ANNEX VII**CONCERNING TRADE IN SUGAR IN THE SOUTHERN AFRICAN DEVELOPMENT COMMUNITY****PREAMBLE**

The High Contracting Parties:

HAVING REGARD to the objectives of this Protocol and of its importance as an instrument to facilitate the achievement of the aim of regional economic integration and the creation of a single market through increased harmonisation of policies and liberalisation of tariffs and removal of NTBs on trade;

NOTING, however, that the world sugar market is highly distorted and conscious of the fact that the world price for sugar is a dumped or subsidised price resulting in the continuing need for most sugar producing countries to impose tariffs and NTBs against the free importation of sugar in order to protect their domestic industries;

RECOGNISING, therefore, that for as long as the world sugar market remains highly distorted, sugar will be a product requiring special dispensation within the framework of this Protocol so that no sugar industry within the Region will suffer injury;

MINDFUL of the need to establish a stable investment climate leading to both growth and development of SADC economies and of the need to maintain the Region as a reliable bloc of world competitive low cost sugar producers, well positioned to take advantage of the anticipated higher world prices once global liberalisation in sugar trade occurs;

ACKNOWLEDGING the need to improve and maintain the efficiency of all sugar producers within the Region through the exchange of research, training and information;

HEREBY AGREE as follows:

ARTICLE 1**DEFINITIONS**

In this Annex, an expression that has been defined in this Protocol has that meaning and, unless the context indicates otherwise:

"Marketing Year" means a period of twelve months commencing on 1 April and ending on 31 March, and "annual" and "annum" shall have a corresponding meaning;

"MTTQ" means metric tons *tel quel*;

"Net surplus producer" means a sugar producing Member State, which has a net surplus production;

"Net surplus production" means the sugar wholly produced in any marketing year by a sugar producing Member State in excess of the sugar required to satisfy its total domestic consumption and to fulfil its preferential quotas granted by the European Union, the United States of America or any similar

preferential quota granted to it or which may be granted to it in the future by any other third country or bloc of third countries, and in the case of other Member States, the quantity of sugar per annum which are sold into SACU in terms of preferential trade agreements;

"Preferential quota" means a tariff rate quota with preferential customs duties applying under the quota limit;

"Sugar" means raw sugar, refined sugar and direct consumption crystal sugar;

"Technical Committee on Sugar (TCS)" means the body comprising representatives of Member States and sugar industries in all Member States;

"Ton" means a metric ton of sugar, *tel quel*.

ARTICLE 2

OBJECTIVES

The objectives of this Annex are:

- (a) to promote, within the Region, production and consumption of sugar and sugar-containing products according to fair trading conditions and an orderly regional market in sugar for the survival of the sugar industries in all sugar producing Member States, in anticipation of freer global trade;
- (b) in support of the long term objective set out in paragraph 1 of Article 3, to provide temporary measures to insulate Member States' sugar producing industries from the destabilising effects of the distorted global market and, in this regard, to harmonise sugar policies and regulate its trade within the Region during the interim period until world trade conditions permit freer trade in sugar;
- (c) to create a stable climate for investment, leading to the growth and development of sugar industries in the Member States;
- (d) to improve the competitiveness of the sugar producing Member States in the world sugar market;
- (e) to facilitate the sharing of information, research and training with a view to improving the efficiency of growers, millers and refiners of sugar in the Member States;
- (f) to facilitate the development of small and medium sugar enterprises; and
- (g) to create stable market conditions in the Member States so as to encourage the rehabilitation and development of all sugar industries with a view to facilitating direct foreign investment and the creation of employment opportunities.

ARTICLE 3

RECIPROCAL MARKET LIBERALISATION

1. The long term objective of this Annex is to establish full liberalisation of trade in the sugar sector in the Region after the year 2012. Such liberalisation will be dependent on a positive review of conditions prevailing in the world sugar market five years after entry into force of this Annex in order to ascertain if the world sugar market has normalised sufficiently to make such liberalisation acceptable.
2. The liberalisation contemplated in paragraph 1 will be on a reciprocal basis and will also involve the removal of NTBs in relation to SADC sugar trade. However, in the interim period, market access will be on a non-reciprocal basis into the SACU on the terms outlined in Articles 4, 5 and 6.

ARTICLE 4

NON-RECIPROCAL ACCESS TO THE SACU MARKET BASED ON MARKET GROWTH

1. A portion of the SACU sugar market, based on the annual growth in that market, will be allocated to each SADC net surplus producer according to each producer's relative net surplus production.
2. The denominator for the calculation of each net surplus producer's share will be the total SADC net surplus production.
3. Annual growth of the SACU market will be deemed to be 45 000 tons in marketing year one, 91000 tons in marketing year two and 138000 tons in marketing year three. In marketing years four and five the growth shall be reviewed on the basis of the actual growth in the SACU market during the prior three marketing years, with minimum access for these marketing years set at 138000 tons.

ARTICLE 5

ADDITIONAL NON-RECIPROCAL ACCESS TO NON-SACU SADC SURPLUS SUGAR PRODUCING MEMBER STATES

1. Duty free access to the SACU sugar market of 20000 tons of sugar per annum shall be available to the non-SACU SADC surplus sugar producing Member States and will be allocated according to each producer's relative net surplus production.
2. The denominator for the calculation of each net surplus producer's share will be the total non-SACU SADC net surplus production.
3. In the event of the non-SACU SADC net surplus production being less than 20000 tons, then the duty-free access to the SACU market shall be limited to the actual net surplus production.

ARTICLE 6

GENERAL PROVISIONS RELATING TO MARKET ACCESS

1. Access will be established through duty-free quotas extended to net surplus sugar producers.
2. Duty-free quotas, as contemplated in paragraph 1, will be calculated in each marketing year on the basis of production, consumption and export forecasts for the year in question. Initial forecasts will be submitted in February of each year based on production, consumption and export forecasts for the coming marketing year, and reviewed at the end of June of that year. Access thus established will be adjusted in the succeeding marketing year or as soon as possible thereafter on the basis of actuals. Submitted forecasts will be reviewed by the TCS in consultation with the Member States.
3. The determined allocations are not transferable between Member States. In the case of *force majeure*, the quantities not supplied will be redistributed according to actual production, consumption and export figures of the remaining net surplus producers.
4. Quantities will be measured in MTTQ.
5. Any new sugar producer in the Region will be accommodated in this Annex.

ARTICLE 7

CO-OPERATION IN AREAS OF COMMON INTEREST

1. Co-operation in areas of common interest as identified by the TCS will be aimed at facilitating a balanced expansion of national industries with the ultimate objective of promoting the development of a regional competitive industry. Co-operation in the following areas shall be established with a view to increasing efficiencies of all SADC sugar producers:
 - (a) The TCS, established in terms of Article 9, will initiate dialogue on the usage and upgrading of infrastructure and adopt rules on the transfer of information in relation to sugar technology and research, training, promotion and marketing.
 - (b) Recognising established official customs cooperation arrangements, the TCS will make recommendations to such bodies on issues related to cross-border trade in sugar in the Region aimed at improving information flows on trade in sugar in the Region and improving border control.
 - (c) Information on the nature and performance of existing national initiatives pertaining to the development of small- and medium size enterprises will be shared. Information on similar initiatives in other parts of the world will be collected and considered. Such information could be used to design appropriate strategies for small- and medium size enterprise development.

- (d) Developments occurring in the rest of the world which have implications for sugar industries in the Region will be identified and monitored, and pro-active regional strategies will be pursued.
2. The TCS will establish terms of reference relating to the implementation of actions in the identified and new areas of cooperation, and may appoint technical working groups to obtain related information and submit recommendations.

ARTICLE 8

IMPLEMENTATION

1. Market access as provided for in Article 4 will be effected on 1 April 2001.
2. Market access as provided for in Article 5 will be effected upon implementation of this Annex but the access tonnage will be established pro rata to the period remaining to 31 March 2001.
3. Co-operation in areas of common interest will be effected on 1 September 2000.

ARTICLE 9

INSTITUTIONAL FRAMEWORK

1. The TCS is hereby established to manage the agreed terms for market access and to co-ordinate actions in the areas of cooperation outlined in Article 7.
 2. The TCS will establish a secretariat, the functions of which will be to implement and monitor the market access arrangements, procure and collate statistical information concerning sugar from Member States, disseminate such information amongst Member States, and supply secretarial services to the SADC Sugar Committee and its Working Groups.
