GENERAL NOTICES ALGEMENE KENNISGEWINGS

NOTICE 306 OF 2003

BOARD ON TARIFFS AND TRADE

NOTICE OF PRELIMINARY TERMINATION OF AN INVESTIGATION INTO THE ALLEGED DUMPING OF CLEAR FLOAT GLASS ORIGINATING IN OR IMPORTED FROM INDONESIA

The notice of initiation of this investigation was published in Government Gazette No. 23015 dated 9 January 2002 (Notice No. 31 of 2002).

The Petitioner alleged that clear float glass (the subject product), originating in or imported from Indonesia, was being dumped into the Southern African Customs Union (SACU) market at export prices lower than the prices charged in the country of export thereby causing material injury and a threat of material injury to the domestic industry.

The investigation was only initiated on a threat of material injury and not on material injury as the Board on Tariffs and Trade (the Board) did not find that there was *prima facie* evidence that the SACU industry was suffering material injury.

On the information submitted, the Board found that the subject product originating in or imported from Indonesia was not being dumped into the SACU.

For those exporters who did not submit any information, the Board calculated residual dumping margins for each of the product sizes. The Board, however, found that as there was no significant rate of increase of these imports into the SACU, they did not constitute a threat of material injury to the SACU industry.

The Board subsequently made a preliminary determination to recommend that the investigation be terminated.

The detailed reasons for the Board's decision are contained in the Board's Report No. 4193, which is available at the Board's offices. All interested parties have the opportunity to respond and make representations, before the Board makes its final determination.

NOTICE 357 OF 2003
NATIONAL AGRICULTURAL MARKETING COUNCIL
MARKETING OF AGRICULTURAL PRODUCTS ACT, 1996
(ACT No. 47 OF 1996)

REQUEST FOR THE INCREASE OF STATUTORY MEASURES IN THE WINE INDUSTRY

It is hereby made known in terms of section 11 of the Marketing of Agricultural Products Act, 1996 (Act No. 47 of 1996), that the Minister of Agriculture has received in terms of section 15 of the said Act a request for the increase of the following statutory measures:

- Information levy.
- Research and Development levy.

The Wine industry Forum (WIF), on behalf of its members, applied for the increase of the levies on information as well as research and development.

Information levy.

The **Information levy** applies to grapes, intended for the production of wine, currently at R6,30 per ton (an increase to R7,35 per ton was requested), grape juice concentrate, intended for the use in wine, currently at R0,009 per litre (an increase to R0,0105 per litre was requested) at 17,4 degrees Balling, and bulk drinking wine currently at R0,009 per litre (an increase to R0,0105 per litre was requested).

The decision by the industry to establish and run an industry library requires an increase in the amount of the information levy. The maintenance of a central industry library is regarded as critical for proper planning by the industry and the directly affected groups and their members.

Research and Development levy (R&D)

The **Research and Development levy** applies to grapes, currently at R8,40 per ton (an increase to R10.50 per ton was requested), grape juice concentrate currently at R0,012 per litre (an increase to R0,015 per litre was requested) at 17,4 degrees Balling, drinking wine currently at R0,012 per litre (an increase to R0,015 per litre was requested), and distilling wine or wine spirit at currently R0,01 per litre (an increased to R0.013 per litre was requested) at 10 per cent alcohol by volume.

The request to increase in the research and development levy is mainly due to the increase in R&D costs. The increases in R&D costs are a result of among other things the following:

- A decrease in the financial contribution of Government to R&D. This resulted in an increase from 30% of project cost in 1999 to 49% in 2003 for WINETECH.
- A decline in the value of the Rand. For projects that have large (or sometimes sole) component of imported chemicals and apparatus this led and will lead to a large rise in project cost.
- The yearly increase in cost due to inflation over the whole cost spectrum.

It is argued that the outputs resulting from the utilisation of an increased research and development levy will contribute to the optimisation of export earnings and enhancement of the viability of the agricultural sector.

The following statutory measures implemented on 24 December 2001 (expiring 31 October 2005) are currently in place:

- **Research and Development levy** (increase requested).
- **Information levy** (increase requested).
- **Generic promotion levy** applies to export wine (7,00 cents/litre).

In the application it is proposed that the above-mentioned increase in the level of statutory levies be applied for the remaining period of the statutory measures currently in place, i.e. up to 31 October 2005.

Directly affected groups in the wine industry are hereby invited to lodge any comments or objections regarding the proposed statutory measures to the National Agricultural Marketing Council within 14 days of the publication hereof.

Submissions should be in writing and be addressed to:
