*Staatspresident van die Republiek van Suid-Afrika*

**No. 87, 1984**

Nademaal artikel 48 van die Grondwet van die Republiek van Suid-Afrika, 1983 (Wet 110 van 1983), voorsiening maak vir die aanstelling van 'n Afbakeningskommissie om die Republiek vir doeleindes van die verkiesing van direk verkose lede van die Raad van Verteenwoordigers en van die Raad van Afgevaardigdes in kiesafdelings te verdeel;

En nademaal 'n Kommissie aldus aangestel is en die Republiek ingevolge artikel 49 van die Grondwet van die Republiek van Suid-Afrika, 1983, in kiesafdelings verdeel het;

En nademaal genoemde Kommissie ingevolge artikel 50 (1) van voormelde Wet aan die Staatspresident 'n lys voorgelê het van kiesafdelings met die name wat die Kommissie daaraan gegee het en 'n beskrywing van die grense van elke sodanige kiesafdeling;

En nademaal artikel 50 (3) van die Grondwet van die Republiek van Suid-Afrika, 1983, bepaal dat die Staatspresident die name en grense van die kiesafdelings, soos hulle deur die Kommissie of 'n meerderheid daarvan finaal vasgestel en gesertifiseer is, bekend moet maak;

So is dit dat ek kragtens artikel 50 (3) van genoemde Wet hierby bekend maak dat die name en grense van die onderskeie kiesafdelings, soos hulle deur die Kommissie finaal vasgestel en gesertifiseer is, dié is wat beskryf word in die Aanhangsels hiervan.

Gegee onder my Hand en die Seël van die Republiek van Suid-Afrika te Kaapstad, op hede die Sewende dag van Junie Eenduisend Negehonderd Vier-en-tagtig.

M. VILJOEN, Staatspresident.

Op las van die Staatspresident-in-rade:

*State President of the Republic of South Africa*

**No. 87, 1984**

Whereas section 48 of the Republic of South Africa Constitution Act, 1983 (Act 110 of 1983), provides for the appointment of a Delimitation Commission to divide the Republic into electoral divisions for the purpose of the election of directly elected members of the House of Representatives and of the House of Delegates;

And whereas a Commission was so appointed and has in terms of section 49 of the Republic of South Africa Constitution Act, 1983, divided the Republic into electoral divisions;

And whereas the said Commission has in pursuance of section 50 (1) of the aforementioned Act submitted to the State President a list of electoral divisions with the names given to them by the Commission and a description of the boundaries of each such division;

And whereas section 50 (3) of the Republic of South Africa Constitution Act, 1983, provides that the State President shall make known the names and boundaries of the electoral divisions as finally settled and certified by the Commission or a majority thereof;

Now, therefore, I hereby make known, in terms of section 50 (3) of the said Act, that the names and boundaries of the several electoral divisions as finally settled and certified by the Commission shall be those described in the Appendices hereto.

Given under my Hand and the Seal of the Republic of South Africa at Cape Town this Seventh day of June, One thousand Nine hundred and Eighty-four.

M. VILJOEN, State President.

By Order of the State President-in-Council:

F. W. DE KLERK.

**CHAPTER I**

**GENERAL**

1.1 Mr. State President, in terms of section 48 (1) of the Republic of South Africa Constitution Act, Act 110 of 1983 (hereinafter referred to as the Constitution) you appointed

ondergetekendes met ingang 1 Maart 1984 as afbakingskommissie aangestel om die Republiek vir doeleindes van die verkiesing van direk verkose lede van die Raad van Verteenwoordigers en die Raad van Afgevaardigdes in kiesafdelings te verdeel.

1.2 Op 14 Maart 1984 het die Kommissie 'n openbare sitting in Pretoria gehou wat o.a. deur verteenwoordigers van politieke partye bygewoon is. Hulle is voorgelig oor die metode van afbakening wat gevolg moes word, en uitgenooi om voorstelle voor te lê, terwyl die Kommissie sou voortgaan met die voorbereiding van sy eie voorlopige afbakening wat by die Streekverteenwoordigers van die Departement van Binnelandse Aangeleenthede beskikbaar gestel sou word vir insae sodra dit voltooi is waarna die Kommissie op datums wat op die vergadering aangekondig is, in Johannesburg, Durban en Kaapstad sou vergader met die doel om voorstelle en kommentaar op die voorlopige afbakening te ontvang.

1.3 Die Kommissie het op 19 Maart 1984 in Bloemfontein met die voorlopige afbakening begin. Ongelukkig was die nodige statistiek en kaarte nie onmiddellik beskikbaar nie en, terwyl dit afgewag is, het die Kommissie die laaste afbakening van die Republiek in kiesafdelings vir die Suid-Afrikaanse Indiërraad en die Verteenwoordigende Kleurlingraad en die verslae van die onderskeie kommissies daarvoor, bestudeer. Dit het geblyk dat die nuwe kwotas en die veranderde aantal kiesafdelings vir die nuwe Huisse drastiese grensverskuiwings in sommige provinsies sou verg.

1.4 Die Kommissie het skriftelike versoë van verskeie persone en liggame ontvang wat meesal versoek het of dat 'n bepaalde gebied binne 'n besondere kiesafdeling gelaat word of dat dit daarvan uitgesluit word. Hierdie versoë het nie rekening gehou met die kwotas of met die effek wat 'n verandering in een kiesafdeling op ander kiesafdelings het nie. Dit was nietermin nuttig om die Kommissie insae te gee in omstandighede eie aan besondere gebiede.

1.5 Geen politieke party of enigiemand anders het volledige afbakingsvoorstelle vir die Republiek as geheel of selfs vir 'n provinsie voorgelê voordat die Kommissie se voorlopige afbakening bekend gemaak is nie.

1.6 Namate voorlopige afbakingsplanne voltooi is, is hulle aan Streekkantore van die Departement van Binnelandse Aangeleenthede versend waar dit beskikbaar was vir insae. Dit is gedoen ten einde belanghebbendes geleentheid te bied om die skemas te bestudeer voordat die Kommissie die verskeie sentra sou besoek met die doel om kommentaar daarop aan te hoor en verdere voorstelle te ontvang.

1.7 Die voorlopige afbakening vir die Raad van Afgevaardigdes in die Kaapprovinsie, Natal en Transvaal en vir die Raad van Verteenwoordigers in Natal, Oranje-Vrystaat en Transvaal is eers (sonder noemenswaardige probleme) afgehandel.

1.8 By die aanvang van die afbakening van die Kaapprovinsie vir die Raad van Verteenwoordigers het dit geblyk dat die inligting tot die Kommissie se beskikking, ontoereikend was. Daar is 'n geweldige konsentrasie van kiesers in Kaapstad en in die aangrensende gebiede (veral op die Kaapse Vlakte), in Port Elizabeth en selfs in sommige platelandse gebiede. Die beskikbare kaarte het nie genoeg detail bevat nie om die drastiese insnydings in bestaande stembedistrikte moontlik te maak wat vereis is deur hierdie konsentrasie en die feit dat, in effek, 32 nuwe kiesafdelings geskep moes word. Dit was waarskynlik te wyte aan resente dorpsontwikkeling en aan die feit dat die laaste afbakening vir die Verteenwoordigende Kleurlingraad op 'n ander grondslag as die huidige een geskied het, wat dit op daardie stadium in meeste kiesafdelings onnodig gemaak het om stembedistrikte in blokke te verdeel. So 'n verdeling was egter onontbeerlik vir die huidige afbakening.

the undersigned as from 1 March 1984 as a delimitation commission to divide the Republic into constituencies for the purpose of the election of directly elected members of the House of Representatives and the House of Delegates.

1.2 On 14 March 1984 the Commission held a public session in Pretoria which was attended inter alia by representatives of political parties. They were initiated in the method of delimitation and invited to submit proposals while the Commission would proceed with the preparation of its own provisional delimitation which would be made available for inspection at the Regional Representatives of the Department of Internal Affairs immediately upon its completion, whereafter the Commission would meet in Johannesburg, Durban and Cape Town on dates which were announced at the meeting, in order to receive proposals and comment on its provisional delimitation.

1.3 On 19 March 1984 in Bloemfontein the Commission commenced its work on the provisional delimitation. The necessary statistics and maps were unfortunately not immediately available and, awaiting them, the Commission studied the last delimitation of the Republic into constituencies for the South African Indian Council and the Coloured Persons Representative Council as well as the reports of the respective commissions. It appeared that the new quotas and the amended number of constituencies for the new Houses would require drastic boundary changes in some provinces.

1.4 The Commission received written representations from various persons and bodies who mostly requested that specific areas either be included in or excluded from individual constituencies. These representations did not take the quota into account nor the effect which a change in one constituency has on others. They were nevertheless useful inasmuch as they informed the Commission of circumstances peculiar to certain areas.

1.5 No political party or anyone else submitted a complete set of delimitation proposals for the Republic as a whole or even for a province before the Commission announced its own provisional delimitation.

1.6 As provisional delimitation schemes were completed, they were sent to the Regional Offices of the Department of Internal Affairs where they were available for inspection. This was done in order to afford interested parties an opportunity to study the schemes before the Commission visited the various centres for the purpose of hearing comment thereon and of receiving further proposals.

1.7 The provisional delimitation for the House of Representatives in the Cape Province, Natal and Transvaal and for the House of Delegates in Natal, Orange Free State and Transvaal were first completed without any problems worth mentioning.

1.8 At the commencement of the delimitation of the Cape Province for the House of Representatives it emerged that the information available to the Commission at that stage, was insufficient. There is an extremely large concentration of voters in Cape Town and the adjoining areas (especially on the Cape Flats), in Port Elizabeth and even in some rural constituencies. The maps which were available, were not sufficiently detailed for the drastic incisions into existing polling districts which were necessitated by this concentration and the fact that, in effect, 32 new constituencies had to be created. This was probably due to recent urban development and to the fact that the last delimitation for the Coloured Persons Representative Council was done on a different basis which did not at that stage require the division of polling districts into blocks. Such a division was, however, indispensable to the present delimitation.

1.9 Amptenare van die Departement van Binnelandse Aangeleenthede het gevolglik onmiddellik op versoek van die Kommissie, die onderverdeling van sekere stemdistrikte en die daaropvolgende aansuiwering van kaarte onderneem. Dit was egter 'n tydrowende taak met die gevolg dat die Kommissie hom nie by sy aangekondigde program kon hou nie en die openbare sitting moes uitstel wat vir 12 en 13 April in Kaapstad gereël was vir die aanhoor van kommentaar op die Kommissie se voorlopige afbakening.

1.10 Elders is die aangekondigde openbare sittings op die bestemde tyd gehou. Een is op 9 April 1984 in Johannesburg gehou (vir die behandeling van die voorlopige afbakening van Transvaal vir albei Rade), en op 10 April 1984 een in Durban (vir die behandeling van die voorlopige afbakening van die Kaapprovinsie en Natal vir die Raad van Afgevaardigdes).

1.11 Albei vergaderings is goed bygewoon. Op die vergadering in Johannesburg is voorstelle ontvang van die Arbeidersparty (ten opsigte van die Raad van Verteenwoordigers) en van die National People's Party of S.A. (N.P.P.), van Solidarity en van 'n lid van die Presidentsraad (ten opsigte van die Raad van Afgevaardigdes). Op die vergadering in Durban was die N.P.P. en Solidarity weer verteenwoordig terwyl 'n aantal individue wat hulself "onafhanklikes" genoem het maar wie se affiniteit tot die een of ander van die genoemde partye duidelik deurgeskemer het, die Kommissie ook toegesprek het.

1.12.1 Die uitgestelde openbare sitting in Kaapstad is op 17 April 1984 gehou nadat die Kommissie se voorlopige afbakening van slegs die Kaapse platteland die vorige dag ter insae was. Die aansuiwerings waarna in paragraaf 1.9 verwys is, was naamlik nie gereed voor daardie sitting nie sodat die Kommissie slegs die platteland kon afbaken en op die sitting moes aankondig dat voorlopig besluit is om 20 kiesafdelings in die Skiereiland en omstreke en vier in Port Elizabeth en omstreke te skep sonder dat 'n voorlopige afbakening van die betrokke gebiede voorgelê kon word.

1.12.2 Die Kommissie is by hierdie geleentheid toegesprek deur verteenwoordigers van die Arbeidersparty, die Volkskongresparty, die Vryheidsparty, die Hervormde Vryheidsparty en 'n aantal individue. Algemene tevredenheid is uitgesprek met die Kommissie se voorlopige afbakening van die Kaapse platteland. Daar was slegs voorstelle oor 'n paar naamsveranderings en dit is deur die Kommissie aanvaar. Die partye was dit origins nie eens oor die aantal kiesafdelings wat nog in die Skiereiland en omgewing en in Port Elizabeth en omgewing geskep moes word nie. Geneen van die partye het egter sy voorgestelde aantal kiesafdelings behoorlik gemotiveer nie en die Kommissie het na deeglike herooring besluit om by sy eie indeling te hou. Dit het, volgens die Kommissie se oordeel, ingepas by die verhouding tussen die kiesersgetalle in die betrokke gebiede en in die platteland.

1.12.3 Op dieselfde vergadering het die Kommissie ook voorstelle ontvang oor die afbakening van Natal en die Oranje-Vrystaat vir die Raad van Verteenwoordigers (van die Arbeidersparty ten opsigte van albei provinsies, en van The People's Congress Party betreffende Natal). Die Arbeidersparty was tevrede met die voorlopige afbakening van Natal. Na aanhoor van hierdie vertoë het die Kommissie besluit om sy eie voorlopige afbakening van die Oranje-Vrystaat ingrypend te wysig maar om dit in Natal se geval nie te verander nie.

1.13 Na die vergadering in Kaapstad het die Kommissie teruggekeer na Bloemfontein en daar die voorlopige afbakening van die uitstaande 24 kiesafdelings in die Kaapprovinsie afgehandel. Die voorlopige skema was op 30 April 1984 in Kaapstad beskikbaar vir insae.

1.9 At the request of the Commission, officials of the Department of Internal Affairs consequently immediately undertook the subdivision of certain polling districts and the supplementation of maps which the subdivision entailed. This was, however, a time-consuming task with the result that the Commission was unable to adhere to its schedule which had previously been announced, and was compelled to postpone its session which had been arranged for 12 and 13 April in Cape Town for hearing comment on its provisional delimitation.

1.10 Elsewhere the public sessions were held on the appointed dates. One was held on 9 April 1984 in Johannesburg (for purposes of the provisional delimitation of the Transvaal for both Houses), and on 10 April 1984 another one in Durban (for purposes of the provisional delimitation of the Cape Province and Natal for the House of Delegates).

1.11 Both meetings were well attended. At the meeting in Johannesburg proposals were received from the Labour Party (in connection with the House of Representatives), and from the National People's Party of S.A. (N.P.P.), from Solidarity and from a member of the President's Council (in connection with the House of Delegates). At the meeting in Durban the N.P.P. and Solidarity were again represented whilst a number of individuals who called themselves "independents" but whose affinity to one or other of the said parties became apparent, also addressed the Commission.

1.12.1 The postponed public session in Cape Town was held on 17 April 1984 after the Commission's provisional delimitation for only the rural areas of the Cape had been open for inspection the previous day. The supplementation which was referred to in paragraph 1.9, had not become available before that session and the Commission was only able to delimit the rural areas and to announce at the public session that it had been provisionally decided to establish 20 constituencies in the Peninsula and environs and four in Port Elizabeth and environs, without submitting a provisional delimitation for those areas.

1.12.2 On this occasion the Commission was addressed by representatives of the Labour Party, the People's Congress Party, the Freedom Party, the Reformed Freedom Party and a number of individuals. They were generally satisfied with the Commission's provisional delimitation of the rural areas of the Cape and only proposed a number of changes in the names of constituencies, which were accepted by the Commission. Otherwise, the parties were not in agreement on the number of constituencies which still had to be created in the Peninsula and environs and in Port Elizabeth and environs. None of the parties, however, properly motivated their proposals in that regard and after thorough reconsideration, the Commission decided to adhere to its own division. In the Commission's judgment, that division was in conformity with the ratio between the numbers of voters in the relevant areas and in the rural areas.

1.12.3 At the same meeting the Commission also received proposals on the delimitation of Natal and the Orange Free State for the House of Representatives (from the Labour Party in respect of both provinces and from the People's Congress Party relating to Natal). The Labour Party was satisfied with the provisional delimitation of Natal. After hearing these representations the Commission decided to considerably amend its own provisional delimitation of the Orange Free State but not to amend it in Natal.

1.13 After the session in Cape Town the Commission returned to Bloemfontein and completed the provisional delimitation of the 24 constituencies which still had to be created in the Cape Province. The provisional scheme was available for inspection on 30 April 1984 in Cape Town.

1.14 Op 1 Mei 1984 is die finale openbare sitting in Kaapstad gehou. Slegs die Arbeidersparty en die Hervormde Vryheidsparty het aan die bespreking deelgeneem en kritiek uitgespreek teen sekere aspekte van die Kommissie se voorlopige afbakening in die Kaapse Vlakte (waarna in paragraaf 3.4 (2) van hierdie verslag verwys word). Na afloop van die sitting het 'n verteenwoordiger van die Volkskongresparty wat deurgaans teenwoordig was maar niks te sê gehad het nie, die Kommissie genader met 'n versoek dat daardie party toegelaat word om die Kommissie die volgende dag toe te spreek aangesien die partyleier iewers in Transvaal besig was met organisasiewerk. Hy is verwittig dat hy so 'n versoek minstens tydens die sitting ten aanhoore van die ander partye moes gerig het, dat die Kommissie geen privaartertoë sou aanhoor nie en nie bereid was om weens die afwesigheid van sy partyleier (om die reedsvermelde rede), weer 'n openbare sitting te belê nie.

1.15 Die Kommissie wil graag aandag vestig op die volgende aangeleenthede waarvan hy tydens die afhandeling van sy werksaamhede en veral op sy openbare sittings bewus geword het:

(1) Nieteenstaande die voorligting wat op die vergadering van 14 Maart 1984 in Pretoria geskied het, was daar verteenwoordigers van politieke partye wat blykbaar nie volkome op hoogte was met die dwingende vereistes van artikel 49 (3) van die Grondwet betreffende die kwota nie. Voorstelle is byvoorbeeld blindelings gedoen om sekere dorpsgebiede as geheel binne dieselfde kiesafdeling te hou, sonder inagneming van die feit dat die behoud daarvan onmoontlik was omdat die maksimum toelaatbare oorskryding van die kwota daardeur oortref sou word, en die Kommissie is soms gekritiseer waar hy juis om daardie rede, verplig was om 'n dorpsgebied te verdeel. Dit was o.a. die geval met Bonteheuwel op die Kaapse Vlakte waar so 'n groot aantal kiesers saamgetrek was dat die dorpsgebied noodwendig verdeel moes word. Op die openbare sitting op 1 Mei 1984 is die verdeling nie slegs gekritiseer nie—'n versoek is boonop gerig dat 'n aangrensende gebied ook nog daarby ingelyf word!

(2) Vir die feit dat die afbakening moes geskied aan die hand van artikel 102 (9) van die Grondwet, was daar ewe min begrip. Op een van die sittings was die verteenwoordiger van een van die politieke partye selfs nie eens daarvan bewus dat dit op daardie basis moes geskied nie (nieteenstaande die breedvoerige uiteensetting in daardie verband op die sitting van 14 Maart 1984 in Pretoria waarop die betrokke party verteenwoordig was) en het hy sy voorstelle geformuleer op basis van die vermeende getal geregistreerde kiesers en persone van wie die betrokke party aansoek om registrasie ontvang het. Op die sitting in Durban het 'n spreker van Solidarity aangevoer dat die bevolkingsregister ooreenkomstig artikel 102 (9) van die Grondwet gebruik moes word slegs vir doeleindes van die berekening van kwotas en dat die afbakening as sodanig moes geskied op grond van werklike (geregistreerde) kiesers. Die Kommissie kon daardie betoog nie handhaaf nie. Ewe min kon gehoor gegee word aan 'n versoek op dieselfde vergadering dat die afbakening uitgestel word totdat die huidige registrasieveldtog afgehandel was. 'n Meer algemene klag was dat die bevolkingsregister nie die ware toedrag van sake in enige besondere gebied reflekteer nie. Na hierdie aspek word hierinlater weer verwys.

(3) Die Kommissie se sekretariaat en ander amptenare van die Departement van Binnelandse Aangeleenthede is erg in die verleentheid gestel deur navrae oor die Kommissie se besluite oor voorstelle wat aan hom gemaak of vertoë wat tot hom gerig was. Een partyleier het sterk kaspie gemaak teen 'n amptenaar se weiering om hom in te lig oor die Kommissie se finale afbakening, nieteenstaande die feit dat

1.14 On 1 May 1984 a final public session was held in Cape Town. Representatives of the Labour Party and the Reformed Freedom Party only took part in the discussion and criticised certain aspects of the Commission's provisional delimitation in the Cape Flats (to which reference is made in paragraph 3.4 (2) of this report). After the session had been closed, a representative of the People's Congress Party who had been present throughout but had remained quiet, approached the Commission with a request that his party be allowed to address the Commission the following day in view of the fact that the leader of the party was busy organising in the Transvaal. He was informed that such a request should at least have been made in the presence of the other parties, that the Commission would hear no private representations and that it was not prepared to reconstitute a public session on account of the absence of the party leader for the reason already mentioned.

1.15 The Commission desires to draw attention to the following matters of which it became aware during its proceedings and especially at its public sessions:

(1) Despite the instruction at the meeting of 14 March 1984 in Pretoria, there were representatives of political parties who were apparently not fully aware of the peremptory requirements of section 49 (3) of the Constitution relating to the quota. Proposals were e.g. blindly made to retain certain townships undivided in the same constituency without taking into account the fact that its retention therein was wholly impossible because the maximum permissible number of voters would thereby be exceeded, and the Commission was criticised at times where, for that very reason, it had been compelled to divide a township. This happened inter alia in the case of Bonteheuwel on the Cape Flats where such a large number of voters were concentrated that the township necessarily had to be divided. At the public session of 1 May 1984 the division was not only criticised—a request was even made to incorporate yet another adjoining township!

(2) For the fact that the delimitation had to be done on the basis of section 102 (9) of the Constitution, there was equally little understanding. At one of the sessions a representative of one of the political parties was not even aware that it had to be done on that basis (despite the comprehensive instruction in that regard at the session of 14 April 1984 in Pretoria at which the party in question had been represented), and he formulated his proposals on the basis of the reputed number of registered voters and persons from whom the party had received applications for registration. At the session in Durban a representative of Solidarity argued that the population register had to be used in terms of section 102 (9) of the Constitution for purposes of the calculation of quotas only and that the actual delimitation had to be done on the basis of actual (registered) voters. The Commission was unable to accept this contention. Nor could it comply with a request at the same meeting that the delimitation be postponed until the registration campaign which is presently under way, has been completed. A more general complaint was that the population register did not reflect the true state of affairs in any given area. Reference will be made to this aspect at a later stage.

(3) The Commission's secretariat and other officials of the Department of Internal Affairs were seriously embarrassed by enquiries relating to the Commission's decision on proposals which had been made and representations which had been addressed to it. The leader of one party took strong exception to the refusal by an official to inform him

die betrokke leier meegedeel is dat dit by wyse van proklamasie ooreenkomstig artikel 50 (3) van die Grondwet bekend gemaak sou word en dat geen private inligting voor afkondiging van die proklamasie aan hom verstrekkend kon word nie.

Die Kommissie het in hierdie verband van die standpunt uitgegaan dat besonderhede van die finale afbakening ooreenkomstig artikel 50 (3) aangekondig sou word, en dat niemand geregtig was op die vooraf bekendmaking van enige aspek daarvan nie.

## HOOFSTUK II

### METODE VAN AFBAKENING

2.1 Gesien die feit dat hierdie die eerste afbakening van kiesafdelings van die Raad van Verteenwoordigers en die Raad van Afgevaardigdes was, moes dit geskied volgens die voorskrifte van artikel 49 gelees met artikel 102 (9) van die Grondwet, wat bepaal dat—

“vir die doeleindes van die verdeling van 'n provinsie in kiesafdelings van 'n Huis, word die kwota van die provinsie vir die Huis verkry, behoudens die bepalings van subartikel (4), deur die getal *persone wat, volgens die bevolkingsregister wat ingevolge die Bevolkingsregistrasiewet, 1950, gehou word, en op 'n datum hoogstens 30 dae voor die afbakingskommissie met sy werksaamhede begin, geregtig sou wees om opgeneem te word in enige lysie van die in artikel 52 beoogde kiesers van die Huis in kiesafdelings daarvan in die provinsie indien die provinsie op die betrokke datum in kiesafdelings van die Huis verdeel was.*”

(Ons kursivering.)

2.2 Die gekursiveerde woorde is volgens artikel 102 (9) slegs in subartikel (1) van artikel 49 ingevoeg en nie in subartikels (2) en (3) nie. Afbakening sou egter onmoontlik wees indien die bevolkingsregister gebruik sou word slegs vir doeleindes van die berekening van die kwota en nie ook vir doeleindes van die daadwerklike verdeling in kiesafdelings nie. Daarom het die Kommissie aan die woord “kieser” waar dit in subartikels (2) en (3) voorkom 'n betekenis geheg wat in ooreenstemming is met artikel 102 (9), en die bevolkingsregister ook as bron gebruik vir die verdeling van die provinsies in kiesafdelings.

2.3 In hierdie verslag word, tensy uit die samehang anders blyk, na die persone in artikel 102 (9) bedoel, as kiesers verwys. Dit geskied egter bloot gerieflikheidshalwe en dié besondere betekenis van die woord moet deurgaans voor oë gehou word.

2.4 Die berekening van die kwota vir elke Huis in elke provinsie het soos volg geskied:

| Huis                            | Provinsie           | Getal kiesers | Getal kiesafdelings | Kwota  |

about the Commission's final delimitation despite the fact that this leader was informed that it would be announced by way of proclamation in terms of section 50 (3) of the Constitution and that no information could be made available privately before the publication of the proclamation.

In this regard the Commission held the view that details of its final delimitation would be announced in terms of section 50 (3) and that no one was entitled to be pre-informed on any aspect thereof.

## CHAPTER II

### METHOD OF DELIMITATION

2.1 In view of the fact that this was the first delimitation of constituencies for the House of Representatives and the House of Delegates, it had to be done according to the requirements of section 49 read with section 102 (9) of the Constitution which provides that—

“For the purpose of the division of a province into electoral divisions of a House, the quota of the province for the House shall be obtained, subject to the provisions of subsection (4) by dividing the number of *persons who, according to the population register kept in terms of the Population Registration Act, 1950, and on a date not more than 30 days before the delimitation commission begins to perform its functions, will be entitled to be included in any lists of the voters contemplated in section 52 of the House in electoral divisions thereof in the province had the province been divided into electoral divisions of the House on the date in question.*”

(Our italics.)

2.2 The words in italics were inserted in terms of section 102 (9) only in subsection (1) of section 49 and not in subsections (2) and (3). However, delimitation would be impossible if the population register were to be used only for purposes of the calculation of the quota and not for purposes of the actual division into electoral divisions. The Commission accordingly attached to the word “voter” where it appears in subsection (2) and (3) a meaning in accordance with section 102 (9), and used the population register also as source for the division of the provinces into constituencies.

2.3 In this report, unless the contrary appears from the context, reference will be made to persons mentioned in section 102 (9) as voters. But this will be done merely for the sake of convenience and the peculiar meaning of the word should always be borne in mind.

2.4 The quota for each House in each province was calculated as follows:

2.5 Die Kommissie het in alle gevalle oorweging geskenk aan die faktore in artikel 49 (3) genoem. Die volgende opmerkings word egter in daardie verband gemaak:

(1) Gesien die feit dat hierdie die eerste afbakening van kiesafdelings van die betrokke twee Huise was, kon grense van bestaande kiesafdelings nie in werklike sin oorweeg word nie omdat die enigste "bestaande" kiesafdelings kiesafdelings van die Verteenwoordigende Kleurlingraad en die Suid-Afrikaanse Indiërraad was. Die Kommissie sou dus by magte wees om sulke kiesafdelings totaal te ignoreer. Maar, om redes wat voor die hand liggend is, is besluit om dit nie te doen nie en om die grense van sulke kiesafdelings, waar ookal moontlik, in stand te hou. Dit was ook die houding van die politieke partye wat vertoë en voorstelle tot die Kommissie gerig het. In sommige gevalle kon bestaande grense in die geheel of met slegs geringe aanpassings behou word maar, veral weens die veranderde getal kiesafdelings wat vir die nuwe Rade geskep moes word, was dit nie altyd moontlik nie.

(2) Die Kommissie het gerieflikerwys gebruik gemaak van die stemdistrikte wat vir doeleindes van die Verteenwoordigende Kleurlingraad en die Suid-Afrikaanse Indiërraad geskep is. Dit het egter aan die lig gekom dat hierdie stemdistrikgrense in baie gevalle afwyk van landdrostdistrikgrense op plekke waar skynbaar geen rede daarvoor bestaan nie. Die Kommissie beskou landdrostdistrikgrense as van besondere belang en dit word aanbeveel dat aandag gegee word aan 'n omvattende nuwe indeling van stemdistrikte. Moontlik kan die Departement van Justisie ook versoek word om die grense van stemdistrikte in ag te neem by die vasstelling of verandering van die grense van landdrostdistrikte. Dit het verder geblyk dat die grense van stemdistrikte (en selfs van blokke) in baie gevalle afwyk van natuurlike of ander praktiese skeidingslyne (soos paaie en spoorweë) op plekke waar sulke skeidingslyne gevolg kon gewees het. Die gevolg was dat die Kommissie in sulke gevalle die betrokke stemdistrik- of blokgrens moes volg liever as om 'n hoofdelike telling aan te vra. Ook in hierdie opsig verdien die grense van stemdistrikte en blokke verdere aandag.

(3) Dunheid of digtheid van bevolking wat in artikel 49 (3) (e) genoem word, het besondere probleme geskep in die lig van die basis waarop hierdie eerste afbakening volgens die bepalings van artikel 102 (9) moes geskied. Op sy openbare sittings is dit telkens onder die Kommissie se aandag gebring dat die bevolkingsregister nie 'n ware beeld bied van die dun- of digtheid van die bevolking in enige besondere gebied nie; van gebiede waarin daar volgens die register redelike groot getalle kiesers woon, het die betrokke bevolkingsgroep hom in baie gevalle totaal of grootliks onttrek; in ander gevalle het die teenoorgestelde plaasgevind en is gebiede op groot skaal beset waar die register geen of slegs 'n klein aantal stemgeregtigdes toon. Hierdie toedrag van sake is (soos almal wat hulle daarvoor bekla het, telkens toegegee het) uitsluitlik te wyte aan versuim aan die kant van diegene wie se naam op die register voorkom, om kennis van adresveranderinge te gee. Die Kommissie was nogtans voortdurend bewus van die probleem en het dit deur middel van die ontladings- en beladingsproses probeer oplos. Dit was egter nie in alle opsigte 'n bevredigende antwoord nie omdat die bedoelde proses self sy perke het en omdat maksimale belading of ontlading (na gelang van die geval) in 'n bepaalde gebied, weens die getal kiesers in aangrensende kiesafdelings, nie altyd moontlik was nie.

In besonder het twee gebiede in hierdie verband ter sprake gekom, naamlik die Phoenix-gebied in Natal en die Mitchells Plein-gebied op die Kaapse Vlakte. In albei gevalle, so is die Kommissie meegedeel, was die benaderde getal werklike kiesers aansienlik groter as die getal volgens die bevolkingsregister, en sou die aangewese weg wees om

2.5 In all cases the commission duly considered the factors mentioned in section 49 (3). The following observations have, however, to be made in that regard:

(1) This being the first delimitation of constituencies for the two Houses in question, boundaries of existing electoral divisions could not be considered in real terms seeing that the only "existing" electoral divisions were constituencies of the Coloured Persons Representative Council and the South African Indian Council. The Commission would thus be entitled to ignore those constituencies but, for obvious reasons, decided not to do so and to retain the boundaries of such constituencies wherever possible. That was also the attitude adopted by the political parties who made representations and who submitted proposals to the Commission. In some cases existing boundaries could be retained wholly or with minor adjustments only. But, mainly on account of the amended number of constituencies which had to be created for the new Houses, this was not always possible.

(2) For the sake of convenience the Commission used polling districts which had been created for purposes of the Coloured Persons Representative Council and the South African Indian Council. It appeared, however, that these polling districts deviated in many cases from the boundaries of magisterial districts for no obvious reason. The Commission attached particular importance to the boundaries of magisterial districts and it is recommended that attention be given to a comprehensive new division of polling districts. The Department of Justice may possibly be requested to take account of the boundaries of polling districts in the determination or change of the boundaries of magisterial districts. It emerged further that the boundaries of polling districts (and even of polling blocks) deviated in many cases from natural or other practical dividing lines (such as roads or railways) where such lines could easily have been followed. The result in such cases was that the Commission followed the boundaries of the polling district or block in question rather than requesting a head count. In this regard too the boundaries of polling districts and blocks deserve further attention.

(3) Sparsity or density of population mentioned in section 49 (3) (e), caused major problems in view of the basis on which this first delimitation had, in terms of section 102 (9), to be done. At its public sessions it was repeatedly brought to the Commission's attention that the population register did not reflect the true state of affairs relating to sparsity or density of population in any given area; from areas in which there are, according to the register, reasonably large numbers of voters, the population group in question has in many cases totally or largely withdrawn; in other cases the opposite has taken place and areas in which, according to the register, there are no or only small numbers of persons entitled to vote, have become densely populated. This state of affairs (as all those who complained about it conceded) is entirely ascribable to failure on the part of those whose names appear on the register to give notice of their change of address. The Commission was nevertheless constantly aware of the problem and tried to solve it through the means of the process of loading and deloading. That, however, was not in all respects a complete answer because the process itself has its limits and because maximal loading or deloading (as circumstances required in any given area) was, due to the number of voters in adjoining constituencies, not always possible.

In particular two areas were mentioned in this regard, viz. the Phoenix area in Natal and the Mitchells Plain area on the Cape Flats. In both cases, so the Commission was informed, the approximate number of actual voters was considerably larger than the number according to the population register. What was indicated was to maximally

kiesafdelings wat daar geskep word, maksimaal te ontlaai en op daardie wyse die fisiese grootte daarvan so veel moontlik te beperk. Die Kommissie kon die Phoenix kiesafdeling egter nie ontlaai nie en moes dit inderdaad met 10 % belaaï word omdat daar in aangrensende gebiede self 'n oorskot kiesers was. Mitchells Plein was in die Strandfontein kiesafdeling geleë waarin daar bykans 78 000 kiesers was. Soveel moontlik daarvan is na aangrensende kiesafdelings afgevoer en nadat nog 'n bykomende kiesafdeling (Grassy Park) geskep is, is Mitchells Plein verdeel sodat een deel 'n nuwe kiesafdeling Mitchells Plein sou vorm en die ander gedeelte in Strandfontein sou bly. Eersgenoemde (d.i. die gebied wes van die spoorlyn) moes tot feitlik die maksimum belaaï word sodat Strandfontein grootliks ontlaai kon word weens die grootte van die kiesafdeling en die ontwikkeling wat nog aan die gang is in daardie gedeelte van Mitchells Plein wat in die kiesafdeling val.

Die Kommissie wys verder daarop dat maksimale ontlaaiing in die pas genoemde gebiede nie sou meebring dat 'n bykomende kiesafdeling daar geskep sou kon word nie: Die beskikbare kiesers op sigself was te min vir 'n bykomende kiesafdeling en aangrensende gebiede sou ingeskakel moes word. Rekenkundig was so 'n uitskakeling wel moontlik maar dorpsgebiede sou versnipper moes word en weinig sou tereg kom van die faktore wat in artikel 49 (3) van die Grondwet genoem word.

(4) Die Kommissie het origins ondervind dat die streng gebondenheid aan die kwotastelsel wat artikel 49 (3) voorskryf (selfs tot die mate waartoe afwyking daarvan veroorloof word) meegebring het dat een of ander van die faktore in die bedoelde artikel genoem, dikwels moes swig voor die mag van getalle. Groepe tussen wie daar 'n klaarblyklike gemeenskaplikheid van belange bestaan, moes byvoorbeeld soms geskei word bloot omdat die toepassing van die kwota dit noodsaak het. 'n Verskynsel wat eweseer by die Kleurling- en Indiërgemeenskappe sterk na vore getree het, was die geweldige konsentrasie van kiesers in stedelike gebiede teenoor groot plattelandse gebiede wat vir praktiese doeleindes feitlik onvolk is. Die toepassing van die kwota het tot gevolg gehad dat in sommige gevalle groeplike stedelinge saamgevoeg moes word met inwoners van 'n massiewe hinterland, met wie hulle niks nie of weinig in gemeen het. Munisipale of plaaslike bestuursgrense moes soms geïgnoreer word en stedelike gebiede saamgevoeg word wat liefs by afsonderlike kiesafdelings ingedeel moet word. In ander gevalle weer het die Kommissie ondervind dat die samestelling van wat 'n perfekte kiesafdeling sou wees waarin die faktore in artikel 49 (3) genoem, ten volle tot hulle reg sou kom, in die wiewe gery is bloot omdat die maksimum afwyking van die kwota met 'n geringe aantal kiesers oorskry sou word. In kort, gebondenheid aan die kwota het meegebring dat afbakening in sommige gevalle weinig meer kon behels as 'n blote rekenkundige oefening.

In die lig hiervan beveel die Kommissie sterk aan dat die hele kwotastelsel heroorweeg word met die oog op groter buigsamheid. Op die heel minste behoort die persentasie waartoe afwyking van die kwota veroorloof word, verhoog te word.

### HOOFSTUK III

#### DIE RAAD VAN VERTEENWOORDIGERS

##### Kaapprovinsie

3.1 Die 853 175 kiesers in die Kaapprovinsie moes ingedeel word by die 60 kiesafdelings (teenoor die 28 van die Verteenwoordigende Kleurlingraad).

3.2 In die nege stedelike kiesafdelings van die Verteenwoordigende Kleurlingraad in Kaapstad en omgewing is 303 313 kiesers saamgetrek en in Port Elizabeth en omgewing (insluitende Uitenhage en Despatch ongeveer 63 000).

deload the constituencies which were created there and in that way to limit their physical size as far as possible. But it was impossible to deload Phoenix; on the contrary, the Commission had to load it by 10 % because there was a surplus voters in adjoining areas. Mitchells Plain was in the Strandfontein constituency in which there were some 78 000 voters. As many as possible were transferred to adjoining constituencies and, after an additional constituency (Grassy Park) had been created, Mitchells Plain was divided in such a way that one portion constituted a new constituency called Mitchells Plain, and the other fell in what remained of Strandfontein. Mitchells Plain (i.e. the area west of the railway line) had to be loaded to the maximum so that Strandfontein could be deloaded on account of the size of the constituency and the development which is taking place in that part of Mitchells Plain which lies in the constituency.

It is pointed out that maximal deloading in these areas would not bring about an additional constituency *there*: The available number of voters was too small and adjoining areas would have to be incorporated. Their incorporation would arithmetically be possible but townships would have to be disintegrated and little would have come of the factors mentioned in section 49 (3) of the Constitution.

(4) The Commission found that strict compliance with the quota system prescribed by section 49 (3), even to the extent to which departure therefrom is permissible, brought about that one or other of the other factors mentioned in the section had to give way to the force of numbers. So e.g. population groups between which there is a manifest community of interests, had in some cases to be divided simply because the quota required it. A phenomenon which came to the fore both in the Coloured and Indian communities, was the intense concentration of voters in urban areas as against large rural areas which have, for practical purposes, become depopulated. The application of the quota resulted in some cases in the combination in one constituency of groups of city dwellers with the inhabitants of a massive rural area with whom they have nothing or little in common. Municipal or local authority boundaries had in some cases to be ignored and urban areas had to be combined which should rather have been allocated to different constituencies. In other cases again, the Commission found that the constitution of a perfect constituency in which the factors mentioned in section 49 (3) would all come into full play, was prevented simply because the maximum permissible departure from the quota would be exceeded by a few voters. In short, delimitation on the basis of being bound by the quota entailed, in some cases, little more than a mere arithmetic exercise.

The Commission accordingly strongly recommends that the whole quota system be revised with a view to greater pliancy. At the very least the percentage whereby departure from the quota is permissible, should be increased.

### CHAPTER III

#### THE HOUSE OF REPRESENTATIVES

##### Cape Province

3.1 The 853 175 voters in the Cape Province had to be allocated to 60 constituencies (as against the 28 of the Coloured Persons Representative Council).

3.2 In the 9 urban constituencies of the Coloured Persons Representative Council in Cape Town and environs there are 303 313 voters and in Port Elizabeth and environs (including Uitenhage and Despatch about 63 000).

3.3 Die Kommissie moes eerstens besluit oor die aantal kiesafdelings wat in hierdie twee gebiede geskep moes word. Vir hierdie doel is die verhouding bepaal tussen die getal kiesers in elke gebied teenoor die totale aantal kiesers in die provinsie. Die getal kiesers in die Kaapstad gebied was ongeveer een-derde en dié in die Port Elizabeth gebied ongeveer een-veertiende van die totale aantal kiesers, wat gedui het op 20 kiesafdelings in eersgenoemde en vier kiesafdelings in laasgenoemde gebied. Aangesien so 'n verdeling boonop in ooreenstemming sou wees met 'n suiwer toepassing van die kwota in elke gebied, het die Kommissie voorlopig besluit om 20 kiesafdelings in die Kaapstad gebied en vier in die Port Elizabeth gebied te skep.

Die Arbeidersparty het 19 kiesafdelings in die Kaapstad gebied en vyf in die Port Elizabeth gebied voorgestel. Vyf kiesafdelings in Port Elizabeth en omgewing sou egter meebring dat daar gemiddeld slegs ongeveer 12 600 kiesers by elkeen ingedeel moes word wat heelwat minder was as die gemiddeld vir elke setel wat in die platteland geskep moes word. Die Kommissie was boonop van oordeel dat 'n ontlasting van ongeveer 11 % (wat vyf kiesafdelings sou meebring) vir stedelike kiesafdelings soos wat hier ter sprake was, nie geregverdig kon word nie en het gevolglik besluit om slegs vier kiesafdelings in hierdie gebied en 20 in Kaapstad en omgewing te skep. Hierdie indeling sou 'n realistiese gemiddelde belading van ongeveer 10 % in elke gebied verteenwoordig.

#### 3.4 Die Kaapstad gebied:

(1) Die nege kiesafdelings van die Verteenwoordigende Kleurlingraad in hierdie gebied het in die ooste tot ongeveer by Brackenfell op die Kaapse Vlakte gestrek. Die gebied ten ooste daarvan tot by die Hottentotsholland berge (insluitende die Somerset-Wes en Gordonsbaai gebiede) was by Genadendal ingedeel.

Een van die sprekers op die openbare sitting van 17 April 1984 het die Kommissie se aandag gevestig op die ongewenste toestand wat aldus in Genadendal bestaan het waar die kiesers in Somerset-Wes en Gordonsbaai (van wie talle in Kaapstad werk) geen gemeenskaplike belang het nie met die kiesers anderkant die berge in die Grabouw/Elgin gebied (wat hoofsaaklik in die vrugtebedryf werksaam is).

Die Kommissie stem saam dat so 'n toestand inderdaad ongewens is en dat die gebied van die nege kiesafdelings waarna vantevore verwys is moontlik uitgebrei behoort te word tot by die Hottentotsholland berge maar het dit nie gedoen nie omdat—

(a) die bykomende kiesers nie uitsluitlik stedelike kiesers is soos die res in die betrokke nege kiesafdelings nie en gemeenskaplikheid van belange derhalwe steeds in gedrang sou bly, en

(b) so 'n indeling 'n tekort in Genadendal sou te weegbring wat verder ooswaarts sou uitkring in aangrensende kiesafdelings so ver soos die George/Knysna gebied.

(2) By die herindeling van die gebied in 20 nuwe kiesafdelings het die Kommissie gepoog om dorpsgebiede sover moontlik as eenhede binne dieselfde kiesafdelings te bewaar en, behalwe in drie gevalle, ook daarin geslaag. Die toepassing van die kwota het egter geveg dat Bonteheuvel, Bishop Lavis en Kensington verdeel moes word. In die geval van Bishop Lavis is dit aan die Kommissie voorgehou dat daar onenigheid bestaan tussen die inwoners van Bishop Lavis self en aangrensende gebiede soos Nootgedacht, Montana en Charlesville wat 'n nadelige effek by die stembus mag hê. Soos reeds aangedui het die toepassing van die kwota egter meegebring dat Bishop Lavis dorpsgebied verdeel moes word en was dit ook nie moontlik om die genoemde ander gebiede almal te skei van minstens een deel van Bishop Lavis nie.

3.3 The Commission's first decision related to the number of constituencies which had to be created in these two areas. For this purpose the ratio was determined between the number of voters in each area and the total number of voters in the province. The number of voters in the Cape Town area was about one-third and that in the Port Elizabeth area about one-fourteenth of the total number of voters, which indicated that 20 constituencies would have to be allocated to the first mentioned and four to the last mentioned area. Such a division furthermore being in accordance with a strict application of the quota in each area, the Commission provisionally decided on 20 constituencies in the Cape Town area and four in the Port Elizabeth area.

The Labour Party proposed 19 constituencies in the Cape Town area and five in the Port Elizabeth area. Five constituencies in Port Elizabeth and environs would, however, bring about that there would on average be only about 12 600 voters in each constituency which would be considerably less than the average for each constituency which had to be created in the rural areas. The Commission was also of the view that a deloading of approximately 11 % (which five constituencies would entail) for urban constituencies such as these, could not be justified. It was accordingly decided to create only four constituencies in that area and 20 in Cape Town and environs. This division would represent a realistic average loading of about 10 % in each area.

#### 3.4 The Cape Town area:

(1) The nine constituencies of the Coloured Persons Representative Council in this area stretched on the Cape Flats roughly to Brackenfell in the east. The area to the east thereof up to the Hottentots Holland mountains (including the Somerset West and Gordons Bay area) formed part of Genadendal. One of the speakers at the public session of 17 April 1984 drew attention to the undesirable state of affairs which existed in Genadendal where voters from Somerset West and Gordons Bay (of whom many work in Cape Town) had no community of interests with the voters on the other side of the mountains in the Grabouw/Elgin area (who are employed mainly in the fruit industry). The Commission is in agreement that such a state of affairs is undesirable and that the area of the nine constituencies already referred to, should perhaps be extended to the Hottentots Holland mountains but decided not to do so because—

(a) the additional voters would not be exclusively urban voters as is the case with those in the nine constituencies in question and community of interests would thus still remain an issue, and

(b) such a division would cause a deficiency in Genadendal which would have a ripple effect eastwards in adjoining constituencies as far as the George/Knysna area.

(2) In redividing the area into 20 constituencies, the Commission endeavoured to retain townships as units within the same constituencies and, except in three cases, succeeded in doing so. Applying the quota, however, necessitated that Bonteheuvel, Bishop Lavis and Kensington be divided. In the case of Bishop Lavis it was held out to the Commission that there is a measure of disunity between the inhabitants of Bishop Lavis itself and adjoining areas such as Nootgedacht, Montana and Charlesville which may have an adverse effect on polling day. But, as already indicated, the application of the quota brought about that Bishop Lavis township had to be divided. It was not possible, moreover, to segregate the other areas from at least one portion of Bishop Lavis.

(3) In Strandfontein was daar bykans 78 000 kiesers. Benewens twee totaal nuwe kiesafdelings (Grassy Park en Mitchells Plain) wat hier geskep kon word, is die res van die oorskot by ander kiesafdelings ingedeel. Die resultaat was dat Strandfontein self tot aansienlike mate ontlaai is.

(4) Die kiesers in Walvisbaai is by Suid-Kaap ingedeel wat, anders as wat die bevolkingsregister aandui, groten-deels ontvolk is.

(5) Slegs een ander aangeleentheid verdien vermelding. Die Kommissie is naamlik toegesprek deur 'n verteenwoordiger van die Griekwa gemeenskap met die versoek dat kolle waarin oorwegend Griekwas woon, as afsonderlike kiesafdelings ingedeel word. Slegs in die Kimberley omgewing waar Griekwaland-Wes geskep is, het die getalle egter so 'n stap geregtig.

### Natal

3.5 Die 43 029 Kleurlingkiesers in Natal moes by vyf kiesafdelings ingedeel word (teenoor die drie van die Verteenwoordigende Kleurlingraad).

3.6 Van hierdie kiesers was 22 322 in die Durban/Pinetown gebied in twee van die genoemde Raad se kiesafdelings, Greenwood Park en Wentworth. In die aangrensende Newlands gebied was nog 2 319. Vir die Verteenwoordigende Kleurlingraad was hulle by Natalse Binneland ingedeel. Natalse Binneland het die ganse Natal, uitgesonderd die Durban/Pinetown gebied, beslaan. Benewens die 2 319 kiesers in Newlands waarna reeds verwys is, was 18 388 kiesers daarby ingedeel, wat 7 068 in die Pietermaritzburg omgewing ingesluit het.

3.7 Die Kommissie se grootste probleem by die verdeling van die provinsie was die geweldige omvang van Natalse Binneland. In so 'n kiesafdeling kan weinig tereg kom van die faktore waarna in artikel 49 (3) van die Grondwet verwys word, en die Kommissie se uitgangspunt was gevolglik dat die nuwe verdeling hierdie ongewenste stand van sake, indien enigsins moontlik, moes uitskakel.

3.8 Ongelukkig was dit egter nie moontlik nie. Weens—

- (i) die geweldige konsentrasie van kiesers in die Durban/Pinetown gebied,
- (ii) die praktiese onuitvoerbaarheid van 'n verdeling van die Pietermaritzburg gebied, en
- (iii) die kwota-vereiste

was die Kommissie verplig om Natalse Binneland groten-deels te behou en om dit slegs te verbeter deur die suidelike kusstrook daarvan uit te sluit tesame met die Pietermaritzburg, Greytown, Kranskop, New Hanover, Richmond, Ixopo en Harding gebiede.

3.9 In laasgenoemde gebiede is 'n nuwe kiesafdeling Natal Mid-Oos geskep. Die suidelike kusstrook is by Wentworth ingelyf en 'n nuwe stedelike kiesafdeling, Durban Voorstede, is geskep waarby die 2 319 kiesers van Newlands ingeskakel is.

3.10 Die Kommissie het sekere voorstelle wat deur The National People's Party of S.A. voorgelê is, sorgvuldig oorweeg. Dit was ten dele slegs nominaal op die syfers van die bevolkingsregister gebaseer en sou 'n verbrekking meebring wat vir die Kommissie onaanvaarbaar was.

### Oranje-Vrystaat

3.11 Die 17 364 kiesers moes by vyf kiesafdelings ingedeel word.

3.12 Ook in hierdie provinsie was die meeste kiesers in die stedelike gebied (Bloemfontein in hierdie geval) saamgetrek.

(3) There were almost 78 000 voters in Strandfontein apart from two totally new constituencies (Grassy Park and Mitchells Plain) which were created here, the rest of the surplus was allocated to other constituencies. The result was that Strandfontein was deloaded to a considerable extent.

(4) The voters in Walvis Bay were allocated to South Cape which, contrary to what the population register indicates, has become largely depopulated.

(5) Only one other matter deserves mention. The Commission was addressed by a representative of the Griqua community who requested that areas which are predominantly inhabited by Griquas be allocated to separate constituencies. Only in the Kimberley area where Griqualand West was constituted, did the numbers justify such a step.

### Natal

3.5 The 43 029 Coloured voters in Natal had to be allocated to five constituencies (as against the three of the Coloured Persons Representative Council).

3.6 22 322 of these voters were in the Durban/Pinetown area in two of the said Council's constituencies, Greenwood Park and Wentworth. In the adjoining Newlands area there were another 2 319 who, for purposes of the Coloured Persons Representative Council had been allocated to Natal Interior. Natal Interior comprised the whole of Natal excluding the Durban/Pinetown area. Apart from the 2 319 voters in Newlands already referred to, 18 388 voters had been allocated to Natal Interior including 7 068 in the Pietermaritzburg area.

3.7 The Commission's greatest problem in dividing the province was the immense size of Natal Interior. In such a large constituency very little can come of the factors mentioned in section 49 (3) of the Constitution and the Commission's approach was that this undesirable state of affairs should, if at all possible, be eliminated in the new division.

3.8 Unfortunately this was not possible. On account of—

- (i) the large concentration of voters in the Durban/Pinetown area,
- (ii) the practical unfeasibility of dividing the Pietermaritzburg area, and
- (iii) the quota requirements,

the Commission was compelled to retain Natal Interior largely as before and merely to improve upon it by excluding the southern coastal belt therefrom with the Pietermaritzburg, Greytown, Kranskop, New Hanover, Richmond, Ixopo and Harding areas.

3.9 In those areas a new constituency Natal Mid-East was formed. The southern coastal belt was incorporated into Wentworth and a new urban constituency, Durban Suburbs, was created to which the 2 319 voters of Newlands were allotted.

3.10 The Commission carefully considered certain proposals submitted to it by the National People's Party of South Africa. In part those proposals were only nominally based on the figures of the population register and they would entail a disintegration of communities which the Commission found wholly unacceptable.

### Orange Free State

3.11 The 17 364 voters had to be allocated to 5 constituencies.

3.12 In this province too most of the voters were in the urban area (Bloemfontein in this case).

3.13 Die Bloemfonteinse kiesers woon hoofsaaklik in Heidedal en Opkoms en die vanselfsprekende verdeling sou die behoud van elkeen van hierdie dorpsgebiede behels. Dit was egter, uitsluitlik weens die kwota-vereistes, nie moontlik nie en 'n gedeelte van Heidedal moes by Opkoms kiesafdeling ingeskakel word.

3.14 By die afbakening van hierdie provinsie is die voorstelle van die Arbeidersparty grotendeels aanvaar.

#### **Transvaal**

3.15 Die provinsie het 107 153 kiesers. Die reeds bekende patroon van groot konsentrasies kiesers in die stede met 'n yl verspreiding op die platteland herhaal homself ook hier.

3.16 Die provinsie was tevore in ses kiesafdelings ingedeel vir die Verteenwoordigende Kleurlingraad. Die Kommissie se taak was om die kiesers by 10 kiesafdelings in te deel.

3.17 Weens die konsentrasie van kiesers aan die Rand, het die Kommissie dit doenlik geag om sewe kiesafdelings vanaf die Oos Rand tot die Wes Rand te skep. Die oorblywende deel van die provinsie is in drie afdelings ingedeel waarvan een, Rust ter Vaal, as 'n spesiale afdeling met 'n oppervlakte van meer as 25 000 vierkante kilometer en 'n kieserstal van 7 679 tot stand gebring is.

3.18 Die kiesers in die Pretoria gebied bevind hulle hoofsaaklik in twee ver van mekaar verwysde streke, naamlik Atteridgeville in die weste en Eersterus in die ooste. Aangesien dit onmoontlik sou wees om hierdie twee groepe in een afdeling te verenig sonder om die maksimum belading van 15 % te oorskry, was die Kommissie van oordeel dat hy die Atteridgeville groep van die Eersterus groep kon skei sonder om die oorweging ten gunste van gemeenskaplikheid van belange geweld aan te doen. Die Atteridgeville groep is gevolglik by Noord-Transvaal ingedeel en die Eersterus groep by Eersterus wat twee goedgebalanseerde afdelings tot gevolg gehad het.

### **HOOFSTUK IV**

#### **DIE RAAD VAN AFGEVAARDIGDES**

##### **Kaapprovinsie**

4.1 Daar was reeds drie kiesafdelings vir die Suid-Afrikaanse Indiërraad in die Kaapprovinsie, naamlik een stede-lyke (Rylands) en twee plattelandse afdelings. Laasgenoemde was so groot wat oppervlakte betref, dat hulle as spesiale afdelings sou kwalifiseer met 'n kwota van 70 % van die normale. Malabar was egter slegs 6 % onder en Noordwes-Kaap was 31,8 % bo kwota. Rylands, daarenteen, was 25,49 % onder kwota.

4.2 Die Kommissie het besluit om die drie kiesafdelings te behou en slegs 'n aanpassing tussen Rylands en Noordwes-Kaap te maak. Rylands was deel van stembedistrik 207 en deur die res van die stembedistrik daarby te voeg, kon die wanbalans uitgeskakel word sodat Rylands 9,5 % bo kwota, en Noordwes-Kaap en Malabar onderskeidelik 3,1 % en 6,3 % onder kwota is.

##### **Natal**

4.3 Soos in die geval van die ander provinsies, het die Kommissie gepoog om in Natal ook die grense van die kiesafdelings van die Suid-Afrikaanse Indiërraad waar moontlik te behou. Daar was egter slegs 27 kiesafdelings van daardie Raad teenoor 29 wat vir die Raad van Afgevaardigdes geskep moes word. Prakties sou dit dus beteken dat, benewens aanpassings wat die toepassing van die kwota vereis het, twee nuwe kiesafdelings saamgestel moes word.

4.4 Algemeen gesproke is die Indiër-bevolkingspatroon in Natal dieselfde as dié elders in die land, naamlik, 'n groot stedelike konsentrasie in die Durban/Pinetown en die

3.13 The Bloemfontein voters live mainly in Heidedal and Opkoms and the natural division would have been the retention of each of these townships. However, exclusively on account of the quota, this was not possible and part of Heidedal had to be incorporated into Opkoms constituency.

3.14 The proposals submitted by the Labour Party were largely accepted in the delimitation of this province.

#### **Transvaal**

3.15 This province has 107 153 voters. The well known pattern of large concentrations of voters in the urban areas with sparsely populated rural areas repeated itself here.

3.16 The province had been divided into six constituencies for the Coloured Persons Representative Council. The Commission had to allocate these voters to 10 constituencies.

3.17 On account of the concentration of voters on the Rand, the Commission deemed it necessary to create seven constituencies from the East Rand to the West Rand. The remaining part of the province was divided into three constituencies of which Rust Ter Vaal was formed as a special constituency with an area of more than 25 000 square kilometres and 7 679 voters.

3.18 The voters in the Pretoria area are mainly in two distantly situated areas, Atteridgeville in the west and Eersterus in the east. It being impossible to include both these groups in one constituency without exceeding the maximum loading of 15 %, the Commission was of the view that it could separate the Atteridgeville group from the Eersterus group without doing violence to the consideration in favour of community of interests. The Atteridgeville group was accordingly incorporated into Northern Transvaal and the Eersterus group into Eersterus which brought about two well balanced constituencies.

### **CHAPTER IV**

#### **THE HOUSE OF DELEGATES**

##### **Cape Province**

4.1 There were three constituencies of the South African Indian Council in the Cape Province, viz. 1 urban (Rylands) and two rural constituencies. The latter were large enough in size to qualify as special constituencies with a quota of 70 % of the normal. Malabar was, however, only 6 % under and North Western Cape 31,8 % above quota. Rylands, on the other hand, was 25,49 % under quota.

4.2 The Commission decided to retain the three constituencies and merely to make an adjustment between Rylands and North Western Cape. Rylands forms part of polling district 207 and by incorporating the rest of the polling district into it, the imbalance could be corrected with the result that Rylands now is 9,5 % above quota and North Western Cape and Malabar respectively 3,1 % and 6,3 % under quota.

##### **Natal**

4.3 As was done in the other provinces, the Commission tried to retain the boundaries of the constituencies of the South African Indian Council in Natal too. There were, however, only 27 constituencies of that Council as against the 29 which had to be created for the House of Delegates. Practically speaking, this would bring about that, apart from adjustments which the application of the quota required, two new constituencies had to be formed.

4.4 Generally speaking the population pattern of the Indians in Natal is the same as that elsewhere in the country viz. a large urban concentration in the Durban/Pinetown and

Pietermaritzburg gebiede. Maar, anders as in die ander provinsies, is daar etlike dorpe (bv. Ladysmith, Tongaat en Stanger), waar aansienlike getalle Indiërs woon. Die afbakening moes by hierdie patroon inpas.

4.5 Die Kommissie moes eerstens besluit oor die ligging van die twee nuwe kiesafdelings. Voor voltooiing van die voorlopige plan, is slegs een voorstel in daardie verband ontvang. Dit het behels dat 'n kiesafdeling in die noordooste rondom Newcastle, Dundee en Glencoe as spil (met Ladysmith uitgesluit) geskep word. Daardie voorstel het egter nie rekening gehou met die beskikbare aantal kiesers en die kwota-vereistes nie. Dit sou wel moontlik wees om so 'n kiesafdeling te skep maar, selfs al sou die insnydings gedoen word wat daardeur in aangrensende kiesafdelings en in stemdistrikte genoodsaak sou word, sou dit meebring dat daar te min kiesers beskikbaar sou wees vir aangrensende afdelings. Die voorstel het ook uit die oog verloor dat etlike kiesafdelings in die Durban/Pinetown gebied tot so 'n mate bo kwota sou wees dat die oorskot nie in ander kiesafdelings afgewentel sou kon word nie. Phoenix was byvoorbeeld ongeveer 2 000 en Shallcross bykans 3 000 bo die syfer vir maksimum belading. Cavendish, Havenside en Merebank het ook meer kiesers gehad as die toelaatbare maksimum.

4.6 Die Kommissie het gevolglik besluit om albei die nuwe kiesafdelings in die Durban/Pinetown area te setel, temeer daar die Kommissie meegedeel is dat die getal werklike kiesers in Phoenix die getal wat die bevolkingsregister aantoon, ver sou oorskry. Dit het meebring dat, hoewel aansienlike grensverskuiwings in daardie gebied noodsaaklik was (wat in elke geval nodig was weens die oorlading waarna reeds verwys is), die res van die kiesafdelings van die Suid-Afrikaanse Indiërraad, op drie na, almal geheel onveranderd gelaat kon word.

4.7 Een van die nuwe afdelings is in die suidelike voorstede ingedeel en is Bayview genoem. Die ander een het in die noorde tot stand gekom en die Kommissie het die naam Reservoir Hills daarvoor behou.

4.8 In die proses van herindeling het Sydenham as kiesafdeling verdwyn en, waar nodig, is naamsveranderings aangebring.

4.9 Die Kommissie het besondere verhoë ontvang in verband met twee kiesafdelings—Merebank en Stanger. Merebankstasie het naamlik nie deel gevorm van Merebank nie. Die Kommissie het dit reggestel. In die geval van Stanger was 'n deel van die munisipale gebied van Stanger by Natal-Noordkus ingedeel. Die Kommissie het gepoog om hier ook 'n regstelling te maak maar het dit onmoontlik gevind in die lig van die kwota-vereistes. Die hele munisipale gebied sou slegs in een kiesafdeling ingedeel kon word indien stemdistrik 140 (die Darnall gebied) uitgesluit word, wat nie as wenslik beskou is nie.

### **Transvaal**

4.10 Die getal kiesers in Transvaal beloop 56 086 wat in 8 kiesafdelings ingedeel moes word.

4.11 Die provinsie was in 10 kiesafdelings van die Suid-Afrikaanse Indiërraad verdeel en die Kommissie het hierdie verdeling as grondslag vir sy huidige afbakening gebruik. 'n Herindeling moes egter bewerkstellig word op so 'n wyse dat twee van die vorige kiesafdelings sou verdwyn.

4.12 Die Kommissie het 'n aantal probleme ondervind in sy pogings om ten volle gevolg te gee aan die vereistes van artikel 49 (3) van die Grondwet hoofsaaklik as gevolg van die volgende faktore, naamlik:

- (i) Die groot konsentrasie van Indiërs in stedelike gebiede en hul yl verspreiding in die platteland; en
- (ii) die Kommissie se gebondenheid aan die beladings- en ontladingspersentasie.

the Pietermaritzburg areas. But, unlike the other provinces, there are several towns (e.g. Ladysmith, Tongaat and Stanger) in which considerable numbers of Indians live. The delimitation had to follow this pattern.

4.5 The Commission first had to decide on the situation of the two new constituencies. Before completion of its provisional scheme, only one proposal had been received in that regard which entailed the creation of a constituency in the north-east centered around Newcastle, Dundee and Glencoe (but excluding Ladysmith). That proposal did not take account of the available number of voters and the requirements of the quota. It would be possible to create such a constituency but, if the incisions were to be made which would thereby be necessitated in adjoining constituencies and polling districts, it would bring about a deficiency of voters in the adjoining areas. It also lost sight of the fact that several constituencies in the Durban/Pinetown area were to such an extent above quota that the surplus could not be diverted to other constituencies. Phoenix e.g. was about 2 000 and Shallcross about 3 000 above the figure for maximum loading. Cavendish, Havenside and Merebank also had more voters than the permissible maximum.

4.6 The Commission accordingly decided to constitute both new divisions in the Durban/Pinetown area especially since it was informed that the number of actual voters in Phoenix exceeded by far the number shown in the population register. This brought about that, although there had to be major changes in boundaries in that area (which were in any event necessary on account of the surplus to which reference has already been made) the other constituencies of the South African Indian Council, apart from 3, could all be retained completely unchanged.

4.7 One of the new constituencies was constituted in the southern suburbs and called Bayview. The other one was constituted in the north and the name reservoir Hills was retained for it.

4.8 In the process of the new division Sydenham disappeared as a constituency and name changes were brought about where necessary.

4.9 The Commission received special representations relating to two constituencies—Merebank and Stanger. Merebank Station did not form part of Merebank constituency. This was corrected by the Commission. In the case of Stanger part of the municipal area of Stanger had been incorporated into Natal North Coast. The Commission tried to make a correction here too but found it impossible in view of the requirements of the quota. The whole municipal area could only be incorporated into one constituency if polling district 140 (the Darnall area) were to be excluded, and the Commission deemed that undesirable.

### **Transvaal**

4.10 There are 56 086 voters in the Transvaal which had to be allocated to 8 constituencies.

4.11 The province had been divided into 10 constituencies for the South African Indian Council and the Commission used this division as the basis for its new delimitation. The new division had, however, to be done in such a way that two of the previous constituencies would disappear.

4.12 The Commission encountered a number of problems in its endeavours to give full effect to the requirements of section 49 (3) of the Constitution mainly on account of the following factors:

- (i) The dense concentration of Indians in urban areas and their sparsity in rural areas; and
- (ii) the Commission being bound by the loading and de-loading percentages.

4.13 As gevolg van hierdie beperkings moes die Kommissie noodgedwonge—

(i) een kiesafdeling skep (Noordwes-Transvaal) met 'n totale grondoppervlakte van bykans 150 000 vierkante kilometer, en 'n ander afdeling (Oos-Transvaal) met 'n oppervlakte van bykans 100 000 vierkante kilometer. Na die Kommissie se oordeel is sulke groot afdelings lomp en onoorsigtelik en plaas dit 'n geweldige las op die skouers van kandidate en die uiteindelik verkose lid;

(ii) kiesers in 'n stedelike gebied (te wete Springs) in deel by 'n hoofsaaklik landelike kiesafdeling, naamlik Oos-Transvaal. Indien die beladings- en ontladingspersentasie hoër was (sê 25 %) kon hierdie ongewenste toestand voorkom gewees het.

4.14 Die huidige afbakening het tot gevolg gehad dat die ou kiesafdelings Vaalrivier en Fordsburg verdwyn het.

4.15 Die drie Lenasia afdelings is ongeskonde behou (behalwe vir 'n geringe wysiging aan die een grens van Lenasia Sentraal) hoewel die aantal kiesers redelik ver benede die maksimum beladingsyfer is, omdat die Kommissie van oordeel was dat ruimte vir 'n toename in bevolking gelaat moet word in geval van hierdie afdelings. In die geval van Laudium is daar tekens dat 'n soortgelyke toename reeds plaasgevind het en stemdistrik 124 is gevolglik tot hierdie afdeling toegevoeg.

## HOOFSTUK V

Die Kommissie boekstaaf graag sy opregte dank en waardering teenoor sy sekretaris, mnr. B. R. Buys, en sy assistent-sekretaris, mnr. H. W. van Heerden, vir die bekwame en onbaatsugtige diens wat hulle gelewer het. Hulle het alles in hulle vermoë gedoen om die Kommissie se taak te vergemaklik en om die probleme wat ontstaan het, op te los. Nóg tyd, nóg groot persoonlike ongerief is ontsien om die Kommissie by te staan.

Dank word ook betuig teenoor ander amptenare van die Departement van Binnelandse Aangeleenthede vir die voorbereiding van statistiek en kaarte. In hierdie verband word die naam van mej. Petro Cook van die kantoor in Kaapstad in besonder genoem.

Laastens betuig die Kommissie sy dank teenoor die Raad vir Godsdienstige Beswaar wat sy kantore in Bloemfontein beskikbaar gestel het.

## HOOFSTUK VI

### BYLAES

Die volgende bylaes word hierby aangeheg:

*Bylae I:* Lys kiesafdelings vir die Raad van Verteenwoordigers in alfabetiese orde vir elke provinsie.

*Bylae II:* Kaarte genommer 1 tot 12 waarop die kiesafdelings vir die Raad van Verteenwoordigers aangedui word.

*Bylae III:* 'n Reeks beskrywings van die kiesafdelings vir die Raad van Verteenwoordigers in alfabetiese orde vir elke provinsie. (Waar in die beskrywings verwys word na stemdistrikte by wyse van nommer, beteken dit die stemdistrikte wat onder daardie nommers geproklameer is by Proklamasie No's. 66 van 1958, 70 en 131 van 1959, 59 van 1966, 127 van 1969 en 204 van 1969.)

*Bylae IV:* Lys van kiesafdelings vir die Raad van Afgevaardigdes in alfabetiese orde vir elke provinsie.

*Bylae V:* Kaarte genommer 13 tot 20 waarop die kiesafdelings vir die Raad van Afgevaardigdes aangedui word.

4.13 As a result of these limitations the Commission was forced—

(i) to constitute one constituency (North Western Transvaal) with a total area of almost 150 000 square kilometres, and another one (Eastern Transvaal) with an area of almost 100 000 square kilometres. In the Commission's view such a large clumsy constituency places a tremendous burden on the shoulders of candidates and the eventually elected member;

(ii) to allocate voters from an urban area (Springs) to a mainly rural constituency (Eastern Transvaal). If the loading and deloading percentages had been higher (say 25 %) this undesirable state of affairs could have been prevented.

4.14 The delimitation brought about that the old constituencies Vaal River and Fordsburg disappeared.

4.15 The three Lenasia constituencies were retained unchanged (save for a minor adjustment to the boundary of Lenasia Central) although the number of voters is far below the maximum permissible loading because the Commission was of the view that allowance had to be made for an increase in the population in these constituencies. In the case of Laudium there are already signs of such an increase and polling district 124 was accordingly incorporated into this constituency.

## CHAPTER V

The Commission wishes to record its sincere gratitude and appreciation towards its secretary, Mr B. R. Buys, and its assistant-secretary, Mr H. W. van Heerden, for the extremely competent and unselfish services which they rendered. They did everything which they possibly could in order to ease the Commission's task and to solve the problems which arose. Neither time nor great personal inconvenience stood in the way of their assistance to the Commission.

Appreciation is also extended towards other officials of the Department of Internal Affairs for the preparation of statistics and maps. In this connection the name of Miss Petro Cook of the office in Cape Town is mentioned specially.

Finally the Commission wishes to thank the Board for Religious Objection which made their offices in Bloemfontein available to the Commission.

### SCHEDULES

The following schedules are annexed hereto:

*Schedule I:* List of constituencies for the House of Representatives in alphabetical order for each province.

*Schedule II:* Maps numbered 1 to 12 on which the constituencies for the House of Representatives appear.

*Schedule III:* A series of descriptions of the constituencies for the House of Representatives in alphabetical order for each province. (Where reference is made in the descriptions to polling districts by number, it means the polling district proclaimed under that number in Proclamation Nos. 66 of 1958, 70 and 131 of 1959, 59 of 1966, 127 of 1969 and 204 of 1969).

*Schedule IV:* List of constituencies for the House of Delegates in alphabetical order for each province.

*Schedule V:* Maps numbered 13 to 20 on which the constituencies for the House of Delegates appear.

*Bylae VI:* 'n Reeks beskrywings van die kiesafdelings vir die Raad van Afgevaardigdes in alfabetiese orde vir elke provinsie. (Waar in die beskrywings na stemdistrikte verwys word by wyse van nommer, beteken dit die stemdistrikte wat onder daardie nommers geproklameer is in Proklamasie 145 van 1979.)

## **Plasing van tale:**

### ***Staatskoerante***

1. Hiermee word bekendgemaak dat die omruil van tale in die *Staatskoerant* nie meer kwartaalliks gedoen word nie, maar dat dit jaarliks sal geskied, beginnende vanaf 1 Oktober tot 30 September, elke jaar.
2. Vir die tydperk 1 Oktober 1983 tot 30 September 1984 word Afrikaans EERSTE geplaas.
3. Hierdie reëling word in ooreenstemming gebring met dié van die Parlement waarby koerante met Wette ens. die taalvolgorde deurgaans behou vir die duur van die sitting.
4. Dit word dus van u, as adverteerder, verwag om u kopie met bogenoemde reëling te laat strook om onnodige omskakeling en stylredigering in ooreenstemming te bring.

## **Placing of languages:**

### ***Government Gazettes***

1. Notice is hereby given that the interchange of languages in the *Government Gazette* no longer takes place quarterly, but that it will now be done annually, starting on 1 October until 30 September, every year.
2. For the period 1 October 1983 to 30 September 1984, Afrikaans is to be placed FIRST, changing annually hereafter.
3. This arrangement is to bring the *Government Gazettes* in conformity with Gazettes containing Acts of Parliament etc. where the language sequence remains constant throughout the sitting of Parliament.
4. It is therefore expected of you, the advertiser, to see that your copy is in accordance with the above-mentioned arrangement in order to avoid unnecessary style changes and editing to correspond with the correct style.
