INTRODUCTION

1. The admission policies of Technical Vocational and Training Colleges are underpinned and guided by the Constitution of the Republic of South Africa, 1996 (Act no 108 of 1996).
2. This admission policy framework is to make provision for all ministerial programmes offered in TVET Colleges.
3. The TVET College system needs to respond to the country's need to redress past imbalances and inequalities by transforming education and training in order to improve the livelihoods of individuals and contribute to the economy and broader society.
4. This policy framework seeks to provide a balance between the provision of access in TVET Colleges with the aim of redressing the imbalances of the past and ensuring rigorous success of students. This will ensure that we recruitment of capable students who have a keen interest in vocational and technical education.
5. The TVET college system has expanded access thus experiencing exponential growth in student enrolment. This expansion was confronted by challenges of limited infrastructure to accommodate the number of students and increased the competitiveness of access in the college system. The Department is shifting its focus from access to quality which is critical towards positioning TVET colleges as institutions of first choice.
6. Proper career guidance is important to direct our students to relevant programmes and to provide training in areas that are required for the country's economic growth.
7. The *White Paper for Post –School Education and Training* (WP-PSET),2013, envisages a post-school education and training system that is committed to achieving the following objectives:
 - 7.1 Education and Social Justice;
 - 7.2 A single coordinated system;
 - 7.3 Expanding access, improving quality and increasing diversity;

7.4 Education and work; and

7.5 Responsiveness

8. The TVET College sector is required to provide opportunities across a wide range of qualifications that are fit for purpose and are responsive to the changing requirements of work and social context, designed for student demands and can articulate appropriately to meaningful opportunities in employment and further study.
9. The Department of Higher Education and Training, hereinafter referred to as the Department, has developed this policy framework to guide TVET Colleges to administer the management of student admissions and ensure consistency in achieving the values of equity, access and redress. TVET Colleges must therefore commit themselves to provide adequate conditions and opportunities for effective learning.
10. The Department recognises that the Continuing Education and Training Act, 2006 (Act No. 16 of 2006), entrusts the role of developing college admission policies to the Council. This policy framework therefore is developed for Technical and Vocational Education and Training Colleges Council to adopt or adapt it when they develop their own policies.
11. Due to the diversity of programme offerings in the sector, differentiated admission criteria are required to respond to the different qualification objectives. These, amongst others, will include providing opportunities for the advancement of participation in programmes that require critical and scarce skills, which will lead to filling the gap for occupations in high demand, and qualifications that are designed to absorb large numbers of learners as valuable human resource capital for the country.
12. Should the Department of Basic Education (DBE) comprehensively roll out the three stream model, learners with Grade 9 will only be accepted into programmes leading to a trade or occupation where the learner meets the admission criteria.

BACKGROUND AND CONTEXT

13. The White Paper on Post School Education and Training ushered in changes for Further Education and Training (FET) Colleges by renaming them as TVET Colleges. The name change signified the specific focus of Colleges as providing mid-level programmes that have direct articulation to the world of work, which includes formal employment, self-employment and other forms of work.
14. Historically TVET colleges catered to the specific needs of unemployed youth and adults, who required theoretical knowledge to support their workplace experience and practical knowledge, and to lead to some sort of tangible certification as evidence of their acquired knowledge and competencies.
15. The DHET TVET College Bursary Scheme has been a key mechanism to provide access and contributed to the growth and expansion of the TVET college sector. The rapid expansion of the TVET college sector has resulted in the system being unable to accommodate future growth without material contribution to infrastructure development.
16. The post school education and training system is required to accommodate huge student numbers despite its limited capacity to absorb these numbers. The consequence is that significant numbers of young people remain excluded from accessing post- school opportunities. Alternative forms of post school education, such as open learning, are critical to responding to the demands of access for young people.

OBJECTIVES OF THIS POLICY

17. The object of this policy framework is to provide a base for all Technical and Vocational Education and Training College Councils to develop the student admission policies of the college.

APPLICATION OF THIS POLICY

18. This policy framework applies to all TVET Colleges declared or established by the Minister in terms of the *Continuing Education and Training Act, 2006 (Act No. 16 of 2006)*.

RATIONALE

19. TVET Colleges have been established to expand access and to provide opportunities to young people who want to access post-school education and training (PSET).
20. The purpose of the Continuing Education and Training Act, 2006 (Act No. 16 of 2006) section 2 (1) is to:
- (a) to enable students to acquire -
 - I. the necessary knowledge;
 - II. practical skills; and
 - III. applied vocational and occupational competence; and
 - (b) provide students with the necessary attributes required for –
 - I. employment;
 - II. entry to a particular vocation, occupation or trade; or
 - III. entry into a higher education institution
21. Public TVET Colleges have been strategically positioned to become the institutions of choice to school leavers and out of school youth. The state is mandated to ensure its youth and communities have access to education and training that will deal with socio economic factors faced by communities and the country as a whole.
22. In order to increase access and position the TVET sector as the institution of choice, it is critical for prospective students intending to enrol in this sector to meet the academic expectations and programme entry requirements. Attaining these requirements will enable prospective students to enter the post school education and training system which will need to accommodate huge student numbers despite its limited capacity to absorb these numbers. The consequence is that significant numbers of young people remain excluded

from accessing post- school opportunities. Alternative forms of post –school education, such as open learning, are critical to responding to the demands of access for young people. Students have a greater chance to be successful and to fully participate in the labour market.

23. In the future, the Department will increase opportunities for students in the TVET sector by increasing admissions into National Qualification Framework (NQF) Level 5 and NQF Level 6 qualifications, which aligns to the mandate given both in the NDP and the White Paper on PSET.

LEGISLATIVE AND POLICY FRAMEWORK

24. In terms of section 29(1) (b) of the Constitution of the Republic of South Africa, 1996 (Act No. 108 of 1996), everyone has the right to further education, which the state, through reasonable measures, must make progressively available and accessible.

25. Section 17 of the Continuing Education and Training Act,2006 (Act No.16 of 2006) outlines the requirements for an admission policy of public colleges as follows:

1. Subject to applicable policy, the Council of a public college determines the admission policy of the college, after consulting with the academic board and with the approval of the Minister;
2. The admission policy of a public college may not unfairly discriminate in any way and must provide appropriate measures for the redress of past inequalities;
3. The Council may, subject to applicable policy, the approval of the Director-General and after consultation with the academic board must adopt the college admission policy.
 - a) Determine admission requirements in respect of particular continuing education and training qualifications or part –qualifications;
 - b) Determine the number of students who may be admitted for a particular continuing education and training qualifications or part qualification and the manner of their selection ;

- c) Determine the minimum requirements for readmission to study at the public college in question; and
 - d) Refuse the readmission of a student who fails to satisfy the minimum requirements for readmission.
4. The Council of the College must take the necessary steps within its available resources to ensure that the college is accessible to disabled students;
- 26 The *White paper 6 on Special Needs Education, 2001* provides for an inclusive education framework which guides the transformation of practices related to barriers in teaching and learning. The White Paper also emphasised the need for a holistic approach to addressing disabilities, which includes, specialized technology, assistive devices, reasonable accommodation, practices for students and staff with disabilities.
- 27 The *White paper on Post School Education and Training, 2013*, called for a strategic policy framework to guide the improvement of access to and success in post-school education and training for people with disabilities and this includes private institutions. The framework should include accurate definitions of multiple types of disabilities that exist in society and the differentiated response required by the post- school system. As a response to this call, the Department drafted a disability policy for the post-school education and training system.

DETERMINATION OF CRITERIA FOR ADMISSION TO TVET COLLEGES

- 28 The College Council determines the requirements for admission into the College in line with the policies and regulations promulgated by the Department of Higher Education and Training, and include:
- 28.1 Determining the entrance requirements in respect of all qualifications, including developing a points systems or additional criteria that is clearly articulated in terms of performance requirements;
 - 28.2 Determining the minimum and maximum duration of study pertaining to a particular qualification;

- 28.3 Determining the number of students to be admitted for a particular qualification and the manner of their selection;
 - 28.4 Determining the minimum requirements for conditions relating to re-admission;
 - 28.5 Determining the standards and conditions under which students may be refused re-admission to the college;
 - 28.6 Determining the conditions for de-registration;
 - 28.7 Determining the medium of instruction ; and
 - 28.8 Determining all policies and processes that lead to proper selection and placement of students, bearing in mind that such policies and processes must be underpinned by the principle of ensuring student success.
- 29 This policy framework will provide further guidance and ensure consistency with regards to administration of students' admission processes in TVET Colleges, as it relates to:
- 29.1 Scheduling and implementation of the registration process;
 - 29.2 Guiding processes for the cancellation of registered students;
 - 29.3 Admission of students with disabilities;
 - 29.4 Admission requirements for international students; and
 - 29.5 Timeous dissemination of information relating to registration periods for all programmes, and all semesters and trimesters.
- 30 Students' admission into a TVET College shall be subject to the students' acceptance of the rules and academic regulations of that particular institution. Acceptance of admission at the college shall be taken to constitute acceptance of all published policies and regulations. The student will attest to such by signing a contractual agreement to this effect.
- 31 The college should consider implementing a mechanism of conditional acceptance offers, which will be confirmed upon final examination results. This will assist in planning for college enrolments and alleviate the pressure of backlogs during registration.
- 32 Whilst it is good to have an admissions policy, it is equally important to put systems in place to ensure improved student performance and achievement. The college is therefore expected to adhere to the Department's *TVET College Student Attendance and Punctuality Policy* that will assist to monitor attendance of the students once admitted.

- 33 The TVET College must, through its prospectus, indicate when and how the college will conduct and orientate students in the academic programmes, irrespective of the nature of the programme enrolled for.
- 34 The Council should develop a *College Student Code of Conduct* which every student must sign upon receipt during registration (as stated in paragraph 32).

ADMINISTRATION OF ADMISSIONS

- 35 A person may register as a student in a TVET College, only if he or she satisfies the legal requirements for admission to study at the college and satisfies any other requirements for admission that may be determined by the College Council and laid down in the *College student Code of Conduct*.
- 36 To be eligible for admission to a programme in a TVET College, the applicant must be a South African citizen or have a valid study permit, if the applicant is a foreign national.
- 37 TVET Colleges should give preference to students who :
- 37.1 Are South African citizens;
 - 37.2 Residing within the catchment area where the college is located unless the college does not offer the programme required by the prospective student;

- 38 Colleges should commence with their application process for a new academic year, in June of the preceding year. This will alleviate the pressure and backlogs that colleges find themselves in and will also allow ample time for prospective students to apply.

- 39 The college should have a closing date for all National Certificate Vocational NC (V) applications, which should preferably be the end of October of the preceding year.
- 40 The closing dates for all Report 191 student applications should preferably be administered six months prior to commencement of studies.
- 41 Colleges are reminded that any fee in addition to the tuition fee, whether it is called an application fee, registration fee or admission fee is NOT permitted. However, colleges may expect a portion of the tuition fee upfront at the point of admission from students who are paying their own fees.
- 42 Students who have been offered admission, have applied for, and successfully met the financial criteria for NSFAS tuition funding will be admitted and registered. Students who do not qualify for NSFAS will be obligated to pay the fees, either receiving funding from a sponsor, their family or other means.
- 43 If a college decides to implement conditional offers to students, the college should develop conditions to such offers, such as meeting a specific level of performance. Furthermore, the college must have efficient systems in place to track these conditions, and where necessary, be able to effectively revoke the placement.
- 44 Colleges should provide additional support and accommodate students with disabilities through guidelines for admission of students with disabilities. This will include reference to designated offices to cater and assist students with disabilities.
- 45 The Management and Academic Board must guide the development of a suitable admission process and the provision of services for prospective students, which are inclusive, fair and transparent.

ADDITIONAL ENTRY REQUIREMENTS

56 The Academic Board may determine additional requirements with the approval of the College Council. In addition, colleges may need to develop a point system or additional entry requirements for entry into qualifications.

57 The point system should weigh language, mathematics and science high on any qualification where these subjects serve as a pre-requisite. Subjects such as Accounting, Drawing, Information and Communication Technology (ICT) may also feature in the points system for certain programmes. Colleges must ensure the point system or additional criteria are not too high or used as a tool to further exclude prospective students from colleges.

CONFIDENTIAL INFORMATION

Please note that if any information is considered to be confidential then a non-confidential version of the information must be submitted for the public file, simultaneously with the confidential version. In submitting a non-confidential version the following rules are strictly applicable and parties must indicate:

- Where confidential information has been omitted and the nature of such information;
- Reasons for such confidentiality;
- A summary of the confidential information which permits a reasonable understanding of the substance of the confidential information; and
- In exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.

These rules applies to all correspondence with and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be placed on the public file and be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

Subsection 33(1) of the ITA Act provides that any person claiming confidentiality of information should identify whether such information is *confidential by nature* or is *otherwise confidential* and, any such claims must be supported by a written statement, in each case, setting out how the information satisfies the requirements of the claim to confidentiality. In the alternative, a sworn statement should be made setting out reasons why it is impossible to comply with these requirements.

Section 2.3 of the ADR provides as follows:

"The following list indicates "information that is by nature confidential" as per section 33(1)(a) of the

Main Act, read with section 36 of the Promotion of Access to Information Act (Act 2 of 2000):

- (a) *management accounts;*

- (c) *actual and individual sales prices;*
- (d) *actual costs, including cost of production and importation cost;*
- (e) *actual sales volumes;*
- (f) *individual sales prices;*
- (g) *information, the release of which could have serious consequences for the person that provided such information; and*
- (h) *information that would be of significant competitive advantage to a competitor;*

Provided that a party submitting such information indicates it to be confidential."

PROCEDURES AND TIME LIMITS

Manufacturers in the SACU of the subject products listed above, who wish to submit a request for the duty to be reviewed prior to the expiry thereof, are requested to do so not later than close of business on **9 July 2018**.

SACU manufacturers who do submit a request before **9 July 2018**, should submit duly substantiated information, indicating that the expiry of the duty would be likely to lead to continuation or recurrence of dumping and material injury, to the Commission.

It should be noted that the investigation process is complex and the Commission is subject to strict time limits within which to complete the investigation. Late submissions will therefore not be accepted, except with the prior written consent of

the Commission.

The Commission will give due consideration to written requests for an extension of not more than 14 days on good cause shown (properly motivated and substantiated), if received prior to the expiry of the original period. Merely citing insufficient time is not an acceptable reason for extension.

The information submitted by any party may need to be verified by the Investigating Officers in order for the Commission to take such information into consideration. The Commission may verify the information at the premises of the party submitting the information, within a short period after the submission of the information to the Commission. Parties should therefore ensure that the information submitted will subsequently be available for verification. It is planned to do the verification of the information submitted by the exporters within three to five weeks subsequent to submission of the information. This period will only be extended if it is not feasible for the Commission to do it within this time period or upon good cause shown, and with the prior written consent of the Commission, which should be requested at the time of the submission. It should be noted that unavailability of, or inconvenience to consultants will not be considered to be good cause.

Parties should also ensure when they engage consultants that they will be available at the requisite times, to ensure compliance with the above time frames. Parties should also ensure that all the information requested in the applicable questionnaire is provided in the specified detail and format. The questionnaires are designed to ensure that the Commission is provided with all the information required to make a determination in accordance with the rules of Anti-Dumping Agreement. The Commission may therefore refuse to verify information that is incomplete or does not comply with the format in the questionnaire, unless the Commission has agreed in writing to a deviation from the required format. A failure to submit an adequate non-confidential version of the response that complies with the rules set out above under the heading *Confidential Information* will be regarded as an incomplete submission.

Parties, who experience difficulty in furnishing the information required, or submitting in the format required, are therefore urged to make written applications to the Commission at an early stage for permission to deviate from the questionnaire or provide the information in an alternative format that can satisfy the Commission's requirements. The Commission will give due consideration to such a request on good cause shown.

Any interested party may request an oral hearing at any stage of the investigation in accordance with Section 5 of the ADR, provided that the party indicates reasons for not relying on written submission only. The Commission may refuse an oral hearing if granting such hearing will unduly delay the finalisation of a determination.

Parties requesting an oral hearing shall provide the Commission with a detailed agenda for, and a detailed version, including a non-confidential version, of the information to be discussed at the oral hearing at the time of the request.

If the required information and arguments are not received in a satisfactory form within the time limit specified above, or if verification of the information cannot take place, the Commission may disregard the information submitted and make a finding on the basis of the facts available to it.

Enquiries may be directed to the Senior Manager: Trade Remedies I, Ms Carina Janse van Vuuren, at telephone (012) 394-3594 or at fax (012) 394-0518.
