The applicant proposes: To impound and store from time to time, and whenever available, surplus water and such share of the normal flow to which it may be entitled of the Jordan River and of its unnamed tributary on which the applicant's present storage dam is situated. The capacity of the existing dam is stated to be 260,000,000 gallons and of the proposed dam, as to be enlarged, 1,300,000,000 gallons.

Notice is hereby given that the said application will be heard at the Court-room, Bethlehem, at 10 o'clock in the forenoon, on Tuesday, 17th March, 1925.

All persons desiring to lodge declarations, in terms of section *sixteen* (1) of the Irrigation Act, claiming protection for storage works on the said streams (which works may affect or be affected by the works applied for) shall lodge the same with the Registrar in the form prescribed in Part I of the regulations under the Act, prior to the date fixed for the hearing.

The applicant contends that the streams named are public streams within the area affected.

The applicant has further asked the Court to define the quantity of water which it should be permitted to store and abstract, and the Court will define the volume of the normal flow to the use of which the riparian owners below the site of the said works are entitled for primary and secondary purposes.

Parties are required to signify in writing to the Registrar of the Water Court, not later than seven days before the date fixed for the hearing, their objections, claims, pleas, or exceptions, copies of which must at the same time be sent to the applicant.

The above application, with attached plans, may be inspected at this office or at the office of the Sub-Registrar of this Court in the Magistrate's Office, Bethlehem.
