These regulations shall be called the Regulations prescribing the atmospheric emission licence processing fee calculator , 2012, and shall come into operation on a date of publication in the *Gazette*.

ANNEXURE-A

FORMAT OF THE ATMOSPHERIC EMISSION LICENCE PROCESSING FEE CALCULATOR

The atmospheric emission licence processing fee calculator is in electronic Microsoft Excel and consists of the following 4 sheets:

1. APPLICATION DETAILS

This sheet contains the details of the applicant.

2. SCORING CRITERIA AND GUIDELINES

Complexity of Application

The complexity of the application criteria refers to the complexity of the industrial process or listed activity, the emissions occurring and the abatement options for these emissions. The complexity of the polluting process or listed activity is a key determinant in the level of effort and resources required in the licensing authority and are also an important determinant in the complexity and costs of compliance monitoring.

SCORING CRITERIA	SCORING GUIDELINES	Weight
Routine Application	One unit, one process or listed activity	10%
Straight forward	Two units, one process or listed activity	20%
Medium complexity application	Two units, two processes or listed activities	50%
Complex application	More than two units, more than two processes or listed activities	80%
Extremely Complex application	Multiple units, multiple processes or listed activities	100%

Nature of Applicant: SMME Status

The economic size of the enterprise is used here as the key indicator as the small, medium, and micro enterprise (SMME) sector is an important component of the government's economic policy. The criterion takes into account the total gross asset value (fixed property excluded) of the enterprise. This criterion is aligned with the Department of Trade and Industry policy and legislation on SMMEs, namely National Small Business Act, 1996 (Act No. 102 of 1996).

SCORING CRITERIA	SCORING GUIDELINES	Weight
Micro Enterprise	Total gross asset value(fixed property excluded) less than R100,000	10%
Very Small Enterprise	Totals gross asset value (fixed property excluded) less than R1. 5 million	20%
Small Enterprise	Totals gross asset value (fixed property excluded) is less than R3. 75 million	30%
Medium Enterprise	Totals gross asset value (fixed property excluded) is less than R15 million	80%
Large Enterprise	Totals gross asset value (fixed property excluded) is more than R15 million	100%

Type of Application

This criterion comes from Chapter 5 of the National Environmental Management: Air Quality Act, 2004 (Act No. 39 of 2004)(AQA). Sections 37(2)(a), 44(3)(a), 45(1) and 47(3)(a) of the AQA requires the payment of the processing fee before the applicant is issued with the atmospheric emission licence. These are new, transfer, review and renewal applications respectively. The approach is that new application requiring an Environmental Impact Assessment (EIA) to be undertaken before a licence is issued, will take demand more time from the licensing authority than an application for a transfer. For example, the former will require attending meetings with competent authorities for EIAs, reviewing and commenting on air quality specialist studies and reviewing the EIA environmental authorisation. This criterion considers such issues.

SCORING CRITERIA	SCORING GUIDELINES	Weight
Application for a transfer	Application for the transfer of the licence in terms of section 44(3)(a) of the AQA	10%
Application for a review	Application for the review of the licence in terms of section 45(1) of the AQA	25%
Application for a renewal	Application for the renewal of the licence in terms of section 47(3)(a) of the AQA	50%
New application without a full EIA (Basic Assessment)	New application for a licence with basic assessment in terms of section 37(2)(a) of the AQA	80%
New application with EIA (Full Assessment)	New application for a licence with a full EIA in terms of section 37(2)(a) of the AQA	100%

Specialist Expertise

This criterion is based on the time that will be spent by the specialists when processing the application.

SCORING CRITERIA	SCORING GUIDELINES	Weight
No specialist expertise required	Application is straight forward and deals with well knows processes	10%

Some basic specialist advise required	The application needs no more than 12 hours of specialist time	20%
Relatively uncomplicated and require some input from expert	The application needs up to 40 hours of specialist time	50%
Relatively complicated and requires some input from specialist	The application needs up to 60 hours of specialist time	75%
Very complicated and requires significant input from expert	The application needs more than 60 hours of specialist time	100%

3. PROCESSING FEE BANDS

This process is largely automatic; once the application has been scored the calculator will automatically allocate the application a final score and at the same time allocate it a processing fee band. The following processing fee bands:

Applicant Bands	Bands Sizes	Processing Fee Bands
Band 1	0 – 13	R20 000-00
Band 2	13– 21	R50 000-00
Band 3	21 – 40	R80 000-00
Band 4	40 – 60	R110 000-00
Band 5	60 – 80	R300 000-00
Band 6	80-100	R400 000-00

The final band score of an application is determined by the combination of the above criteria, each with their own weighting. The following are the different criteria, each with their own weighting:

Scoring Criteria	Scores	Weighting	Final Score

NOTICE 173 OF 2013**INTERNATIONAL TRADE ADMINISTRATION COMMISSION OF SOUTH AFRICA****FINAL DECISION IN THE INVESTIGATION INTO THE ALLEGED DUMPING OF FROZEN MEAT OF FOWLS OF THE SPECIES GALLUS DOMESTICUS, WHOLE BIRD AND BONELESS CUTS ORIGINATING IN OR IMPORTED FROM BRAZIL:**

The International Trade Administration Commission of South Africa (the Commission) initiated an investigation into the alleged dumping of frozen meat of fowls of the species GALLUS DOMESTICUS, whole bird and boneless cuts, originating in or imported from Brazil through Notice No. 404 of *Government Gazette* No. 34377 published on 24 June 2011.

The application was lodged by the South African Poultry Association (SAPA), on behalf of major producers of the subject products in SACU, which claimed that the allegedly dumped imports were causing it material injury.

The investigation was initiated after the Commission considered that there was *prima facie* evidence to indicate that the subject products were being imported at dumped prices, causing material injury to the SACU industry.

On initiation of the investigation, known foreign producers of the subject product in Brazil were sent questionnaires to complete. Importers of the subject product were also sent questionnaires to complete. Responses were received from the exporters and importers.

After considering all information submitted, the Commission made a preliminary determination that dumping of the subject products originating in or imported from Brazil was taking place, the SACU industry was suffering material injury and

that the material injury suffered by the SACU industry was causally linked to dumped imports of the subject products from Brazil.

Comments received from interested parties on the preliminary determination and essential facts letters, within the specified time periods, were taken into consideration by the Commission prior to making a final determination.

Based on the information considered, the Commission made a final determination that dumping of the subject products originating in or imported from Brazil was taking place, the SACU industry was suffering material injury and that the material injury suffered by the SACU industry was causally linked to dumped imports of the subject products from Brazil. The Commission, therefore, decided to recommend to the Minister of Trade and Industry that definitive anti-dumping duties against imports of the subject products, imported from Brazil, be imposed.

The Minister of Trade and Industry rejected the Commission's recommendation that definitive anti-dumping duties be imposed. The Minister considered:

- the matter and the polycentric issues involved;
- that there are increased imports of the subject products from several countries;
- that the domestic industry requires a comprehensive response to deal with the intensified competition; and that
- that as part of the comprehensive strategy, an investigation into the appropriate level of the most favoured nation (MFN) applied rate of duty on the subject products would be more appropriate to address the difficulties confronting the domestic industry in respect of imports from these countries, including Brazil.

NOTICE 174 OF 2013**INTERNATIONAL TRADE ADMINISTRATION COMMISSION****TERMINATION OF THE INVESTIGATION FOR REMEDIAL ACTION IN THE FORM OF A
SAFEGUARD AGAINST THE INCREASED IMPORTS OF FROZEN POTATO CHIPS**

On 23 November 2012, the International Trade Administration Commission of South Africa (the Commission) formally initiated an investigation for remedial action against the increased imports of frozen potato chips. Notice of the initiation of the investigation was published in Notice No. 955 of *Government Gazette* No. 35883 dated 23 November 2012.

Due to an error in the chain of notification to the WTO Safeguard Committee, the Commission decided to terminate the investigation.

Should you have any queries, please do not hesitate to contact the investigating officers Mr. Elias Tema at telephone number +27 12 394 3640 or Mr. Busman Makakola at +27 12 394 3380 or at fax number +27 12 394 0518.

NOTICE 175 OF 2013**INTERNATIONAL TRADE ADMINISTRATION COMMISSION****NOTICE OF INITIATION OF THE INVESTIGATION FOR REMEDIAL ACTION IN THE FORM OF A SAFEGUARD AGAINST THE INCREASED IMPORTS OF FROZEN POTATO CHIPS**

The International Trade Administration Commission of South Africa (the Commission) decided to proceed with an investigation for remedial action against the increased imports of frozen potato chips.

Based on the information submitted, the Commission decided that *prima facie* information was submitted to indicate that a recent, sudden, sharp and significant surge in imports has taken place and is causing serious injury to the Southern African Customs Union (SACU) industry.

THE APPLICANT

The application was lodged by McCain (SA) (Pty) Ltd, a major producer of frozen potato chips in the SACU supported by Nature's Choice Products (Pty) Ltd and Lamberts Bay Foods. A non-confidential version of the application is available for inspection at the Commission's offices.

DESCRIPTION OF THE SUBJECT PRODUCT UNDER INVESTIGATION

The subject product is described as frozen potato chips (scientific name) or commonly known (in South Africa) as slap chips or french fries/pommes frites/chips (trade name), classifiable under tariff subheading 2004.10.90.

DESCRIPTION OF THE LIKE OR DIRECTLY COMPETITIVE SACU PRODUCT

The SACU product is described as frozen potato chips (scientific name) or commonly known (in South Africa) as slap chips or french fries/pommes frites/chips (trade name).

ALLEGATION OF SERIOUS INJURY AND CAUSAL LINK

The period of investigation to determine the recent, sudden, sharp and significant increase in imports and for the evaluation of data for purposes of the determination of serious injury is 01 July 2008 to 30 June 2012.

The Applicant alleges and submitted *prima facie* information indicating that it is experiencing serious injury in the form of a decline in sales volume and market share. It further alleges that it is experiencing losses in light of the recent, sudden, sharp and significant surge in imports.

The Applicant further alleges that there is an oversupply of frozen potato chips in the world market, that there is a recent, sudden, sharp and significant surge in imports of frozen potato chips and that they are exported to the SACU at prices which will have a further suppressing effect on the Applicant's prices.

It further alleges that the significant increase in the market share of the imported frozen potato chips in the SACU has been at the expense of a corresponding decrease in the SACU industry's market's share.

On this basis the Commission found that *prima facie* information was submitted to indicate that the SACU industry was suffering serious injury which could be causally linked to the recent, sudden, sharp and significant surge in imported frozen potato chips.

UNFORESEEN DEVELOPMENTS

The Applicant indicated that the expansion of capacity in the EU, the financial crisis which resulted in the oversupply of frozen potato chips in the world market and an aggressive export strategy by the EU producers of frozen chips augmented by the absence of sufficient duty protection as a result of the TDCA culminated in circumstances that occurred after the negotiation of the relevant tariff concessions “could not have been foreseen at the time the concessions were negotiated” in accordance with Article XIX of the GATT.

PROCEDURAL FRAMEWORK

This investigation will be conducted in accordance with the International Trade Administration Act, 2002 (ITA Act), the World Trade Organization Agreement on Safeguards (the Safeguard Agreement) and the International Trade Administration Commission Safeguard Regulations (SGR).

CONFIDENTIAL INFORMATION

Please note that if any information is considered to be confidential, a non-confidential version of the information must be submitted for the public file, simultaneously with the confidential version. In submitting a non-confidential version, the following rules are strictly applicable and parties must indicate:

- where confidential information has been omitted and the nature of such information;
- reasons for such confidentiality;
- a summary of the confidential information which permits a reasonable understanding of the substance of the confidential information; and
- in exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be placed on the public file and be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

Subsection 33(1) of the ITA Act provides that any person claiming confidentiality of information should identify whether such information is *confidential by nature* or is *otherwise confidential* and any such claims must be supported by a written statement, in each case, setting out how the information satisfies the requirements of the claim to confidentiality. In the alternative, a sworn statement should be made, setting out reasons why it is impossible to comply with these requirements.
