Purpose and aims of statutory measure and the relation thereof to objectives of the Act

2. The purpose and aims of this statutory measure are to provide financial support for the wheat research function that the wheat industry has identified as essential and in the interest of the industry as a whole.

Research is essential for the furtherance of the wheat industry's competitive position, especially by way of continuously developing new cultivars with improved quality characteristics that are indispensable to the sustained production of wheat in the Republic of South Africa. The specific infrastructure that has been created for research over time at various institutions, will be taken into account. It is essential that this infrastructure created by way of research levies collected under the previous agricultural dispensation, be retained and maintained to the benefit of the wheat industry. A portion of the levies thus collected will be utilised for administrative functions to facilitate this research. A portion of the funds for research collected by means of this levy will also be focussed on research for small-scale farmers and the developing winter cereal industry.

A registration database of wheat millers that will be maintained by way of statutory registration by the South African Grain Information Service, a company incorporated under section 21 of the Companies Act, 1973 (Act No. 61 of 1973), will be used to identify those compelled to pay levies.

The establishment of this statutory measure will not only assist in increasing market access for all participants but will also enhance the viability of the wheat industry and, in times of local surpluses, contribute towards the optimisation of export earnings from wheat. The establishment of this statutory measure will in fact further all the objectives of the Act as stipulated in section 2 thereof.

This statutory measure shall be administered by the Trust. The levies collected in terms of this statutory measure shall be administered as a separated account, and any surplus or deficit shall at the date of termination of this statutory measure, be for the account of the Trust.

Purpose and aims of Statutory measure and the relation thereof to objectives of the Act

2. The purpose and aims of this statutory measure are to finance winter cereal information functions that the wheat industry has identified as essential and in the interest of the industry as a whole.

The maintenance of macro industry information is regarded as critical for strategic planning by the winter cereal industry, as well as the directly affected groups individually. The supplying of generic market information to all role-players, on a continuous basis, is essential in order for the market to operate effectively. The phasing out of the Wheat Board, that has up to now rendered this service to the industry, has resulted in a vacuum with regard to the supply of generic market information.

Proper and accurate winter cereal market information that is obtainable continuously and timeously, will not only increase market access for all participants, but will also promote efficiency in the marketing of winter cereal and winter cereal products. Furthermore, proper market information will enhance the viability of the winter cereal industry and the agricultural sector at large. A portion of the funds collected by means of this levy will also be focussed on information for small-scale farmers and the developing winter cereal industry. The establishment of this statutory measure will in fact further all the objectives of the Act as stipulated in section 2 thereof.

It is envisaged that SAGIS will render the information service to the industry. A registration database of winter-cereal processors, that will be maintained by way of statutory registration by SAGIS, will be used to identify those compelled to pay levies.

This statutory measure shall be administered by the Trust. The levies collected in terms of this statutory measure shall be administered as a separate account; and any surplus or deficit shall at the date of termination of this statutory measure, be for the account of the Trust.

Navorsing is noodsaaklik om die koringbedryf se mededingende posisie te bevorder, veral by wyse van deurlopende ontwikkeling van nuwe kultivars met verbeterde kwaliteitseienskappe wat onontbeerlik is vir die volgehoue produksie van koring in die Republiek van Suid-Afrika. Die spesifieke infrastruktuur wat oor tyd deur verskeie instansies vir navorsing ontwikkel is word hierdeur in ag geneem. Dit is noodsaaklik dat hierdie infrastruktuur wat ontwikkel is deur navorsingsheffings onder die vorige landboubermerkingswetgewing gevorder, behou en onderhou moet word tot voordeel van die koringbedryf. 'n Deel van die heffings aldus ingevorder sal aangewend word vir administratiewe funksies om hierdie navorsing te fasiliteer. 'n Deel van die heffings vir navorsing ingevorder by wyse van hierdie heffing sal ook toegespits word op navorsing vir kleinskaal boere en die ontwikkelende wintergraanbedryf.

Die instelling van hierdie statutêre maatreël sal feitlik al die doelwitte van die Wet soos vervat in artikel 2 daarvan, bevorder.

Hierdie statutêre maatreël sal deur die Trust geadministreer word. Die heffings wat ingevolge hierdie statutêre maatreël gevorder word sal geadministreer word in 'n afsonderlike rekening, en enige surplus of tekort op die vervaldatum van hierdie statutêre maatreël sal vir die rekening van die Trust wees.

“**as 'n besigheid handel**” enige handeling verrig in die vervaardiging van wintergraan produkte deur 'n persoon, indien die wintergraan produkte vervaardig, of 'n hoeveelheid daarvan, is of bedoel is om deur daardie persoon van die hand gesit te word vir enige vergoeding hoegenaamd;

“**wintergraan**” koring, durumkoring, gars en hawer.

Oogmerk en doelwitte van statutêre maatreël en die verband daarvan met die oogmerke van die Wet

2. Die oogmerk en doelwitte van hierdie statutêre maatreël is om wintergraan inligtingsfunksies te finansier, wat deur die wintergraanbedryf as noodsaaklik geïdentifiseer is en in belang van die bedryf as geheel beskou word.

Die instandhouding van makro bedryfsinligting word deur die wintergraanbedryf asook direk geaffekteerde partye as noodsaaklik geag vir strategiese beplanning. Die verskaffing van generiese markinligting op 'n deurlopende basis aan alle rolspelers is noodsaaklik om die mark doeltreffend te laat opereer. Die uitfasering van die Koringraad, wat tot dusver hierdie diens aan die bedryf verskaf het, het 'n vakuum gelaat in die verskaffing van generiese mark inligting.

Behoorlike en akkurate wintergraan markinligting wat deurlopend en tydig beskikbaar is, sal nie slegs marktoegang vir alle markdeelnemers verbeter nie, maar behoort ook die doeltreffendheid van die bemaking van wintergraan en wintergraanprodukte te bevorder. Voorts sal behoorlike markinligting die lewensvatbaarheid van die wintergraanbedryf en die landbousektor in die breë bevorder. 'n Deel van die fondse ingevorder by wyse van hierdie heffing sal ook toegespits word op inligting vir kleinskaal boere en die ontwikkelende wintergraanbedryf. Die instelling van hierdie statutêre maatreël sal feitlik al die doelstellings van die Wet, soos vervat in artikel 2 van die Wet, bevorder.

Daar word voorsien dat SAGIS die inligtingsdiens aan die bedryf sal voorsien. 'n Registrasie databasis van wintergraanverwerkers, wat in stand gehou sal word deur statutêre registrasie by SAGIS sal gebruik word om diegene wat heffingspligtig is te identifiseer.

Hierdie statutêre maatreël sal deur die Trust geadministreer word. Die heffings wat ingevolge hierdie statutêre maatreël gevorder word sal geadministreer word in 'n afsonderlike rekening; en enige surplus of tekort op die vervaldatum van hierdie statutêre maatreël sal vir die rekening van die Trust wees.

Bedrag van heffing

6. Die heffing sal 50 sent per metrieke ton koring, durumkoring, gars en hawer verwerk, BTW uitgesluit, bedra.

Persone deur wie en aan wie heffing betaalbaar is

7. Die heffing in klousule 5 ingestel, is—

(a) betaalbaar deur—

- (i) kommersiële meulenaars op alle koring deur hulle verwerk;
- (ii) durumkoringmeulenaars op alle durumkoring deur hulle verwerk;
- (iii) garsverwerkers op alle gars deur hulle verwerk; en
- (iv) hawerverwerkers op alle hawer deur hulle verwerk.

(b) aan die Trust betaalbaar.
