- IV. Land reform.

As prescribed by the NAMC, a minimum of 10% of the statutory levies will be spent in this arena over the 4-year period.

In addition, the resources this will provide to the industry's Transformation & Training Strategy which was agreed with a wide range of stakeholders in and around the industry, will ensure a meaningful process to facilitate sustainable economic empowerment within the industry's value chain for previously disadvantaged groups, as well as much needed training.

It is argued that the outputs resulting from the utilisation of an increased research and development levy will contribute to the optimisation of export earnings and enhancement of the viability of the agricultural sector.

Directly affected groups in the deciduous fruit industry are hereby invited to forward any comments regarding the proposed statutory measures to the National Agricultural Marketing Council within 14 days of the publication hereof.

Submissions should be in writing and be addressed to:

NOTICE 1157 OF 2004
INTERNATIONAL TRADE ADMINISTRATION COMMISSION

**NOTICE OF INITIATION OF AN INVESTIGATION INTO THE ALLEGED DUMPING OF
CHEDDAR CHEESE ORIGINATING IN OR IMPORTED FROM IRELAND**

The International Trade Administration Commission (the Commission) received a petition alleging that cheddar cheese originating in or imported from Ireland are being dumped on the Southern African Customs Union (SACU) market, causing material injury to the SACU industry concerned.

THE PETITIONER

The petition was lodged by Milk South Africa being the representative body of the producers of the product under investigation in the SACU. The Petitioner alleges that it cannot compete with the low prices charged by the importers and that the allegedly dumped products are causing it material injury. The Petitioner submitted sufficient evidence and established a *prima facie* case to enable the Commission to arrive at a reasonable conclusion that an investigation should be initiated on the basis of dumping, material injury and causality.

THE PRODUCT

The product allegedly being dumped is cheddar cheese, classifiable under tariff subheading 0406.90, originating in or imported from Ireland. The South African Revenue Services indicated that it could not administer anti-dumping duties on "cheddar cheese", therefore, if the Commission finds that cheddar cheese originating in or imported from Ireland is being dumped on the SACU market and causing material injury to the SACU industry, the Commission may recommend to the Minister of Trade and Industry to impose

provisional payments and/or anti-dumping duties on all cheese originating in or imported from Ireland, classifiable under tariff subheading 0406.90.

THE ALLEGATION OF DUMPING

The allegation of dumping is based on the comparison between the normal value in and the export price from Ireland. The normal value was determined based on prices labels obtained by the Petitioner in Ireland. The export price was determined based on the official import statistics obtained from the South African Revenue Service. On this basis, the Commission found that there was *prima facie* proof of dumping.

THE ALLEGATION OF MATERIAL INJURY

The Petitioner alleges and submitted sufficient evidence to show that there is price undercutting and that the imports in question are suppressing its selling prices. The Petitioner's information indicated a decline in sales, output, market share and capacity utilisation. It also indicated an increase in inventories. It further indicated that there is a negative effect on cash flow and employment. It was also evident that the decrease in market share has been at the expense of a corresponding increase in the market share of the allegedly dumped goods. On this basis the Commission found that there was *prima facie* proof of material injury and causal link.

PERIOD OF INVESTIGATION

The period of investigation for purposes of determining the dumping margins in the respective exporting countries or countries of origin will be from 1 January 2003 to 31 December 2003. The period of investigation for purposes of determining injury will be for the years 2001, 2002 and 2003, ending December of each year. If there are subsequent events that are relevant to injury the Commission may later request and consider further, more recent information.

PROCEDURAL FRAMEWORK

Having decided that there is sufficient evidence and a *prima facie* case to justify the initiation of an investigation, the Commission has begun an investigation in terms of section 16 of the International Trade Administration Act, 2002 (the ITA Act). The Commission will conduct its investigation in accordance with the relevant sections of the ITA Act, the World Trade Organisation Agreement on Implementation of Article VI of the GATT 1994 (the Anti-Dumping Agreement) and the Anti-Dumping Regulations of the International Trade Administration Commission of South Africa (ADR). Both the ITA Act and the ADR are available on the Commission's website (www.itac.org.za) or from the Trade Remedies section, on request.

In order to obtain the information it deems necessary for its investigation, the Commission will send non-confidential versions of the petition and questionnaires to all known importers and exporters, and known representative associations. The trade representatives of the exporting countries have also been notified. Importers and other interested parties are invited to contact the Commission as soon as possible in order to determine whether they have been listed and were furnished with the relevant documentation. If not, they should immediately ensure that they are sent copies. The questionnaire has to be completed and any other representations must be made within the time limit set out below.

CONFIDENTIAL INFORMATION

Please note that if any information is considered to be confidential then a non-confidential version of the information must be submitted for the public file, simultaneously with the confidential version. In submitting a non-confidential version the following rules are strictly applicable and parties must indicate:

- where confidential information has been omitted and the nature of such information;
- reasons for such confidentiality;
- a summary of the confidential information which permits a reasonable

- understanding of the substance of the confidential information; and
- in exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be placed on the public file and be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously, will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

ADDRESS

The response to the questionnaire and any information regarding this matter and any arguments concerning the allegation of dumping and the resulting material injury must be submitted in writing to the following address:

PROCEDURES AND TIME LIMITS

All responses, including non-confidential copies of the responses, should be received by the Director: Trade Remedies I not later than 30 days from the date hereof, or from the date on which the letter accompanying the abovementioned questionnaire was received. The said letter shall be deemed to have been received seven days after the day of its dispatch.

Late submissions will not be accepted except with the prior written consent of the Commission. The Commission will give due consideration to written requests for an extension of not more than 14 days on good cause shown (properly motivated and substantiated), if received prior to the expiry of the original 30-day period. Merely citing insufficient time is not an acceptable reason for extension. Please note that the Commission will not consider requests for extension by Embassies on behalf of exporters.

The information submitted by any party may need to be verified by the Investigating Officers in order for the Commission to take such information into consideration. The Commission may verify the information at the premises of the party submitting the information, within a short period after the submission of the information to the Commission. Parties should therefore ensure that the information submitted will subsequently be available for verification. It is planned to do the verification of the

information submitted by the exporters within three to five weeks subsequent to submission of the information. This period will only be extended if it is not feasible for the Commission to do it within this time period or upon good cause shown, and with the prior written consent of the Commission, which should be requested at the time of the submission. It should be noted that unavailability of, or inconvenience to consultants will not be considered to be good cause. Parties should also ensure when they engage consultants that they will be available at the requisite times, to ensure compliance with the above time frames. Parties should also ensure that all the information requested in the applicable questionnaire is provided in the specified detail and format. The questionnaires are designed to ensure that the Commission is provided with all the information required to make a determination in accordance with the rules of Anti-Dumping Agreement. The Commission may therefore refuse to verify information that is incomplete or does not comply with the format in the questionnaire, unless the Commission has agreed in writing to a deviation from the required format. A failure to submit an adequate non-confidential version of the response that complies with the rules set out above under the heading "Confidential Information" will be regarded as an incomplete submission.

Parties who experience difficulty in furnishing the information required, or submitting in the format required, are therefore urged to make written applications to the Commission at an early stage for permission to deviate from the questionnaire or provide the information in an alternative format that can satisfy the Commission's requirements. The Commission will give due consideration to such a request on good cause shown.

Any interested party may request an oral hearing at any stage of the investigation in accordance with Section 5 of the ADR, provided that the party indicates reasons for not relying on written submission only. The Commission may refuse an oral hearing if granting such hearing will unduly delay the finalisation of a determination. Parties requesting an oral hearing shall provide the Commission with a detailed agenda for, and a detailed version, including a non-confidential version, of the information to be discussed at the oral hearing at the time of the request. Oral representations will be limited to one hour for SACU manufacturers and exporters and thirty minutes for importers.

If the required information and arguments are not received in a satisfactory form within the time limit specified above, or if verification of the information cannot take place, the Commission may disregard the information submitted and make a finding on the basis of the facts available to it.

Enquiries may be directed to the investigating officers, Mrs M Wagner at telephone (012) 428-7729 and Mr J Maphagela at (012) 428-7760.

GENERAL NOTICE
CUSTOMS AND EXCISE TARIFF APPLICATIONS
LIST 7/2004

The following applications concerning the Customs and Excise Tariff have been received by The International Trade Administration Commission of South Africa. (ITAC) Any objections to or comments on these representations should be submitted to the Chief Commissioner, ITAC, Private Bag X753, Pretoria, 0001, within six weeks of the date of this notice. Attention is drawn to the fact that the rates of duty mentioned in the applications are those requested by the applicants and that the Commission may, depending on its findings, recommend lower or higher rates of duty.

CONFIDENTIAL INFORMATION

Please note that if any information is considered to be confidential then a non-confidential version of the information must be submitted, simultaneously with the confidential version. In submitting a non-confidential version the following rules are strictly applicable and parties must indicate:

- *Where confidential information has been omitted and the nature of such information;*
- *A summary of the confidential information which permits a reasonable understanding of the substance of the confidential information; and*
- *In exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.*

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the commission in writing forthwith (and at e latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

PREAMBLE

WHEREAS section 24 of the Constitution of the Republic of South Africa 1996 grants everyone the right to an environment that is not harmful to their health or well-being and to have the environment protected, for the benefit of present and future generations, through reasonable legislative and other measures;

AND WHEREAS section 22 of the Constitution of the Republic of South Africa 1996 grants every citizen the right to choose their trade, occupation or profession freely provided that such practice of trade, occupation or profession may be regulated by law;

AND WHEREAS section 14(g) to (j) of the Architectural Profession Act 2000 empowers the South African Council for the Architectural Profession to take any steps it considers necessary for the protection of the public in their dealings with registered persons, for the maintenance of the integrity and the enhancement of the status of the architectural profession, for the improvement of the standards of services rendered by registered persons, to create an awareness amongst registered persons of the importance to protect the environment against unsound architectural practices, and, where, as a result of architectural related undertakings, public health and safety may be affected;

AND WHEREAS section 18 of the Architectural Professions Act 2000 empowers the South African Council for the Architectural Profession to register persons in the architectural profession in certain categories;

AND WHEREAS section 26 of the Architectural Profession Act 2000 requires the Council to make recommendations to the Council for the Built Environment regarding the work identified in terms of subsection (1) and prohibits a person not registered in terms of this Act to perform any kind of work identified for any category of professional registered in terms of this Act;

AND WHEREAS the activities of architectural related undertakings impact directly on communities and the South African society and its improved efficiency and effectiveness will enhance quality, productivity, health, safety, environmental outcomes and economic performance;

AND WHEREAS the architectural professions practise in a project-specific **environment** which is unique and complex, work with different investors, clients, contractual arrangements and consulting professions, and also with different site conditions, design, materials and technologies, and different contractors, specialist subcontractors and the workforce assembled for each project;

AND WHEREAS persons are registered with the South African Council for the Architectural Profession in categories according to their competence,

The South African Council for the Architectural Profession hereby recommends the following to the Council for the Built Environment, regarding the identification of work for the different categories of registered architectural professionals:

1. Definitions

In this recommendation, unless the context otherwise indicates –

- 1.1 “**Act**” means the Architectural Profession Act No 44 of 2000;
- 1.2 “**Architectural Compliance Certificate**” means the certificate in accordance with Schedule 3;
- 1.3 “**Architectural work**” comprises the business and management of the process of investigating, assessing, defining, conceptualising and designing a physical intervention in the environment, and processing the design through technological development and co-ordination of the input of professionals from other disciplines, to produce documentation which can be utilized for the tendering and construction of the project and which the architectural **professional** will use for the administration, cost and quality control of the construction process, with the ultimate purpose of delivering an architectural product which responds to the client’s requirements in a manner which exemplifies design excellence, enhancement of the environment, social responsibility, appropriate technology and quality of construction and the whole executed in an ethical, competent and professional manner;

- 1.4 "CBE" means the Council for the Built Environment established in terms of section 2 of the Council for the Built Environment Act, 2000;
- 1.5 "environment" means the surroundings in which humans exist, and include the natural environment, and the environment already altered by human intervention;
- 1.6 "EIA" means Environmental Impact Assessment;
- 1.7 "heritage" means any site or artefact of cultural or historical significance as described in the National Heritage Resources Act No 25 of 1999;
- 1.8 "HIA" means Heritage Impact Assessment;
- 1.9 "professional" means a person who is registered in terms of section 19(2)(a) of the Act;
- 1.10 "project complexity" is as defined below and is to be read in conjunction with Schedule 1: Identification of Work Matrix and Schedule 2: Project classification for Identification of Work:
- "simple projects" means simple buildings or groups of buildings in an uncomplicated grouping with low impact on its environs.
These are structures with low performance requirements, of simple utilitarian character, design and detail, and constructed utilising standard low technology building methods. They require a minimum of mechanical and electrical services or equipment, and basic civil works infrastructure.
 - "average projects" means buildings or groups of buildings in a relatively uncomplicated grouping with a medium impact on its environs.
These are structures with medium performance requirements, of average character and design or detail, up to three stories high, which require non-complex structural and civil works and an average level of mechanical or electrical equipment as could normally be handled by design-supply specialist contractors,
 - "complex projects" means a building or buildings in a large or complicated grouping with a significant impact on its environs.
These are structures with high performance requirements and demanding a sophisticated level of design and detail content to respond to specialised requirements. Complex buildings will usually incorporate comparatively large or specialised mechanical, electrical and other specialist installations, or be of complex structural or civil design;
- 1.11 "protected area" means an area of such natural or heritage significance that it is protected by legislation;
- 1.12 "SACAP" means the South African Council for the Architectural Profession established in terms of Section 2 of the Act;
- 1.13 "SIA" means Social Impact Assessment;
- 1.14 "site sensitivity" means the inherent importance of the site in environmental or heritage terms, as defined by the National Heritage Resources Act No 25 of 1999, the National Environmental Management Act No 107 of 1998 and the Local Government Municipal Systems Act No 32 of 2000;

Site sensitivity levels are as defined below:

"low sensitivity site" means a site that is not identified as, nor exhibits, any evidence of environmental or heritage significance and do not require EIA, HIA or SIA studies to be undertaken before development. Low sensitivity sites are normally, but not exclusively, within already developed urban areas;

"medium sensitivity site" means a site which exhibits some evidence of environmental or heritage significance which may require EIA, HIA or SIA studies dependent on the government agencies involved, for example in urban conservation areas;

"high sensitivity site" means a site identified as of special environmental or heritage significance which will require EIA, HIA or SIA studies to be undertaken to define the parameters for development, for example declared protected areas and urban conservation areas;

- 1.15 "urban conservation area" means an identified urban area governed by specific legislation and/or regulation to protect the heritage content of the existing built fabric

2. REGULATIONS

- 2.1 No person who is registered in any category referred to in Section 18 of the Act, may undertake **architectural work** unless such work is identified for the relevant category of registration in accordance with Schedules 1 and 2: Provided that a person registered in any particular category may perform the work identified for any lower category.
- 2.2 Subject to section 26(4) of the Act, any person who undertakes **architectural work** without being registered with **SACAP**, is contravening the **Act** and is guilty of an offence.
- 2.3 A **professional** capable of performing specialised **architectural work** which is not identified as falling within his or her category of registration, may on application to **SACAP** be granted exemption from the relevant identification of work rule in respect of such specialised work.
- 2.4 All submissions for approval of projects of an architectural nature by Local, Provincial or Central Government Authorities must be accompanied by an **Architectural Compliance Certificate** duly completed and signed by the architectural **professional** taking responsibility for the **architectural work** as commissioned. The **professional** shall keep a copy of the signed certificate on file.
- 2.5 Should any dispute arise from the interpretation of the definitions or the schedules, the South African Council for the Architectural Profession shall adjudicate and its decision shall be final and binding on the registered person.

SCHEDULE 1: IDENTIFICATION OF WORK MATRIX

- **SCHEDULE 1** is to be read in conjunction with **SCHEDULE 2: PROJECT CLASSIFICATION FOR IDENTIFICATION OF WORK** and also with the following: National Heritage Resources Act No 25 of 1999, (including aspects pertaining to Social Considerations) the National Environmental Management Act No 107 of 1998 and the Local Government Municipal systems Act No 32 of 2000
- Compliance is required by the Professional, with the provisions of Sections 26(3) and 26(4) of the Act and with the competency requirements of the SACAP Code of Professional Conduct. (Board Notice 28 of 2004)
- The Registered Person will further be required to accept responsibility for providing the respective local authority with such drawings, details and particulars as it may require in terms of the National Building Regulations.

This certificate serves only to confirm compliance by the Registered Person in terms of the Architectural Professions Act 44 of 2000, with Sections 26(3) and 26(4) regarding competency to perform the architectural work identified in their registration conditions for the specified project in this certificate, and does not in any way imply compliance or approval of any other regulations, standards or conditions of or by any authority concerned.

PUTTING THE IDENTIFICATION OF WORK SYSTEM INTO PRACTICE

Further to the Regulations in terms of Section 26 of the Architectural Professions Act 2000, and Schedules 1 and 2, the following notes and guidelines are provided to assist **professionals** to comply with the requirements:

NOTES

1. **SACAP** is charged with the protection of the public interest by ensuring that all **architectural work**, which affects the human and natural **environments**, is only carried out by **professionals** who are properly qualified, competent, ethical and who adhere to a professional code of conduct.
2. The now redundant reservation of work regulations based on 500 square meters building area, was a mechanism that bore no correlation to actual competencies. It also made no distinction between different categories of architectural practitioners, as it only recognised architects. As such the regulations did not properly protect the public interest as persons could do work for which they were not qualified.

The new identification of work regulations, in terms of the Architectural Profession Act No 44 of 2000, recognise the difference between the qualifications and competencies of an expanded group of architectural practitioners thus affording better protection to the public and the **environment**.

3. The new Registration Framework put in place by **SACAP** allows a **professional** to progress from Professional Draughtsperson through to Professional Architect given compliance with the educational and experience requirements. The identification of work system should therefore not be seen as a limitation, but rather as a motivation for the registered person to develop in his/her career.
4. With the new regulations the responsibility resides directly with **professionals** to ensure that they do not undertake commissions for which they are not qualified, or for which they are not specifically exempted by **SACAP**.

Non-compliance with this requirement will place a **professional** in breach of the **SACAP** Code of Conduct, and under censure with the possibility of a fine or removal from the register.

Should the consequence of such non-compliance by the **professional** be to endanger human life or have detrimental environmental effects, the **professional** would be open to prosecution under the law.

GUIDELINES

1. In order to determine whether a commission falls within the scope of work identified for a particular category of **professional**, the definitions and schedules are to be consulted in the first instance.
2. Schedule 1 provides a broad identification of areas of work, which may be carried out by each registration category.

The site sensitivity can generally be established from the land use, nature conservation or heritage legislation contained in the National Heritage Resources Act No 25 of 1999, the National Environmental Management Act No 107 of 1998, the Local Government Municipal Systems Act No 32 of 2000 and other relevant legislation.

The complexity of the building or group of buildings could be more difficult to determine. Schedule 2 provides a more detailed guide for the determination of this aspect. Schedule 2 has been developed on the basis of Classification of Buildings as contained in the National Building Regulations published in terms of the National Building Regulations and Building Standards Act No 103 of 1977.

3. Should the **professional** still be unsure whether a commission falls within the scope of the work identified for his/her category of registration, **SACAP** is to be contacted for a determination.

BOARD NOTICE 71 OF 2004
FINANCIAL SERVICES BOARD

FINANCIAL ADVISORY AND INTERMEDIARY SERVICES ACT, 2002
(ACT NO. 37 OF 2002)

**EXEMPTION OF LICENSEES AS REGARDS REFERENCES TO LICENCES IN
BUSINESS DOCUMENTATION**

I, Jeffrey van Rooyen, Registrar of Financial Services Providers, hereby exempt under section 44(4), read with section 44(1)(b) and (c), of the Financial Advisory and Intermediary Services Act, 2002 (Act No. 37 of 2002), licensees from section 8(8)(b) of the Act to the extent and subject to the provisions as set out in the Schedule.

J VAN ROOYEN,
Registrar of Financial Services Providers

SCHEDULE

FINANCIAL ADVISORY AND INTERMEDIARY SERVICES ACT, 2002 (ACT NO. 37 OF 2002)

EXEMPTION OF LICENSEES AS REGARDS REFERENCES TO LICENCES IN BUSINESS DOCUMENTATION

Definitions

1. In this Schedule, "the Act" means the Financial Advisory and Intermediary Services Act, 2002 (Act No. 37 of 2002), any word or expression to which a meaning has been assigned in the Act shall have that meaning and, unless the context otherwise indicates-

"commencement date" means the date determined by the Minister in terms of section 7(1) of the Act;

"existing business documentation", in relation to a licensee, means business documentation, advertisements and other promotional material contemplated in section 8(8)(b) of the Act, of such licensee which exists on the commencement date.

Objective of exemption

2. Section 8(8)(b) of the Act provides that every licensee must ensure that a reference to the fact that a licence is held is contained in all business documentation, advertisements and other promotional material. This provision will come into full operation on the commencement date.

The registrar has determined that there will be many licensees who may have to reprint existing business documentation, in order to comply with section 8(8)(b) of the Act. This duplication of existing documents is capable of causing financial hardship to such licensees as contemplated in section 44(1)(b), read with section 44(4)(b), of the Act. The registrar has consequently decided that it would be reasonable to exempt licensees from the provisions of section 8(8)(b) as regards existing business documentation.

This exemption will only be valid for a period of twelve months after the commencement date, and is subject to the condition that licensees ensure that all other business documentation (whether being a reprint of existing business documentation or not), utilise on or after the commencement date, comply with the said section 8(8)(b). The registrar is satisfied that the exemption meets the requirements stated in section 44(1)(c) of the Act.

Extent of exemption and condition

3. Licensees are hereby exempted from the provisions of section 8(8)(b) of the Act with regard to all existing business documentation, on the condition that licensees ensure that all other business documentation (whether being a reprint of existing business documentation or not), put to use on or after the commencement date, comply with the said section 8(8)(b).

This exemption shall, subject to paragraph 4, be valid for a period of twelve months after the commencement date.

Amendment and withdrawal of exemption

4. An exemption mentioned in paragraph 3 may, subject to section 44(3) of the Act on the lapsing thereof, at any time-
 - (a) be amended by the registrar by notice in the in the *Gazette*; and
 - (b) be withdrawn by the registrar in like manner.

Short title and commencement

5. This Exemption is called the Exemption of Licensees as regards References to Licences in Business Documentation, 2004, and comes into operation on the date determined by the Minister in terms of section 7(1) of the Act.
