Method of Determining the Maturity of Peaches, Nectarines and Pears by Means of the Pressure Test.

6. In the case of peaches, nectarines and pears where the maturity is determined by means of the pressure test, the pressure shall be determined as follows:—

- (1) Take a random sample consisting of at least two fruits in the case of peaches, at least three fruits in the case of nectarines and in the case of pears, at least two fruits from each tray or at least four fruits from any other type of container in which pears are packed, from each container in a sample, of the deciduous fruit concerned, which shall consist of at least two per cent, according to number, of each type of container or grade or count group or variety of each kind of deciduous fruit in a consignment examined.
- (2) Remove a small piece of skin from two opposite sides of each fruit, or the suture of the fruit in the case of peaches and nectarines, in the random sample, and determine the pressure of the fruit, at the spot where the skin has been removed, by means of a Ballauf pressure tester, fitted with a plunger of $\frac{7}{16}$ inch in the case of peaches and nectarines and with a plunger of $\frac{5}{16}$ inch in the case of pears.
- (3) The average pressure reading thus obtained in respect of each random sample shall be deemed as representative of the average pressure of the fruits in the type of container or grade or count group or variety in question of the kind of deciduous fruit in the sample examined.

Determining the Ratio of Soluble Solids to Acid by Means of a Brix Hydrometer and Determining the Number of Berries per Pound of Grapes.

7. (1) *Determining Ratio of Soluble Solids to Acid.*—The ratio of soluble solids to acid in grapes shall be determined as follows:—

- (a) Two pounds of the most immature grapes in a container examined shall be selected for testing.
- (b) Two tests shall be made for every 100 containers, or part thereof, in a consignment.
- (c) Where less than four tests are made and the result of one of the tests does not comply by less than one unit with the minimum ratio of soluble solids to acid as prescribed in paragraph (b) of sub-regulation (4) of regulation 5 for the particular variety, but the average result of the tests made in respect of the consignment in question complies with the prescribed minimum requirements, that consignment shall be deemed to comply with those requirements.
- (d) Where more than four tests are made and the results of two of the tests do not comply by less than one unit with the minimum ratio of soluble solids to acid as prescribed in paragraph (b) of sub-regulation (4) of regulation 5 for the particular variety, but the average result of the tests made in respect of the consignment in question complies with the minimum requirements, that consignment shall be deemed to comply with those requirements.

(2) *Determining Number of Berries per Pound of Grapes.*—(a) The number of berries per pound of grapes shall be determined by selecting bunches of grapes with the smallest berries in the container examined, and weighing off two pounds of these bunches. The berries on the bunches in the two pounds of grapes thus weighed, shall then be counted and the average of that number of berries shall be deemed to be the number of berries per pound of grapes in the container in question.

(b) Two tests, as defined in paragraph (a) of this sub-regulation, shall be made for every 100 containers, or part thereof, in a consignment and the average result of all the tests shall be deemed to be the number of berries per pound of grapes for the consignment in question.

Metode van bepaling van ryheidstadium van perskes, kaalperskes en pere deur die druktoets.

6. In die geval van perskes, kaalperskes en pere waar die ryheid deur die druktoets bepaal word, moet die druk soos volg bepaal word:—

- (1) Neem 'n steekproefmonster bestaande uit minstens twee vrugte in die geval van perskes, minstens drie vrugte in die geval van kaalperskes en in die geval van pere, minstens twee vrugte uit elke plakkissie of minstens vier vrugte uit elke ander tipe houer waarin pere verpak word, uit elke houer van 'n monster van die betrokke sagtevrugte, wat moet bestaan uit minstens twee persent volgens getal, van elke tipe houer of graad of tellinggroep of variëteit van elke soort sagtevrugte in 'n besending, wat ondersoek word.
- (2) Sny 'n klein stukkie skil aan die twee teenoor-gestelde kante van elke vrug, of die naat van die vrug in die geval van perskes en kaalperskes, in die steekproefmonster, af, en stel die druk van die vrug vas, op die plek waar die skil verwijder is, deur middel van 'n Ballauf-drukmeter wat toegerus is met 'n suier van $\frac{7}{16}$ duim in die geval van perskes en kaalperskes en met 'n suier van $\frac{5}{16}$ duim in die geval van pere.
- (3) Die gemiddelde druklesing wat aldus verkry is ten opsigte van elke steekproefmonster word geag ver-teenwoordigend te wees van die gemiddelde druk van die vrugte in die betrokke tipe houer of graad of tellinggroep of variëteit van die soort sagtevrugte in die monster wat ondersoek is.

Bepaling van verhouding van oplosbare vaste stowwe tot suur met 'n Brix-hidrometer en bepaling van getal korrels per pond druwe.

7. (1) *Bepaling van verhouding van oplosbare vaste stowwe tot suur.*—Die verhouding van oplosbare vaste stowwe tot suur van druwe moet soos volg bepaal word:—

- (a) Twee pond van die onrypte druwe in 'n houer wat ondersoek is moet uitgesoek word vir toetsing.
- (b) Twee toetse vir elke 100 houers, of gedeelte daarvan, in 'n besending moet gemaak word.

- (b) Enige saldo van die lopende siekterlof wat nie gedurende die jaar waarin die werknemer daarmee gekrediteer is, geneem is nie, moet aan die einde van elke sodanige jaar as opgehoorte siekterlof in die verlofregister in die kredit van die werknemer geboek word.
- (c) Die opgehoorte siekterlof waarmee 'n werknemer te eniger tyd in die verlofregister gekrediteer is, mag hoogstens 150 dae met volle besoldiging en 150 dae met half besoldiging beloop, en enige tydperk wat langer as dié getal dae is, word verbeur en moet van die register verwijder word.

(4) An application for sick leave in excess of three days shall be supported by a medical certificate framed in such terms as will enable the Council's Medical Officer of Health to decide whether the applicant is or is not in a fit state of health to perform his duties and whether the period of leave applied for is necessary to restore him to health, provided that a Head of Department may require an employee to submit an application for sick leave for a period of less than three days, and the Town Clerk may require a Head of a Department to submit a medical certificate for a period of less than three days.

(5) Sick leave shall only be granted in cases where the applicant is confined to his home or in hospital or is wholly incapacitated from carrying out his duties.

(6) (a) An employee who absents himself from duty for more than three (3) days because of illness shall, not later than the fourth day submit an application in terms of clause 13 hereof, unless circumstances render this course impossible in which case the application shall be submitted as soon as possible, or in any case not later than the date on which the employee resumes duty.

(b) Any employee who fails, without reasonable cause, to give such notification within six (6) days of his absence shall be deemed to have left the service of the Council.

CLAUSE 12.—DATE OF LEAVE SUBJECT TO EXIGENCIES OF SERVICE.

CLAUSE 13.—APPLICATION FOR AND GRANTING OF LEAVE.

All applications for leave shall be made to the Head of the Department concerned for submission to the Town Treasurer together with the recommendation of the Head of Department for report by the Town Treasurer to the Management Committee for approval, provided that leave, not exceeding eight (8) days may in urgent cases be granted by the Town Clerk in consultation with the Head of the Department concerned and the Chairman of the Management Committee and in the case of the Town Clerk by the Chairman.

CLAUSE 14.—EXCLUSION FROM LEAVE.

An employee whose leave commences on a Monday shall not be required to report for duty on the immediately preceding Saturday or Sunday but neither such Saturday nor Sunday shall be regarded as leave days.

CLAUSE 15.—LEAVE ERRONEOUSLY GRANTED.

In the event of leave being erroneously granted to and taken by an employee, such leave being in excess of the amount to which he is entitled under these Leave Provisions, such overgrant of leave shall be deducted from any leave which may subsequently accrue to him, or, in the event of his leaving the service before sufficient leave has accrued to compensate for such overgrant of leave, the excess shall be set off against any moneys due to such employee, or otherwise recovered from him.

(2) In special cases the Management Committee may approve payment of remuneration in advance for sick leave.

CLAUSE 18.—PAYMENT IN LIEU OF LEAVE ON TERMINATION OF SERVICE.

On final termination of service of an employee, any balance of vacation leave and the pro rata share of vacation leave due in respect of any incomplete year of service shall be added in the leave register to the accumulated leave already accrued and the value of the resultant total shall be paid to the employee or, if termination of service be by death, to his estate.

(2) Siekte gedurende afwesigheid met verlof is slegs ten opsigte van die tydperk waarmee die afwesigheid van diens weens siekte verleng word, aan 'n aansiek om siekterverlof onderworpe.

(3) Enige tydperk van afwesigheid van diens weens siekte wat langer is as dié waarvoor daar in klosule 11 (1) voorsiening gemaak word, word geag vekansieverlof, opgehoopde verlof of verlof sonder betaling te wees, na gelang die werknemer dit verkieks.

(4) 'n Aansoek om siekterverlof vir 'n langer tydperk as drie dae, moet gesteun word deur 'n geneeskundige sertifikaat wat so opgestel is dat dit die Raad se Geneeskundige Gesondheidsbeampte in staat sal stel om te besluit of die applikant gesond genoeg is om sy pligte uit te voer of nie en of die tydperk van verlof waarom daar aansoek gedoen is, vir sy herstel nodig is; met dien verstande dat 'n departementshoof van 'n werknemer mag vereis om 'n aansoek om siekterverlof in te dien vir 'n tydperk van minder as drie dae en dat die Stadsklerk van 'n departementshoof mag vereis om 'n geneeskundige sertifikaat in te dien vir 'n tydperk van minder as drie dae.

(5) Siekterverlof word alleenlik in dié gevalle verleen waar die applikant in sy huis of in die hospitaal moet bly of heeltemal ongeskik is om sy pligte uit te voer.

(6) (a) 'n Werknemer wat vir meer as drie (3) dae van die werk af wegblie weens siekte, moet voor of op die vierde dag 'n aansoek ooreenkomsdig klosule 13 hiervan indien tensy omstandighede so 'n stap onmoontlik maak, en in so'n geval moet die aansoek so gou moontlik of in elk geval voor of op die dag waarop die werknemer sy diens hervat, ingediens word.

(b) 'n Werknemer wat sonder 'n afdoenende rede versuim om binne ses (6) dae aldus kennis van sy afwesigheid te gee, word geag die diens van die Raad te verlaat het.

KLOUSULE 12.—DATUM VAN VERLOF ONDERWORPE AAN VEREISTES VAN DIENS.

Die datum waarop 'n werknemer vakansie- of opgehoopde verlof wat ingevolge hierdie Verlofbepalings aan hom verskuldig is, mag neem, is dié datum wat, behoudens die bepalings van klosule 9 (2), deur die vereistes van die diens moontlik gemaak word.

KLOUSULE 13.—AANSOEK OM EN VERLENGING VAN VERLOF.

Alle aansoeke om verlof moet aan die betrokke departementshoof gerig word vir voorlegging aan die Stadsesourier tesame met die aanbeveling van die departementshoof, en die Stadsesourier moet sodanige aansoek en aanbevling na die Bestuurskomitee verwys vir goedkeuring, met dien verstande dat verlof van hoogstens agt (8) dae in dringende gevalle deur die Stadsklerk in oorleg met die betrokke departementshoof en die Voorsitter van die Bestuurskomitee, en in die geval van die Stadsklerk, deur die Voorsitter verleen mag word.

KLOUSULE 14.—UITSLUITING VAN VERLOF.

Van 'n werknemer wie se verlof op 'n Maandag begin, mag daar nie vereis word om op die onmiddellik voorafgaande Saterdag of Sondag vir diens te rapporteer nie, maar nòg sodanige Saterdag nòg sodanige Sondag word as verlofdae beskou.

KLOUSULE 15.—VERLOF VERKEERDELIK VERLEEN.

Ingeval verlof verkeerdelik verleent word aan en geneem word deur 'n werknemer en sodanige verlof vir 'n langer tydperk is as die getal dae waarop hy ingevolge hierdie verlofbepalings geregtig is, moet die getal dae wat te veel verleent is, afgetrek word van enige verlof wat hom later mag toekom of, in geval hy die diens verlaat voordat voldoende verlof opgeleop het om te vergoed vir die verlof wat te veel aan hom verleent is, moet die waarde van die getal dae wat te veel aan hom verleent is, in mindering gebring word teen gelde wat aan sodanige werknemer verskuldig is of op 'n ander manier op hom verhaal word.

KLOUSULE 16.—TOELAES TERWYL MET VERLOF.

'n Werknemer moet gedurende enige afwesigheid met verlof aanhou om die behuisingsstoelae te ontvang wat op sy pos van toepassing is.

KLOUSULE 17.—VOORUITBETALING VAN BESOLDIGING VIR VERLOFTYDPERK.

(1) 'n Werknemer aan wie ander verlof as siekterverlof of verlof sonder betaling verleent is, moet, wanneer hy op die voor geskrewe vorm aansoek daarom by die Stadsesourier doen, vooruit ten opsigte van sodanige verlof besoldig word tot aan die einde van die tydperk waaroor die verlof verleent is of vir dié gedeelte daarvan waarom die werknemer vra.

(2) In spesiale gevalle kan die Bestuurskomitee die vooruitbetaling van besoldiging in die geval van siekterverlof goedkeur.

KLOUSULE 18.—BETALING IN PLAAS VAN VERLOF BY DIENSBEËINDIGING.

Wanneer die diens van 'n werknemer finaal beëindig word, moet enige saldo van vakansieverlof en die pro rata gedeelte van die vakansieverlof wat ten opsigte van 'n onvoltooide jaar diens aan hom verskuldig is, in die verlofregister bygetel word by die opgehoopde verlof wat hom alreeds toekom, en die waarde van die totale getal dae aldus verkry, moet aan die werknemer of, by die beëindiging van sy diens weens dood, aan sy boedel betaal word.

CLAUSE 19.—ADJUSTMENT FOR LEAVE WITHOUT REMUNERATION.

Where an employee has taken leave without remuneration other than due to illness, the date on which leave is due annually shall become postponed to the extent of the leave without remuneration so taken.

CLAUSE 20.—ADJUSTMENT OF LEAVE.

Any leave due to an employee under Administrator's Notice No. 307 of the 8th August, 1922, as amended, or any pro rata portion of annual leave and bonus leave (including bonus leave in the case of employees with less than three years' service) which would, but for coming into operation of these Leave Provisions, in due course have become due to the employee, shall from the date of coming into operation of this Agreement be placed to the credit of the employee as accumulated leave. The vacation leave credit for the remainder of the year of service in respect of which the pro rata calculation was so made shall, be on a pro rata basis in accordance with Annexure 2: Provided that, notwithstanding the provisions of clause 9 (4) any leave in excess of the maximum period of 180 days prescribed therein resulting from the adjustment of leave in accordance with this clause shall not be forfeited.

Representing the Council.

Representing the Association.

KLOUSULE 19.—AANPASSING VIR VERLOF SONDER BEOLDIGING.

Waar 'n werknemer verlof sonder besoldiging geneem het om 'n ander rede as weens siekte, word die datum waarop sy verlof jaarliks verskuldig word, uitgestel vir die tydperk van verlof sonder besoldiging wat aldus geneem is.

KLOUSULE 20.—AANPASSING VAN VERLOF.

Enige verlof wat kragtens Administrateurskennisgewing No. 307 van 8 Augustus 1922, soos gewysig, aan 'n werknemer verskuldig is of enige pro rata gedeelte van die jaarlikse verlof en bonusverlof (met inbegrip van bonusverlof in die geval van werknemers met minder as drie jaar diens) wat, as hierdie verlof-bepalings nie in werking getree het nie, ter bestemmer tyd aan die werknemer verskuldig sou geword het, moet met ingang van die datum van inwerkingtreding van hierdie Ooreenkoms in die kredit van die werknemer as opgehoede verlof geboek word. Die vakansieverlofkredit vir die res van die jaar diens ten opsigte waarvan die pro rata berekening aldus gemaak is, word op 'n pro rata grondslag verleen ooreenkomstig Aanhangsel 2: Met dien verstande dat, ondanks die bepalings van klosule 9 (4), enige verlof wat langer is as die maksimum tydperk van 180 dae soos daarin voorgeksryf en wat ontstaan as gevolg van die aanpassing van die verlof ooreenkomstig hierdie klosule, nie verbeur mag word nie.
