## HIGH ALERT: SCAM WARNING!!!

### TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works* (GPW).

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

[PROCUREMENT@GPW-GOV.ORG](mailto:PROCUREMENT@GPW-GOV.ORG)

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

*GPW* has an official email with the domain as [@gpw.gov.za](mailto:@gpw.gov.za)

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

*GPW* will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

*Government Printing Works* gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

## Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

### How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at [www.gpwonline.co.za](http://www.gpwonline.co.za)
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

NO. 204

## COMPETITION COMMISSION

## NOTICE IN TERMS OF SECTION 10(7) OF THE COMPETITION ACT 89 OF 1998 (AS AMENDED): SOUTH AFRICAN PETROLEUM INDUSTRY ASSOCIATION GRANTED CONDITIONAL EXEMPTION

On 22 December 2015, the South African Petroleum Industry Association ("SAPIA") and its members applied to the Competition Commission of South Africa ("Commission") in terms of Section 10(1)(b) of the Competition Act No 89 of 1998, as amended (the "Act") to be exempted from certain provisions of Section 4 of the Act. The exemption was sought for a period of 5 (five) years from 1 January 2016 ending on 31 December 2020.

Notice is hereby given in terms of Section 10(7) of the Act that the Commission has extended the SAPIA exemption for a period of 1 (one) year starting from 01 January 2020 ending 31 December 2020 on the same terms and conditions as published in Government Gazette No.34651 of 7 October 2011.

The exemption granted by the Commission covers a wide range of agreements and practices which, according to SAPIA, are required to ensure the continuity and stability of liquid fuels supply to various sectors and geographic locations of the South African economy. In particular, the exemption covers agreements and practices in the petroleum and refinery industry which are considered by the Commission to be in contravention of Sections 4(1)(a) and (b) of the Act.

The Commission has previously, in response to the above mentioned application, granted SAPIA a conditional exemption in terms of Section 10(2)(a) of the Act for a period of 6 (six) months starting from 01 January 2016 and ending on 30 June 2016. Following the expiry of the short-term conditional exemption, the Commission extended such exemption several times with the last one ending on 31 December 2019. SAPIA based its application on the premise that the aforesaid

agreements and practices are required to obtain the objective set out under Section 10(3)(b)(iv) of the Act. This is after the then Minister of the then Economic Development Department designated the petroleum and refinery industry for a period of 6 (six) months starting from 01 January 2016 ending on 30 June 2016, which was extended to 31 December 2016, 31 December 2017; 31 March 2018; 30 September 2018; 31 March 2019, 30 June 2019 and then further to 31 December 2019.

In anticipation of the expiry of the industry designation and exemption on 31 December 2019, the Minister of Department of Trade, Industry and Competition granted SAPIA a 1 (one) year petroleum industry designation ending on 31 December 2020.

The Commission is satisfied that SAPIA's exemption will contribute towards maintaining the economic stability of the petroleum and refinery industry for the period starting on 01 January 2020 and ending on 31 December 2020.

SAPIA or any other person with substantial financial interest affected by this decision may appeal it to the Competition Tribunal in the prescribed manner in terms of Section 10(8) of the Act.

## DEPARTMENT OF LABOUR

NO. 207

28 FEBRUARY 2020

**NOTICE IN TERMS OF SECTION 62 (7) OF THE LABOUR RELATIONS ACT 66 OF 1995 AS AMENDED (THE LRA)**

PLEASE TAKE NOTICE THAT: -

1. Kaapstorm Eiedomme 23 CC t/a Victro Granite Paarl (the applicant) has applied to the CCMA in terms of section 62(1) of the Labour Relations Act 66 of 1995 as amended (the LRA) for a demarcation order to the effect that its activities and scope do not fall within the registered scope of the Building Industry Bargaining Council. It seeks an order that it should be demarcated under the scope and jurisdiction of the Bargaining Council for the Furniture Manufacturing Industry for the Western Cape.
2. The applicant's business is involved in the procurement of granite slabs which are cut and polished and then installed on various sites. The granite slabs are mostly used for certain furniture items and in the installation of kitchens.
3. The first respondent, the Building Industry Bargaining Council, is opposing the demarcation application on the basis that the activities of the applicant fall under its scope and registration. It will request a demarcation order that the applicant's business should be subject to its certificate of registration and collective agreements.
4. The second respondent, the Bargaining Council for the Furniture Manufacturing Industry for the Western Cape, will request a demarcation order that the applicant's business should be subject to its certificate of registration and collective agreements.
5. The CCMA believes that the questions raised by this demarcation application is potentially of substantial importance. Of relevance is the fact that some similar businesses are registered with the first respondent, while other similar businesses, are registered with the second respondent. To the extent that there may be an overlap between the two bargaining councils, this may have broader implications for the two different industries. It is therefore apparent that there may be other businesses or entities that could potentially be affected by the outcome of this application. Such entities should have the right to make representations to the CCMA.
6. Written representations may be made within 21 calendar days of the date of publication of this notice, and should be clearly marked with reference number **WECT 20232-19** and directed to: -

**2. RESOURCE QUALITY OBJECTIVES**

Resource Quality Objectives for each Resource Unit (RU) are presented in Table 2 to 8 below. All RQOs are applicable from the date signed off, unless otherwise specified by the Minister.

Table 2 provides the hydrological RQOs for rivers expressed in terms of an assigned volume at the Ecological Water Requirement (EWR) sites. The volume assigned for low (base) flows and for high (flood) flows are also provided. The distribution of this volume across the months must be variable according to a natural (unless specified differently) variability. The variability is dependent on the intra-annual (seasonal) and inter-annual patterns of natural flow conditions. Details are provided in technical documents as follows:

- Low (base flows): These flows are provided as a monthly volume in the form of a flow assurance table which provides discharges which must be equal to or exceeding with different percentage frequencies.
- High (flood flows): These flows are a set of flood events defined by a peak discharge in cubic meters per second, an event duration in hours and the frequency of the event. The frequency with which these flood events are expected to occur, as well as the size of each event, is also dependent on the natural variability and this is reflected in the high flow assurance table that defines the volume requirements with different percentage frequencies of exceedance.

Information for MzimEWR1 (Tstitsa River) and MzimEWR4 (Lower Mzimvubu River) are presented as both EWR flows (no dam development) and flows related to Scenario (Sc) 69, i.e. flows required to be released from Ntabelanga and Lalini dams (of the Mzimvubu Water Project (MWP)) to meet downstream ecological requirements. Note that the Sc 69 flows therefore represent the total flows, which include releases, spills and tributary inflows (if relevant) that flow past the EWR site.
