NOTICE 179 OF 2011

**NOTICE OF AN APPLICATION FOR AN EXEMPTION IN TERMS OF SECTION 10(1)(a) OF THE COMPETITION ACT 89 OF 1998:
WESTERN CAPE CITRUS PRODUCERS FORUM**

An application for an exemption from the provisions of the Competition Act 89 of 1998, as amended ("the Competition Act") has been filed with the Competition Commission of South Africa ("the Commission") by the Western Cape Citrus Producers Forum ("WCCPF"), in terms of Section 10(3)(b)(i) of the Competition Act.¹

WCCPF was formerly known as the Citrus Producers Forum and is a legal entity independent of its members which exists to grow and produce summer citrus fruit for purposes of export to the United States of America ("USA"). The WCCPF has previously applied for and been granted an exemption in terms of section 10(3)(b)(i) of the act for a period of five years. The new application is therefore brought in anticipation of this expiry².

The application for the exemption is in respect of a proposed scheme by WCCPF and its members to continue its established export pool aimed at exporting citrus fruit to the USA market. Given that the demand for citrus fruit in the USA is high and South Africa is the world's second largest producer of citrus fruit, such an export scheme has proven successful in the past because it enables producers to pool together resources and overcome the stringent regulations imposed by the USA on exported products. Previous attempts by citrus producers to export individually to the USA have been unsuccessful.

Specifically, WCCPF has requested that it be permitted to engage in the following activities to achieve its objective -

- Coordination between producers to ensure compliance with the stringent quality and phyto-sanitary standards necessary for exportation to the USA;
- To establish and stimulate a demand for South African summer citrus fruit in the USA;
- Co-ordinating and allocating volumes for specific types of cultivars of citrus fruit to be exported at specific times;
- Facilitating logistical, marketing and sales support for the collective exports of citrus fruit of South African producers and
- Generating substantial economies of scale in order to penetrate the USA market in a sustainable and profitable manner.
- Circulating information amongst members regarding the prices achieved on the export market in order to assist price negotiations with exporters.
- Formulating a demand plan for the marketing of their exports in the USA

The exemption is sought for a period of five years.

WCCPF submits that the collective agreements between its members and shareholders would contravene section 4(1)(a) alternatively section 4(1)(b) of the Competition Act which is a *per se* prohibition that cannot be defended on efficiency, technological or pro-competitive grounds. WCCPF avers that the above conduct is however necessary to

¹ Competition Commission case no. 2010Oct5428

² Competition Commission case no. 2010Oct5428

attain the objective stipulated under section 10(3)(b)(i) of the Act, namely, that such an export pool scheme would contribute to the following objective:

I) The maintenance or promotion of exports

In accordance with the provisions of Section 10(6)(a) the Competition Act, notice is hereby given of the above application for exemption. Interested parties can make written submissions to the Commission as to why the exemption should not be granted as required by section 10(6)(b) of the Competition Act. Such submissions must reach the Commission within 20 (twenty) business days from the date of this Notice and should be directed to:

Schedule**MINIMUM REQUIREMENTS FOR THE PREPARATION OF PROVINCIAL LAND TRANSPORT FRAMEWORKS REGULATIONS, 2011****Arrangement of Regulations****1. Definition**

2. Purpose of these Regulations
3. Principles for preparing provincial land transport frameworks
4. Process for completion and approval by MEC
5. Minimum contents of provincial land transport frameworks
6. Repeal of Regulations
7. Short Title and Commencement

Definitions

1. In these Regulations, unless the context indicates otherwise, a word or expression that is defined in the Act has the same meaning as in these Minimum Requirements, and—

“Non Motorised Transport” means all forms of movement that do not rely on engine or motor for mobility.

“The Act” means the National Land Transport Act 2009 (Act No.5 of 2009)

Purpose of these Regulations

2. (1) The purpose of these regulations is to provide for a process for the preparation of Provincial Land Transport Frameworks (PLTF), and their minimum contents.
- (2) All Provincial Land Transport Frameworks prepared by the MECs in compliance with section 35 of the Act must as a minimum comply with these Requirements.
- (3) The purpose of a Provincial Land Transport Frameworks is—
 - (a) To give broad strategic direction to the development of transport in the province;
 - (b) To give an overview of the *status quo* of transport in the province from a provincial perspective;

- (c) To indicate land use development trends and the desirable spatial development of the province, and what transport measures and actions should be put in place to support the intended spatial development;
- (d) To give an overview of development initiatives of provincial significance in the province, including budgets and implementation programmes;
- (e) To report on the monitoring of transport in the province and identified trends;
- (f) To indicate and summarize actions taken in the province to co-ordinate and integrate transport planning and management initiatives by municipalities and other organs of state in the province responsible for transport matters; and
- (g) To indicate how the MEC has implemented the functions and responsibilities assigned to the province by the Act.

Principles for preparing provincial land transport frameworks

3. (1) In preparing the Provincial Land Transport Frameworks, the MECs must have due regard to and apply any principles promulgated under section 8(1)(q) of the Act.
- (2) In addition to those principles, the following must also be applied:
 - (a) In preparing the Provincial Land Transport Framework, the MEC must be guided by the National Land Transport Strategic Framework (NLTsf)
 - (b) Plans must pay due attention to the development of rural areas;
 - (c) Non-motorised forms of transport must be taken into account;
 - (d) Transport for special categories of passengers must receive special attention;
 - (e) The integrated transport planning process must be continuous, i.e. plans must be updated continuously;
 - (f) The Provincial Land Transport Frameworks must be synchronised with other planning initiatives and must indicate how it is integrated into the provincial transport and land use planning process;

- (g) In compliance with paragraph (f), specific reference must be made to the integrated development planning and land development objective processes insofar as they affect transport, the municipal budgeting process and the spatial planning processes;
- (h) In the case of any of the 12 cities identified in the *Public Transport Strategy and Action Plan, 2007*, specific reference must be made to their Integrated Rapid Public Transport Networks (IRPTN) and Bus Rapid Transit (BRT) systems, if any; and
- (i) Specific reference must be made to Integrated Public Transport Network (IPTN) that has been developed for rural areas.

Process for preparation and approval by MEC

- 4. (1) The Provincial Land Transport Framework must be prepared for a five-year period as required by section 35(1) of the Act.
- (2) The Provincial Land Transport Framework must also be updated every two years in compliance with section 35(9) of the Act.
- (3) In developing the Provincial Land Transport Framework, the MEC must consult with planning authorities in the province, the rail, bus, taxi and other industries providing public transport in the province, the Provincial Regulatory Entity, and other stakeholders.
- (4) The Head of the Provincial Department must liaise with the Department to ensure that the Provincial Land Transport Framework is prepared, approved by the MEC and submitted to the Minister by the date fixed by the Minister in terms of section 35(4) of the Act.
- (5) The Provincial Land Transport Framework when submitted to the Minister must be accompanied by copies of any agreements concluded between the province and other provinces regarding interprovincial transport.
- (6) As contemplated in section 35(11) of the Act, if the Minister is of the opinion that—
 - (a) the Provincial Land Transport Framework is in conflict with the National Land Transport Strategic Framework (NLTSF), national policy regarding interprovincial transport, cross-border transport or applicable legislation;

- (b) the Provincial Land Transport Framework is in conflict with procedures and financial issues that affect the national government;
- (c) the MEC did not follow the correct procedures or comply with these Requirements; or
- (d) the Provincial Land Transport Framework will adversely affect modes of transport under the control of the national government or national public entities,

the Minister may request the MEC to amend or supplement the plan, as the case may be, and the MEC must comply with such request within the time stipulated by the Minister in that request.

Minimum contents of provincial land transport frameworks

5. Although the format may be different, the Provincial Land Transport Framework must at least contain the minimum information set out below:

Executive Summary

(1). The Provincial Land Transport Framework must contain a concise executive summary that at least includes the following:

- (a) A brief background to and purpose of the Provincial Land Transport Framework;
- (b) The primary goals and objectives of the province on transport development and how they relate to other planning and policy initiatives in the province, as well as national requirements;
- (c) A brief summary of the *status quo* of transport in the province;
- (d) Spatial and transport trends and problems in the province;
- (e) Proposed interventions and projects, with implementation programmes and budget implications, indicating key focus or priority areas for interventions or application of funds; and
- (f) An indication of how transport is monitored in the province.

Chapter 1: Process and consultation

- (2) (a) This chapter must outline the process followed in preparing the Provincial Land Transport Framework including the consultation process, with reference to public meetings held, documents and drafts published for comment.
- (b) It must also indicate the status of the document, i.e. the dates on which it was approved by the MEC and Minister, or, as the case may be, when it will be submitted for such approval.

Chapter 2: Transport vision, policy and objectives

- (3) (a) This chapter must start with an interpretation of the National Land Transport Strategic Framework as it relates to the province, with reference to specific needs and challenges.
- (b) It must deal with provincial land transport policy published in terms of section 9(1) of the Act and attach that policy as an annexure or provide details of where it may be obtained. If such policy has not been published, but there is a provincial white paper or green paper, the white paper or green paper must be attached or details provided of where it can be obtained.
- (c) Where there is no published policy, white paper or green paper, this chapter must provide policy guidance for at least the promotion, management, regulation and control of public transport in the province.
- (d) It must highlight actual or potential areas of conflict between national and provincial land transport policy.
- (e) It must formulate specific objectives relating to the overall vision and key priorities of the province, which must be acceptable, measurable, understandable and achievable.

Chapter 3: *Status quo* of transport in the province

- (4) This chapter must at least contain the following:
- (a) Tables and maps showing-
- (i) Demographic features of industry and economic sectors, with demographic statistics per metropolitan and district municipal area;
 - (ii) National and provincial road networks showing the category and state of such networks;

- (iii) Strategic public transport networks, including rail networks;
 - (iv) Transport nodes of provincial significance;
 - (v) Freight transport routes including the routes for the transporting of dangerous goods contemplated in section 35(5) of the Act; and
 - (vi) Spatial development, economic development and housing development in the province, including development initiatives, master plans and development programmes.
- (b) A description of public transport operations in the province, including minibus taxi, metered taxi, bus and rail transport.
 - (c) A description of intraprovincial and interprovincial long-distance services and interprovincial commuter services. There may also be a description of charter and staff services.
 - (d) The status of Integrated Rapid Public Transport Networks (IRPTNs) and Bus Rapid Transit systems, if any, and of the Integrated Public Transport Networks (IPTNs) required by the Act, in the province.
 - (e) A list of perceived problems and issues relevant to land transport in the province.
 - (f) A description of the information systems being kept by the province as required by section 6 of the Act, how this information was used to compile the Provincial Land Transport Framework (PLTF) and the data collection processes being followed.

Chapter 4: Integrated transport plans

- (5) This chapter must at least contain the following:
 - (a) A list of planning authorities in the province, with their classification and the types plans of to be prepared by them.
 - (b) A programme for the preparation of the Integrated Transport Plans and their co-ordination with the Provincial Land Transport Framework.
 - (c) A reference to the summary of Integrated Transport Plans required by section 35(7) of the Act which must be contained in an annexure. The summary should be brief and focus on aspects and projects of regional or provincial significance.

Chapter 5: Integrated development framework

- (6) This chapter must at least include the following, unless already provided under chapter 3:

(1) The approved spatial development strategy or plan for the province. This should include:

(a) An integrated map illustrating the frameworks for future development, with a short description of–

- (i) Spatial development;
- (ii) Economic development;
- (iii) Housing development, and
- (iv) Other development initiatives.

(b) This map should also give an indication of where the growth areas of the province are and where specific development initiatives are taking place that require improved transportation.

(c) Information on each spatial development initiative in the province, with its status and urban renewal and rural development nodes where applicable.

(d) A broad description of relevant social, demographic and environmental issues that affect transport.

(2) A statement of how the transport strategy will facilitate the achievement of the approved spatial development plan and economic development in the province, the integration of social, economic and human settlement development strategies as well as other relevant development initiatives or strategies.

(3) An indication of the strategic transport network of roads and railways and provincial public transport networks in relation to land use development and the built environment.

(4) A summary of strategies promoting land use and transport integration, in keeping with national policies.

Chapter 6: Public transport strategy

(7) This chapter must at least include the following:

(a) A description of strategic and high priority focus areas for public transport of provincial significance;

(b) A summary of initiatives planned or taken by the province to promote public transport over private transport;

(c) An identification of deficiencies in the public transport system and proposed or actual provincial measures to address them;

(d) A list of planned initiatives or initiatives undertaken by the province to improve the transportation of persons with disabilities and other special categories of passengers;

(e) A list of planned provincial initiatives or initiatives undertaken with regard to-

(i) Modal integration strategies;

(ii) The rationalisation of subsidised public transport;

(iii) The establishment of Integrated Transport Networks;

(v) The status of dispensing and dealing with operating licences in the province;

(vi) Passenger rail services in the province;

(vii) Public transport security;

(viii) Corridor development strategies;

(xi) The status of financial and economic support to public transport where the management of contracts concluded under the Transition Act has not yet been assigned to municipalities;

(x) The use of adapted light delivery vehicles in public transport in the province, and

(ix) A rural transport strategy;

- (f) Details of agreements with other provinces regarding interprovincial transport, if any; and
- (g) A summary of public transport strategies of provincial significance taken from the municipal Integrated Transport Plans, focusing mainly on strategies, actions and projects.

Chapter 7: Non-motorised and environmentally sustainable transport

- (8) This chapter must include at least the following:

(a) An indication of how non-motorised transport is provided for in the general road plan of the province, indicating–

(i) The integration of Non Motorized Transport planning with land transport and land use planning;

(ii) The improvement and expansion of pedestrian sidewalks and dedicated public space to interlink public transport stations, ranks and other facilities in city areas along provincial roads;

(iii) The provision of dedicated Non Motorised Transport facilities and infrastructure along provincial roads (e.g. infrastructure for wheelchairs, pedestrian walkways, foot bridges, overhead bridges and interchanges); and

(iv) The promotion of the Shova Kalula National Bicycles, Walking and Animal Drawn Transportations strategies.

(b) A detailed strategy to promote and encourage the use of non-motorised transport in rural or in urban areas if so requested by the relevant planning authority, that must include–

(i) A Non Motorised Transport policy;

(ii) A scholar transport policy;

(iii) A cycling masterplan;

(iv) A walking masterplan; and

(v) An animal-drawn transportation plan if such transportation has significance in the province.

(c) An indication of measures to minimize the negative impact of transport on the environment, including, but not limited to, measures to limit fuel usage and

decrease carbon footprints in line with national and international commitments to decrease greenhouse gas emissions.

Chapter 8: Transport infrastructure strategy

- (9) This chapter must at least include the following:
- (a) A list of major planned provincial infrastructure and facility development initiatives, and transport priorities and projects regarding infrastructure, including roads, railway lines and major intermodal facilities.
 - (b) A summary of strategies of planning authorities and major initiatives of provincial significance regarding infrastructure, highlighting those taken from Integrated Transport plans where applicable.

Chapter 9: Transportation management strategy, including dangerous goods

- (10) This chapter must deal with transport management aspects, and must including the following–
- (a) A freight transport strategy;
 - (b) Routes for the movement of dangerous goods and safety measures relating to such goods;
 - (c) Intelligent transport systems measures as applied on roads of provincial significance;
 - (d) Measures for dealing with accidents and emergencies (incident management); and
 - (e) A travel demand management strategy relevant to the provincial transport system.

Chapter 10: Tourism transport

- (11) This chapter must contain a comprehensive strategy dealing with the transportation needs of tourists, as well as policies and standards for tourist transport services in the province.

Chapter 11: Funding strategy and implementation programme

- (12) All actions identified in the different transport strategies must be subject to a process of prioritisation and allocation of funds. This chapter must at least include–
- (a) A summary of prioritized provincial transport planning and implementation projects and the budgets for each.
 - (b) A summary of prioritized transport planning and implementation projects taken from integrated transport plans and the budgets for each, listing only projects of provincial significance or to which the province contributes financially.
 - (c) A financial programme showing expected sources of revenue and estimates of expenditure arising out of the preparation, implementation and operation of the different transport strategies over the five year period in which the plan is to be implemented. Budgets must be aligned with general government budget cycles such as Medium Term Expenditure Framework cycles and include funding sources and expenditure relating to–
 - (i) The preparation of the Provincial Land Transport Framework (PLTF) and integrated transport plans in the province;
 - (ii) Subsidies for road-based public transport that falls within the responsibility of the province and a summary of those shown in integrated transport plans;
 - (iii) Monitoring of public transport contracts;
 - (iv) Provincial roads and other infrastructure;
 - (v) Assistance to special categories of passengers;
 - (vi) Provision and maintenance of infrastructure and facilities; and
 - (vii) Institutional arrangements.
 - (d) Perceived gaps or shortfalls in those funding sources.
 - (e) A description and programme of provincially funded projects and all short and medium term strategies and action plans to implement the Provincial Land Transport Framework.

- (f) A summary in tabular form indicating target dates, milestones and development periods.
- (g) A summary of financial programmes in tabular form as indicated in the Schedule of these Regulations.

Chapter 12: Monitoring

- (13) This chapter must at least include the following:
 - (a) A list of key performance indicators (KPIs) in line with national KPIs as outlined in the NLTSF;
 - (b) A report on how and to what extent the KPIs set for the province in the National Land Transport Strategic Framework have been met; and
 - (c) A report on how and to what extent the KPIs set in the previous year's Provincial Land Transport Frameworks have been met.

Chapter 13: Co-ordination structures and measures, liaison and conflict resolution

- (14) This chapter must contain at least the following:
 - (a) Measures, where appropriate, to ensure proper co-ordination between adjacent municipalities regarding land transport;
 - (b) Measures to assist municipalities that lack capacity to carry out their planning responsibilities;
 - (c) Measures to ensure implementation of the provincial integrated development strategy, with due attention to rural areas, with the focus on less capacitated municipalities or those that do not fulfil their responsibilities in respect to transport delivery, either by direct implementation or assistance under paragraph (b) above;
 - (d) Details of existing or contemplated liaison mechanisms and structures between authorities themselves and between authorities and the private sector with special reference to the establishment by planning authorities of

Intermodal Planning Committees as contemplated in Section 15, and Land Transport Advisory Boards as contemplated in Section 16, of the Act;

(e) Liaison structures between the three spheres of government, including the Public Transport Integration Committee established in terms of the Division of Revenue Acts, 2009 and 2010, and a description of the activities of those structures and shortcomings or challenges; and

(f) A summary of regulations made by the MEC in terms of section 10 of the Act.

6. Repeal of Regulations

Regulations published in terms of National Land Transport Transition Act, 2000 (Act No. 22 of 2000) in Government Gazette No. 23685 on the 24 July 2002 are repealed.

7. Short Title and Commencement

These Regulations shall be called minimum requirements for the preparation of Provincial Land Transport Framework Regulations, 2011 and shall come into operation on the date of publication in the Government Gazette.

BOARD NOTICE 63 OF 2011**HEALTH PROFESSIONS COUNCIL OF SOUTH AFRICA****HEALTH PROFESSIONS ACT 56 OF 1974****RULES RELATING TO THE REGISTRATION BY ORAL HYGIENISTS OF ADDITIONAL QUALIFICATIONS**

The Health Professions Council of South Africa has, in terms of section 61A of the Health Professions Act, 1974 (Act No. 56 of 1974), made the rules in the schedule.

SCHEDULE**Definitions**

1. In these rules **"the Act"** means the Health Professions Act, 1974 (Act No. 56 of 1974) and any word or expression to which a meaning has been assigned in the Act shall have that meaning, and unless the context otherwise indicates:-

"board" means the Professional Board for Dental Therapy and Oral Hygiene established in terms of section 15 of the Act;

"Oral Hygienist" means a person registered as such in terms of the Act.

2. The following qualifications held by Oral Hygienists shall, in terms of section 35 of the Act, be registrable as additional qualifications:

BOARD NOTICE 64 OF 2011

Accounting Standards Board

EXPOSURE DRAFT OF PROPOSED REVISIONS TO THE PREFACE TO THE STANDARDS OF GRAP AND THE PREFACE TO THE INTERPRETATIONS OF THE STANDARDS OF GRAP (ED 84)

Issued: 31 March 2011

The Accounting Standards Board (the Board), at its meeting held on 25 February 2011, approved for release an Invitation to Comment on an Exposure Draft of Revisions to the *Preface to the Standards of GRAP* and the *Preface to the Interpretations of the Standards of GRAP* (ED 84).

This exposure draft will present challenges for some preparers, auditors and users of general purpose financial statements. Accordingly, the Board is grateful for the time respondents may devote to considering the issues in the exposure draft. The responses will form a valuable input to the process of standard setting, and those who might be affected by, or are interested in, the exposure drafts issued by the Board are encouraged to continue to provide a response to these exposure drafts.

Comment on this exposure draft is invited by **25 June 2011**.

Copies of the exposure draft can be downloaded from the Board's website – <http://www.asb.co.za>, or can be obtained by contacting the Board's offices on:

- Tel: 011 697 0660, or
- Fax: 011 697 0666

Comment can be emailed to info@asb.co.za or can be submitted in writing to:

Accounting Standards Board
PO Box 74129
Lynwood Ridge

On request, respondents can also present their comment to the project group verbally by contacting the Board's offices.

We are looking forward to receiving your comment.

BOARD NOTICE 65 OF 2011**CONSTRUCTION INDUSTRY DEVELOPMENT BOARD****THE CONSTRUCTION INDUSTRY DEVELOPMENT BOARD ACT, 38 OF 2000**

The Construction Industry Development Board has in terms of Regulation 29 of the Construction Industry Development Regulations, 2004, (as amended), Regulations No 692 of 9 June 2004 (as amended) conducted hearings against the following contractors and is publishing the findings and sanctions imposed by the Investigations Committee:

Ronnie Khoza

Chief Executive Officer: Construction Industry Development Board

Ref No.	Title	Aim of Credit	Credit Criteria Summary	No. of Points Available	No. of Points Achieved	Points to be Confirmed	Comments
IEQ-1	Ventilation Rates	To encourage and recognise designs that provide ample amounts of outside air to counteract build-up of indoor pollutants.	Three points are available as follows: Naturally ventilated spaces Three points are awarded where it is demonstrated that 95% of the UA is naturally ventilated in accordance with SANS 10400-O (minimum 5% openable area). Mechanically ventilated spaces Up to three points are awarded where for 95% of the UA, outside air is provided at rates greater than the requirements of SANS 10400-O (5 litres/second/person for offices), as follows: - One point for 50% improvement; - Two points for 100% improvement; or - Three points for 150% improvement. Mixed-mode ventilated spaces Both modes of operation must individually satisfy the relevant mechanical and natural ventilation criteria. The points awarded will be limited to the maximum points awarded under the mechanical ventilation criteria.	3			
IEQ-2	Air Change Effectiveness	To encourage and recognise systems that effectively deliver optimum air quality to any occupant throughout the occupied area.	Two points are awarded where the Air Change Effectiveness (ACE) for at least 95% of the UA meets the following criteria: Naturally ventilated spaces A distribution and laminar flow pattern for at least 95% of each space in the direction of air flow for not less than 95% of standard hours of occupancy is demonstrated. Mechanically ventilated spaces The ventilation systems are designed to achieve an Air Change Effectiveness (ACE) of >0.95 for at least 95% of the UA when measured in accordance with ASHRAE 129-1997: <i>Measuring Air Change Effectiveness</i> ; and ACE is measured in the breathing zone (nominally 1m from finished floor level). Mixed-mode ventilated spaces Both the above requirements for Naturally Ventilated and Mechanically Air-conditioned Spaces are achieved DEEMED TO SATISFY CRITERIA for displacement ventilation The points can be achieved if the proposed system is a displacement ventilation system, where supply air is distributed at low level, provided the following are clearly demonstrated: • The system covers at least 95% of the UA; • Low level supply outlets are evenly distributed (outlets can be in the floor or at low level < 1,000mm above floor level); • At any given point on the floor there must be an outlet diffuser within 10m; AND • Extract air must be at high level with an exhaust grille every 50m² (maximum).	2

IEQ-3	Carbon Dioxide Monitoring and Control	To encourage and recognise the provision of response monitoring of Carbon Dioxide levels to ensure delivery of optimum quantities of outside air.	One point is awarded where: Naturally ventilated spaces 95% of the UA is naturally ventilated in accordance with SANS 10400-O; AND Ventilation rates are directly controlled by occupants; AND Carbon dioxide monitoring is provided for every 100m² of area of occupied floor plan to give an audible/visual alarm if CO₂ levels rise above 1,000ppm. Mechanically ventilated spaces A carbon dioxide (CO₂) monitoring and control system with a minimum of one CO₂ sensor at all return points on each floor, is provided to facilitate continuous monitoring and adjustment of outside air ventilation rates to each level, to ensure independent control of ventilation rates to achieve outside air requirements; OR HVAC systems provide 100% outside air with no recirculated component. Mixed-mode ventilated spaces Both modes of operation must satisfy the relevant mechanical and natural ventilation criteria.	1			
IEQ-4	Daylight	To encourage and recognise designs that provide good levels of daylight for building users.	Up to three points are awarded in this credit; there are two alternative credit criteria: The percentage of the UA that has a measured Daylight Factor (DF) of not less than 2.0%, at desk-height level (720mm AFFL) under a uniform design sky; OR The percentage of the UA that has a Daylight Illuminance (DI) of at least 250 Lux. In both cases are the points awarded based on percentage of UA as follows: - One point is awarded for 30% of UA; - Two points are awarded for 60% of UA; or - Three points are awarded for 90% of UA.	3			
IEQ-5	Daylight Glare Control	To encourage and recognise buildings that are designed to reduce the discomfort of glare from natural light.	One point is awarded where it is demonstrated that glare from daylight is reduced through any combination of the following: Where, for each typical glazing configuration or atrium, fixed shading devices shade the working plane, 1.5m in from the centre of the glazing, from direct sun at desk height (720mm AFFL) for 80% of standard working hours; OR Where blinds or screens are fitted on all glazing and atria as a base building provision and meet the following criteria: - Eliminate all direct sun penetration; AND - Are controlled with an automatic monitoring system; AND - Are equipped with a manual override function accessible by occupants; AND - Have a visual light transmittance (VLT) of <10%.	1			
IEQ-6	High Frequency Ballasts	To encourage and recognise the increase in workplace amenity by avoiding low frequency flicker that may be associated with fluorescent lighting.	One point is awarded where: High frequency ballasts are installed in fluorescent luminaires over a minimum of 95% of the office UA.	1			
IEQ-7	Electric Lighting Levels	To encourage and recognise base building provided office lighting that is not over designed.	One point is awarded where: The office lighting design achieves an average maintained illuminance level of no more than 400 Lux for 95% of the office UA as calculated at the working plane (720mm AFFL).	1

IEQ-8	External Views	To encourage and recognise designs that provide occupants with a visual connection to the external environment.	Up to two points are awarded where: A significant portion of the office UA has a direct line of sight to the outdoors or into an adequately sized and day-lit atrium: - One point for 60% of the UA; or - Two points for 80% of the UA.	2			
IEQ-9	Thermal Comfort	To encourage and recognise buildings that achieve a high level of thermal comfort.	Up to two points are awarded where a high level of thermal comfort is achieved for all of the office UA through any combination of the following: Naturally ventilated spaces Where naturally ventilated buildings achieve credit criteria for IEQ-10 'Individual Comfort Control', up to two points are awarded if the internal temperatures are within the ASHRAE Standard 55-2004 Acceptability Limits for at least 98% of occupied hours during the year: - One point for internal temperatures within the 80% Acceptability Limits; OR - Two points for internal temperatures within the 90% Acceptability Limits. Mechanically ventilated spaces Up to two points are awarded if the Predicted Mean Vote (PMV) levels, calculated in accordance with ISO7730 using standard clothing and metabolic rate values, are within the following limits for at least 98% of occupied hours during the year: - One point for PMV levels between -1 and +1, inclusive; OR - Two points for PMV levels between -0.5 and +0.5, inclusive. Mixed-mode ventilated spaces For mixed-mode buildings, the systems should be modelled as they are expected to operate and the same criteria used as for a mechanically ventilated space. DEEMED TO SATISFY CRITERIA for air conditioned spaces - refer Technical Manual.	2			
IEQ-10	Individual Comfort Control	To encourage and recognise designs that facilitate individual control of thermal comfort.	Up to two points are awarded where it is demonstrated that user controls are provided for the base building heating, cooling and ventilation systems (where present) as follows: Naturally ventilated spaces User controls are defined as an individually controllable ventilation opening of not less than 0.75m ² , together with individual temperature control or thermostatic control to the local heat source (if a heating system is provided). - One point where user controls are provided every 30m ² of the UA; OR - Two points where user controls are provided every 15m ² of the UA. Mechanically ventilated spaces The base building HVAC system allows for tenant installation of user control of air supply rate, air temperature or mean radiant temperature: - One point where user controls are provided every 30m ² of the UA; or - Two points where user controls are provided every 15m ² of the UA. Mixed-mode ventilated spaces For mixed-mode buildings, the above mechanical and natural ventilation user control criteria must be achieved.	2			

Ref No.	Title	Aim of Credit	Credit Criteria Summary	No. of Points Available	No. of Points Achieved	Points to be Confirmed	Comments
IEQ-11	Hazardous Materials	To encourage and recognise actions taken to reduce health risks to occupants from the presence of hazardous materials.	One point is awarded where: A comprehensive hazardous material survey has been carried out on the project site, as defined by the South African Occupational Health and Safety Act (OH&S) and/or other relevant legislation; AND Whenever asbestos, lead or polychlorinated biphenyls (PCBs) were found, they have been removed in accordance with the standards listed under Table IEQ-11.1. For new developments or developments in which none of the above hazardous materials were found in the survey, this credit is 'Not Applicable' and is excluded from the points available, used to calculate the Indoor Environment Quality category score. Type 'na' in the No. of Points Achieved column.	1			
IEQ-12	Internal Noise Levels	To encourage and recognise buildings that are designed to maintain internal noise levels at an appropriate level.	Up to two points are awarded where 95% of the project's UA does not exceed the maximum internal noise levels recommended in SANS 10103:2004 as follows: Building Services Design - One point is awarded where, within the entire base building general office space, noise from the building services does not exceed: 40dBAeq for general office space 45dBAeq for open plan office space (>50m²) Overall Building - One point is awarded where within the base building office space, the ambient sound level does not exceed: 40dBAeq for general office space 45dBAeq for open plan office space (>50m²)	2			
IEQ-13	Volatile Organic Compounds	To encourage and recognise specification of interior finishes that minimise the contribution and levels of Volatile Organic Compounds in buildings.	Up to three points are awarded where the various finishes used in the project meet the benchmarks as follows: Paints One point where at least 95% of all painted surfaces meet the TVOC Content Limits outlined in Table IEQ-13.1 or where no paint is used in the project.	1			
			Adhesives and Sealants One point where 95% of all adhesives and sealants meet the TVOC Content Limits outlined in Table IEQ-13.2 or where no adhesives or sealants are used.	1			
			Carpets and Flooring One point where all carpets meet the TVOC emissions limits outlined in Table IEQ-13.3; OR Where no carpet has been installed in the project and projects wish to use low-VOC flooring, one point is awarded where all the flooring installed in the project meet the emissions limits outlined in Table IEQ-13.3. Where no carpet has been installed in the project, the carpet point is 'Not Applicable' and is excluded from the points available, used to calculate the Indoor Environment Quality category score. Type 'na' in the No. of Points Achieved column.	1			

Ref No.	Title	Aim of Credit	Credit Criteria Summary	No. of Points Available	No. of Points Achieved	Points to be Confirmed	Comments
IEQ-14	Formaldehyde Minimisation	To encourage and recognise the specification of products with low formaldehyde emission levels.	One point is awarded where all composite wood products (including exposed and concealed applications) either: Have low formaldehyde emissions; OR Contain no formaldehyde. If no composite wood products are used within the project, this credit is 'Not Applicable' and is excluded from the points available, used to calculate the Indoor Environment Quality category score. Type 'na' in the No. of Points Achieved column.	1			
IEQ-15	Mould Prevention	To encourage and recognise the design of services that eliminate the risk of mould growth and its associated detrimental impact on occupant health.	One point is awarded where it is demonstrated that: The mechanically air-conditioned ventilation system maintains humidity levels at no more than 60% relative humidity in the space and no more than 80% relative humidity in the supply ductwork; OR The building is fully naturally ventilated.	1			
IEQ-16	Tenant Exhaust Riser	To encourage and recognise the design of buildings with a general exhaust riser that can be used by tenants to remove indoor pollutants from printing and photocopy areas.	One point is awarded where the building either: Includes a dedicated tenant's exhaust riser with the following characteristics: - Provides no less than 0.2 L/s/m ² for 100% of the UA; AND - Has a capacity of 0.35 L/s/ m ² for 100% of UA on any individual floor; AND - The exhaust system is not recycled to other enclosures of different use. OR Provides an exhaust louver for tenant extract in each tenanted area of a size equivalent to 0.175m ² /m ² of UA and with an exhaust point at least 7m away from any openable window or air intake.	1			
IEQ-17	Environmental Tobacco Smoke (ETS) Avoidance	To encourage and recognize the air quality benefits to occupants by prohibiting smoking inside the building.	One point is awarded where: - Smoking is not allowed inside the building; AND - No provision is made for smoking areas inside the building (e.g. separately exhausted smoking rooms); AND - There is clear signage indicating that smoking indoors is prohibited and identifying the location of outside smoking areas if provided.	1

Project Teams are to refer to the Green Star SA Office v1 Technical Manual for explicit credit criteria and documentation requirements. The Green Star Technical Clarifications (TC) and Credit Interpretation Request (CIR) rulings provide an essential source of information to all projects undertaking Green Star assessment. They are available on the GBCSA website <http://www.gbcsa.org.za>. Technical Clarifications often represent the GBCSA answers to technical queries and complement Green Star SA Technical Manuals. They do not amend but clarify Credit Criteria or Compliance Requirements. They are an extension of the Technical Manual; it is the responsibility of the project teams to stay up-to-date with this section of the GBCSA website. The CIR rulings offer alternative compliance options whenever those have been deemed equivalent in meeting the Aim of Credit.
