## NOTICE 397 OF 2006

# AGRICULTURAL MARKETING REVIEW

## Call For Public Comments

Since 1997, South Africa initiated a progressive process aimed at deregulating its agricultural marketing arrangements. The thrust of the deregulation in terms of the Marketing of Agricultural Products Act, 1996 (Act No. 47 of 1996), was to reorient agricultural marketing from a heavily regulated environment to a free marketing system. Additionally, it sought to meet the objectives of market access for all market participants, efficiency, and optimisation of export earnings and the enhancement of overall viability of the agricultural sector.

Since then, there has been a positive response to deregulation by some farmers, traders, processors and other service-providers along the marketing chains for most commodities in which we have a comparative advantage in producing. Deregulation has created many opportunities and resulted in an increase in the number of new entrepreneurs participating in different nodes of agricultural marketing value chains, ranging from production, processing, trading to supplementary services.

It is acknowledged that deregulation was tough on those who were used to protection and direct/indirect support measures from government. Nonetheless, the sector has to adjust to high levels of competitiveness across most value chains globally. The Strategic Plan for South African Agriculture was developed in 2001 with the vision of a united and prosperous agricultural sector and core interlinked objectives of global competitiveness, greater and more equitable sustainable resource use in the sector. In order to comprehensively assess the achievement of these aims, the objectives of the Marketing of Agricultural Products Act, 1996 (Act No. 47 of 1996), and the impact of deregulation, the Minister has decided to conduct a review of the past seven years of the deregulation process and the new marketing environment that it has brought about.

During the review, consideration will also be given to the underlying agricultural marketing legislation(s) to make sure that it is consistent with and supportive of the dynamic marketing and policy environment. To this end, the Minister appointed a committee comprising of suitably qualified and experienced candidates to undertake the review of the agricultural marketing environment. The following persons have been appointed to undertake the agricultural marketing review:

- Dr Mohammed Karaan (Chairperson)
- Ms Jean Davidson
- Dr Tobias Doyer
- Prof. Eckart Kassier
- Prof. Charles Machete
- Mr Bigman Maloa
- Dr Patrick Sokhela
- Prof. Herman van Schaikwyk
- Prof. Nick Vink.

Currently, the committee is hosting public hearings with different agro-industries to get information on the impact of deregulation within the different industries' marketing value chains. Interested stakeholders or directly affected groups are hereby requested to respond to the following set of questions in the form of submissions to the committee:

1. Provide a brief narrative summary of the process of deregulation of your industry in the period after the report of the Kassier Committee in 1992.

In this narrative, also show why things happened in the way and sequence in which they did.

2. Describe the organisational arrangements that have since been put in place to manage the affairs of your industry.
3. Describe the experience of your industry in the post-deregulation era with respect to:
  - Trends in total output
  - Trends in exports and imports
  - Trends in the use of resources (land, capital and labour)
  - Changes in the structure of the sector in terms of farm size, shifts in location of production, etc.
  - Social aspects such as schools, education, health, housing, etc.
  - Environmental impacts
  - Research and technology development
  - Competitiveness (global and domestic)
  - Regulatory environment and how they impact on business
  - Competitive behaviour
  - Prices and margins.
4. What in your view would the role players in your industry have done differently in terms of deregulation, if it had been able to?
5. Provide an overview of progress with land reform and Black Economic Empowerment in your industry. State whether deregulation had any impact here.
6. Provide an overview of your industry performance in relation to the following objectives of the Marketing of Agricultural Products Act, 1996 (Act No. 47 of 1996):
  - Increase market access for all market participants
  - Promote efficiency of the marketing of agricultural products
  - Optimise export earnings
  - Enhance viability of the agricultural sector.
7. Describe the most important factors in the global trade arena that impacted on your industry. How did your industry contend with them?
8. What can government do to improve marketing in your industry?
9. Identify the positive and negative impacts of deregulation on your industry, and provide your opinion on whether deregulation was beneficial.
10. Provide any other information that you would like the committee to take into consideration as well.

The deadline for written submissions from interested stakeholders is **29 March 2006**. Submissions and comments can be directed to the committee through the following contact details:

- 2.5 The rebate permit will be posted via ordinary mail to the applicant or, if requested, the applicant may collect the permit at ITAC's physical address as indicated above.

**Amendment of rebate permits**

- 2.6 Any request for an amendment of a rebate permit must be forwarded to ITAC for consideration.

- 2.7 Amendments will only be considered in the following instances:

- 1) Error by ITAC on permit;
- 2) Error by applicant regarding product description or tariff subheading. This will only be processed if request is accompanied by a confirmation from SARS in this regard.

**Note: No amendments of the statistical unit (quantity), which was applied for, will be considered – a new application has to be submitted in such instances together with the original previous permit.**

- 2.8 Should the amendment be approved, a new rebate permit will be issued to replace the original rebate permit.
- 2.9 Should any party displace a permit, the applicant should submit an affidavit on a company letterhead endorsed by a Commissioner of Oath, stating that the application was lost. ITAC will issue a new permit. Should the lost permit be found the applicant should return such a permit to ITAC.

**Extension of date on permit**

- 2.10 Extension of the date as indicated on the 470.03 permit will only be permitted for a period up to 3 months and only in instances where:
- a) An applicant has submitted a letter and supporting documents giving verifiable reasons for the extension; **and**
  - b) The permit has not expired.

**B ROLE OF ITAC AND SARS IN THE ADMINISTRATION OF 470.03**

1. In terms of the International Trade Administration Act, 2002, the Commission is the Government body that will consider all applications for permits. The Commission will be the permit-issuing

authority who has the final authority. The SARS, in co-operation with the International Trade Administration Commission, will be responsible for administering the scheme eg. Registration as user, bond registration, inspections and verifications of exports etc.

**C. CONDITIONS:**

1. In terms of the ITAC Brochure: "Delegation of power in terms of Section 15 of the ITA Act", Paragraph 26, all authority regarding the development of or changes to policy issues for rebate and drawback provisions shall reside with the Commission. Therefore, ITAC reserves the right to exclude certain products from the rebate item, based on economic considerations and for control purposes.
2. A full reply to ITAC's Application Form must be submitted by an applicant registered with SARS as a user of rebate item 470.03 in terms of the Customs and Excise Act, 1964. Proof of registration **from SARS stating that the applicant is registered with Customs and Excise must be submitted with the application.**
3. The manufactured, processed or packed product/s must be exported within 12 months from date of importation.
4. The export earnings must be repatriated to South Africa within 12 months of exportation – Form E repatriation form obtainable from SARB.
5. It will be compulsory to submit a VAT certificate when applying for a 470.03 permit.
6. It will be compulsory to submit an importer's code when applying for a 470.03 permit.
7. The imported material or its derivatives may not be sold on the domestic market nor within the Southern African Customs Union without prior permission from SARS and if approved, payment of the *import duties plus any penalties that may be imposed.*
8. In considering the approval and issue of rebate permits ITAC may make it a condition of the permit to require that goods be exported in such a lesser period as the circumstances may warrant. Any request for an extension of the stated period up to 12 months must be made to ITAC. Only extensions of the 12 month period prescribe in the notes to rebate item 470.00 will be considered by SARS.
9. **Duty free imported goods**  
Goods imported which are free of customs duty specified in parts 1 and 2 of Schedule 1 may under no circumstances be cleared under rebate item 470.03. It follows that if no customs duty is levied, there

is nothing to rebate. Each column in Schedule 1 Part 1 of the tariff is considered to be a separate rate of duty. It may be that the general rate of customs duty for a specific tariff is 10% ad valorem, whilst the EU and SADC rates for that tariff is free. If goods are imported from any EU or SADC country under that specific tariff, they will not qualify for clearance under Schedule 4. However, if such goods are imported under the specific tariff item from any other country, which will be liable to the general rate of duty, they may be cleared under Schedule 4.

10. **BLNS countries**

Only goods destined for importers in South Africa and for which a valid permit has been issued by ITAC may be entered under rebate item 470.03 at any place of entry in the Republic. Goods intended for clearance under rebate item 470.03 and destined for the BLNS countries may only be removed in bond to those countries, after the appropriate security has been lodged with Customs and Excise. *No exceptions in this regard may be made.*

11. **DCCS**

It is a requirement of the DCCS that in order for goods imported under the rebate provisions of Schedules 3, 4 or 5 to qualify for DCC's, two full stages of transformation must be achieved. This would mean that, for example, yarn may be imported to manufacture fabric which may be used in the manufacture of clothing that will be exported. It is therefore possible that goods imported under rebate item 470.03 may be sufficiently transformed to qualify for DCCS purposes.

12. **MIDP manufacturers**

Component manufacturers for the MIDP are registered to import specific materials for use in the manufacturing process under rebate item 317.06 for supply to motor vehicle manufacturers as original equipment or for purposes of the after market. Under no circumstances may goods manufactured from materials imported under rebate item 470.03 be supplied to motor vehicle manufacturers as original equipment or to the after market unless permission has been given to bring the duties and VAT to account.

Should a manufacturer be registered for both rebate item 317.06 and 470.03, care must be taken that the goods imported under the two provisions are not mixed as these provisions have different conditions that must be complied with.

13. **Trade Agreements and other preferential trade agreements**

Nothing would prevent the importation of materials under rebate item 470.03 for the manufacture of goods for export under preferential trade arrangements, provided such goods manufactured comply with the origin requirements of such specific preferential trade

arrangements in place in the country to which the goods are exported.

14. **Value-added Tax**

Clearances of goods made under the rebate item are exempted from the payment of value-added tax in terms of item 470.00 of Schedule 1 to the Value-Added Tax Act. Should the customs duty under any circumstances become payable on such goods value-added tax will be collected as well.

15. Failure to comply with any of these conditions could result in payment of the duty, VAT, penalties, prosecution and seizure of the goods or withdrawal of registration.
