**DECLARATION OF AREAS TO BE CORE ASTRONOMY ADVANTAGE
AREAS IN TERMS OF THE ASTRONOMY GEOGRAPHIC ADVANTAGE ACT,
2007**

I, Grace Naledi Mandisa Pandor, Minister of Science and Technology, hereby declare the areas indicated in the schedule hereto as core astronomy advantage areas, in terms of sections 7(1) and 7(2) of the Astronomy Geographic Advantage Act, 2007 (Act No. 21 of 2007).

MRS GNM PANDOR, MP

MINISTER OF SCIENCE AND TECHNOLOGY

SCHEDULE

1. In this notice any word or expression to which a meaning has been assigned in the Act has the meaning so assigned, unless the context indicates otherwise.

SCOPE OF THE DECLARATION

2. This declaration applies to:

- (1) The core astronomy advantage area containing the Southern African Large Telescope (SALT) that will be used for the purposes of optical astronomy and related scientific endeavours; and
- (2) The core astronomy advantage area containing the MeerKAT radio telescope and the core of the planned Square Kilometre Array (SKA) radio telescope that will be used for the purposes of radio astronomy and related scientific endeavours.

DESCRIPTION OF THE CORE ASTRONOMY ADVANTAGE AREAS

3. With reference to paragraph 2(1), all land within a 3 kilometre radius of the centre of the Southern African Large Telescope (SALT) dome located at 32° 22' 33"S and 20° 48' 38"E in the Northern Cape Province fall under the Sutherland Core Astronomy Advantage Area.
4. With reference to paragraph 2(2), the area is comprised of three portions:
 - (1) The farm Mey's Dam Nr. 68, Kareeberg Municipality, Division Carnavon, in the Northern Cape Province, to the extent of 7046,0463 hectares according to the Deed of Transfer T047450/08;

- (2) Portion 1 (Waaipunt) of the farm Los Berg No. 73, Karoo Hoogland Municipality, Fraserburg Division, in the Northern Cape Province to the extent of 1825,2707 hectares according to the Deed of Transfer T045934/08; and
- (3) Remainder of the Farm Los Berg No. 73, Karoo Hoogland Municipality, Fraserburg Division, in the Northern Cape Province to the extent of 4535,4929 hectares according to the Deed of Transfer T045934/08;
fall under the Karoo Core Astronomy Advantage Area.

The Minister of Water and Environmental Affairs intends constructing the government water works as contained in the Schedule hereto.

In terms of section 110(1)(b)(iii) interested parties are invited to submit written comments on the proposed water works and the environmental impact assessment by 27 September 2010. Comments must be submitted to the Director-General, Department of Water Affairs, Private Bag X313, Pretoria; Fax; 012 336-7399 and marked for attention of Mr. JA Bester, Acting Chief Engineer Options Analysis (East).

SCHEDULE TO THE PROPOSED RAISING OF THE HAZELMERE DAM AS A GOVERNMENT WATER WORKS AND A SUMMARY OF THE ENVIROMENTAL IMPACT ASSESMENT**A. PROPOSED CONSTRUCTION OF THE SCHEME****PURPOSE**

The raising of the Hazelmere Dam will increase the water available for supply to the North Coast Region of Kwa-Zulu Natal by some 10 million m³/a. The supply area of the Hazelmere Dam extends from KwaDukuza (Stanger) in the north, Groutville, Blythedale, Balito and Verulam to the south. The system's water is mainly used for domestic, industrial and agricultural purposes, the latter mainly for the irrigation of sugar cane farming. The dam basin lies in a peri-rural area directly impacting the communities of Verulam and Tongaat. Umgeni Water is responsible for bulk water supply to the users. The added yield will be used to meet the increase in domestic and industrial demand. A locality map of the scheme is attached.

HAZELMERE DAM RAISING

The Hazelmere Dam is situated on the Mdloti River, north of Durban, about 5 km north of the town of Verulam. The dam was built in 1977 to supplement water supply to the rapidly increasing urban and industrial users at the time. The capacity of the dam in 1975 was 23.9 million m³. The original design of the dam made provision for a second phase which would include the installation of seven radial gates to increase the capacity of the dam, should the need arise. Due to the high rate of sediment deposition, the capacity of the dam rapidly reduced and was estimated at 13.7 million m³ in 2007, i.e. 57.2% of its original storage. The present yield is insufficient to meet the growing demands of supply in the North Coast region. The second phase of construction has thus become necessary.

Technical details of the dam and its proposed raising are summarised in the table below:

Description	Unit	Current Dam	Raised Dam
Details of structure			
Non-overspill crest of dam (NOC)	m.a.s.l.	94.00	94.00
Full supply level (FSL)	m.a.s.l.	85.98	93.00
Crest length (NOC)	m	463	
Net spillway length	m	91	
Height above original river bed	m	44	
Spillway capacity without over topping	m ³ /s	4324	
River bed level at dam	m.a.s.l.	50	
Storage			
Gross Storage in 1975 (Original survey)	million m ³	23.9	43.7
Gross Storage in 1993 (From survey)	million m ³	17.9	36.1
Projected gross storage available to Umgeni Water in 2015	million m ³	10.5	28.2

* The above detail is subject to final design which may require minor changes.

The Hazelmere Dam is a curved concrete gravity dam with a radius of 725m. The maximum wall height of the dam is 44m and the crest length is 463m. The dam wall comprises an ogee crest spillway fitted with splitters and has seven bays each 13m long which is separated by 2m wide piers.

The intake tower consists of an exterior emergency slab gate and a dual diameter 750mm diameter outlet pipes. From the intake tower the abstraction pipes follow a route through a special gallery to exit the dam on the right bank where they link up with the pipeline to the Umgeni Water's Hazelmere Water Treatment Works.

Separate outlet facilities exist to the river and to supply the Umgeni Water Treatment works at Canelands. The outlets consist of 2 x 1500mm diameter pipes at an invert of 61 m.a.s.l. Discharge is controlled from the downstream end by a jet flow gate of 1300 x 1500mm dimensions and a sleeve valve 305mm in diameter.

The dam was designed and constructed for future raising of 7m through the installation of radial gates on the spillway crest. Several methods and configurations for raising the dam were investigated. DWAF Hazelmere Dam Raising Feasibility Study (2001) recommended that raising should take place by installing radial gates.

Seven 13m x 5m radial gates will be installed on the spillway crest. Radial gates will be operated electrically by an automated computerised system that would open individual gates in sequences as incoming floods raise the reservoir level. The flows will be released to keep the FSL at 93 m.a.s.l.

The outlet capacities were re-calculated for the raised dam.

B. SUMMARY OF THE ENVIRONMENTAL IMPACT ASSESMENT (EIA) (For more information please see full EIA on the website <http://www.hazelmereidameia.co.za/>)

Terrestrial mammals may lose habitat mainly in Msinsi Holdings Recreational Facility. Due to the reduced area available for grazing, Impala, Zebra and Blue Wildebeest would be affected. The Resource Management Plan (RMP) will address this issue.

The Oakford Priory, the Cottonlands Farm and Msinsi Holdings were directly impacted and affected by the development of the dam. The acquisition of land will be done according to best practises in accordance with standing legislation.

Some wetlands will be inundated. There will be a total loss of 8 hectares of wetlands. New wetlands will redevelop in the headwaters of the new impoundment. Human intrusion into the new wetland will be minimised to facilitate development. Once new wetlands are established, DWA will map the area to provide baseline information for development of Environmental Management Plans (EMPs) for future sand mining operations.

Eels are able to cross the existing walls in low numbers. With the raised wall it is almost certain that they will be unable to cross unless special provision is made to facilitate upstream migration. An eelway will be constructed to prevent impacts on eel migration.

The Department of Minerals and Energy (DME) must be notified of the potential future inundation of sand deposits in the Hazelmere Dam basin. This may be an important consideration in the drafting of new permits for sand mining in the area. Mining should, however, continue unhindered as long as possible.

The potential loss of recreational facilities is serious but, as these were developed on state land in the knowledge that future flooding would occur when the dam was raised, there would be no cause for compensation. The remaining land is too small to re-establish the facilities in the same area.

As a result of foundation erosion, the road bridge is potentially unstable. Although raising the dam would reduce the risk of further erosion it would also inundate what is now a potential problem. A report on the potential instability will be produced by DWA.

Hazelmere Dam is small relative to Mean Annual Runoff at the site, thus putting the reservoir capacity at risk due to siltation. Although the raised dam would have an acceptable design life (in excess of 50 years), DWA will request the KZN Department of Agriculture (DAEA) to develop a comprehensive plan to reduce soil erosion in the catchment.

Alien vegetation in the riparian zone of the Mdloti River and its perennial tributaries will be cleared to improve water runoff. The Mdloti river catchment could be promoted as a priority area in the Working for Water Programme.

One archaeological site dating to the Mzonjani Phase of the Early Iron Age was recorded. The site is significant in that it is the first recorded Early Iron Age site along the Mdloti river valley and the pottery decorations may provide important comparisons for inter-site decorations. The site will be cleared of dense vegetation and limited initial excavations will be made to define the extent and importance of the site. After which proposals could be made with regard to possible salvage operations.

The current dam has a well designed and functioning zonation plan allowing for dam functionality, development, recreation and conservation. The plan would have to be reviewed for the raised dam scenario. DWA will develop a detailed RMP, accompanied by a full public participation.

Downstream releases will adhere to the recommendations for downstream ecological flow requirements. The rate of gate opening and closure will be controlled to avoid unnatural sudden changes in the river flow. Periodic audits will be undertaken to check if downstream ecological flow requirements are maintained.

detailed EMP must be developed to guide the various activities associated with construction and operation phases of the raised dam. The plan will include details of monitoring requirements and be submitted to Department of Environmental Affairs for approval.

NOTICE 802 OF 2010

Issued in terms of the National Ports Act 2005 (Act 12 of 2005)

INVITATION TO APPLY FOR REGISTRATION AS VESSEL AGENT

Transnet National Ports Authority ("the Authority") invites vessel agents operating within South African commercial ports to apply for registration, in terms of Port Rule 148, issued in terms of section 80(2) of the **National Ports Act 2005 (Act 12 of 2005)**.

Registration details are available on the Authority's website, at http://www.transnetnationalportsauthority.net/Ports_Act_Vessel_Agents_Registration.html.

Application forms for vessel agent registration can be downloaded from this site, and may also be obtained between 08:30 and 16:00 from the Customer Service Centres (CSC) in the Port Administration Building in the ports of Richards Bay, Durban, East London, Ngqura, Port Elizabeth, Cape Town and Saldanha Bay and the Revenue Office in the Port Control Building at the port of Mossel Bay.

Applicants are invited to submit applications, on a per port basis, to the Authority by **16h00 on Thursday 23 September 2010**, for the attention of the Port Licence Manager of the respective port. This can be done either by hand, fax or email.

Contact details of the Port Licence Managers are also available on the Authority's website, at www.transnetnationalportsauthority.net

In terms of Port Rule 149, promulgated in Government Gazette No.31966 dated 6 March 2009, if registration is required, no person may carry out the activity of vessel agent in a port or at an off-shore cargo handling facility without being registered.

Transnet National Ports Authority is an operating division of Transnet Limited (Registration No.: 1990/000900/06).

REGISTRATEUR VAN KOÖPERASIES

NOTICE 805 OF 2010**INTERNATIONAL TRADE ADMINISTRATION COMMISSION****NOTICE OF INITIATION OF A SUNSET REVIEW OF THE ANTI-DUMPING DUTIES ON UNFRAMED MIRRORS ORIGINATING IN OR IMPORTED FROM INDIA**

In accordance with the provisions of Anti-Dumping Regulation (ADR) 53, the anti-dumping duties shall remain in place for a period not exceeding 5 years from the imposition or the last review thereof.

On 26 June 2009, the International Trade Administration Commission of South Africa (the Commission) notified interested parties through Notice No. 902 of 2009 in Government Gazette No. 32333, that unless a substantiated request is made indicating that the expiry of the anti-dumping duties against imports of unframed mirrors originating in or imported from India would likely lead to the continuation or recurrence of dumping and injury, the anti-dumping duties on unframed mirrors originating in or imported from India would expire on 13 December 2010.

A request for the initiation of a sunset review was received from PFG Building Glass on behalf of the South African Customs Union (SACU) industry on 02 June 2010.

THE APPLICANT

The application was lodged by PFG Building Glass, the sole producer of unframed mirrors within SACU.

The Applicant alleges that the expiry of the duty would be likely to lead to continuation or recurrence of dumping and the recurrence of material injury. The Applicant submitted sufficient evidence and established a *prima facie* case to enable the Commission to arrive at a reasonable conclusion that a sunset review investigation should be initiated.

THE PRODUCT

The products allegedly being dumped is unframed mirrors classifiable under tariff subheading 7009.91 originating in or imported from India.

THE ALLEGATION OF THE CONTINUATION OR RECURRENCE OF DUMPING

The allegation of continuation or recurrence of dumping is based on the comparison between the normal value and the export price.

The Applicant obtained market information that unframed mirrors are being sold in India in the ordinary course of trade. This information is supported by a quotation obtained reflecting the Indian domestic market price.

The export price was obtained from the official SARS import statistics.

Based on the difference between the domestic selling price and the export price to SACU, a dumping margin of 60 percent ad valorem was calculated.

On this basis, the Commission found that there was *prima facie* proof of the likelihood of continuation or recurrence of dumping if the duties expire.

THE ALLEGATION OF CONTINUATION OR RECURRENCE OF MATERIAL INJURY

The Applicant alleges and submitted *prima facie* evidence to show that it is likely that there would be price undercutting and that the imports in question would be depressing and suppressing its selling prices. The Applicant's information indicated that it would likely experience a decline in sales, profit margins, production, market share, capacity utilisation, return on investment and it will have a negative impact on cash flow, if the duties expire.

On this basis the Commission found that there was *prima facie* proof of the recurrence of material injury.

PERIOD OF INVESTIGATION

The investigation period for dumping is from 01 January 2009 to 31 December 2009, and the injury investigation involves evaluation of data for the period of 01 January 2007 to 31 December 2009. The Commission will also consider an estimate of what the situation will be, if the anti-dumping duties expire.

PROCEDURAL FRAMEWORK

Having decided that there is sufficient evidence and a *prima facie* case to justify the initiation of a sunset review investigation, the Commission has begun an investigation in terms of section 16 of the International Trade Administration Act, 2002 (the ITA Act). The Commission will conduct its investigation in accordance with the relevant sections of the ITA Act, and the Anti-Dumping Regulations of the International Trade Administration Commission of South Africa (ADR). Both the ITA Act and the ADR are available on the Commission's website (www.itac.org.za) or from the Trade Remedies section, on request.

In order to obtain the information it deems necessary for its investigation, the Commission will send non-confidential versions of the application and questionnaires to all known importers and exporters, and known representative associations. The trade representative of the exporting country has also been notified.

Importers and other interested parties are invited to contact the Commission as soon as possible in order to determine whether they have been listed and were furnished with the relevant documentation. If not, they should immediately ensure that they are sent copies. The questionnaire has to be completed and any other representations must be made within the time limit set out below.

CONFIDENTIAL INFORMATION

Please note that if any information is considered to be confidential then a non-confidential version of the information must be submitted for the public file, simultaneously with the confidential version.

In submitting a non-confidential version the following rules are strictly applicable and parties must indicate:

- where confidential information has been omitted and the nature of such information;
- reasons for such confidentiality;
- a summary of the confidential information which permits a reasonable understanding of the substance of the confidential information; and
- in exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be placed on the public file and be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

Subsection 33(1) of the ITA Act provides that any person claiming confidentiality of information should identify whether such information is *confidential by nature* or is *otherwise confidential* and, any such claims must be supported by a written statement, in each case, setting out how the information satisfies the requirements of the claim to confidentiality. In the alternative, a sworn statement should be made setting out reasons why it is impossible to comply with these requirements.

Section 2.3 of the ADR provides as follows:

“The following list indicates “information that is by nature confidential” as per section 33(1) (a) of the Main Act, read with section 36 of the Promotion of Access to Information Act (Act 2 of 2000):

- (a) management accounts;*
- (b) financial accounts of a private company;*
- (c) actual and individual sales prices;*
- (d) actual costs, including cost of production and importation cost;*
- (e) actual sales volumes;*
- (f) individual sales prices;*
- (g) information, the release of which could have serious consequences for the person that provided such information; and*
- (h) information that would be of significant competitive advantage to a competitor;*

Provided that a party submitting such information indicates it to be confidential.”

ADDRESS

The response to the questionnaire and any information regarding this matter and any arguments concerning the allegation of dumping and the resulting threat of material injury must be submitted in writing to the following address:

PROCEDURES AND TIME LIMITS

The Senior Manager: Trade Remedies I, should receive all responses, including non-confidential copies of the responses, not later than 30 days from the date hereof, or from the date on which the letter accompanying the abovementioned questionnaire was received. The said letter shall be deemed to have been received seven days after the day of its dispatch.

Late submissions will not be accepted except with the prior written consent of the Commission. The Commission will give due consideration to written requests for an extension of not more than 14 days on good cause shown (properly motivated and substantiated), if received prior to the expiry of the original 30-day period. Merely citing insufficient time is not an acceptable reason for extension. Please note that the Commission will not consider requests for extension by the Embassy on behalf of exporters.

The information submitted by any party may need to be verified by the Investigating Officers in order for the Commission to take such information into consideration. The Commission may verify the information at the premises of the party submitting the information, within a short period after the submission of the information to the Commission. Parties should therefore ensure that the information submitted would subsequently be available for verification. It is planned to do the verification of the information submitted by the exporters within three to five weeks subsequent to submission of the information. This period will only be extended if it is not feasible for the Commission to do it within this time period or upon good cause shown, and with the prior written consent of the Commission, which should be requested at the time of the submission. It should be noted that unavailability of, or inconvenience to consultants will not be considered to be good cause.

Parties should also ensure when they engage consultants that they will be available at the requisite times, to ensure compliance with the above time frames. Parties should also ensure that all the information requested in the applicable questionnaire is provided in the specified detail and format.

The questionnaires are designed to ensure that the Commission is provided with all the information required to make a determination in accordance with the rules of Anti-Dumping regulations. The Commission may therefore refuse to verify information that is incomplete or does not comply with the format in the questionnaire, unless the Commission has agreed in writing to a deviation from the required format. A failure to submit an adequate non-confidential version of the response that complies with the rules set out above under the heading *Confidential Information* will be regarded as an incomplete submission.

Parties, who experience difficulty in furnishing the information required, or submitting in the format required, are therefore urged to make written applications to the Commission at an early stage for permission to deviate from the questionnaire or provide the information in an alternative format that can satisfy the Commission's requirements. The Commission will give due consideration to such a request on good cause shown.

Any interested party may request an oral hearing at any stage of the investigation in accordance with Section 5 of the ADR, provided that the party indicates reasons for not relying on written submission only. The Commission may refuse an oral hearing if granting such hearing will unduly delay the finalisation of a determination. Parties requesting an oral hearing shall provide the Commission with a detailed agenda for, and a detailed version, including a non-confidential version, of the information to be discussed at the oral hearing at the time of the request.

If the required information and arguments are not received in a satisfactory form within the time limit specified above, or if verification of the information cannot take place, the Commission may disregard the information submitted and make a finding on the basis of the facts available to it.

Should you have any queries, please do not hesitate to contact investigating officers, Mr Albert Strydom at telephone number +27 12 394 3597 or Mr. Emmanuel Makwela at telephone number +27 12 394 3632 or at fax number +27 12 394 0518.

NOTICE 806 OF 2010**INTERNATIONAL TRADE ADMINISTRATION COMMISSION****CUSTOMS TARIFF APPLICATIONS****LIST 07/2010**

The International Trade Administration Commission (herein after referred to as ITAC or the Commission) has received the following applications concerning the Customs Tariff. Any objection to or comments on these representations should be submitted to the Chief Commissioner, ITAC, Private Bag X753, Pretoria, 0001, **within four (4) weeks** of the date of this notice. Attention is drawn to the fact that the rate of duty mentioned in these applications is that requested by the applicant and that the Commission may, depending on its findings, recommend a lower or higher rate of duty.

CONFIDENTIAL INFORMATION

The submission of confidential information to the Commission in connection with customs tariff applications is governed by section 3 of the Tariff Investigations Regulations, which regulations can be found on ITAC's website at <http://www.itac.org.za/documents/R.397.pdf>. These regulations require that if any information is considered to be confidential, then a non-confidential version of the information must be submitted, simultaneously with the confidential version. In submitting a non-confidential version the regulations are strictly applicable and require parties to indicate:

- ☐ *Each instance where confidential information has been omitted and the reasons for confidentiality;*
- ☐ *A summary of the confidential information which permits other interested parties a reasonable understanding of the substance of the confidential information; and*
- ☐ *In exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.*

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless clearly indicated to be confidential, will be made available to other interested parties.

The Commission will disregard any information indicated to be confidential that is not accompanied by a proper non-confidential summary or the aforementioned reasons.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.
