#### Special value-added services

Value can be added to basic international mail services by buying additional value-added services. These include express, registered, insured and advice-of-delivery (AR) options. As these add-on services are not available to some countries or for some categories of mail, enquiries should be made at post offices to find out if they are available for your purposes. Insured and registered items must be posted at post office counters and not in street postboxes.

#### International reply coupons

The international reply coupon service enables customers to repay the postage on a reply from a correspondent abroad. Coupons sent abroad may be exchanged for one or more postage stamps representing the minimum postage prepayable on an air-mail letter. The coupons cost R7,00 and are available at post offices.

#### Exchange control regulations

Exchange control regulations apply equally to postal items as they do to other exports. Generally, items of a value of more than R1 000,00 require specific export documents to be completed. Details are available at post offices.

#### Customs declarations

The type and extent of customs declarations are regulated by the statutes of the Universal Postal Union and the requirements of destination countries. The following basic requirements are stipulated for the various mail categories.
