In this section a breakdown has to be given of sales/supplies according to the timber species and roundwood categories. The quantity of roundwood for own use as well as that used or intended for use by own or associated factories or plants must be included.

**Please note:** 1. Please give all figures in cubic metres. Use your own conversion factors or the “Standard Industry Conversion Factors” listed in Appendix at the back of this return to convert tons to m<sup>3</sup>.

2. Period 1<sup>st</sup> July 1999 to 30<sup>th</sup> June 2000 to be used OR your own reporting period.

## SECTION 7 – MEAN ANNUAL INCREMENTS (MAI's – m<sup>3</sup> / hectare / year)

In this section details have to be given of the MAI's per species and product achieved from clearfelling operations during the reporting period.

NB Please furnish MAI's to nearest one decimal place (e.g. 15.1).

Main purpose for which this timber is grown	All softwood species (MAI)	<i>Eucalyptus</i> species (MAI)	Wattle (MAI)	Other hardwood species (incl. Poplar) (MAI)
Sawlogs				
Poles				
Mining Timber				
Pulpwood				
Matchwood				
Charcoal				
Firewood				
Other				

Notes: 1. Please calculate MAI's by :

- using the actual age at which trees were felled given in Section 5;
- using the volume figures given in Section 6; and
- using the actual areas felled from which the volumes were derived.

- 3. Do not split MAI for timber grown for Sawlogs into sawlogs and pulpwood / other byproducts (e.g. put one consolidated MAI figure in the Sawlog blocks).
- 2. Volumes from thinnings should be excluded.

**EXAMPLE:** If a 3.2 hectare compartment of 25 year old *P. Patula* trees was felled which produced 1 200 m<sup>3</sup> of sawlogs and 300 m<sup>3</sup> of pulpwood, then the MAI figure needed is 1 500 divided by 3.2 divided by 25 which equals 18.8. This consolidated figure should appear in the Softwood Sawlog block.

## SECTION 8 - DAMAGE / LOSS CAUSED BY FIRES AND OTHER CAUSES

In this section details of damage done and losses to your plantations during the reporting period are required.

NB With the exception of "timber theft", please furnish areas in hectares (round off to nearest hectare)
