This was very much slow. Now there are cars, trains and buses to take up to our desired destinations. The growth of Education and thus the welfare of the society gave birth to the travelling nation. Educated people like going to recreational places and holiday resorts. Most people move to far places to admire the wonders of nature eg Oceans, caves and nature reserves. In order to be social one have to meet as many people as possible. There are school trips to places of interest or to view some of God's wonderful creation or knowing each other by playing games. Different churches arrange special times for conferences where they meet in great numbers. Then, because of all this there are buses or companies intending to help tese touristsm travellers. I have found them inadequate because; for example, during easter holidays and festure seasons the commuters transport is more searce. It is because of the shortage of the private hiring transport that forced th pulling out of the public transport to this sector. During Esterfords the transporting of chairs hampers the public transport flow. The same reason as above. Because of these reasons and others that I forget to mention I decided to apply for the Permit. If it can be successful it will help the present facilities a great deal. But its insufficiency if of great harm to this new generation. These buses are of great need to tourists as car prices likest with that of level forcing all people or most people go for buses on their special tours.
