Existing transport facilities are inadequare to meet passengers transportation demands both in terms of number and time. I am referring to passengers commuting from Eloff Station neighbouring farms to the Eloff Station, Delmas. Approximately 80% of these people is employed either at OTK Ltd or Wolfbrand Packing Ltd or at Coal Merchants. These factories are located next to Eloff Station. The existing transport facilities have now become inadequate to carry the large amount of the workforce employed in these factories. As a result of the shortage of transport, workers are now forced to report late at work during the mornings and arrive at their respective homes very late.

The parking space is available and at least further 7 minibuses could still be accommodated at Eloff Station parking area. Therefore introduction of further motor vehicle will not cause congestion or inconvenience in the station but it will positively respond to the needs of the people.
