M.G.RATHOGWA

CHAIRPERSON: NATIONAL AGRICULTURAL MARKETING COUNCIL

**REQUEST FOR A STATUTORY MEASURE (LEVY) ON SORGHUM IN TERMS OF
THE MARKETING OF AGRICULTURAL PRODUCTS ACT, 1996
(ACT NO 47 OF 1996), AS AMENDED**

1. STATUTORY MEASURE – LEVIES

The statutory measure that is requested to be established, is that the Minister in terms of section 15 of the Act, by notice in the Government Gazette, direct that a levy amounting to R6,00 per metric ton sorghum, excluding VAT, payable by the producers, processors, importers and exporters of sorghum, to the Sorghum Trust, be imposed.

2. INFORMATION REQUIRED BY SECTION 10 OF THE ACT

The particulars as required by section 10 of the Act to be included in a request for the establishment of a statutory measure, are as follows:

2.1 The statutory measure that is requested would relate to Sorghum [the threshed, ripe seed of plants of *Sorghum bicolor* (L.) Moench, but not seed sorghum or sorghum utilised as silage].

2.2 The categories of directly affected groups which would probably be affected by the proposed statutory measure, are:

Sorghum producers: (Accountable for 50% of the levy amount)

Sorghum buyers: (Accountable for 50% of the levy amount as well as for the payment of the full levy to the Sorghum Trust)

Buyer means a sorghum dealer, feed manufacturer, malt manufacturer, processor or any other person who purchases sorghum from the producer thereof and a sorghum agent, broker or any other person who purchases sorghum on behalf of another person, from the producer thereof.

2.3 Letters of support for the proposed statutory measure on sorghum, by the different categories of directly affected and other groups in the sorghum industry were received.

2.4 The proposed statutory measure will apply to the whole of the Republic of South Africa, in order to have a uniform levy.

2.5 According to the applicant, the proposed statutory measure will further the objectives of the Act as stipulated in section 2(2) thereof. Such measure will also not contravene section 2(3) of the Act.

2.6 The manner in which the objectives referred to in section 2(2) of the Act will be furthered (namely the increasing of market access for all market participants, the promotion of the efficiency of the marketing of agricultural products, the optimisation of export earnings from agricultural products and the enhancement of the viability of the agricultural sector), are summarised below:

The continuation of the statutory measure is required in order to finance research and information services to the sorghum industry. Approximately 90% of the research is being conducted by the ARC-GCI. SAGIS (The South African Grain Information Service) is responsible for the information function.

The increasing of market access for all market participants

Research and Information are generic functions that are the basic prerequisites for an orderly industry. Approximately 62% of the resources for sorghum research are allocated towards the commercial farming sector and 38% towards the small-scale farming sector.

Information is *inter alia* an indicator to the market entrant as well as other market participants, of possible opportunities and threats in the market place, which should be used as instruments in decision-making, eg. pricing, expanding of business, capital investment and product development.

The promotion of the efficiency of the marketing of sorghum

In a free marketing environment, market information that is conducted by an independent and objective organisation (SAGIS) is a critical instrument for especially the producer, trader, processor, researcher and seed grower as well as for strategic planning by the sorghum industry.

Approximately 90% of the research projects are of an agronomical nature and are important for the maintenance of an international competitive industry as well as to supply products of acceptable quality to the buyers and consumers.

The local malting and milling qualities of sorghum are unique and cultivars are bred to comply with the required specifications.

Enhancement of the viability of the sorghum industry

As indicated above, the total sorghum industry's viability is based on the research and information functions and therefore also impacts on labour. The continuance of levies would therefore ensure that the various role-players of the sorghum industry can effectively continue to pursue their economic objectives.

Optimisation of export earnings

Limited volumes are exported to mainly the neighbouring countries of South Africa and in particular to Botswana. Botswana is dependent on South Africa for approximately 30% of its sorghum requirements (on an average annual basis), which relates to some 40 000 tons per annum.

None of the objectives of the Marketing Act are envisaged to impact negatively on any of the other objectives. Furthermore, the measure would not contravene Section 2(3) of the Act.

2.7 DATE OF IMPLEMENTATION AND DURATION OF STATUTORY MEASURE:

The existing statutory measure expires on 28 February 2003. The request is to implement the measure for another three years, which is until 28 February 2006. It should be borne in mind that the measures will, in terms of the Act, be subject to evaluation and review by the National Agricultural Marketing Council at least every two years. Furthermore, the Act provides for the application to be made for the repeal of statutory measures.

2.8 MOST APPROPRIATE BODY TO ADMINISTER MEASURE:

The Sorghum Forum requested that the following two bodies be appointed as administrators for the proposed statutory levies:

- o The Sorghum Trust; and
- o Ross & Pienaar (Registered Accountants and Auditors).

The Sorghum Trust administrated the sorghum levies since 1998. The trustees of the Sorghum Trust are the custodians of the levy funds and the levy inspectors report to them. Ross & Pienaar is the Accounting firm of the Sorghum Trust and shall be responsible for the banking, record keeping and transfer of all collected levy funds.

2.9 PARTICULARS ON ENFORCEMENT:

Adminhouse Agric CC (Secretaries to the Forum) shall be responsible for the inspection and enforcement functions of the statutory measure.
