## **REQUEST FOR THE INFORMATION ON CHEMICALS PRODUCED, USED, IMPORTED OR EXPORTED BY SOUTH AFRICA**

### **1. INTRODUCTION**

The purpose of this Notice is to request companies producing, using, importing or exporting chemicals identified in Annexures of this Notice to submit information to the Department of Environmental Affairs. This information will be used in the development of the National Chemicals Profile.

### **2. BACKGROUND AND DISCUSSION**

South Africa is party to the Multilateral Environmental Agreements (MEAs) on chemicals management for which their main objective is to protect human health and the environment from the harmful effects of chemicals they identified as chemicals of concern. These MEAs include the Stockholm Convention on Persistent Organic Pollutants (POPs), the Rotterdam Convention on the Prior Informed Consent Procedure for Certain Hazardous Chemicals and Pesticides in International Trade, the Minamata

Convention on Mercury and the Montreal Protocol on Substances that Deplete the Ozone Layer (a protocol to the Vienna Convention for the Protection of the Ozone Layer).

The Department of Environmental Affairs is the focal point and the Designated National Authority for these MEAs and the competent authority for the protection of the environment and its resources, thus mandated to ensure that the environment is not harmful to the citizen's well-being and their health.

Chemicals are used daily and are also used to make most of the products that citizens of the country rely on. When these chemicals are used safely, they significantly contribute to the improvement of quality of our life, health and well-being. However, with such a widespread of chemicals, there is a need to understand the extent of production, use, import and export of these chemicals by the country. Having this information will enable the country to develop plans and strategies for sound management of chemicals.

Furthermore, the Department of Environmental Affairs is currently developing the National Chemicals Profile with a particular focus on chemicals controlled by MEAs. The profile requires quantities on production, use, import and export of chemicals in the country. Unfortunately, the country does not have chemicals information management system where producers, users, importers or exporters are required to account on the quantities of chemicals produced, used, imported or exported. Hence, the Department is requesting this information from all the producers, users, importers or exporters of chemicals.

### **3. OBJECTIVES**

The objectives that informs this General Notice are as stipulated below:

- To establish a baseline on the quantities of chemicals produced, used, imported or exported by the country over the given period.
- To develop a database of all producers, users, importers and exporters of chemicals used in the country;
- To allow the development of the chemicals inventory;
- To allow the development of the regulatory framework that will address the existing gaps and ensure that systems are developed to better manage the chemicals in the country.

### **4. DESCRIPTION OF THE INFORMATION REQUEST**

Companies that produce, use, import or export chemicals provided in Annexures (Annex A and Annex B) of this document are invited to submit the following information to the Department of Environmental Affairs.

#### **4.1 Information Requirement for Chemicals Listed in Annex A**

4.2.3 Quantities of chemical exported (& to which country/ies) kilograms (kg)

4.2.4 Quantities of stockpiles/stock(s) of chemicals in kilogram (kg)

4.2.5 The company supplying information must provide the name of the company, the location of the company (i.e. Province and City or Town) and the contact person and their contact details

4.2.6 Data request from 1 January 2007 to 31 December 2014. In a case, where there are no records dating back to 2007 available, any available information should be submitted.

The template to use when submitting this information is attached as *Annex B (i.e. Annexures B1, B2, B3 and B4)*. The word version of the templates are available on request.

# **WARNING!!!**

## **To all suppliers and potential suppliers of goods to the Government Printing Works**

The Government Printing Works would like to warn members of the public against an organised syndicate(s) scamming unsuspecting members of the public and claiming to act on behalf of the Government Printing Works.

One of the ways in which the syndicate operates is by requesting quotations for various goods and services on a quotation form with the logo of the Government Printing Works. Once the official order is placed the syndicate requesting upfront payment before delivery will take place. Once the upfront payment is done the syndicate do not deliver the goods and service provider then expect payment from Government Printing Works.

Government Printing Works condemns such illegal activities and encourages service providers to confirm the legitimacy of purchase orders with GPW SCM, prior to processing and delivery of goods.

To confirm the legitimacy of purchase orders, please contact:
