**SGB INFORMATION**

As a necessary step in the development and implementation of the National Qualifications Framework, The National Standards Bodies are briefed [regulation 19(1)(c) of 28 March 1998] to recognise or establish Standards Generating Bodies (SGBs).

SGBs shall:

- a. generate standards and qualifications in accordance with the Authority requirements in identified sub-fields and levels;
- b. update and review standards;
- c. recommend standards and qualifications to National Standards Bodies;
- d. recommend criteria for the registration of assessors and moderators or moderating bodies; and
- e. perform such other functions as may from time-to-time be delegated by its National Standards Body.

Any bodies wishing to nominate representatives, make application to serve on, or make any other submission with regard to the above SGB should note the following information.

SGBs should be composed of organisations, which shall be key education and training stakeholder interest groups and experts in the sub-field. The NSB, when making its final decisions will have due regard for, among other things, *'the need for representativeness and equity, redress and relevant expertise in terms of the work of the SGBs.'*

Organisations proposing to nominate persons to SGBs should be sensitive to the need for **equity** and **redress**, and shall nominate persons who-

- (a) will be able to consider issues of productivity, fairness, public interest and international comparability as related to education and training in the sub-field;
- (b) enjoy credibility in the sub-field in question, who enjoy respect; have the necessary expertise and experience in the sub-field and have the support or backing of the nominating body;
- (c) are able to advocate and mediate the needs and interests of all levels within the sub-field covered by the Standards Generating Body;
- (d) are able to exercise critical judgement at a high level; and
- (e) are committed to a communication process between the Standards Generating Body, the National Standards Body and the Constituency.

**PUBLIC NOTICE BY NSB 04, COMMUNICATION STUDIES AND LANGUAGE, TO  
ESTABLISH AND REGISTER AN SGB FOR FOREIGN LANGUAGES**

National Standards Body (NSB) 04, Communication Studies and Language, hereby wishes to establish and register an SGB in the field of Foreign Languages. The SGB will write standards and qualifications for Foreign Languages across all levels of the National Qualifications Framework. These standards and qualifications will include, but will not be restricted to, the following areas of competency at the appropriate NQF level: foreign language listening comprehension; foreign language reading comprehension of a variety of texts; foreign language spoken interaction and production; foreign language writing competence; mastery of foreign language grammar, lexicon and structure; understanding of the cultures embodied in foreign languages, such as art, religion, literature and politics; competence in foreign language varieties; competence in foreign language literary studies.

**PROPOSED BRIEF OF THE SGB**

1. Consider and describe standards generation requirements in the field of foreign languages for General (including all ABET levels), Further and Higher Education and Training and for special and/or professional purposes
2. Identify and design learning and career paths for foreign language learners across all education and training bands (NQF levels 1 – 8) [Regulation 24(1)(e)].
3. Generate foreign language unit standards:
  - as components for specific learnerships and qualifications
  - for special, vocational, professional and/or corporate purposes
4. Consolidate existing qualifications and standards within the GET, FET and HET bands.
5. Generate qualifications as outlined below in the field of foreign languages:
  - Certificate in Foreign Languages (NQF levels 1 - 4)
  - National Certificate in Foreign Languages (NQF levels 1 – 4)
  - Diploma in Foreign Languages (NQF level 5)
  - National Diploma in Foreign Languages (NQF level 5)
  - First, Professional, Master's and Doctoral degrees in Foreign Languages (NQF levels 6 to 8)
6. Facilitate interaction with SGBs responsible for briefs associated with languages and with experts in the field, so as to ensure maximum applicability and portability of foreign language qualifications and unit standards
7. Recommend criteria for registration of assessors, moderators and moderating bodies [Regulation 24(1)(d)].
8. Recommend the qualifications and unit standards generated under 3 and 5 to the NSB [Regulation 24(1)(d)].
- 9/ Accept and perform other related functions as requested by NSB04 [Regulation 24(1)(e)].

**Rationale**

The National Certificate in Wholesale and Retail Operations Management at NQF Level 5 is designed to meet the needs of a particular category of learners. The first group is those learners who are already involved in the field of wholesale and retail and who want to move into managerial positions at a higher level. Another group are those learners who want to enter the field of wholesale and retail with no knowledge of this field and who want to develop themselves into managerial positions.

Learners recognise that the management of an operation within a wholesale and retail business is an essential business function necessary for the success of any wholesale and retail business.

There is a need to develop learners' ability to plan, organise lead and control all the available resources in a given wholesale and retail operation in such a manner that will ensure the best productivity and meet the expectations of the relevant stakeholders in the operation.

This qualification also reflects the needs of the wholesale and retail industry both now and in the future. It gives accessibility and flexibility to the learner and to the employer. The level of flexibility is reflected in the multiple job roles and careers opportunities and at the same time it allows the individual to work towards a nationally recognised qualification.

**Purpose of Qualification**

This qualification on NQF level 5 serves as a bridge and foundation qualification for learners' who wants to develop into managerial positions at a higher level than the further education and training level. This will include learners who have qualified from school with a FET qualification on level 4 with no experience in the retail and wholesale field and learners in supervisory positions or who have management potential in the retail and wholesale industry. This qualification prepares the learner with the knowledge, insight and skills needed to be employed as a Trainee Manager in a retail or wholesale business and to develop into a successful manager of an operation within a retail or wholesale business

**Access to the Qualification**

As this is a unit standard based qualification, any learner who is competent in the unit standard as required by the core, fundamental and elective components stipulated in the qualification, will have free access to the qualification.

**Learning assumed to be in place**

Learners accessing this qualification will have demonstrated competence against the standards in the National Certificate in Retail and Wholesale Sales and Services Technology or equivalent at NQF Level 4.

**International comparability**

Benchmarking was done by comparison to Unit Standards / Outcomes of learning against:

- New Zealand Qualifications
- Australian Qualification
- NVQ Qualifications from Britain

**Recognition of prior learning**

The structure of this unit standard based qualification makes the recognition of prior learning possible. This qualification may be achieved in part or as a whole through the recognition of prior learning according to the requirements of the standards.

This recognition of Prior Learning may allow:

- For accelerated access to further learning
- Gaining of credits towards a unit standard

All recognition of prior learning is subject to quality assurance by a relevant accredited ETQA and is conducted by an accredited assessor.

**Moderation**

- All learners are assessed by qualified assessors and moderated by qualified moderators.
- Accrediting of assessors and moderators shall be at the discretion of the relevant ETQA and must comply with SAQA requirements
- Institutions offering learning that will enable achievement of these unit standards or assess these unit standards must be accredited as a provider with the relevant ETQA

**Articulation possibilities**

On completion of this qualification learners may progress to the National Diploma in Retail and Wholesale as well as the National Diploma in Product and Service Management Technology, They may also follow a career in:

- Retail / Wholesale Operations Managers
- Trainee branch managers
- Sales
- Advertising and promotions
- Merchandising

- Stock handling
- Cash management
- Supervision

**Note:**

1. The above is an indication rather than an exhaustive listing
2. In addition learners can specialise in different field of the industry eg. Food, Furniture, FMCG, Specialty, etc

### **Integrated Assessment**

An integrated assessment approach is incorporated into the qualification. This integrated assessment provides an opportunity for the learner to show that they are able to integrate the concepts, ideas and actions across unit standards to achieve competence that is grounded and coherent in relation to the purpose of this qualification. As it is a unit standard based qualification, both formative and summative assessment processes are accounted for. For award of the qualification, a candidate must achieve each unit standard of this qualification and the candidates must demonstrate ability to integrate the different functions in a retail / wholesale operation. The integrated summative assessment takes the form of projects in which the learner applies the contents to an existing retail / wholesale operation and to evaluate how effectively it contributes to the success of such a retail / wholesale operation.

The assessment practices should be conducted in line with all the nationally recognized assessment principles.

Assessors shall have the technical competence and must hold a qualification one level above or equivalent, and should demonstrate evaluative ability in relation to the outcomes of the qualification. Assessment expertise must be evidenced through registered assessor unit standards.

### **Exit Level Outcomes**

This qualification covers all the critical cross-field outcomes. On achieving this qualification, the learner will be able to:

- ☐ Identify problems in a retail / wholesale operation and creatively make responsible decisions to solve problems so as to benefit the retail / wholesale business and community as a whole.
- ☐ Work effectively with the other personnel in a retail / wholesale business as a team leader as well as a member of a team.
- ☐ Effectively plan, organise, lead and control him/herself as well as the personnel in a retail / wholesale operation.
- ☐ Collect, analyse, organise and critically evaluate information on stakeholders expectations, personnel issues, cash handling, customer needs and product specifications.
- ☐ Integrate all the functions in a retail / wholesale operation.
- ☐ Communicate effectively with the customers, communities, suppliers and personnel of a retail / wholesale operation, using language skills in oral and written presentations.
- ☐ Understand and be able to demonstrate the use of management principles effectively, while maintaining a responsibility towards the environment and the community.

**EXECUTIVE OFFICER**

**NATIONAL CERTIFICATE IN LABOUR RECRUITMENT CONSULTANCY: NQF L4**

- 1. Field:** Business, Commerce and Management Studies
- 2. Sub-Field:** Human Resources Management and Practices
- 3. Level:** 4
- 4. Credits:** 121
- 5. Rationale for the qualification:**

Employment agencies provide a crucial service for both employers and work seekers. They present a marketplace for hiring and selling of skills and labour. A wide spectrum of employment services is currently being offered in South Africa by the state and local government and by the private sector. The type of service varies from agency to agency in terms of nature and quality.

Currently the only formal training for the labour recruitment industry in South Africa is the accreditation examination of the Institute for Personnel Service Consultants (IPSC). The IPSC accreditation examination is voluntary and, therefore, not a requirement for practitioners in the labour recruitment field. The IPSC examination cannot therefore be said to give practitioners in the recruitment industry national recognition. It also does not offer practitioners international recognition. Pending employment services legislation will require private and public employment services to be licensed and the licensing will require a professional qualification.

The new Labour Acts have created a need for trained individuals who are able to interpret and implement the requirements relating to the recruitment and appointment of labour as they apply to the institutions/organisations/companies for which the labour consultant is providing a service.

There is thus a clear need for a qualification for the labour recruitment industry that would ensure consistency of practice, a high quality of service throughout the industry and labour recruitment and appointment practices that are in line with current legislation.

The National Certificate in Labour Recruitment : Level 4 should produce knowledgeable and skilled labour recruitment workers who will be able to perform a consultative role, which would include providing assistance to jobseekers, giving advice on potential employees and employers and performing marketing activities for clients.

This qualification brings together all aspects of recruitment and marketing principles. The proposed qualification will professionalise the industry and is applicable to all sectors of labour broking. The proposed qualification will provide articulation with other service industries.

**6. Purpose of the qualification:-**

The purpose of this qualification is to build the knowledge and skills required by practitioners in the labour recruitment industry so as to enable them to provide a quality recruitment service to both job seekers and employers. The qualification is intended to empower learners to acquire the skills, knowledge, insights and attitudes to enable them to operate confidently in the labour recruitment industry and to be able to respond positively to changing demands in the labour industry. The qualification should enrich the learner who should gain status and recognition in the workplace through completion thereof. They will be informed workers in the industry.

The qualification supports the objectives of the National Qualifications Framework in the following ways:

- it provides entry into an integrated learning pathway in labour recruitment as a sub-field of human resources management and practices, which gives recognition to holders for learning achievements in this field
- it facilitates access to education and training and a career path in labour recruitment as the qualification may be obtained through the recognition of prior learning and thus accelerates the redress of past unfair discrimination in education, training and employment opportunities
- it contributes to the full personal development of each learner and the social and economic development of the nation at large through the inclusion of the specified unit standards in the fundamental and elective categories.

**7. Access to the qualification:**

Access to the qualification is open.

**8. Learning assumed to be in place:**

Learners should be competent in Communication and Mathematical Literacy at NQF Level 3.

**9. Exit Level Outcomes**

On completion of this qualification, the learner will be able to:

1. Apply business principles, recruitment practices and legislative requirements within the people acquisition functions
2. Develop relationships with an external client base in order to provide recruitment services
3. Recruit and select candidates to match specified job criteria
4. Operate within a team environment
5. Identify strengths and areas for improvement in own learning through self-reflection and reflection on support for organisational human resources management and practices.

**11. Associated Assessment Criteria**

1. Elements of the recruitment industry and recruitment roles are correctly described
2. Empathy and equity in dealings with colleagues, job seekers and clients are demonstrated
3. Basic business principles are appropriately and correctly applied to given situations

4. Verbal and written communication skills are adequate and appropriate for the task at hand
5. Needs of client are correctly determined, interpreted and recorded
6. Current legislation is adhered to
7. Appropriate interview and selection techniques are used
8. Relationships with client companies are established at multiple levels to achieve higher sales productivity
9. Basic marketing principles are applied to client targeting
10. Good relationships with colleagues are established to improve performance
11. Administrative duties are correctly identified and interpreted

Learners who have elected to specialise in working with the placement of a team of temporary workers in temporary positions are required to achieve the two unit standards titled "Institute disciplinary action" and "Conduct a disciplinary hearing", totalling 13 credits

### 13. International comparability

This qualification and the component unit standards have been compared with similar qualifications from the following countries:

- New Zealand
- United Kingdom of Britain
- Australia.

In addition, the competencies described in the unit standards have also been compared with the findings of the research commissioned by the World Federation of Personnel Management Associations (WFPMA) as contained in the report by Chris Brewster, Elaine Farndale and Jos van Ommeren, **HR Competencies and Professional Standards** (Cranfield University, June 2000).

This qualification and its component unit standards compare well with their international counterparts. The only differences are in formatting and focus. The qualification found to be the most comparable to this one is the Level 3 UK National Vocational Qualification/Scottish Vocational Qualification in Recruitment Consultancy (SVQ code G47S). It must be borne in mind that NVQ/SVQ Level 3 seems to be more comparable to the South African NQF Level 5 and that the NVQ/SVQ qualification is consequently at a somewhat higher level. The differences between the NVQ/SVQ and NQF level structures make direct equivalation difficult.

### 14. Integrated Assessment:

To be awarded the qualification, a candidate must demonstrate competence in all unit standards listed for the qualification.

In addition, candidates must demonstrate the ability to provide recruitment services in an integrated way, dealing with divergent and random demands effectively.

All the exit level outcomes, critical cross-field outcomes, and essential embedded knowledge required by the component unit standards are to be assessed. Evidence of achievement of the critical cross-field outcomes should be found both in performance and in explaining and applying the essential embedded knowledge.

### 15. Criteria for the registration of assessors:

Assessors shall have the technical competence to achieve the qualification themselves and shall have achieved an assessor qualification as required by the relevant ETQA.

#### Notes for assessors:

Assessors should keep the following general principles in mind when designing and conducting assessments:

- Assessment activities should focus on gathering evidence of competence of each unit standard as a whole in an integrated way, rather than looking at each of the specific outcomes of the unit standards individually. Where appropriate, knowledge, skills, attitude and values indicated in the various unit standards should be assessed in an integrated way.
- Evidence should be gathered across the entire range of outcomes. Assessment activities should be as authentic as possible, and where simulations or role-plays are used, there should be supporting evidence to show the candidate is able to perform in the real situation.
- Assessment activities should be: appropriate, fair, manageable, authentic, valid, direct, formative, sufficient, systematic, open and consistent as defined below:

#### Principles of assessment::

- *Appropriate:* The method of assessment is suited to the performance being assessed.
- *Fair:* The method of assessment does not present any barriers to achievements, which are not related to the evidence.
- *Manageable:* The methods used make for easily arranged, cost-effective assessments that do not unduly interfere with learning.
- *Authentic:* Evidence collection is carried out in authentic real world situations in the HRMP field where appropriate and feasible.

- *Valid:* The assessment focuses on the requirements laid down in the Standard; i.e. the assessment is fit for purpose.
- *Direct:* The activities in the assessment mirror the conditions of actual performance as closely as possible
- *Formative:* Assessment shows where gaps exist in the learner's knowledge and skills and give an indication where expanded opportunities are appropriate
- *Sufficient:* The evidence collected establishes that all criteria have been met and that performance to the required Standard can be repeated consistently.
- *Systematic:* Planning and recording is sufficiently rigorous to ensure that assessment is fair.
- *Open:* Learners can contribute to the planning and accumulation of evidence. Learners understand the assessment process and the criteria that apply.
- *Consistent:* The same assessor would make the same judgement again in similar circumstances. The judgement made is similar to the judgement that would be made by other assessors.

#### 16. Moderation Options:

Moderation will be carried out by a moderator registered by the relevant ETQA or by a moderator who is registered with an ETQA that has a Memorandum of Understanding with the relevant ETQA.

#### 17. Articulation possibilities:

The relatively large number of Marketing and Generic Business unit standards allows for portability into other qualifications in the fields of Business, Commerce and Management Studies.

#### 18. Recognition of Prior Learning

This qualification can be achieved wholly or in part through the recognition of prior learning.

Evidence of prior learning can be presented in a variety of forms, including international or previous local qualifications, reports, testimonials mentioning functions performed, work records, portfolios, videos of practice and performance records.

All such evidence should be judged according to the general principles of assessment described in the note to assessors.

## GENERAL NOTICES ALGEMENE KENNISGEWINGS

### NOTICE 789 OF 2002

### BOARD ON TARIFFS AND TRADE

In accordance with the provisions in Article 11.3, any definitive anti-dumping duty shall be terminated on a date not later than five years from the date of imposition, unless the authorities determine, in a review initiated before that date on their own initiative or upon a duly substantiated request made by or on behalf of the domestic industry, that the expiry of the duty would be likely to lead to continuation or recurrence of dumping and injury.

The Board on Tariffs and Trade (the Board) hereby notifies all interested parties that, unless a duly substantiated request is made by or on behalf of the SACU industry, indicating that the expiry of the duty would be likely to lead to continuation or recurrence of dumping and injury, the following anti-dumping duties will expire during 2003:

	PRODUCT	COUNTRY	DATE OF IMPOSITION OF THE DUTY	DATE OF EXPIRY OF DUTY
1	Uncoated woodfree paper	Brazil, Indonesia, Poland, Sweden	13/2/1998	13/2/2003
2	Underwear	PRC	8/5/1998	8/5/2003
3	Welded stainless steel tubes and pipes	Chinese Taipei, Korea, Malaysia	18/6/1998	18/6/2003
4	Passenger car tyres	Chinese Taipei, Korea	18/9/1998	18/9/2003

### **PROCEDURAL FRAMEWORK**

The Board will conduct its investigation in accordance with the Board on Tariffs and Trade Act, 1986, (the BTT Act) and the World Trade Organisation Agreement on Implementation of Article VI of the GATT 1994 (the Anti-Dumping Agreement). A copy of the Anti-Dumping Agreement is available from the Board's office on request.

Manufacturers in the Southern African Customs Union (SACU) of the subject products listed above, who wish to submit a request for the duty to be reviewed prior to the expiry thereof, are requested to do so within the time limit set out below. In the instances where no replies are received from the SACU manufacturers within these time limits, the Board will recommend the termination of the duties on the dates of expiry.

SACU manufacturers who do submit a request within the time limit set out below, are requested to submit duly substantiated information, indicating that the expiry of the duty would be likely to lead to continuation or recurrence of dumping and material injury, to the Board, on the dates as specified below.

The Board will consider the information submitted in order to determine whether *prima facie* evidence exist to justify the initiation of a review. Should the Board decide to initiate a review, notice will be given in the Government Gazette and other parties, being exporters and importers of the subject products, will be requested to comment and provide information.

### **CONFIDENTIAL INFORMATION**

Please note that if any information is considered to be confidential then a non-confidential version of the information must be submitted for the public file, simultaneously with the confidential version. In submitting a non-confidential version the following rules are strictly applicable and parties must indicate:

- Where confidential information has been omitted and the nature of such information;
- Reasons for such confidentiality;
- A summary of the confidential information which permits a reasonable understanding of the substance of the confidential information; and
- In exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.

This rule applies to all correspondence with and submissions to the Board, which unless indicated to be confidential and filed together with a non-confidential version, will be placed on the public file and be made available to other interested parties.

**ADDRESS**

The requests by manufacturers in the SACU of the subject products, and the duly substantiated information indicating what the effect of the expiry of the duties will be, must be submitted in writing to the following address:

**Physical address**

The Director : Trade Remedies I  
SABS Building  
1 Dr Lategan Drive  
Groenkloof  
PRETORIA  
SOUTH AFRICA

**Postal address**

The Director : Trade Remedies I  
Private Bag X753  
PRETORIA  
0001  
SOUTH AFRICA

**PROCEDURES AND TIME LIMITS**

Manufacturers in the SACU of the subject products listed above, who wish to submit a request for the duty to be reviewed prior to the expiry thereof, are requested to do so not later than close of business on 28 June 2002.

SACU manufacturers who do submit a request before 28 June 2002, should submit duly substantiated information, indicating that the expiry of the duty would be likely to lead to continuation or recurrence of dumping and material injury, to the Board, not later than the following dates:

	PRODUCT	COUNTRY	DATE OF EXPIRY OF DUTY	DATE OF SUBMISSION
1	Uncoated woodfree paper	Brazil, Indonesia, Poland, Sweden	13/2/2003	13/8/2002
2	Underwear	PRC	8/5/2003	8/11/2002
3	Welded stainless steel tubes and pipes	Chinese Taipei, Korea, Malaysia	18/6/2003	18/12/2002
4	Passenger car tyres	Chinese Taipei, Korea	18/9/2003	18/3/2003

It should be noted that the investigation process is complex and the Board is subject to strict time limits within which to complete the investigation. Late submissions will therefore not be accepted except with the prior written consent of the Board. The Board will give due consideration to written requests for an extension of not more than 14 days on good cause shown (properly motivated and substantiated), if received prior to the expiry of the original period. Merely citing insufficient time is not an acceptable reason for extension.

The information submitted by any party may need to be verified by the investigating officers in order for the Board to take such information into consideration. The Board may verify the information at the premises of the party submitting the information, within a short period after the submission of the information to the Board. Parties should therefore ensure that the information submitted will subsequently be available for verification. It is planned to do the verification of the information submitted by the exporters within three to five weeks subsequent to submission of the information. This period will only be extended if it is not feasible for the Board to do it within this time period or upon good cause shown, and with the prior written consent of the Board, which should be requested at the time of the submission. (It should be noted that unavailability of or inconvenience to consultants will not be considered to be good cause). Parties should also ensure when they engage consultants that they will be available at the requisite times, to ensure compliance with the above time frames. Parties should also ensure that all the information requested in the applicable questionnaire is provided in the specified detail and format. The questionnaires are designed to ensure that the Board is provided with all the information required to make a determination in accordance with the provisions of the Anti-Dumping Agreement. The Board may therefore refuse to verify information that is incomplete or does not comply with the format in the questionnaire, unless the Board has agreed in writing to a deviation from the required format. (A failure to submit an adequate non-confidential version of the response that complies with the rules set out above under the heading "Procedure" will be regarded as an incomplete submission.)

Parties who experience difficulty in furnishing the information required, or submitting it in the format required, are therefore urged to make written applications to the Board at an early stage for permission to deviate from the questionnaire or provide the

information in an alternative format that can satisfy the Board's requirements. The Board will give due consideration to such a request on good cause shown.

Oral representations to the Board may also be made on written request to the Board at least seven days prior to the expiry date of the original 30 days period and by prior arrangement with the Directorate. Such oral representations must be made within the same period as the written representations, unless prior written consent of the Board has been obtained for the oral representations to be made at a later date, which shall in any event not be later than 14 days after the written representations have been submitted. Oral representations will be limited to one hour.

If the required information and arguments are not received in a satisfactory form within the time limit specified above, or if verification of the information cannot take place, the Board may disregard the information submitted and make provisional or final findings on the basis of the facts available to it.
