GENERAL NOTICES ALGEMENE KENNISGEWINGS

NOTICE 1042 OF 2013

NOMINATION OF CANDIDATES FOR APPOINTMENT TO THE NATIONAL AGRICULTURAL MARKETING COUNCIL (NAMC)

Two council members for the National Agricultural Marketing Council (NAMC) have tendered their resignations from the council. Of the above-mentioned members, one represented Category B (agricultural product-related trade and industry) and the other represented Category D (consumer issues relating to agricultural products) including issues relating to previously disadvantaged communities), in terms of section 4(2) of the Marketing of Agricultural Products Act/MAP Act (Act No. 47 of 1996). The MAP Act makes provision for the appointment of successor members when members resign from the council.

The Minister of Agriculture, Forestry and Fisheries hereby invites persons and interested parties to submit names of nominees to be considered for appointment as members of the National Agricultural Marketing Council. To be considered for appointment, nominees must have practical knowledge of and experience in agricultural product-related trade and industry and consumer issues relating to agricultural products, including issues relating to previously disadvantaged communities. Each nomination must specify the category for which such a nomination is made and be accompanied by a detailed curriculum vitae and written acceptance of the nomination by the nominee and a copy of his/her id document. Failure to attach required documents will result in immediate disqualification of the nomination.

This is a re-advertisement of the above-mentioned vacancies.

A person may not be nominated or appointed as council member, if such person is disqualified to serve as council member in terms of section 4(13) of the Act. Suitable candidates will be subjected to a personnel suitability check (criminal record check, citizenship verification, financial asset/record check, qualification/study verification and previous employment verification).

Nominations must be submitted to the following addressed by not later than 25 October 2013:

Director: Director-General Office Support
Department of Agriculture, Forestry and Fisheries

1. INTRODUCTION

These guidelines represent a 3rd generation of development since the promulgation of National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) and are intended to provide guidance to national and provincial departments on the preparation and implementation of environmental implementation and management plans required in terms of the procedures for co-operative governance stipulated in chapter 3 of NEMA as amended. They provide minimum requirements as required by the NEMA, including other matters that should be considered in preparation of the environmental implementation and management plans.

Therefore, it is envisaged that all relevant provincial and national departments will comply with these guidelines when implementing chapter 3 of NEMA. It should also be noted that these guidelines are not exhaustive, but are intended to be definitive and mandatory with regard to the minimum content required for the environmental implementation and management plans as well as on the content of the related annual reports.

2. THE PURPOSE OF THE GUIDELINES

The primary purpose of these guidelines is to provide technical guidance to provincial and national departments on how to develop and/or report on the implementation of environmental implementation and management plans as well as on the combined environmental implementation and management plans required in terms of chapter 3 of NEMA. Furthermore, these guidelines are developed to encourage and promote consistency in preparation of and reporting on the environmental implementation and management plans by the provincial and national departments listed in schedules 1 or 2 or both schedules of NEMA.

3. PURPOSE AND SCOPE OF EIPs AND EMPs

The **Environmental Implementation Plan** (EIP) describes policies, plans and programmes of a department that performs functions that may impact on the environment and how this department's plans will comply with the NEMA principles and national environmental norms and standards. The **Environmental Management Plan** (EMP) on the other hand, describes functions of a department involving the management of the environment and policies/laws, as well as efforts taken by the department to ensure compliance by other departments, with such environmental policies and laws.

The purpose of environmental implementation and management plans as provided in section 12 of NEMA, is to—

- (a) co-ordinate and harmonise the environmental policies, plans, programmes and decisions of the various national departments that exercise functions that may affect the environment or are entrusted with powers and duties aimed at the achievement, promotion, and protection of a sustainable environment, and of provincial and local spheres of government, in order to:
 - (i) minimise the duplication of procedures and functions; and
 - (ii) promote consistency in the exercise of functions that may affect the environment;
- (b) give effect to the principle of co-operative government in chapter 3 of the Constitution;
- (c) secure the protection of the environment across the country as a whole;
- (d) prevent unreasonable actions by provinces in respect of the environment that are prejudicial to the economic or health interests of other provinces or the country as a whole; and
- (e) enable the Minister to monitor the achievement, promotion, and protection of a sustainable environment.

4. LEGISLATIVE REQUIREMENTS

4.1 Enabling legislative provision for the guidelines

These guidelines are developed in terms of and to serve the purpose of section 11(8) of NEMA that provides that "*the Minister responsible for environmental affairs may issue guidelines to assist provinces and national departments in the preparation of environmental implementation and management plans*".

4.2 Legislative requirements for EIPs and EMPs

Environmental implementation and management plans are required by chapter 3 of NEMA. Section 11(1) of chapter 3 of NEMA provides that every national department listed in Schedule 1 of NEMA as exercising functions which may affect the environment and every province must prepare an **environmental implementation plan** within one year of the promulgation of this Act and at least every five years thereafter. It is important to note that there is a process underway to amend the aforementioned four year cycle to five years and thus hereafter in this document the cycle will be referred to as a five year period.

Section 11(2) of NEMA provides that every national department listed in Schedule 2 as exercising functions involving the management of the environment must prepare an environmental management plan within one year of the promulgation of this Act and at least every five years thereafter.

Section 11(3) of NEMA provides that every national department that is listed in both Schedule 1 and Schedule 2 is required to prepare a consolidated environmental implementation and management plan within one year of the promulgation of this Act and at least every five years thereafter.

4.3 Compliance with and deviation from adopted EIPs and EMPs

In terms of section 16(1)(a) of NEMA, every organ of state must exercise every function it may have, or that has been assigned or delegated to it, by or under any law, and that may **significantly affect the protection** of the environment, substantially in accordance with the environmental implementation plan or the environmental management plan prepared, submitted and adopted by that organ of state in accordance with chapter 3 of the Act, provided that any **substantial deviation** from an environmental management plan or environmental implementation plan must be reported forthwith to the Director-General and the Committee.

4.4 Annual reporting on implementation of adopted EIPs and EMPs

In terms of section 16(1) (b) of NEMA, every organ of state must report annually within four months of the end of the financial year on the implementation of its adopted EIP or EMP to the Director-General and the Committee. The Committee referred to, is understood to be the CEC Sub-committee on environmental implementation and management plans.

4.5 Monitoring of compliance with EIPs and EMPs

In terms of section 16(2) of NEMA, the Director-General of the Department of Environmental Affairs is empowered to monitor compliance with environmental implementation plans and environmental management plans and may—

- (a) take any steps or make any inquiries he or she deems fit in order to determine if environmental implementation plans and environmental management plans are being complied with by organs of state; and
- (b) if, as a result of any steps taken or inquiry made under paragraph (a), he or she is of the opinion that an environmental implementation plan and an environmental management plan is not substantially being complied with, serve a written notice on the organ of state concerned, calling on it to take such specified steps as the Director-General considers necessary to remedy the failure of compliance.

In the event the afore-mentioned intervention by the Director-General did not solve the failure to comply with environmental implementation and management plans, the Act also allows for referral of the matter to conciliation in accordance with Chapter 4 of NEMA.

5. PREPARATION OF ENVIRONMENTAL IMPLEMENTATION AND MANAGEMENT PLANS

The minimum content of environmental implementation and management plans is outlined in section 13(1) and section 11(7) as well as section 14 of NEMA. The content of these sections of the Act are provided in detail later in this document.

5.1 Relevant considerations when preparing environmental implementation and management plans

5.1.1 Environment sector priorities

The environment sector priorities are driven by the long-term development strategies in Chapter 5 of National Development Plan Vision 2030, which should be considered by the Department of Environmental Affairs and provinces when preparing EIPs, namely:

- (a) Sustaining South Africa's ecosystems and using natural resources efficiently;
- (b) Building sustainable communities;
- (c) Responding effectively to climate change mitigation;
- (d) Responding effectively to climate change adaptation;
- (e) Managing a just transition; and
- (f) enhancing governance systems and capacity;

These priorities are addressed through the following six core focus areas:

- (i) Air quality
- (ii) Waste and Chemicals Management
- (iii) Pollution Incident Management
- (iv) Environmental Impact Management
- (v) Conservation and Sustainable Use of biodiversity
- (vi) Marine and Coastal Management.
- (vii) Green economy and sustainable development

5.1.2 Other sector departments' priorities

The sector Departments priorities are driven by the long-term development strategies in Chapter 5 of National Development Plan Vision 2030 and other key documents of sector departments that are listed in schedules 1 and/or 2 must also be considered when EIPs and EMPS are developed by these sector

departments. This will ensure alignment of the EIPs and EMPs submitted by these departments with their priorities.

5.1.3 NEMA principles

The two principles set out in chapter 1 of NEMA are that:

- a) Environmental management must place people and their needs at the forefront of its concern, and serve their physical, psychological, developmental, cultural and social interests equitably; and
- b) Development must be socially, environmentally and economically sustainable.

These principles apply throughout the Republic of South Africa to the actions of all organs of state that may significantly affect the environment and—

- shall apply alongside all other appropriate and relevant considerations, including the State's responsibility to respect, protect, promote and fulfill the social and economic rights in chapter 2 of the Constitution and in particular the basic needs of categories of persons disadvantaged by unfair discrimination;
- serve as the general framework within which environmental management and implementation plans must be formulated;
- serve as guidelines by reference to which any organ of state must exercise any function when taking any decision in terms of this Act or any statutory provision concerning the protection of the environment; and
- guide the interpretation, administration and implementation of NEMA, and any other law concerned with the protection or management of the environment

5.1.4 Linkages with other environmental implementation and management plans

In terms of section 11(4) of NEMA, every organ of state listed in schedule 1 and/or 2 of the Act must, in its preparation of an environmental implementation plan or environmental management plan, and before submitting such plan take into consideration every other environmental implementation plan and environmental management plan already adopted with a view to achieving consistency among such plans.

5.2 Assembly of information or plans as content of EIP and EMP

In terms of section 11(7) of NEMA, the preparation of environmental implementation plans and environmental management plans may consist of the assembly of information or plans compiled for other purposes and may form part of any other process or procedure. When an organ of state decides to use an assembly of information or plans as content of the EIP and EMP, careful consideration should be taken so that there is no departure from the purpose of chapter 3 of NEMA.

5.3 Content of the EIP

In terms of section 13(1) of NEMA, every environmental implementation plan must contain:

- (a) a description of policies, plans and programmes that may significantly affect the environment;
- (b) a description of the manner in which the relevant national department or province will ensure that the policies, plans and programmes referred to in paragraph (a) will comply with the principles set out in section 2 of the Act as well as any national norms and standards as envisaged under section 146(2)(b)(i) of the Constitution and set out by the Minister, or by any other Minister, which have as their objective the achievement, promotion, and protection of the environment;

- (c) a description of the manner in which the relevant national department or province will ensure that its functions are exercised so as to ensure compliance with relevant legislative provisions, including the principles set out in section 2 of the Act, and any national norms and standards envisaged under section 146(2)(b)(i) of the Constitution and set out by the Minister, or by any other Minister, which have as their objective the achievement, promotion, and protection of the environment; and
- (d) recommendations for the promotion of the objectives and plans for the implementation of the procedures and regulations referred to in Chapter 5 of the Act.

NB. When preparing an EIP, guidance is provided in Annexure A of these guidelines.

5.4 Content of the EMP

Every national department listed in **Schedule 2** of NEMA, has a mandate for management of the environment, and is required to prepare an Environmental Management Plan (EMP). The required content of an EMP is specified in **Section 14** of NEMA. In terms of Section 14 of NEMA, every environmental management plan must contain—

- (a) a description of the functions exercised by the relevant department in respect of the environment;
- (b) a description of environmental norms and standards, including norms and standards contemplated in section 146(2)(b)(i) of the Constitution, set or applied by the relevant department;
- (c) a description of the policies, plans and programmed of the relevant department that are designed [o ensure compliance with its policies by other organs of state and persons;
- (d) a description of priorities regarding compliance with the relevant departments policies by other organs of state and persons;
- (e) a description of the extent of compliance with the relevant departments policies by other organs of state and persons;
- (f) a description of arrangements for co-operation with other national departments and spheres of government, including any existing or proposed memoranda of understanding entered into, or delegation or assignment of powers to other organs of state, with a bearing on environmental management; and
- (g) proposals for the promotion of the objectives and plans for the implementation of the procedures and regulations referred to in Chapter 5 of NEMA.

NB. When preparing an EMP, guidance is provided in Annexure B of these guidelines.

5.5 Content of consolidated EIP/EMP (i.e. EIMP)

Section 11(3) of NEMA provides for the preparation of a consolidated environmental implementation and management plan (EIMP) is prepared by departments that are listed in both schedule 1 and 2. Therefore, the content of the EIMP should be made up of the requirements of an EIP and EMP.

6. DIFFERENCE BETWEEN EIP, EMP AND EIMP

7. IMPLEMENTATION

7.1 Institutional arrangements for co-operative governance

In the context of chapter 3 of NEMA, at a national level, there is an intergovernmental CEC Subcommittee on EIPs and EMPs that has been established and that is coordinated by the national DEA to serve as a cooperative governance forum on environmental implementation and management plans and to receive annual reports as contemplated in section 16(1) (b) of NEMA. This forum is constituted by all organs of state listed in schedules 1 and/or 2 of NEMA as well as relevant national public entities.

In light of the fact that an EIP should describe how local government is involved in the EIP processes, there need to be mechanisms or forums that would be used to bring them on board at a provincial level. Therefore, the issue of **cooperative governance** must continue to be stressed not only in relation to the three spheres of government but also with respect to other stakeholders such as parastatals and broader civil society.

7.2 Identification of issues requiring alignment

Experience gained in the past years of implementation of chapter 3 of NEMA, highlighted some issues as essential to alignment of EIPs and EMPs. The issues that came out as requiring alignment are, amongst others:

- Setting of indicators that all provinces should report on; and
- Alignment of NEMA Chapter 3 cycle to other priorities, planning, reporting and implementation, especially with the electoral mandate.

7.3 Roles and responsibilities in terms of chapter 3 of NEMA

7.3.1 The responsibilities of every organ of state, are to:

- exercise every function it may have, or that has been assigned or delegated to it, by or under any law, and that may significantly affect the protection of the environment, substantially in accordance with the environmental implementation plan or the environmental management plan prepared, submitted and adopted by that organ of state in accordance with this chapter 3 of NEMA – Provided that any substantial deviation from an environmental management plan or environmental implementation plan is reported to the Director-General and the CEC Subcommittee on EIPs and EMPs; and
- report annually within four months of the end of the financial year on the implementation of its adopted environmental implementation plan or environmental management plan to the Director-General of the Department of Environmental Affairs and the CEC Subcommittee on EIPs and EMPs.

7.3.2 The responsibilities of every provincial government are, amongst others, to ensure that:

- the relevant provincial environmental implementation plan is complied with by each municipality within its province; and
- municipalities adhere to the relevant environmental implementation and management plans, and the principles contained in section 2 of NEMA in the preparation of any policy, programme or plan, including the establishment of integrated development plans and land development objectives.

7.3.3 The responsibilities of the Director-General of Environmental Affairs are, amongst others, to:

- keep a record of all environmental implementation plans and environmental management plans, relevant agreements between organs of state and any annual reports related to environmental implementation and management plans, as well as make such plans, reports and agreements available for inspection by the public;
- monitor compliance with environmental implementation and management plans;
- receive annual reports from organs of state on the implementation of their adopted environmental implementation and management plans;

7.3.4 The responsibilities of the CEC Subcommittee on EIPs and EMPs, are amongst others to:

- consider any substantial deviation from environmental management plans or environmental implementation plans that is reported to it by any organ of state;
- consider environmental implementation and management plans and annual reports submitted by organs of state in compliance with chapter 3 of NEMA; and
- Consider and provide advice on any matter incidental to the implementation of environmental implementation and management plans.

8. MONITORING AND REPORTING

8.1 Monitoring

Monitoring aims to identify progress towards intended results, enhance accountability and learning. Monitoring efforts should, at a minimum, address the following:

- Progress towards outcomes

- Factors contributing to or impeding achievement of the outcomes
- Partnership strategies
- Lessons being learned and creation of knowledge products for wider sharing

8.2 Annual reports

Annual reports relating to environmental implementation and management plans are a statutory obligation emanating from section 16(1)(b) of chapter 3 of NEMA. In terms of the Act, every organ of state must report annually within four months of the end of its financial year on the implementation of its adopted environmental management plan or environmental implementation plan to the Director-General and the Committee.

8.3 Indicators to monitor an EIP

There are two general types of indicators that may be used in an EIP. The first relate to the NSSD headlines indicator and or National Development Plan Chapter 5 indicators that respond directly to the NEMA principles for sustainable development against which functions, policies, plans and programmes described in the EIP should be evaluated. These sustainable development indicators provide the means for monitoring general achievement of the goals of environmental management.

However, the above indicators are not generally appropriate for monitoring cooperative governance around environmental management, which is the main purpose of the EIP, or monitoring the implementation of the adopted EIPs, which is the responsibility of the DEA according to **Section 16(2)** of NEMA. DEA should therefore have indicators that monitor cooperative governance and performance of the CEC Subcommittee on headline indicators of the NSSD.

It is also recommended that performance indicators of institutional compliance with the mechanisms and procedures for cooperative governance be included in the EIPs. These may include indicators such as resources allocated to implement the priority functions, achievement within specified timeframes for implementation of plans and programmes, representation on identified committees, or compliance with statutory environmental management procedures.

NB. See Annexure C for relevant indicators.

<u>EXPLANATORY NOTE:</u> This section of the EIP should be focused on giving an idea of or depicting those existing and new policies, plans and programmes of the department that when implemented may significantly affect the environment both positively and negatively. Although all governmental functions are likely to have some effect on the environment, for the purposes of the EIP, these should be prioritized in terms of: <ul style="list-style-type: none"> • the extent and/or severity of the impacts (nationally or provincially), and • the degree of control that the relevant department exercises on the impact, through that function.

<u>EXPLANATORY NOTE:</u> This section requires the department or province to demonstrate how it will ensure that the identified priority policies, plans and programmes (i.e. in section 2 above) comply with the environmental management principles for sustainable development outlined in Section 2 of NEMA, and with any national norms and standards set by departments with a mandate for environmental management. Compliance may be indicated by whether and how the principles and norms & standards were considered during the formulation of existing policies, plans or programmes, and/or whether those departments mandated with environmental management were consulted. In terms of cooperative governance, a brief indication of the way in which the formulation of proposed (future) policies, plans and programmes will consider these principles or norms and standards, and will be aligned (harmonized) with the relevant policies, plans and programmes of other departments.

<u>EXPLANATORY NOTE:</u> This component of an EIP is at the heart of cooperative governance around environmental management. It should indicate the way in which the relevant department or province (and organs of state) gives effect to the priority policies, plans and programmes (described above), through exercising the priority functions (identified above). However, any other relevant																																		

legislative requirements governing the priority functions in terms of environmental management also need to be identified, together with an indication of the manner of compliance. For the priority functions, the manner of compliance with relevant legislative provisions should be described in terms of the:

- institutional mechanisms (such as committees, procedures and MOUs) which ensure coordination between the relevant department and other departments that are mandated with environmental management;
- institutional mechanisms to ensure coordination with and compliance by organs of state that have been assigned, delegated or contracted with priority functions; and
- capacity (in terms of people and budget) to perform the priority functions, and particularly to ensure effective implementation and functioning of the mechanisms, systems and procedures for coordination.

SECTION 5: recommendations for the promotion of the objectives and plans for the implementation of the procedures and regulations referred to in Chapter 5

EXPLANATORY NOTE: Chapter 5 of NEMA concerns the tools and instruments required to ensure the integrated environmental management of activities which affect the environment. The Schedule 1 departments and provinces, that are required to prepare EIPs, are mandated with promoting, managing or conducting many of these activities. This requirement therefore provides them with an opportunity to make recommendations about the most effective ways in which to implement integrated environmental management (IEM) in their sector. This also highlights the difference between the focus of EIPs (or EMPs) on cooperative governance (under Chapter 3), and the tools (plans, procedures and regulations) that give effect to environmental management (under Chapter 5).

2.												
3.												
SECTION 4: a description of the policies, plans and programmes of the relevant department that are designed to ensure compliance with its policies by other organs of state and persons												
<p>EXPLANATORY NOTE: This requires the department's environmental management policies to be identified and briefly described, together with a description of the plans and programmes for their implementation, including an indication of the department's allocation of resources, responsibilities and timeframe. Emphasis should be on the mechanisms and procedures to ensure compliance with the environmental policies, which include the above mentioned norms and standards.</p>

SECTION 6: a description of the extent of compliance with the relevant departments policies by other organs of state and persons						
EXPLANATORY NOTE: This section is intended to provide an indication of the seriousness or success of compliance to department's policies by other organs of state. The description may be provided in general or specific terms.						
SECTION 7: a description of arrangements for co-operation with other national departments and spheres of government, including any existing or proposed memoranda of understanding entered into, or delegation or assignment of powers to other organs of state, with a bearing on environmental management						
EXPLANATORY NOTE: This section should be used to indicate the mechanisms and procedures that the department (and its organs of state) uses to give effect to its environmental policies. As with the EIP, it is necessary to describe the institutional arrangements around environmental management, from the perspective of the department. This should identify <i>external</i> relationships with other national, provincial and local government departments (or their organs of state). The <i>internal</i> relationships between the department, and its organs of state (such as agencies or parastatals) should also be identified.						
Name of co-operation mechanism (including identification of whether it is a committee, MoU, etc)	Description of the purpose of the co-operation mechanism	Does the co-operation mechanism have a limited lifespan? If so what is that lifespan?	Who are the parties, role-players, etc. to the co-operation mechanism?	Are the parties, role-players committed to the mechanism?		
SECTION 8: proposals for the promotion of the objectives and plans for the implementation of the procedures and regulations referred to in Chapter 5 of NEMA						
EXPLANATORY NOTE: The departments that are required to prepare an EMP have a key role in implementing Chapter 5 of NEMA. This part of the EMP provides them with the opportunity to make recommendations about the way in which integrated environmental management (IEM) tools should be implemented in general, and propose the way in which IEM will be implemented to achieve their own environmental mandate.						
These proposals should outline any plans, procedures and regulations for IEM, ensuring that they are consistent with the NEMA requirements. It should also outline the activities and geographical areas in which these tools would be applicable.

NOTICE 1045 OF 2013

South African Reserve Bank

VARIATION NOTICE**VARIATION TO THE CONDITIONS OF THE DESIGNATION OF THE SOUTH AFRICAN POST OFFICE LIMITED, A POSTAL COMPANY CONTEMPLATED IN SECTION 3(1) OF THE POST OFFICE ACT, 1958 (ACT NO. 44 OF 1958) WHICH CONDUCTS THE BUSINESS OF A BANK THROUGH ITS POSTBANK DIVISION REFERRED TO IN SECTION 51 OF THE POSTAL SERVICES ACT, 1998 (ACT NO. 124 OF 1998), AS A DESIGNATED CLEARING SYSTEM PARTICIPANT****1. Introduction**

The South African Reserve Bank ("Reserve Bank") designated the South African Post Office Limited through its Postbank Division ("Postbank"), as a designated clearing system participant in terms of section 6(3)(a) of the National Payment System Act, 1998 (Act No. 78 of 1998) ("the Act"). The designation notice was published in the General Notice No. 315 of Government Gazette No. 34323 dated 27 May 2011 ("Notice"), and became effective as from 01 June 2011.

2. Background to the variation of the conditions of the designation

- 2.1. The Postbank requested the Reserve Bank to vary the conditions of the designation to allow the Postbank to:
 - 2.1.1. become a member of MasterCard International Incorporated ("MasterCard") in order to be able to acquire all card transactions as required by the rules of the payment system management body ("PSMB"); and
 - 2.1.2. terminate participation in a Payment Clearing House ("PCH") with prior written consent from The Standard Bank of South Africa Limited ("Standard Bank") and the Reserve Bank.

- 2.2. The Reserve Bank is empowered in terms of section 6(3)(b) of the Act to vary or revoke any designation by amending, revoking or adding any condition to which the designation is subject to.

3. Variation

The Reserve Bank has considered the request by the Postbank and considers it appropriate to vary the conditions to which the designation is subject to;

Therefore, I Gill Marcus, Governor of the Reserve Bank hereby with effect from 1st November 2013, vary the conditions of the Notice as follows:

3.1. *Ad clause 4.1.1 of the Notice:*

Insert the words “, MasterCard and/or any other card scheme;” after the word “Visa”.

3.2. *Addition of new clause 4.1.8 to read as follows:*

“4.1.8 Terminate participation in any PCH, subject to the process for termination determined by the PSMB and written notice given to Standard Bank and the Reserve Bank.”

Signed at Pretoria on this 10th day of October 2013.

The International Trade Administration Commission (the Commission) accepted an application alleging that frozen bone-in portions of fowls of the species gallus domesticus were being dumped in the Southern African Customs Union (SACU) market, causing material injury to the SACU industry concerned.

The applicant submitted sufficient evidence and established a *prima facie* case to enable the Commission to arrive at a reasonable conclusion that an investigation should be initiated on the basis of dumping, material injury, threat of material injury and causality.

THE APPLICANT

The application was lodged by the Southern African Poultry Association (SAPA), an industrial organisation for the poultry producers in the SACU market. SAPA constitute approximately 72 per cent of the SACU production volume of the subject product. The application by SAPA is supported by Grain S.A, Animal Feed Manufacturers Association (AFMA), Namib Poultry Industries (Pty) Ltd, Swazi Poultry Processors, Botswana Poultry Association and Basotho Poultry Farmers Association.

AFGRI, County Fair, Early Bird - Olifantsfontein, Early Bird - Standerton, Rainbow Chicken, Sovereign Foods and Supreme Poultry provided injury information in this regard, and they constitute a major proportion of the total SACU production.

THE PRODUCT

The product allegedly being dumped is frozen bone-in portions of fowls of the species gallus domesticus, classifiable under tariff subheading 0207.14.90, originating in or imported from Germany, the Netherlands and the United Kingdom.

THE ALLEGATION OF DUMPING

The allegation of dumping is based on the comparison between the normal value and the export price from Germany, the Netherlands and the United Kingdom. The normal values were determined based on an export price to an appropriate third country. The applicant provided exports from Germany, the Netherlands and the United Kingdom to various third countries. The third country selected was Benin, based on the following:

- Volumes exported to Benin were found to be comparable to volumes exported to SACU.
- Customers exported to in Benin are comparable to customers exported to in SACU.
- Benin has a domestic manufacturing industry.

The export prices were based on official import statistics obtained from the South African Revenue Services.

On this basis, the Commission found that there was *prima facie* proof of dumping.

THE ALLEGATION OF MATERIAL INJURY

The applicant submitted evidence to show that there is price suppression. The applicant's information indicated a decline in return on investment, negative net cash flow, and negative effects on capacity utilisation, decline in profits, increase in inventory and decrease in productivity.

On this basis, the Commission found that there was *prima facie* proof of material injury.

THE ALLEGATION OF THREAT OF MATERIAL INJURY

The applicant submitted information indicating that there is freely disposable capacity or imminent substantial increase in capacity of the exporters in the European Union (Germany, the Netherlands and the United Kingdom), significant increase of allegedly dumped imports into the SACU market which indicates the likelihood of substantially increased importation and that the subject product is entering the SACU market at prices that will have a significant depressing or suppressing effect on SACU prices and are likely to increase demand for further imports. The applicant made reference to the TDCA being fully implemented, stating that it is expected that landed cost of imported product will be reduced even further as the import duties will be zero, and this threatens to significantly undercut the prices of the SACU producers, in the foreseeable future. The applicant also indicated that there is likelihood that the alleged dumped imports will also enter the SACU market in substantially increased volumes in the foreseeable future.

On this basis the Commission found that there was *prima facie* proof of a threat of material injury.

CAUSAL LINK

On this basis, the Commission found that there was *prima facie* proof of material injury and further threat of material injury to the SACU industry, and that there is a causal link between the alleged dumped imports, the material injury suffered by the SACU industry and the further threat of material injury to SACU industry.

PERIOD OF INVESTIGATION

The period of investigation for purposes of determining the dumping margin is from 01 January 2012 to 31 December 2012. The period of investigation for purposes of determining the material injury is from 01 January 2010 to 31 December 2012.

The Commission noted the fact that the information was older than six months. It however considered that the fragmented nature of the industry with about seven companies that would have to update their information, and this would unduly delay the process and resolved to base its decision on the information up to December 2012.

PROCEDURAL FRAMEWORK

Having decided that there is sufficient evidence and a *prima facie* case to justify the initiation of an investigation, the Commission has begun an investigation in terms of section 16 of the International Trade Administration Act, 2002 (the ITA Act). The Commission will conduct its investigation in accordance with the relevant sections of the ITA Act and the Anti-Dumping Regulations of the International Trade Administration Commission (ADR).

Both the ITA Act and the ADR are available on the Commission's website (www.itac.org.za) or from the Trade Remedies section, on request.

In order to obtain the information it deems necessary for its investigation, the Commission will send non-confidential versions of the application and questionnaires to all known importers and exporters, and known representative associations. The trade representative of the exporting countries has also been notified. Importers and other interested parties are invited to contact the Commission as soon as possible in order to determine whether they have been listed and were furnished with the relevant documentation. If not, they should immediately ensure that they are sent copies. The questionnaire has to be completed and any other representations must be made within the time limit set out below.

CONFIDENTIAL INFORMATION

Please note that if any information is considered to be confidential then a non-confidential version of the information must be submitted for the public file, simultaneously with the confidential version. In submitting a non-confidential version the following rules are strictly applicable and parties must indicate:

- where confidential information has been omitted and the nature of such information;
- reasons for such confidentiality;
- a summary of the confidential information which permits a reasonable understanding of the substance of the confidential information; and
- in exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be placed on the public file and be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

Subsection 33(1) of the ITA Act provides that any person claiming confidentiality of information should identify whether such information is *confidential by nature* or is *otherwise confidential* and, any such claims must be supported by a written statement, in each case, setting out how the information satisfies the requirements of the claim to

confidentiality. In the alternative, a sworn statement should be made setting out reasons why it is impossible to comply with these requirements.

Section 2.3 of the ADR provides as follows:

"The following list indicates "information that is by nature confidential" as per section 33(1)(a) of the Main Act, read with section 36 of the Promotion of Access to Information Act (Act 2 of 2000):

- (a) management accounts;
- (b) financial accounts of a private company;
- (c) actual and individual sales prices;
- (d) actual costs, including cost of production and importation cost;
- (e) actual sales volumes;
- (f) individual sales prices;
- (g) information, the release of which could have serious consequences for the person that provided such information; and
- (h) information that would be of significant competitive advantage to a competitor;

Provided that a party submitting such information indicates it to be confidential".

ADDRESS

The response to the questionnaire and any information regarding this matter and any arguments concerning the allegation of dumping and the resulting threat of material injury must be submitted in writing to the following address:

PROCEDURES AND TIME LIMITS

The Senior Manager: Trade Remedies II, should receive all responses, including non-confidential copies of the responses, not later than 30 days from the date hereof, or from the date on which the letter accompanying the abovementioned questionnaire was received. The said letter shall be deemed to have been received seven days after the day of its dispatch.

Late submissions will not be accepted except with the prior written consent of the Commission. The Commission will give due consideration to written requests for an extension of not more than 14 days on good cause shown (properly motivated and substantiated), if received prior to the expiry of the original 30-days period. Merely citing insufficient time is not an acceptable reason for extension. Please note that the Commission will not consider requests for extension by the Embassy on behalf of exporters.

The information submitted by any party may need to be verified by the Investigating Officers in order for the Commission to take such information into consideration. The Commission may verify the information at the premises of the party submitting the information, within a short period after the submission of the information to the Commission. Parties should therefore ensure that the information submitted would subsequently be available for verification.

It is planned to do the verification of the information submitted by the exporters within three to five weeks subsequent to submission of the information. This period will only be extended if it is not feasible for the Commission to do it within this time period or upon good cause shown, and with the prior written consent of the Commission, which should be requested at the time of the submission.

It should be noted that unavailability of, or inconvenience to consultants will not be considered to be good cause.

Parties should also ensure when they engage consultants that they will be available at the requisite times, to ensure compliance with the above time frames. Parties should also ensure that all the information requested in the applicable questionnaire is provided in the specified detail and format.

The questionnaires are designed to ensure that the Commission is provided with all the information required to make a determination in accordance with the rules of Anti-Dumping Agreement. The Commission may therefore refuse to verify information that is incomplete or does not comply with the format in the questionnaire, unless the Commission has agreed in writing to a deviation from the required format. A failure to submit an adequate non-confidential version of the response that complies with the rules set out above under the heading *Confidential Information* will be regarded as an incomplete submission.

Parties who experience difficulty in furnishing the information required, or submitting in the format required, are therefore urged to make written applications to the Commission at an early stage for permission to deviate from the questionnaire or provide the information in an alternative format that can satisfy the Commission's requirements. The Commission will give due consideration to such a request on good cause shown.

Any interested party may request an oral hearing at any stage of the investigation in accordance with Section 5 of the ADR, provided that the party indicates reasons for not relying on written submission only. The Commission may refuse an oral hearing if granting such hearing will unduly delay the finalisation of a determination.

Parties requesting an oral hearing shall provide the Commission with a detailed agenda for, and a detailed version, including a non-confidential version, of the information to be discussed at the oral hearing at the time of the request.

If the required information and arguments are not received in a satisfactory form within the time limit specified above, or if verification of the information cannot take place, the Commission may disregard the information submitted and make a finding on the basis of the facts available to it.

Enquiries may be directed to the investigating officer, Mr Siphumelele Mkwanzani at +27 12 394 3742 or Mr Sandile Mantolo at +27 12 394 3902 or Ms Mercy Mukwevho at +27 12 394 3907 and Ms Boniswa Mehlomakulu at +27 394 3818 or at fax number 012 394 0518.

ADJUSTMENT OF STATUTORY LIMIT IN RESPECT OF CLAIMS FOR LOSS OF INCOME AND LOSS OF SUPPORT

The Road Accident Fund hereby, in accordance with section 17(4A)(a) of the Road Accident Fund Act, Act No. 56 of 1996, as amended, adjusts and makes known that the amounts referred to in subsection 17(4)(c) are hereby adjusted to **R 213 675.00**, with effect from **31 October 2013**, to counter the effects of CPI inflation.

Note: The CPI index based on the new "basket and weights" was used to calculate this adjustment, **effective from 31 October 2013** (with base year December 2012 = 100). The rebased CPI index for May 2008 was 78.1. The CPI index for August 2013 was 104.3. This adjustment was calculated by multiplying the R 160 000 limit by 104.3/78.1.
