2. Any person who feels aggrieved by the Director-General's determination with regard to the irrigable area or existing irrigation development on a piece of land as indicated in the Schedule hereto, or because no determination has been made in respect of any particular piece of land, may in terms of section 62 (2D) (a) of the Act submit an objection in writing within ninety (90) days from the date of publication of this notice, together with the necessary evidence, charts, statements and proof to substantiate the objection, to the

"stuk grond" 'n stuk grond wat op die datum van insluiting daarvan by die Gebied as 'n afsonderlik opgemete eenheid in die kantoor van die betrokke registrateur van aktes geregistreer was;

"stuk grond met bestaande besproeiingsontwikkeling", met betrekking tot die Gebied, 'n stuk grond in die Gebied wat—

(a) op die datum van insluiting daarvan in die Gebied in die kantoor van 'n registrateur van aktes geregistreer was; en

(b) te eniger tyd gedurende die kwalifiserende tydperk in die geheel of gedeeltelik, hetsy wettiglik of onwettiglik, met openbare water besproei is;

"vergunning" die hoeveelheid openbare water wat ingevolge artikel 62 (2B) van die Wet ten opsigte van 'n stuk grond vir nuwe besproeiingsontwikkeling kragtens die bepalings van Goewermentskennisgewing No. 1683 van 15 Augustus 1986 onttrek mag word;

"voorlopige reg" die hoeveelheid openbare water wat ingevolge artikel 62 (2A) (a) van die Wet ten opsigte van 'n stuk grond met bestaande besproeiingsontwikkeling uitgeneem, opgedam, opgegaar of vir besproeiingsdoeleindes gebruik mag word, en wat na die oordeel van die Direkteur-generaal: Waterwese, voldoende is vir die besproeiing van die oppervlakte teenoor elke stuk grond in die Bylae tot hierdie kennisgewing aangedui.

1. Ek, Jacob Albertus van Wyk, Adjunk-minister van Waterwese, handelende namens die Minister van Waterwese kragtens die bevoegdheid hom verleen by artikel 62 (2D) (a) van die Wet, publiseer in die Bylae hiervan 'n lys van al die stukke grond in die Gebied oewer aan die Modderivier vanaf die plaas Dewetskom 452 tot by die Rustfontein dam ten opsigte waarvan die Direkteur-generaal: Waterwese, kragtens artikel 62 (2C) (a) van die Wet, 'n bepaling gemaak het met betrekking tot die besproeibare oppervlakte sowel as die bestaande besproeiingsontwikkeling wat tydens 'n opname in die Gebied gevind is.

2. Enigiemand wat hom veronreg voel deur die Direkteur-generaal se bepaling wat betref die besproeibare oppervlakte of bestaande besproeiingsontwikkeling op 'n stuk grond soos in die Bylae hiervan aangegeef, of omdat daar geen bepaling ten opsigte van 'n bepaalde stuk grond gedoen is nie, kan ingevolge artikel 62 (2D) (a) van die Wet, binne negentig (90) dae vanaf die datum van publikasie van hierdie kennisgewing enige beswaar tesame met die nodige bewysstukke, kaarte, verklarings en getuienis ter stawing van

Director-General, Department of Water Affairs, Private Bag X313, Pretoria, 0001, for a decision on the objection by the Minister of Water Affairs. Any person who feels aggrieved by the Minister's decision, may in terms of section 62 (2D) (c) of the Act, after written notice to the Minister, lodge an appeal to the Water Court against the decision within sixty (60) days from the date on which he was informed of the Minister's decision and the Water Court may, after any investigation which it deems necessary, confirm the Minister's decision or make such other order as the court deems fit.

3. Any objection to the determination of the irrigable area as indicated in the Schedule in respect of a certain piece of land must be substantiated by a chart compiled according to scale on which the location and extent of any further alleged irrigable land is shown, taking into account the limits approved by the Minister with regard to distance from the river-bank and static pumping height vertically above the river-bed. Furthermore, a report by an approved agronomist is required with regard to the alleged irrigable areas which are shown on the chart, in which it is certified that such land is in fact irrigable.

4. Any objection to the determination of the existing irrigation development as indicated in the Schedule in respect of a certain piece of land must be substantiated by a chart compiled according to scale on which the location and extent of the alleged existing irrigation development is shown, as well as each pump and aqueduct which served such development and an indication of the size, capacity or carrying capacity thereof. The mere existence or presence of cultivated lands and water distribution works will not necessarily be accepted as conclusive evidence that such lands were in fact irrigated during the qualifying period. Each point of abstraction from a public stream must be indicated on the chart and, in respect of a pumping installation, full particulars are required of the pump, motor, delivery capacity, in- and outlets and pumping height. Any claim to existing irrigation development can only be acknowledged to the extent to which an existing water work was capable of serving the alleged existing irrigation development effectively and beneficially during the qualifying period. In a case where the evidence of another person or body is used to substantiate a claim or an objection, such person or body must not have been previously involved in a similar survey in the Area concerned. The right is reserved to request and to obtain any additional particulars and evidence for the verification and confirmation of any claim or objection.

5. The Minister shall, after finalising any objection or appeal, determine the final allocation of water to each piece of land in the Area in terms of section 62 (2E) of the Act, on the basis of the quantity of public water available, taking into account the irrigable areas and existing irrigation development as determined in terms of section 62 (2D) of the Act, which allocation shall be published in the *Government Gazette* in terms of section 62 (2F) of the Act and shall replace all provisional rights and permissions previously granted.

die beswaar, skriftelik aan die Direkteur-generaal, Departement van Waterwese, Privaatsak X313, Pretoria, 0001, voorlê vir 'n beslissing oor sy beswaar deur die Minister van Waterwese. Enigiemand wat hom veronreg voel deur die Minister se beslissing kan ingevolge artikel 62 (2D) (c) van die Wet, na skriftelike kennisgewing aan die Minister, binne sestig (60) dae vanaf die datum waarop hy van die Minister se beslissing verwittig is, by die Waterhof appél teen die beslissing aanteken, en die Waterhof kan na die ondersoek wat die hof wenslik ag, die Minister se beslissing handhaaf of 'n ander bevel maak wat die hof goedvind.

3. Enige beswaar teen die bepaling van die besproei-bare oppervlakte soos in die Bylae ten opsigte van 'n bepaalde stuk grond aangedui, moet gestaaf word deur 'n kaart volgens skaal waarop die ligging en omvang van enige verdere oppervlakte wat na bewering, besproei-bare grond is, aangetoon word, met inagneming van die deur die Minister goedgekeurde perke met betrekking tot afstand vanaf die rivieroewer en statiese pomphoogte vertikaal bokant die rivierbedding. Voorts word 'n verslag deur 'n aanvaarbare grondkundige vereis met betrekking tot die beweerde besproei-bare oppervlaktes wat op die kaart aangetoon word, waarin gesertifiseer word dat sodanige grond wel besproei-baar is.

4. Enige beswaar teen die bepaling van die bestaande besproeiingsontwikkeling soos in die Bylae ten opsigte van 'n bepaalde stuk grond aangetoon, moet gestaaf word deur 'n kaart volgens skaal voorberei, waarop die ligging en grootte van die beweerde bestaande besproeiingsontwikkeling aangetoon word, asook elke pomp en waterleiding wat sodanige ontwikkeling bedien het, sowel as 'n aanduiding van die grootte, kapasiteit of dra vermoë daarvan. Die blote bestaan of afwesigheid van bewerkte lande en watersverspreidingswerke sal nie noodwendig as afdoende bewys aanvaar word dat sodanige lande gedurende die kwalifiserende tydperk wel besproei was nie. Elke ont-trekkingspunt uit 'n openbare stroom moet op die kaart aangedui word en ten opsigte van 'n pompinstallasie word volle besonderhede van die pomp, aandrywing, leweringsvermoë, in- en uitlate sowel as pomphoogte vereis. Enige aanspraak op bestaande besproeiingsont-wikkeling kan slegs erken word tot die mate waartoe 'n bestaande waterwerk gedurende die kwalifiserende tydperk in staat was om die beweerde bestaande bes-proeiingsontwikkeling voordelig en doeltreffend te be-dien. In 'n geval waar daar van die getuienis van 'n ander persoon of instansie gebruik gemaak word om 'n aanspraak of beswaar te staaf, moet dit 'n persoon of instansie wees wat nie tevore betrokke was by die maak van 'n soortgelyke opname in die betrokke Gebied nie. Die reg word voorbehou om enige verdere besonder-hede en getuienis aan te vra en in te win vir die kontro-lering en staving van enige aanspraak of beswaar.

5. Die Minister sal na finalisering van enige beswaar of appél met inagneming van die besproei-bare oppervlaktes en bestaande besproeiingsontwikkeling soos ingevolge artikel 62 (2D) van die Wet bepaal, kragtens artikel 62 (2E) van die Wet, die finale toekenning van water aan elke stuk grond in die Gebied bepaal aan die hand van die beskikbare hoeveelheid openbare water, welke toekenning ingevolge artikel 62 (2F) van die Wet in die *Staatskoerant* gepubliseer sal word en alle voor-lopige regte en vergunnings voorheen verleen, sal ver-vang.

6. The general permission in terms of section 62 (2B) of the Act as published by Government Notice No. 1683 of 15 August 1986 as well as any provisional right or permission which resulted therefrom, shall remain in force until such time as it is replaced by a notice in terms of section 62 (2F) of the Act indicating the final allocation in respect of each piece of land in the Area. No new water work may be erected or any alteration made to an existing water work without first obtaining an authorization in terms of section 62 (2H) (a) of the Act. Applications in this regard must be forwarded to the Regional Director: Free State, Department of Water Affairs, P.O. Box 528, Bloemfontein, 9300.

J. A. VAN WYK,
Deputy Minister of Water Affairs.

6. Die algemene vergunning kragtens artikel 62 (2B) van die Wet soos gepubliseer by Goewermentskennisgewing No. 1683 van 15 Augustus 1986 en enige voorlopige reg of vergunning wat uit hoofde daarvan tot stand gekom het, bly van krag tot tyd en wyl dit vervang word met 'n kennisgewing ingevolge artikel 62 (2F) van die Wet, wat die finale toekenning ten opsigte van elke stuk grond in die Gebied sal vermeld. Geen nuwe waterwerk mag opgerig of enige verandering aan 'n bestaande waterwerk aangebring word nie sonder die voorafverkryging van 'n magtiging ingevolge artikel 62 (2H) (a) van die Wet. Aansoeke in dié verband moet gerig word aan die Streekdirekteur: Vrystaat, Departement van Waterwese, Posbus 528, Bloemfontein, 9300.

J. A. VAN WYK,
Adjunk-minister van Waterwese.
