The changes which were made to enable your Company to concentrate its activities in finance and land development have been satisfactorily accomplished.

The major portion of the assets formerly employed in the motor industry have been converted into cash and township land. Your Company is now in a good position to pursue a sound trading policy with improved security in the fields of leasing, hire purchase, deed of sale finance and property sales.

Cash at hand and on call has increased substantially to R1 219 965 whereas bank overdrafts have been reduced to a total of R17 990 representing an improvement of R1 043,524 in cash liquidity.

The total of the accounts receivable is similar to the figure at the end of the last financial year, when only 25 per cent was secured and revenue producing. Changes have resulted in 81 per cent of the book falling into this category and it is estimated that this figure will exceed 90 per cent at the end of the current trading year.

Township land acquisitions have increased the number of unsold stands available to nearly one thousand.

The profits in the first half were affected by the changes in the Company's activities and reflect a marked decrease when compared with the previous year. It is not possible to predict the future profitability in the short term but should the proclamations of township land materialise as anticipated, the Company will benefit handsomely during the remainder of the current financial year. We consider the long term prospects of the Company to be extremely good.

The Directors have decided to declare an interim ordinary dividend of 3 cents (1973—4 cents) per share and will be paid on or about the 26 April 1974.

A. P. O'CONNOR, Director

NOTES

1. The comparative figures have been adjusted so as to eliminate the profits of a foreign subsidiary no longer consolidated in group profits.

2. No account has been taken of, nor provision made for the non-recurrent loss sustained by the group arising from the disposal of the stocks and fixed assets of the French trading outlets as announced on 21 January 1974. The exact amount of the loss has not yet been determined, but is expected to be approximately R800 000. After deducting this amount from the current year's group trading profit it is estimated that the earnings per ordinary share will be 100 cents.

3. The construction of the new factory complex at Industria for the manufacture of pharmaceutical and consumer products is proceeding according to plan and no further material capital commitments have been entered into over and above those described in the Annual Report for the year ended 30 June 1973.

THE GENERAL TIRE AND RUBBER COMPANY (SOUTH AFRICA) LTD
(Incorporated in South Africa)

NOTICE TO SHAREHOLDERS

FINAL ORDINARY DIVIDEND 34

Notice is hereby given that Final Oridnary Dividend 34 of 13½c per share has been declared for the financial year ended 31 December 1973, making a total ordinary dividend for the year of 21c per share (1972 16c per share). This dividend becomes due and is payable to all ordinary shareholders registered at the close of business on 29 March 1974.

The dividend is payable in the currency of the Republic of South Africa and, in accordance with the terms of the Income Tax Act, Non-Resident Shareholders' Tax of 15 per cent will be deducted from the dividend due to shareholders whose addresses are outside the Republic.

The transfer books and share register of ordinary shareholders will be closed from 30 March 1974 to 12 April 1974, both dates inclusive. Dividend cheques will be posted on or about 23 April 1974.

The unaudited operating profit of the group before taxation for the year ended 31 December 1973, amounted to R2 896 000 (1972 R1 637 000) an increase of 77 per cent and after providing for normal and deferred taxation and the interest of minority shareholders in subsidiary companies the net profit amounted to R1 766 000 (1972 R956 000) an increase of 85 per cent.

These excellent results have been achieved by improved manufacturing efficiency following a period of plant reconstruction and relocation and the utilisation of lower priced raw material inventories which we were fortunate in having combined with the increased public demand for our high quality product. There has also been a very much greater contribution from the Industrial Rubber Products section of the group.

In the letter to shareholders issued in October concerning the rights issue a final dividend of 12½c per share was forecast, but in view of the increased profit the directors have pleasure in declaring a final dividend of 13½c. By Order of the Board.—F. Wilde, Secretary/Treasurer, Johannesburg, 15 March 1974.
