## HIGH ALERT: SCAM WARNING!!!

### TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works (GPW)*.

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

[PROCUREMENT@GPW-GOV.ORG](mailto:PROCUREMENT@GPW-GOV.ORG)

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

*GPW* has an official email with the domain as [@gpw.gov.za](mailto:gpw@gpw.gov.za)

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

*GPW* will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

*Government Printing Works* gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

## Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

### How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at [www.gpwonline.co.za](http://www.gpwonline.co.za)
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

## **PART 1 – INTRODUCTION: THE LEGISLATIVE FRAMEWORK**

### **1 Purpose of POPIA and the need for a code of conduct**

- 1.1 The purpose of POPIA is, amongst others, to give effect to the constitutional right to privacy by safeguarding personal information when processed by a responsible party.
- 1.2 POPIA applies to the processing of personal information:
  - 1.2.1 entered in a record by or for a responsible party by making use of automated or non-automated means provided that when the recorded personal information is processed by non-automated means, it forms part of a filing system or is intended to form part thereof; and
  - 1.2.2 where the responsible party is:
    - 1.2.2.1 domiciled in the Republic; or
    - 1.2.2.2 not domiciled in the Republic but makes use of automated and non-automated means in the Republic unless those means are used only to forward personal information through the Republic.
- 1.3 Chapter 3 of POPIA regulates the processing of personal information by or for a responsible party through compliance with the eight (8) conditions for the lawful processing of personal information, the processing of special personal information and the processing of personal information of children.
- 1.4 POPIA empowers the Regulator to:
  - 1.4.1 issue, from time to time, codes of conduct, amend and revoke codes;
  - 1.4.2 make guidelines that would assist bodies to develop or to apply codes;
  - 1.4.3 approve codes; and
  - 1.4.4 consider afresh, upon application the determinations by adjudicators under approved codes.
- 1.5 The purpose of a code is to establish a voluntarily accountability tool and to promote transparency for relevant bodies on how personal information should be processed. A code does not replace the relevant provisions in POPIA but operates in support of the requirements in POPIA. A code cannot limit a data subject's right to privacy, which can only be done as provided for in POPIA.
- 1.6 The relevant bodies bound by an issued code of conduct must refrain from performing an act or engaging in a practice that breaches the code. A breach of an issued code is deemed to be a breach of the conditions for the lawful

processing of personal information referred to in Chapter 3 and shall be dealt with in terms of Chapter 10 of POPIA.

- 1.7 A code should limit itself to the provisions which outline the specific obligations of relevant bodies bound by a code. A code should comply with all the conditions for the lawful processing of personal information or meet the functional equivalent standard of lawful processing of personal information. A code must also include, but is not limited to, governance and administrative provisions in these guidelines as applicable to specific relevant bodies.
- 1.8 In deciding whether to issue a code, the Regulator will consider whether a code meets the requirements set out in Chapter 7 of POPIA and the requirements set out in these guidelines.
- 1.9 The guidelines encourage different sectors to develop codes within an established framework and harmonise the code with POPIA.

## 2 Objectives of the guidelines

- 2.1 The objective of these guidelines is to serve as an explanatory aid to Chapter 7 of POPIA.
- 2.2 These guidelines will further serve as a practical guide that outlines minimum criteria and provides a framework to ensure that codes are evaluated in a standard manner. This will foster transparency relating to requirements and processes that will enable the approval of codes.

In deciding to develop a code, relevant bodies should consider the following:

- 7.1 whether the relevant bodies that will be bound by a code meet the resource requirements set out in par 10 below; and
- 7.2 whether POPIA, the Regulations or an issued code already cover the same matters which may negate the need to develop a code.

## **8 Understanding of POPIA**

A relevant body that is considering the development of a code must understand POPIA, in particular the application of the conditions for the lawful processing of personal information.

## **9 Administrative mechanisms**

A relevant body which is considering developing a code should have adequate administrative capacity to develop a code. This may include the establishment of a code development committee or some other administrative mechanism to manage the development of a code. The mechanism should include consultations with relevant stakeholders.

## **10 Resource requirements**

A relevant body should ensure that it has sufficient resources for the development and implementation of a code. Resources may need to be allocated for:

- 10.2 establishing an administrative mechanism responsible for developing a code;
- 10.3 drafting and scoping of a code;
- 10.4 seeking legal or professional advice;

- 10.9 establishing a procedure for the making and dealing with complaints if any; and
- 10.10 maintaining information about a code on the website, including a list of relevant bodies bound by a code.

## **11 Notice of intention to develop a code of conduct**

- 11.1 A relevant body should notify the Regulator of its intention to develop a code and keep the Regulator informed throughout the process of the development of a code.

## **12 Code of conduct requirements under POPIA**

- 12.1 POPIA sets out the minimum requirements to be included in a code and how a code should apply.
- 12.2 Any failure to comply with an issued code is deemed to be a breach of the conditions for the lawful processing of personal information.
- 12.3 A code should limit itself to provisions which outline the specific obligations of relevant bodies bound by a code and any mandatory requirements under POPIA;
- 12.4 Any matters unrelated to the conditions for the lawful processing of personal information should not form part of a code to be approved by the Regulator.
- 12.5 A code does not replace the relevant provisions of POPIA.
