NOTICE 1599 OF 2002

COMPETITION COMMISSION

APPLICATION FOR AN EXEMPTION IN TERMS OF SECTION 10 OF THE COMPETITION ACT, No. 89 OF 1998 (AS AMENDED)

Notice is hereby given in terms of section 10(7) of the Competition Act 1998 (the Act) that the Competition Commission (the Commission) has, in response to an application by SASOL Limited; SASOL Mining (Pty) Ltd; SASOL Synfuels (Pty) Ltd; SASOL Nywerhede (Pty) Ltd and SASOL Oil (Pty) Ltd (collectively referred to as SASOL) for an exemption of a number industry agreements in terms of section 10(1)(b) of the Act, decided to grant an exemption in terms of section 10(2)(a) of the Act for a period of one (1) year and five (5) months, commencing on 1 August 2002 and ending on 31 December 2003.

The exemption is granted in respect of the petroleum supply agreements entered into between SASOL and the oil companies as well as the Blüe Pump Agreements entered into with the oil companies that permits SASOL access to the forecourts of the oil companies for the sale of its petrol under the SASOL trade name. Note that the extent of exemption is limited to the facts presented to the Commission by the applicants.

The applicants have relied on the grounds available for the granting of an exemption in section 10(3)(b)(iv) of the Act. This provision provides for exemption to be granted provided that it contributes to the "economic stability of any industry designated by the Minister of Trade and Industry, after consulting the Minister responsible for that industry". The Minister of Trade and Industry has, by way of a Notice in the Gazette and after consultation with the Minister of Minerals and Energy, designated the industry in terms of section 10(3)(b)(iv).

The exemption applied for and granted is intended to permit the parties time to phase out the current agreements and to negotiate new supply contracts should they wish to do so, but without containing any of the current restrictions that were found to otherwise be in contravention of the prohibitions on horizontal collusion contained in section 4(1) of the Act.

The Commission has satisfied itself that the agreements are required to maintain the stability of the supply of product to the consumers in the vital internal market. The commission found that the capacity to produce liquid fuels in the inland area is, for historical reasons, dominated by SASOL. The other oil companies have, with a few exceptions, been encouraged to locate their refineries at the Coast and to source their requirements for the supply of liquid fuels to their retail and commercial outlets in the inland areas from SASOL. At the same time, Government supported the restraints that were placed on SASOL in respect of its exposure at retail level as a marketer in its own right.

It follows that a huge imbalance exists in the internal market between the ownership of the capacity by which liquid fuels are produced, and the control of retail outlets, consisting predominantly of retail service station franchises. Moreover, significant restraints currently exist in moving refined product inland from the coastal refineries that, in the absence of the agreements, could give rise to potentially severe petrol shortages.

The exemption was granted subject to no conditions.
