NOTICE 89 OF 1999

DEPARTMENT OF TRADE AND INDUSTRY

COMPETITION BOARD

INVESTIGATION IN TERMS OF SECTION 10 (1) (a) OF THE MAINTENANCE AND PROMOTION OF COMPETITION ACT, 1979 (ACT No. 96 OF 1979)

The Competition Board hereby gives notice that it is undertaking an investigation in terms of section 10 (1) (a) of the Maintenance and Promotion of Competition Act, 1979 (Act No. 96 of 1979) ("the Act"), to determine whether—

- (a) the refusal by pharmaceutical manufacturers who have contracted with International Health Care Distributors (Pty) Ltd (IHD), to deal directly on a non-discriminatory basis with pharmaceutical wholesale distributors or any other customers in the private sector of the market; and/or
- (b) the proposed contractual arrangements between pharmaceutical manufacturers and Synergistic Alliance Investments (SAI) whereby the former would not deal directly on a non-discriminatory basis with pharmaceutical wholesale distributors or any other customers in the private sector of the market, once SAI is established,

constitute a restrictive practice as defined in section 1 of the Act.

The private sector of the market includes all persons or institutions permitted by law to deal in medicines or who are authorised by law to dispense medicines. These would, in turn, include pharmaceutical wholesale distributors, retail pharmacies, dispensing general practitioners, private hospitals and clinics. Sales to the State are excluded from this investigation.

By way of background to the investigation, and without in any way restricting the application of this notice, the following information is relevant: A number of pharmaceutical manufacturers have contracted with IHD in terms of which the latter performs a distribution function on an exclusive basis. Other pharmaceutical manufacturers have indicated that they will also shortly be contracting with SAI to perform a similar function on their behalf. The complainant, a large pharmaceutical wholesaler, has presented evidence to the Board which suggests that the practice is a restrictive practice since it restricts competition at the wholesale-distribution level, which alleged restriction on competition has the effect of raising prices.

In their submissions persons should give due attention to an appropriate delineation of the relevant market(s) and the effect that exclusive distribution agreements of this nature have in the relevant market(s). Attention should be given, *inter alia*, to the nature of the product, and the extent to which said nature and the nature of the major customer groupings' purchasing patterns would be relevant.

It is also important to take due cognisance of the fact that horizontal collusion with regards to prices, conditions of sale, market sharing and tenders was prohibited in 1986 (Notice 801 published in *Government Gazette* No. 10211 of 2 May 1986). It follows that the current investigation cannot technically focus on aspects relating to practices which were prohibited in Notice 801.

Any person who has an interest in the transaction may, within 30 (thirty) days from the date of this notice submit written substantiated representations regarding the transaction to the Chief Director: Investigations of the Competition Board, Private Bag X720, Pretoria 0001 [Facsimile (012) 322-5428] (Attention I. W. Meyer) (File R4/2/1/2/30).

With the view to promoting transparency in the administration of the Act, all the representations received are to be made available to other parties who have an interest in the investigation on a confidential basis. However, subject to the demands of confidentiality and in the event that parties wish to ensure that company specific information remains confidential, parties are requested to make two versions of their submissions available, namely one that shall remain confidential and one that may be disseminated to other parties who have an interest in the matter.

NOTICE 92 OF 1999**DEPARTMENT OF TRADE AND INDUSTRY****COMPETITION BOARD****INVESTIGATION IN TERMS OF SECTION 10 (1) (a) OF THE MAINTENANCE AND PROMOTION OF
COMPETITION ACT, 1979 (ACT No. 96 OF 1979)**

The Competition Board hereby gives notice that it is undertaking an investigation in terms of section 10(1)(a) of the Maintenance and Promotion of Competition Act, 1979 (Act 96 of 1979) ("the Act") to determine whether the South African Broadcasting Corporation's (SABC) insistence that South African production houses who produce material for use in programmes screened on the television stations broadcasted by the SABC should use the latter's facilities on a preferential basis constitutes a restrictive practice as defined in section 1 of the Act.

The investigation follows on a complaint lodged with the Board by the Association of Facility Owners. The gist of the complaint is that the SABC, which is the dominant broadcaster in the country and operates in terms of a licence issued by the Independent Broadcasting Authority, insists that its facilities at Henley be utilised by production houses producing programme material for use by the broadcaster. It is alleged that as a result of this policy, independent facility houses are unable to compete on a level, non-discriminatory basis, for the business. Since such facility houses are unable to themselves broadcast material, due to the restrictive nature of the licencing of broadcasters in this country, the practice is alleged, *inter alia*, to (a) limit the growth of the industry outside of the SABC, whilst (b) threatening the survival of many smaller players.

Any person who has an interest in the transaction may, within thirty (30) days from the date of this notice submit written substantiated representations regarding the transaction to the Chief Director: Investigations of the Competition Board, Private Bag X720, Pretoria 0001 (Facsimile (012) 322 5428) (attention I W Meyer) (File R4/2/1/2/30).

With the view to promoting transparency in the administration of the Act, all the representations received will be made available to other parties who have themselves made representations to the Board (a) on a confidential basis, and (b) where copies of such representations are requested. Such exchange of information is not intended to form the basis of lobbying by interested parties. All interested parties are permitted to comment directly to the Board where the information contained in representations which have been forwarded to them is factually incorrect. In the event that it has been found that parties who are directly involved in the investigation have directly or indirectly approached other parties who have made submissions with the view to convincing them to amend or withdraw such submissions, the Board will have no alternative but to exclude the submissions of those involved in said approaches, from the investigation.

NOTICE 97 OF 1999

BOARD ON TARIFFS AND TRADE

NOTICE OF INITIATION OF AN INVESTIGATION INTO THE ALLEGED DUMPING OF SUPERTENSION CABLE ORIGINATING IN OR IMPORTED FROM GERMANY

The Board on Tariffs and Trade received a petition alleging that supertension cable originating in or imported from Germany is being dumped on the Southern African Customs Union (SACU) market, causing material injury (and/or threat of material injury) to the SACU industry concerned.

THE PETITIONER

The petition was lodged by African Cables Limited, which is the sole manufacturer of supertension cable in the South African Customs Area (SACU). The petitioner alleges that it cannot compete with the low prices charged by the importers and that the allegedly dumped products are causing material injury and/or a threat of material injury. The petitioner submitted sufficient evidence and established a *prima facie* case to enable the Board to arrive at a reasonable conclusion that an investigation should be initiated on the basis of dumping, material injury (and/or threat of material injury), and causality.

THE PRODUCT

The product allegedly being dumped is high-voltage (greater than 33 kV) gross-linked polyethylene cable, commonly identified or referred to as high-voltage XLPE and sold as supertension cable, classifiable under tariff subheading 8544.60, and originating in or imported from Germany.

THE ALLEGATION OF DUMPING

The allegation of dumping is based on the comparison between the normal value in and the export price from Germany. The export price was based on the f.o.b. price of the imported supertension cable, as calculated on a tender price from Germany. The normal value was determined on the basis of a letter received from a manufacturer in Germany. On this basis the Board found that there was *prima facie* proof of dumping.

THE ALLEGATION OF MATERIAL INJURY/THREAT OF MATERIAL INJURY

The petitioner alleges and submitted sufficient evidence from the tender prices to show price suppression and depression, and that the imports will gain market share at the expense of the SACU industry. It is further alleged that the prices at which these imports will be sold in South Africa will result in lower profit margins and/or losses being incurred by the petitioner. The Board found that there was sufficient evidence for a *prima facie* case of injury and/or threat of material injury.

PERIOD OF INVESTIGATION

The period of investigation for purposes of determining the dumping margin in the exporting country of origin will be from January 1998 to December 1998. The period of investigation for purposes of determining injury will be from October 1996 to September 1998. If there are subsequent events that are relevant to the injury analysis the Board may later request and consider further, more recent information in determining injury.

PROCEDURAL FRAMEWORK

Having decided that there is sufficient evidence and a *prima facie* case to justify the initiation of an investigation, the Board has begun an investigation in terms of section 4 of the Board on Tariffs and Trade Act, 1986 (the BTT Act). The Board will conduct its investigation in accordance with the BTT Act and the World Trade Organisation Agreement on the Implementation of Article VI of the GATT 1994 (the Anti-Dumping Agreement). A copy of the Anti-Dumping Agreement is available from the Board's office on request.

In order to obtain the information it deems necessary for its investigation, the Board will send questionnaires to all known importers and exporters, and known representative associations. The trade representatives of the exporting countries have been notified. Importers, exporters and interested parties are invited to contact the Board as soon as possible in order to determine whether they have been listed and received a questionnaire. If not, they should request a copy of the questionnaire as soon as possible. The questionnaire has to be completed, and any other representations must be made, within the time limit set out below.

CONFIDENTIAL INFORMATION

Please note that if any information is considered to be confidential then a *non-confidential version of the information must be submitted* for the public file, simultaneously with the confidential version. In submitting a non-confidential version the following rules are strictly applicable and parties must indicate:

- Where confidential information has been omitted in each instance.
- Reasons for such confidentiality in each instance.
- A summary of the confidential information which permits a reasonable understanding of the substance of the confidential information in each instance.
- In exceptional cases, where information does not lend itself to a non-confidential summary, reasons must be submitted to this effect.

ADDRESS

The response to the questionnaire and any information regarding this matter, as well as any arguments concerning the allegation of dumping and the resulting material injury, must be submitted in writing to the following address:

PROCEDURES AND TIME LIMIT

All responses, including non-confidential copies of the responses, must be received by the Director: Dumping Investigations not later than 30 days following the date of publication of this notice or, in the case of parties known to be interested, 30 days following the date on which the letter accompanying the above-mentioned questionnaire is received. The said letter shall be deemed to have been received seven days after the date of its dispatch.

It should be noted that the investigation process is complex and that the Board is subject to strict time limits within which to complete the investigation. Late submissions will therefore not be accepted except with the prior written consent of the Board. The Board will give due consideration to written requests for an extension of not more than 14 days on good cause shown (properly substantiated), if such requests are received prior to the expiry of the original 30-day period. Merely citing insufficient time is not an acceptable reason for extension.

The information submitted by any party may need to be verified by the investigating officers in order for the Board to take such information into consideration. The Board may verify the information at the premises of the party submitting the information within a short period after the submission of the information to the Board. Parties should therefore ensure that the information submitted will subsequently be available for verification. Parties should also ensure that all the information requested in the questionnaire is provided in the specified detail and format. The questionnaires are designed to ensure that the Board is provided with all the information required to make a determination in accordance with the rules of the Anti-Dumping Agreement. The Board may therefore refuse to verify information that is incomplete or does not comply with the format in the questionnaire, unless the Board has agreed in writing to a deviation from the required format. (A failure to submit an adequate non-confidential version of the response that complies with the rules set out above under the heading "Procedure" will be regarded as an incomplete submission).

Parties who experience difficulty in furnishing the information required, or submitting it in the format required, are therefore urged to make written applications to the Board at an early stage for permission to deviate from the questionnaire or to provide the information in an alternative format that will satisfy the Board's requirements. The Board will give due consideration to such a request on good cause shown.

If the required information and arguments are not received in a satisfactory form within the time limit specified above, or if verification of the information cannot take place, the Board may disregard the information of that party and make provisional or final findings on the basis of the facts available to it.

Enquiries may be directed to the investigating officers, Mr T. P. Botha at telephone (012) 310-9618 and Ms M. Badenhorst, at telephone (012) 310-9621.

NOTICE 98 OF 1999

BOARD ON TARIFFS AND TRADE**NOTICE OF INITIATION OF AN INVESTIGATION INTO THE ALLEGED DUMPING OF STERILE SYNTHETIC ABSORBABLE SURGICAL SUTURES ORIGINATING IN GERMANY AND IMPORTED FROM ETHICON GmbH, GERMANY.**

The Board on Tariffs and Trade (the Board) received a petition alleging that sterile synthetic absorbable surgical sutures originating in Germany and imported from ETHICON GmbH, Germany, are being dumped into the Southern African Customs Union (SACU), causing or threatening to cause material injury to the SACU industry concerned.

THE PETITIONER

The petition was lodged by Sutures Research Laboratories (Pty) Ltd., (SRL). The SACU industry consists of two domestic producers of the said product, namely, SRL and CLINISUT. The importer of the alleged dumped products, Johnson and Johnson Professional Products (Pty) Limited, does not produce the said products and is, like the exporter, a wholly-owned subsidiary of Johnson and Johnson International of Somerville, New Jersey, United States of America.

The petitioner alleged that the importer was recently awarded the major share of a South African government tender, COMED Tender RT 302/98, at dumped prices. It further alleged that the domestic industry could not and cannot compete with the dumped prices tendered by the importer and that the products are entering the SACU territory and are causing or threatening to cause material injury to the domestic market. The petitioner submitted sufficient evidence to establish a *prima facie* case to enable the Board to arrive at a reasonable conclusion that an investigation into alleged dumping, material injury or threat thereof and causality should be initiated.

THE PRODUCT

The product in respect of which dumping is alleged is coated braided synthetic absorbable surgical sutures made from 90% polyglycolic and 10% lactic acid, in both the needled and ligature format, commonly referred to as VICRYL, and sold under the brand name ETHICON. This range of products also covers the rapidly absorbed product known as Vicryl Rapide. The product originates in Germany and is imported from Ethicon, Germany, by Johnson and Johnson Professional Products (Pty) Limited, South Africa.

The product is used by surgeons in both the private and public medical care establishments for wound closure and controlled wound support after surgery.

The Customs and Excise classification applicable to the product is tariff subheading 3006.10.

THE ALLEGATION OF DUMPING

The allegation of dumping is based on a comparison between the normal values and export prices of the product from Germany. The normal values were established from a domestic price list of the exporter. The export prices were provided by the petitioner and were the prices at which the tender was adjudicated.

On this basis the Board found that there was *prima facie* proof of dumping.

THE ALLEGATION OF MATERIAL INJURY (OR THREAT THEREOF) AND CAUSAL LINK

The petitioner alleged and submitted sufficient evidence to show price undercutting by the exporter which will facilitate the increase in volumes resulting in the loss of sales volume, revenue, profit and market share for the domestic industry. It was also evident that the increasing market share of the alleged dumped products was at the expense of the domestic industry. On this basis the Board found that there was *prima facie* proof of material injury (or threat thereof) and a causal link.

PERIOD OF INVESTIGATION

The period of investigation for the purposes of determining the dumping margins in the country of origin will be from 1 December 1997 to 30 November 1998. The period of investigation for the purposes of determining injury or the threat thereof will be from 1 November 1995 to 30 November 1998. If there are subsequent events that are relevant to injury or the threat thereof the Board may later request and consider further, more recent information.

PROCEDURAL FRAMEWORK

Having decided that there is sufficient evidence and a *prima facie* case to justify its initiation, the Board has begun the investigation in terms of Section 4 of the Board on Tariffs and Trade Act, 1986 (the BTT Act). The Board will conduct its investigation in accordance with the BTT Act and the World Trade Organisation Agreement on the Implementation of Article VI of GATT1994 (the Anti-dumping Agreement). A copy of the Anti-dumping Agreement is available from the Board's offices on request.

In order to obtain the information it deems necessary for its investigation, the Board will send non-confidential versions of the petition and questionnaires to all known importers and exporters, and known representative associations. The trade representatives of the exporting countries have also been notified. Importers, exporters and other interested parties are invited to contact the Board as soon as possible in order to determine whether they have been listed and have been sent the relevant documents. If not, they should immediately ensure that they are sent copies. The questionnaire must be completed and any other representations must be made within the time limit set out below.

CONFIDENTIAL INFORMATION

Please note that if any information is considered to be confidential, a non-confidential version of the information must be submitted for the public file, together with the confidential version.

In submitting the non-confidential versions the following rules are strictly applicable and parties must indicate :

- each instance in which confidential information has been omitted and the nature of such information;
- reasons for confidentiality in each such instance;
- a summary of the confidential information which permits a reasonable understanding of the substance of the confidential information in each instance; and
- in exceptional circumstances, where information is not susceptible to summarisation, reasons to this effect.

ADDRESS

The response to the questionnaire and any information regarding this matter, as well as arguments concerning the allegation of dumping and the resultant material injury or threat thereof, must be submitted in writing to the following address :

Physical address

The Director : Dumping Investigations
Room 1601

PROCEDURES

All responses, including non-confidential versions of the responses, should be received by the Director : Dumping Investigations not later than 30 days from the date hereof or from the date on which the letter accompanying the abovementioned questionnaire was received. The said letter shall be deemed to have been received seven days after the date of its despatch.

It should be noted that the investigation process is complex and the Board is subject to strict time limits within which to complete its investigation. Late submissions will therefore not be accepted except with the prior written consent of the Board. The Board will give due consideration to written requests for an extension of time of not more than 14 days on good cause shown (properly motivated and substantiated), if received prior to the expiry of the original 30-day period.

The information submitted by any party may need to be verified by the investigating officers in order for the Board to take such information into consideration. The Board may verify the information at the premises of the party submitting the information within a short period after the submission of the information to the Board. Parties should therefore ensure that the information submitted is subsequently available for verification. Parties should also ensure that all the information requested in the questionnaire is provided and in the specified detail and format. The questionnaires are designed to ensure that the Board is provided with all the information required to make a determination in accordance with the rules of the Anti-dumping Agreement. The Board may therefore refuse to verify information that is incomplete or which

does not comply with the format in the questionnaire, unless the Board has agreed in writing to a deviation from the required format. A failure to submit an adequate non-confidential version of the response that complies with the rules set out above, will be regarded as an incomplete submission.

Parties that experience difficulty furnishing the information required, or with the format required are therefore urged to make written applications to the Board at an early stage for permission to deviate from the questionnaire or to provide the information in an alternative format that will satisfy the Board's requirements. The Board will give due consideration to such a request on good cause shown.

If the required information and arguments are not received in a satisfactory form within the time limit specified above or if verification of the information cannot take place within a short period of its submission, the Board may disregard the information submitted and make provisional or final findings on the basis of the facts available to it.

Enquiries may be directed to the investigating officers, Albert Strydom at (012) 310 9606 and Sharma Chetty at (012) 310 9826.
