COMPULSORY SPECIFICATION FOR NEW MOTOR VEHICLES OF CATEGORY M₂ AND M₃

1 Scope

1.1 This specification covers the requirements for new motor vehicles of category M₂ and M₃, including minibuses, urban buses, inter-urban buses, touring buses, bus-trains and semi-trailer buses, and any motor vehicle not previously registered or licensed in South Africa, designed or adapted for operation on a public road.

NOTE – Except where stated otherwise, a semi-trailer bus has to comply with all the requirements of this specification, and, in addition, with any compulsory requirements for the category O or N portions of the combination not covered by this specification.

1.2 The requirements of the specification shall, in so far as the parts already incorporated are concerned, apply in respect of an incomplete motor vehicle supplied for further manufacture by one manufacturer to another, and the entire specification shall apply to the vehicle after completion thereof by the last-mentioned manufacturer.

1.3 This specification shall not apply to experimental or prototype vehicles constructed or imported by the original manufacturers or importers for the purpose of testing, assessment or development.

1.4 The relevant requirements of the specification that take effect on any specified date, shall not apply to vehicles manufactured or imported before that date.

1.5 Homologation shall comprise the confirmation by the South African Bureau of Standards (SABS) that the manufacturer has provided the SABS with the following specific evidence in respect of the commodity covered by this compulsory specification:

- a) a summary of evidence showing that all relevant tests have been conducted with successful results under appropriate controls in respect of the model or type of the commodity;
- b) sufficient data to enable a relevant model or type and its components to be identified and related to (a) above;
- c) relevant samples for the conducting of whatever tests and inspections are considered appropriate by the SABS, to verify any or all of the evidence provided;
- d) details of the quality management system applied by the manufacturer;
- e) when relevant, documentation to advise subsequent manufacturers of incomplete commodities, of their responsibilities; and
- f) agreement by the manufacturing source, to permit conformity of production audits to be carried out by the SABS or by the SABS' appointed agent at the relevant manufacturing, assembling and test facilities.

The SABS may issue such confirmation, on application, in respect of new models or types, provided that such confirmation may not be used for the purposes of advertising or to imply that all units of the commodity necessarily or consequently comply with all the requirements of this specification.

NOTE – Where an SABS standard is incorporated by reference into this specification, such incorporation relates to the basic requirements for the commodity as stated in the incorporated standard, but not to sampling procedures and other concepts and directives not material to the application of this specification.

2 Definitions

For the purposes of this specification, the following definitions apply:

2.1 bus: A category M₂ or M₃ motor vehicle that is designed or adapted for the conveyance of passengers or of both passengers and goods.

2.2 bus-train: A category M₂ or M₃ motor vehicle that is designed or adapted for the conveyance of passengers or of passengers and goods, that consists of two sections connected to form one unit that can swivel universally at the connection between such sections, and that has a continuous passageway over the entire passenger-carrying section of the vehicle.

2.3 category M₂ motor vehicle, hereinafter referred to as a vehicle: A motor vehicle that is used for the carriage of passengers, that has at least four wheels, and that has seating accommodation for more than eight passengers in addition to the driver of the vehicle, and that has a maximum mass not exceeding 5 t.

2.4 category M₃ motor vehicle, hereinafter referred to as a vehicle: A motor vehicle that is used for the carriage of passengers, that has at least four wheels, and that has seating accommodation for more than eight passengers in addition to the driver of the vehicle, and that has a maximum mass exceeding 5 t.

2.5 class I urban bus (excluding a minibus): A category M₂ or M₃ vehicle that is designed and equipped for urban and suburban transport, and that has, in addition to seating, provision and space for standing passengers, so arranged as to allow for passenger movement associated with frequent stops.

2.6 class II inter-urban bus (excluding a minibus): A category M₂ or M₃ vehicle that is designed and equipped for inter-urban transport, and that has no spaces specifically intended for standing passengers; however, over short distances, it can provide for standing passengers in the passageway only.

2.7 class III touring bus (excluding a minibus): A category M₂ or M₃ vehicle that is designed and equipped for touring or for long-distance journeys and that does not provide for the carriage of any standing passengers.

2.8 manufacturer: The person who manufactures, produces, assembles, alters, modifies, adapts or converts a new category M₂ or M₃ vehicle, and "Manufacture" has a corresponding meaning.

2.9 model: The manufacturer's description for a series of vehicle designs that do not differ in respect of body, cab structure, profile, or the number of axles, or in respect of the vehicle category by which they are introduced to South Africa, by a specific source.

The SABS reserves the right to decide on which variations or combinations of variation constitute a new model, and might also take cognizance of the classification system applied in the country of origin of the design.

The following variations do not necessarily constitute a new model:

- a) a variant of the model in relation to trim or optional features for which compliance has been fully demonstrated;
- b) different engine and transmission combinations, including petrol and diesel engines, and manual and automatic transmissions;
- c) minor variations in profile, such as front air dams, or rear spoilers, or air management systems;
- d) a different number of doors;
- e) sleeper cabs on trucks;
- f) wheelbase variations for commercial vehicles; and

g) cargo bodies or equipment that are fitted to a truck and that have no effect on compliance.

If a vehicle is manufactured in a number of configurations, such as a sedan, a hatchback, a station wagon, and a single or double cab, each of these may be regarded as a variant to the base model.

2.10 minibus: A motor vehicle that is designed or modified solely for the conveyance of not more than 15 seated passengers in addition to the driver of the vehicle and that does not provide for the carriage of standing passengers.

2.11 public road: A road, street or thoroughfare, including the verges, or any other place, whether a thoroughfare or not, to which the public or sections of the public have the right of access and that they commonly use.

2.12 semi-trailer bus: A category O semi-trailer that is intended to be drawn by a category N truck-tractor, the combination of which is designed or adapted for the conveyance of a driver and more than eight passengers. (See also 3.3.)

2.13 windscreen: Any window at the front end of a vehicle that affords forward vision to the driver or to the passengers.

3 General requirements

3.1 Requirements for lights, lighting equipment and rear warning signs

OPM – Behalwe indien daar anders aangedui word, moet 'n leunwabus aan al die vereistes van hierdie spesifikasie voldoen en hierbenewens ook aan verpligte vereistes vir die kategorie O- of N-gedeeltes van die kombinasie wat nie deur hierdie spesifikasie gedek word nie.

1.2 Die vereistes van die spesifikasie is, vir sover dit dele betref wat reeds ingelyf is, van toepassing op 'n onvollede motorvoertuig wat vir verdere vervaardiging deur een fabrikant aan 'n ander gelewer word en die spesifikasie is in sy geheel van toepassing op die voertuig nadat dit deur laasgenoemde fabrikant voltooi is.

1.3 Die spesifikasie is nie van toepassing op eksperimentele of prototipe voertuie wat deur die oorspronklike vervaardigers of invoerders vir toets-, beoordelings- of ontwikkelingsdoeleindes gebou of ingevoer is nie.

1.4 Die toepaslike vereistes van die spesifikasie wat op 'n gespesifiseerde datum in werking tree, is nie van toepassing op voertuie wat voor dié datum vervaardig of ingevoer is nie.

1.5 Homologasie moet bevestiging deur die Suid-Afrikaanse Buro vir Standaarde (SABS) bevat dat die fabrikant die volgende spesifieke bewyse ten opsigte van die kommoditeit wat deur hierdie verpligte spesifikasie gedek word aan die SABS gelewer het:

- a) 'n opsomming van bewyse wat aantoon dat alle toepaslike toetse ten opsigte van die model of die tipe kommoditeit onder behoorlike kontrole met welslae uitgevoer is;
- b) voldoende gegewens om 'n toepaslike model of tipe en sy komponente te kan identifiseer en met (a) hierbo in verband te kan bring;

- d) besonderhede van die kwaliteitsbestuurstelsel wat die fabrikant toepas;
- e) indien toepaslik, dokumentasie om latere fabrikante van onvollede kommoditeite oor hulle verantwoordelikhede in te lig; en
- f) instemming deur die vervaardigingsbron dat die SABS of 'n agent wat deur die SABS aangestel is produksiekonformiteit by die betrokke vervaardigings-, monteer- en toetsfasilitete mag audit.

Die SABS mag sodanige bevestiging op aansoek ten opsigte van nuwe modelle of tipes op aanvraag uitreik, met dien verstande dat sodanige bevestiging nie vir advertensiedoeleindes gebruik mag word nie of om te impliseer dat alle eenhede van die kommoditeit noodwendig of gevvolglik aan al die vereistes van hierdie spesifikasie voldoen nie.

OPM – Indien 'n SABS-standaard deur verwysing by hierdie spesifikasie ingelyf is, het sodanige inlywing betrekking op die basiese vereistes vir die kommoditeit soos in die ingelyfde standaard aangegee, maar nie op monsternemingsprosedures en ander konsepte en voorskrifte wat nie by die toepassing van hierdie spesifikasie ter sake is nie.

Die SABS behou hom die reg voor om te besluit watter variasies of kombinasies van variasies 'n nuwe model uitmaak en kan ook kennis neem van die klassifikasiestelsel wat in die ontwerp se land van oorsprong toegepas word.

Die volgende variasies maak nie noodwendig 'n nuwe model uit nie:

- a) 'n variant van die model met betrekking tot afwerking of opsionele eienskappe waarvoor volledig bewys van voldoening gelewer is;
- b) verskillende enjin- en transmissiekombinasies, met inbegrip van petrol- en dieselenjins, en hand- en automatiese transmissies;

- c) klein profielvariasies soos voorste lugdamme of agterdrukvinne of lugbeheerstelsels;
- d) 'n ander getal deure;
- e) slaapkajuite op vragmotors;
- f) asafstandvariasies by handelsvoertuie; en
- g) vragbakke of toerusting wat op 'n vragmotor aangebring is en wat geen invloed op voldoening het nie.

Indien 'n voertuig vervaardig word in 'n aantal konfigurasies soos 'n sedan, luikrug of stasiewa en met 'n enkel- of dubbelkajuit, mag elkeen hiervan as 'n variant van die basismodel beskou word.

2.12 openbare pad: 'n Pad, straat of deurgang, met inbegrip van die padsome, of enige ander plek, hetsy 'n deurgang al dan nie, waartoe die publiek toegangsreg het en wat hulle algemeen gebruik.

2.13 windskerm: Enige venster aan die voorenkant van 'n voertuig, wat aan die bestuurder of aan die passasiers sig na voor verleen.

STANDARDS ACT, 1993

AMENDMENT OF THE COMPULSORY SPECIFICATION FOR CATEGORY N, MOTOR VEHICLES

I, Alec Erwin, Minister of Trade and Industry, hereby under section 22 (1) (a) (ii) of the Standards Act, 1993 (Act No. 29 of 1993), and on the recommendation of the Council of the South African Bureau of Standards, with effect from the date two months after the date of this notice, amend the compulsory specification for category N₁ motor vehicles published by Government Notice No. 1624 of 12 July 1991, by the withdrawal of the existing compulsory specification and the substitution therefor of the compulsory specification contained in the Schedule.

A. ERWIN**Minister of Trade and Industry**

SCHEDULE

COMPULSORY SPECIFICATION FOR NEW MOTOR VEHICLES OF CATEGORY N₁

1 Scope

1.1 This specification covers the requirements for new motor vehicle models of category N₁, motor vehicle models not previously registered or licensed in South Africa, and motor vehicle models assembled from new bodies and used parts from earlier designs of motor vehicle models, designed or adapted for operation on a public road.

1.2 The requirements of the specification shall, in so far as the parts already incorporated are concerned, apply in respect of an incomplete motor vehicle model supplied for further manufacture by one manufacturer to another, and the entire specification shall apply to the vehicle after completion thereof by the last-mentioned manufacturer. In addition, the requirements shall apply to designs of bodies sold for the purposes of incorporating new or used parts of motor vehicle models previously homologated (or previously produced) by other manufacturers.

1.3 The specification does not apply to:

- a) experimental or prototype vehicles constructed or imported for the purpose of testing, assessment or development; or
- b) a motor vehicle that was manufactured before 1965, was not previously registered or licensed in South Africa, and that is so certified by a motor club approved by the relevant Minister.

1.4 The relevant requirements of the specification that take effect on any specified date, shall not apply to vehicles manufactured or imported before that date.

1.5 Homologation shall comprise the confirmation by the South African Bureau of Standards (SABS), that the manufacturer has provided the SABS with the following specific evidence in respect of the commodity covered by this compulsory specification:

- a) a summary of evidence showing that all relevant tests have been conducted with successful results under appropriate controls in respect of the model or the type of commodity;
- b) sufficient data to enable a relevant model or type and its components to be identified and related to (a) above;
- c) relevant samples for the conducting of whatever tests and inspections are considered appropriate by the SABS, to verify any or all of the evidence provided;
- d) details of the quality management system applied by the manufacturer;
- e) when relevant, documentation to advise subsequent manufacturers of incomplete commodities of their responsibilities; and
- f) agreement by the manufacturing source to permit conformity of production audits to be carried out by the SABS or by the SABS' appointed agent at the relevant manufacturing, assembling and test facilities.

The SABS may issue such confirmation, on application, in respect of new models or types, provided that such confirmation may not be used for the purposes of advertising or to imply that all units of the commodity necessarily or consequently comply with all the requirements of the compulsory specification.

NOTE – Where an SABS standard is incorporated by reference into this specification, such incorporation relates to the basic requirements for the commodity as stated in the incorporated specification, but not to sampling procedures and other concepts and directives not material to the application of this specification.

2 Definitions

For the purposes of this specification, the following definitions apply:

2.1 category N₁ motor vehicle, hereinafter referred to as a vehicle: A motor vehicle that has a maximum mass not exceeding 3,5 tons, that has at least four wheels (or, provided that the maximum mass exceeds 1 ton, at least three wheels), and that is used for the carriage of goods.

2.2 manufacturer: The person who manufactures, produces, assembles, alters, modifies or converts a new category N₁ motor vehicle, and "manufacture" has a corresponding meaning.

2.3 model: The manufacturer's description for a series of vehicle designs that do not differ in respect of body, cab structure, profile, or the number of axles, or in respect of the vehicle category by which they are introduced to South Africa, by a specific source.

The SABS reserves the right to decide which variations or combinations of variations constitute a new model, and might also take cognizance of the classification system applied in the country of origin of the design.

The following variations do not necessarily constitute a new model:

- a) a variant of the model in relation to trim or optional features for which compliance has been fully demonstrated;
- b) different engine and transmission combinations, including petrol and diesel engines, and manual and automatic transmissions;
- c) minor variations in profile, such as front air dams, or rear spoilers on a passenger car;
- d) a different number of doors;
- e) sleeper cabs on trucks;
- f) wheelbase variations for commercial vehicles; and
- g) cargo bodies for equipment that are fitted to a truck and that have no effect on compliance.

If a vehicle which is manufactured in a number of configurations, such as a sedan, a hatchback, or a station wagon, and a single or double cab, each of these may be regarded as a variant to the base model.

2.4 public road: A road, street or thoroughfare, including the verges, or any other place, whether a thoroughfare or not, to which the public or sections of the public have the right of access and that they commonly use.

WET OP STANDAARDE, 1993

WYSIGING VAN DIE VERPLIGTE SPESIFIKASIE VIR KATEGORIE N-MOTORVOERTUIE

Ek, Alec Erwin, Minister van Handel en Nywerheid, wysig hierby, krugtens artikel 22 (1) (a) (ii) van die Wet op Standaarde, 1993 (Wet No. 29 van 1993), en op aanbeveling van die Raad van die Suid-Afrikaanse Buro vir Standaarde, die verpligte spesifikasie vir kategorie N-motorvoertuie, gepubliseer by Goewermentskennisgewing No. 1624 van 12 Julie 1991, deur, met ingang van die datum twee maande na die datum van hierdie kennisgewing, die bestaande verpligte spesifikasie in te trek en te vervang deur die verpligte spesifikasie in die Bylae vervat.

A. ERWIN**Minister van Handel en Nywerheid**

BYLAE**VOORGESTELDE VERPLIGTE SPESIFIKASIE VIR
NUWE KATEGORIE N₁-MOTORVOERTUIE****1 Bestek**

1.1 Hierdie spesifikasie dek die vereistes vir nuwe motorvoertuigmodelle van kategorie N₁, motorvoertuigmodelle wat nie voorheen in Suid-Afrika geregistreer of gelisensieer is nie en motorvoertuigmodelle wat saamgestel is uit nuwe bakwerk en gebruikte onderdele van motorvoertuigmodelle van vroeëre ontwerpe wat vir gebruik op openbare paaie ontwerp of aangepas is.

1.2 Die vereistes van die spesifikasie geld, sover dit die onderdele betref wat reeds ingebou is, ten opsigte van 'n onvolledige motorvoertuigmodel wat vir verdere vervaardiging deur een fabrikant aan 'n ander gelewer word, en die spesifikasie geld in sy geheel vir die voertuig nadat dit deur laasgenoemde fabrikant voltooi is. Hierbenewens geld die vereistes vir bakwerkontwerpe wat verkoop word met die doel dat nuwe of gebruikte onderdele van motorvoertuigmodelle wat voorheen deur ander fabrikante gehomologeer (of vervaardig) is, daarin ingebou word.

1.3 Die spesifikasie geld nie ten opsigte van:

- eksperimentele of prototipevoertuie wat vir toets-, beoordelings- of ontwikkelingsdoeleindes gebou of ingevoer is nie; of
- 'n motorvoertuig wat voor 1965 vervaardig is, wat nie voorheen in Suid-Afrika geregistreer of gelisensieer is nie en wat aldus gesertifiseer word deur 'n motorklub wat deur die betrokke Minister goedgekeur is.

1.4 Die toepaslike vereistes van die spesifikasie wat op 'n gespesifieerde datum in werking tree, geld nie ten opsigte van voertuie wat voor dié datum vervaardig of ingevoer is nie.

1.5 Homologasie moet die bevestiging deur die Suid-Afrikaanse Buro vir Standaarde (SABS) behels dat die fabrikant die volgende spesifieke bewys ten opsigte van die kommoditeit wat deur hierdie verpligte spesifikasie gedek word aan die SABS gelewer het:

- 'n opsomming van bewyse dat alle toepaslike toetse ten opsigte van die model of die tipe kommoditeit met behoorlike kontrole met welslae uitgevoer is;
- voldoende gegewens om 'n toepaslike model of tipe en sy komponente te kan identifiseer en met (a) hierbo in verband te kan bring;
- gesikte monsters vir die uitvoer van watter toetse en inspeksies die SABS ook al as toepaslik beskou ten einde enige van of al die gelewerde bewyse te verifieer;
- besonderhede van die kwaliteitsbestuurstelsel wat die fabrikant toepas;
- indien toepaslik, dokumentasie om latere fabrikante van onvolledige kommoditeite oor hulle verantwoordelikhede in te lig;
- instemming deur die vervaardigingsbron dat die SABS of die agent wat deur die SABS aangestel is ouditering van produksiekonformiteit by die betrokke vervaardigings-, monteer- en toetsfasiliteite mag uitvoer.

Die SABS kan sodanige bevestiging ten opsigte van nuwe modelle of tipes op aanvraag uitrek, mits sodanige bevestiging nie vir advertensiedoeleindes gebruik word nie of daar nie geïmpliseer word dat alle eenhede van die kommoditeit noodwendig of bygevolg aan al die vereistes van die verpligte spesifikasie voldoen nie.

OPM – In gevalle waar 'n SABS-standaard deur verwysing by hierdie spesifikasie ingelyf is, geld sodanige inlywing ten opsigte van die basiese vereistes vir die kommoditeit soos in die ingelyfde spesifikasie aangegee, maar nie ten opsigte van monsternemingsprosedures en ander konsepte en voorskrifte wat nie by die toepassing van hierdie spesifikasie ter sake is nie.

2 Woordbepaling

Die volgende woordbepalings geld vir die doel van hierdie spesifikasie:

2.1 fabrikant: Die persoon wat 'n nuwe kategorie N₁-motorvoertuig vervaardig, produseer, monteer, verander, modifiseer ofombou, en "vervaardig" het 'n ooreenstemmende betekenis.

2.2 kategorie N₁-motorvoertuig, hierna voertuig genoem: 'n Motorvoertuig met 'n maksimum massa van hoogstens 3,5 ton, wat minstens vier wiele (of, mits die maksimum massa 1 ton oorskry, minstens drie wiele) het en wat vir die vervoer van goedere gebruik word.

2.3 model: Die fabrikant se beskrywing van 'n reeks voertuigontwerpe wat nie verskil ten opsigte van die bakwerk, kajuitstruktur, profiel of die getal asse of ten opsigte van die voertuigmakroegie waarvolgens hulle deur 'n spesifieke bron in Suid-Afrika ingebring word nie.

Die SABS behou hom die reg voor om te besluit watter variasies of kombinasies variasies 'n nuwe model uitmaak en kan moontlik ook kennis neem van die klassifikasiestelsel wat toegepas word in die land waar die ontwerp sy oorsprong het.

Die volgende variasies maak nie noodwendig 'n nuwe model uit nie:

- a) 'n variant van die model met betrekking tot beslag of opsionele eienskappe waarvan volledige bewys van voldoening gelewer is;
- b) verskillende enjin- en transmissiekombinasies, met inbegrip van petrol- en dieselenjins, en hand- en automatiese ratkaste;
- c) klein profielvariasies, soos voorvinne of agterdrukvinne op 'n passasiermotor;
- d) verskillende getal deure;
- e) slaapkajuite op vragmotors;
- f) asafstandvariasies by handelsvoertuie; en
- g) vragbakwerk vir toerusting wat op vragmotors aangebring word en geen invloed op voldoening het nie.

Indien 'n voertuig in 'n aantal konfigurasies, soos 'n sedan, luikrug of stasiewa, en 'n enkel- of dubbelkajuit, vervaardig word, kan elkeen hiervan as 'n variant van die basismodel beskou word.

2.4 openbare pad: 'n Pad, straat of deurgang, met inbegrip van die padsome, of enige ander plek, hetsy 'n deurgang al dan nie, waartoe die publiek of dele van die publiek toegangsreg het en wat hulle algemeen gebruik.

Die bande wat op die wiele van 'n motorvoertuig aangebring word, moet afmetings en laswaardes hê wat saambruikbaar is met die gespesifieerde of toegelate vellings en aan die vereistes van die toepaslike regulasies van die Padverkeerswet, 1989 (Wet 29 van 1989) voldoen.

6.5 Voertuigbakwerk

Voertuigbakwerk wat in 1.2 genoem word, moet voorsien wees van voldoende aanwysings vir die kies en montering van komponente sodat die voltooide voertuig voldoen (of kan voldoen) aan die vereistes van hierdie verpligte spesifikasie, indien die aanwysings gevolg word.

7 Vereistes vir voertuigvloeistof

Die hidrouiese rem- en koppelaarvloeistof in die hidrouiese rem- en koppelaarstelsel van 'n voertuig moet voldoen aan die toepaslike vereistes van die verpligte spesifikasie vir hidrouiese rem- en koppelaarvloeistof, soos gepubliseer by Goewermentskennisgwing No 128 van 17 Januarie 1975.

8 Ekwivalente vereistes

Daar kan geag word dat daar aan die vereistes van enige van die SABS-standaarde in die toepaslike dele van afdeling 3 tot 7 voldoen is indien daar aan die lys EEG- of EKE-vereistes in tabel 1 voldoen is.

SCHEDULE

COMPULSORY SPECIFICATION FOR NEW MOTOR VEHICLES OF CATEGORY N₂ AND N₃

1 Scope

1.1 This specification covers the requirements for new motor vehicles of category N₂ and N₃, including any N₂ or N₃ motor vehicles not previously registered or licensed in South Africa, designed or adapted for operation on a public road.

1.2 The requirements of the specification shall, in so far as the parts already incorporated are concerned, apply in respect of an incomplete motor vehicle supplied for further manufacture by one manufacturer to another and the entire specification shall apply to the vehicle after completion thereof by the last-mentioned manufacturer.

1.3 The specification does not apply to experimental or to prototype vehicles constructed or imported by the original manufacturers or importers for the purpose of testing, assessment or development, or to a type "A" military vehicle, or to special purpose vehicles of the type covered by Regulation 436(1) of the consolidated Road Traffic Regulations to the Road Traffic Act, 1989 (Act 29 of 1989), or to agricultural tractors.

1.4 The relevant requirements of the specification that take effect on any specified date, shall not apply to vehicles manufactured or imported before that date.

1.5 Homologation shall comprise the confirmation by the South African Bureau of Standards (SABS) that the manufacturer has provided the SABS with the following specific evidence in respect of the commodity covered by this compulsory specification:

- a) a summary of evidence showing that all relevant tests have been conducted with successful results under appropriate controls in respect of the model or the type of commodity;
- b) sufficient data to enable a relevant model or type and its components to be identified and related to (a) above;
- c) relevant samples for the conducting of whatever tests and inspections are considered appropriate by the SABS, to verify any or all of the evidence provided;
- d) details of the quality management system applied by the manufacturer;
- e) when relevant, documentation to advise subsequent manufacturers of incomplete commodities of their responsibilities; and
- f) agreement by the manufacturing source, to permit conformity of production audits to be carried out by the SABS or by the SABS's appointed agent at the relevant manufacturing, assembling and test facilities.

The SABS may issue such confirmation, on application, in respect of new models or types, provided that such confirmation may not be used for the purpose of advertising or to imply that all units of the commodity necessarily or consequently comply with all the requirements of this specification.

NOTE – Where an SABS standard is incorporated by reference into this specification, such incorporation relates to the basic requirements for the commodity as stated in the incorporated standard, but not to sampling procedures and other concepts and directives not material to the application of this specification

2 Definitions

For the purposes of this specification, the following definitions apply:

2.1 category N motor vehicle: A goods vehicle that has at least four wheels, or that has three wheels and a maximum mass exceeding 1 t.

2.2 category N₂ motor vehicle, hereinafter referred to as a vehicle: A category N vehicle that is used for the carriage of goods and that has a maximum mass of more than 3,5 t but not more than 12 t.

2.3 category N₃ motor vehicle, hereinafter referred to as a vehicle: A category N vehicle that is used for the carriage of goods and that has a maximum mass exceeding 12 t.

2.4 goods: Any movable property.

2.5 goods vehicle: A motor vehicle, other than a motor cycle, motor tricycle, motor quadricycle, motor-car, minibus or bus, that is designed or adapted for the conveyance of goods on a public road, and that includes a truck-tractor, a mobile crane and a breakdown vehicle.

2.6 manufacturer: The person who manufactures, produces, assembles, alters, modifies, adapts or converts a new category N motor vehicle, and "manufacture" has a corresponding meaning.

2.7 model: The manufacturer's description for a series of vehicle designs that do not differ in respect of body, cab structure, profile, or the number of axles, or in respect of the vehicle category by which they are introduced to South Africa by a specific source.

The SABS reserves the right to decide on which variations or combinations of variations constitute a new model, and might also take cognizance of the classification system applied in the country of origin of the design.

The following variations do not necessarily constitute a new model:

- a) a variant of the model in relation to trim or optional features for which compliance has been fully demonstrated;
- b) different engine and transmission combinations, including petrol and diesel engines, and manual and automatic transmissions;
- c) minor variations in profile, such as front air dams, or rear spoilers or air management systems;
- d) a different number of doors;
- e) sleeper cabs on trucks;
- f) wheelbase variations for commercial vehicles; and
- g) cargo bodies or equipment that are fitted to a truck and that have no effect on compliance.

If a vehicle is manufactured in a number of configurations such as a sedan, a hatchback, a station wagon, and a single or double cab, each of these may be regarded as variants to the base model.

2.8 public road: A road, street or thoroughfare, including the verges, or any other place, whether a thoroughfare or not, to which the public have the right of access and that they commonly use.

2.9 type "A" military vehicle: A motor vehicle, other than a type "B" military vehicle, that is designed for military purposes and that, in addition to being armed, has an armoured skin.

1 Daar word geag dat voertuie wat voldoen aan 'n SABS-, ECE- of EEC-standaard wat bogenoemde standaarde vervang, aan die toepaslike vereistes van hierdie verpligte spesifikasie voldoen.				
2 Die uitsluitings in hierdie bylae moet gelees word in samehang met ander uitsluitings wat in hierdie spesifikasie of in 'n toepaslike SABS-standaard vervat word.				

BYLAE**VERPLIGTE SPESIFIKASIE VIR NUWE MOTORVOERTUIE
VAN KATEGORIE N₂ EN N₃****1 Bestek**

1.1 Hierdie spesifikasie dek die vereistes vir nuwe motorvoertuie van kategorie N₂ en N₃, met inbegrip van N₂- of N₃-motorvoertuie wat nie voorheen in Suid-Afrika geregistreer of gelisensieer is nie en wat vir gebruik op openbare paaie ontwerp of aangepas is.

1.2 Die vereistes van die spesifikasie geld, vir sover dit die dele betref wat reeds ingelyf is, ten opsigte van 'n onvolledige motorvoertuig wat vir verdere vervaardiging deur een fabrikant aan 'n ander gelewer word en dié spesifikasie geld in sy geheel vir die voertuig nadat dit deur laasgenoemde fabrikant voltooi is.

1.3 Die spesifikasie geld nie ten opsigte van eksperimentele of prototipe voertuie wat vir toets-, beoordelings- of ontwikkelingsdoeleindes deur die oorspronklike fabrikante of invoerders gebou of ingevoer word nie of ten opsigte van tipe A- militêre voertuie of voertuie vir spesiale doeleindes van die tipe wat deur Regulasie 436(1) van die gekonsolideerde Padverkeersregulasies van die Padverkeerswet, 1989 (Wet 29 van 1989) gedek word of ten opsigte van landboutrekkers nie.

1.4 Die toepaslike vereistes van die spesifikasie wat op 'n gespesifiseerde datum in werking tree, geld nie ten opsigte van voertuie wat voor daardie datum vervaardig of ingevoer is nie.

1.5 Homologasie moet bevestiging deur die Suid-Afrikaanse Buro vir Standaarde (SABS) bevat dat die fabrikant die SABS van die volgende spesifieke bewyse voorsien het ten opsigte van die kommoditeit wat deur hierdie verpligte spesifikasie gedek word:

- a) 'n opsomming van bewyse wat aantoon dat alle toepaslike toetse ten opsigte van die model of die tipe kommoditeit suksesvol onder toepaslike beheer uitgevoer is;
- b) voldoende data om 'n toepaslike model of tipe en sy onderdele te kan identifiseer en met (a) hierbo in verband te kan bring;
- c) gesikte monsters vir die uitvoer van watter toetse en ondersoeke die SABS ook al as toepaslik beskou om 'n gedeelte van of al die bewyse wat voorsien is, te verifieer;
- d) besonderhede van die kwaliteitsbestuurstelsel wat deur die fabrikant toegepas is;
- e) indien toepaslik, dokumentasie om latere fabrikante van onvolledige kommoditeitte oor hul verantwoordelikhede in te lig; en
- f) instemming deur die vervaardigingsbron dat die SABS of 'n agent wat deur die SABS aangestel is, produksiekonformiteit by die betrokke vervaardigings-, monteer- en toetsfasiliteite mag oudit.

Die SABS mag sodanige bevestiging op aansoek ten opsigte van nuwe modelle of tipes uitrek, mits sodanige bevestiging nie vir advertensiedoeleindes gebruik word of impliseer dat alle eenhede van die kommoditeit noodwendig of gevolglik aan al die vereistes van hierdie spesifikasie voldoen nie.

OPM – Indien 'n SABS-standaard deur verwysing by hierdie spesifikasie ingelyf word, geld sodanige intywing vir die basiese vereistes vir die kommoditeit soos in die ingelyfde standaard aangegee word, maar nie vir monsternemingsprosedures en ander konsepte en riglyne wat nie by die toepassing van hierdie spesifikasie ter sake is nie.

2 Woordbepaling

Die volgende woordbepalings geld vir die doel van hierdie spesifikasie:

2.1 fabrikant: Die persoon wat 'n nuwe kategorie N-motorvoertuig vervaardig, produseer, monteer, verander, modifiseer, aanpas ofombou, en "vervaardig" het 'n ooreenstemmende betekenis.

2.2 goedere: Alle roerende eiendom.

2.3 goederevoertuig: 'n Motorvoertuig, uitgesonderd 'n motorfiets, motordriewiel, motorvierwiel, motorkar, minibus of bus, wat ontwerp of aangepas is vir die vervoer van goedere op openbare paaie, met inbegrip van 'n voorspanmotor, mobiele hyskraan en noodvoertuig.

2.4 kategorie N-motorvoertuig: 'n Goederevoertuig met minstens vier wiele, of met drie wiele en 'n maksimum massa van meer as 1 t.

2.5 kategorie N₂-motorvoertuig, hierna voertuig genoem: 'n Kategorie N-voertuig met 'n maksimum massa van meer as 3,5 t maar hoogstens 12 t, wat vir die vervoer van goedere gebruik word.

2.6 kategorie N₃-motorvoertuig, hierna voertuig genoem: 'n Kategorie N-voertuig met 'n maksimum massa van meer as 12 t, wat vir die vervoer van goedere gebruik word.

2.7 model: Die fabrikant se beskrywing vir 'n reeks voertuigontwerpe wat nie ten opsigte van bak, kajuitstruktuur, profiel of die getal asse verskil nie of ten opsigte van die voertuigkategorie waaronder hulle deur 'n spesifieke bron in Suid-Afrika in omloop gebring word nie.

Die SABS behou hom die reg voor om te besluit watter variasies of kombinasies van variasies 'n nuwe model uitmaak en kan ook kennis neem van die klassifikasiestelsel wat in die ontwerp-se land van oorsprong toegepas word.

Die volgende variasies maak nie noodwendig 'n nuwe model uit nie:

- a) 'n variant van die model ten opsigte van afwerking of opsionele eienskappe waarvoor voldoening ten volle aangetoon is;
- b) verskillende enjin- en transmissiekombinasies, met inbegrip van petrol- en dieselenjins, en hand- en automatiese transmissies;
- c) klein profielvariasies soos voorste lugdamme of agterdrukvinne of lugbeheerstelsels;
- d) 'n ander getal deure;
- e) slaapkajuite op vragsmotors;
- f) asafstandvariasies by handelsvoertuie; en
- g) vrabakte of toerusting wat op 'n vragsmotor aangebring is en wat geen invloed op voldoening het nie.

Indien 'n voertuig vervaardig word in 'n aantal konfigurasies soos 'n sedan, luikrug, stasiewa en met 'n enkel- of dubbelkajuit, mag elkeen hiervan as 'n variant van die basismodel beskou word.

2.8 openbare pad: 'n Pad, straat of deurgang, met inbegrip van die padsome, of enige ander plek, hetsy 'n deurgang al dan nie, waartoe die publiek toegangsreg het en wat hul algemeen gebruik.

2.9 type A- militêre voertuig: 'n Motorvoertuig, uitgesonderd 'n type B- militêre voertuig, wat vir militêre doeleindes ontwerp is en wat, benewens die feit dat dit bewapen is, ook gepantser is.

2.10 type B- militêre voertuig: 'n Motorvoertuig wat vir militêre doeleindes vir die vervoer van goedere of personeel ontwerp of aangepas is en wat gepantser kan wees.

NOTICE 875 OF 1997**SOUTH AFRICAN LAW COMMISSION****ISSUE PAPER ON ALTERNATIVE DISPUTE RESOLUTION**

The South African Law Commission has released an issue paper dealing with all aspects of **alternative dispute resolution (ADR)**. This is to promote discussion of this topic by all interested parties.

ADR covers all forms of dispute resolution other than litigation or adjudication through the courts. It therefore includes a broad range of mechanisms and processes designed to assist parties in resolving disputes creatively and effectively. These mechanisms and processes are not intended to supplant court adjudication, but rather to supplement it. The most common types of ADR include negotiation, conciliation, mediation and arbitration.

Effective government is largely dependent on a legal system that is respected by those it is intended to serve. The challenge facing the democratic state is therefore to ensure that the justice system is acceptable and accessible to the larger community. In this investigation the Law Commission will be addressing the question whether the administration of justice would be enhanced if a broader concept of dispute resolution could be accommodated within the formal legal system.

In the issue paper specific areas of investigation are identified and discussed as follows:

- The role of ADR in civil practice is investigated. The most common complaint about the current civil justice system in South Africa is that the cost of litigation is prohibitive. This prevents meaningful access to courts and even those who have access are often victims of delay. The adversarial nature of the process with a resultant lack of control by the court itself furthermore leads to a sense of frustration and disempowerment. The question to be answered is whether non-adjudicative dispute resolution may be less expensive and less conflicting way of resolving disputes and problems.
- In the field of family and divorce mediation, services have over the years been provided in a segmented fashion along the lines of race, culture and income level. The existing court structures and services are therefore investigated in order to find a specific model of family mediation suitable to South African circumstances.

- As the formal system of justice in the country before the commencement of the present constitutional dispensation did not meet the needs of many of the ordinary citizens, people resorted to self-help in the form of unofficial institutions. In urban areas different forms of community courts were instituted. Although these courts had their philosophical background in the customary law that was being practised by traditional leaders in traditional courts in the rural areas, they might also be seen as a particular application of the consensual principles of ADR and its non-authoritarian consensus-producing process. The further implementation of community courts in the new dispensation and the proper role of the state in this regard are therefore put forward as issues to be debated.
- The role of ADR in the criminal sphere is addressed. The proposed juvenile justice and victim-offender mediation programmes are noted as examples of the increasing importance afforded to ADR in criminal matters. These issues are, however, not dealt with in detail as they are already being addressed in other investigations of the Commission.

Community involvement is regarded as being of paramount importance in this investigation. The issue paper states possible questions, or lines of inquiry, which have presented themselves as relevant to the investigation, rather than to suggest answers. The manner in which the investigation will further progress will primarily depend on the response received to this paper.

Written comments or suggestions should reach the Commission by **15 July 1997** at the address given below. The issue paper is obtainable free of charge from the Commission on request. (Contact person: Mrs P. Kotze).

KENNISGEWING 875 VAN 1997

SUID-AFRIKAANSE REGSKOMMISSIE

AGTERGRONDSTUK OOR ALTERNATIEWE GESKILBESLEGTING

Die Suid-Afrikaanse Regskommissie stel hiermee 'n agtergrondstuk vry wat handel met alle aspekte van **alternatiewe geskilbeslegting ("ADR")**. Dit word gedoen ten einde alle belangstellende partye aan te moedig om die onderwerp te bespreek.

"ADR" handel met alle vorme van dispuitbeslegting maar met uitsluiting van litigasie deur die howe. Dit sluit dus 'n breë verskeidenheid van meganismes en prosesse in wat ontwerp is om partye te help om geskille op 'n kreatiewe en effektiewe manier op te los. Hierdie meganismes en prosesse is nie daarop ingestel om die normale hofprosedures te vervang nie, maar eerder om dit aan te vul. "ADR" sluit onderhandeling, bemiddeling, mediasie en arbitrasie in.

Om suksesvol te wees is 'n regering grootliks afhanklik daarvan dat die mense die regstelsel waardeur hulle gedien word, sal respekteer. Die uitdaging wat 'n demokratiese staat dus in die gesig staar is om te verseker dat die regstelsel aanvaarbaar en toeganklik is vir die hele gemeenskap. In hierdie ondersoek sal die Regskommissie die vraag bespreek of die huidige regbedeling verbeter kan word deur 'n breër konsep van geskilbeslegting binne die formele regstelsel te akkommodeer.

In die gespreksdokument word spesifieke gevalle wat ondersoek verg soos volg geïdentifiseer en bespreek:

- Die rol van "ADR" in die siviele reg word ondersoek. Die mees algemene klage teen die huidige siviele regstelsel in Suid-Afrika is dat dit onbekostigbaar is. Dit het tot gevolg dat die howe in die eerste plek ontoeganklik is vir die gewone man en verder dat selfs diegene wat toegang tot die howe verkry, sloffers van vertraging word. Die adversatiewe aard van die proses met die gevoldlike gebrek aan beheer deur die hof self, lei verder tot 'n gevoel van frustrasie en teleurstelling. Die vraag wat beantwoord moet word is of alternatiewe geskilbeslegting moontlik 'n goedkoper en beter manier mag wees om geskille en probleme op te los.
- In die veld van familie en egskeidingsmediasie is dienste deur die jare op 'n gesgmenteerde wyse op grond van ras, kultuur en inkomstevlak aangebied. Die bestaande hofstrukture en dienste word gevoldlik ondersoek ten einde te poog om 'n spesifieke model vir familie mediasie te vind wat geskik sal wees vir Suid-Afrikaanse omstandighede.

- As gevolg van die feit dat die formele regsisteem in die land voor die aanvang van die huidige konstitutionele bedeling nie in die behoeftes van baie van die gewone burgers van die land kon voorsien nie, het mense hulle gewend tot selfhelpskemas in die vorm van informele instansies. Verskillende vorms van gemeenskapshewe is in stedelike gebiede ingestel. Hierdie Howe het hulle filosofiese onderbou in die inheemse reg, wat deur tradisionele leiers in tradisionele Howe in plattelandse gebiede gepraktiseer is, gevind. Die ontwikkeling van hierdie Howe kan egter ook gesien word as die aanwending van die konsensuele beginsels en anti-otoritêre konsensus verkrygende prosesse van "ADR". Die verdere implementering van gemeenskapshewe in die nuwe bedeling en die gepaste rol van die staat in hierdie verband word gevolglik aangestip as onderwerpe vir bespreking.
- Die rol van "ADR" in die strafreg word bespreek. Die voorgestelde strafregstelsel vir jeugdiges en die slagoffer-oortreder mediasie programme word aangedui as voorbeeld van die toenemende belangrikheid wat aan "ADR" in strafregtelike aangeleenthede toegeken word. Daar word egter nie in detail met hierdie sake gehandel nie, aangesien dit alreeds in ander ondersoek van die Kommissie aangespreek word.

Gemeenskapsbetrokkenheid word in hierdie ondersoek as van kardinale belang beskou. Die gespreksdokument stel moontlike vrae wat blyk van belang vir die ondersoek te wees eerder as om antwoorde te probeer verskaf. Die manier waarop die ondersoek verder sal vorder sal primêr afhang van die reaksie wat op hierdie gespreksdokument ontvang word.

Dit sal waardeer word indien skriftelike kommentaar of voorstelle die Kommissie teen **15 Julie 1997** by die onderstaande adres kan bereik. Die werkstuk is op aanvraag gratis van die Kommissie verkrybaar. (Kontakpersoon: Mev. P. Kotze.)

Die Kommissie se kantore is op die Agtste Verdieping, Visagiestraat 228, Pretoria. Die telefoonnummer is (012) 322-6440; die faksnommer is (012) 320-0936; die posadres is Privaatsak X668, Pretoria, 0001; en die E-pos adres is salawcom@cis.co.za.
