HIGH ALERT: SCAM WARNING!!!

TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the GOVERNMENT PRINTING WORKS that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the Government Printing Works (GPW).

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*'. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

PROCUREMENT@GPW-GOV.ORG

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

GPW has an official email with the domain as @gpw.gov.za

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

Government Printing Works gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at www.gpwonline.co.za
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

Any incidents of corruption, fraud, theft and misuse of government property in the *Government Printing Works* can be reported to:

Supply Chain Management: Ms. Anna Marie Du Toit, Tel. (012) 748 6292.

Mpumalanga Liquor License Gazette	Bi-Monthly	Second & Fourth Friday	One week before publication	3 working days prior to publication

EXTRAORDINARY GAZETTES

Extraordinary Gazettes can have only one publication date. If multiple publications of an Extraordinary Gazette are required, a separate Z95/Z95Prov Adobe Forms for each publication date must be submitted.

Notice Submission Process

- 4. Download the latest Adobe form, for the relevant notice to be placed, from the Government Printing Works website www.gpwonline.co.za.
- The Adobe form needs to be completed electronically using Adobe Acrobat / Acrobat Reader. Only electronically completed Adobe forms will be accepted. No printed, handwritten and/or scanned Adobe forms will be accepted.
- The completed electronic Adobe form has to be submitted via email to submit.egazette@gpw.gov.za. The form needs to be submitted in its original electronic Adobe format to enable the system to extract the completed information from the form for placement in the publication.
- Every notice submitted must be accompanied by an official GPW quotation. This must be obtained from the eGazette Contact Centre.
- Each notice submission should be sent as a single email. The email must contain all documentation relating to a particular notice submission.
 - 8.1. Each of the following documents must be attached to the email as a separate attachment:
 - 8.1.1. An electronically completed Adobe form, specific to the type of notice that is to be placed.
 - 8.1.1.1. For National Government Gazette or Provincial Gazette notices, the notices must be accompanied by an electronic Z95 or Z95Prov Adobe form
 - 8.1.1.2. The notice content (body copy) **MUST** be a separate attachment.
 - 8.1.2. A copy of the official Government Printing Works quotation you received for your notice. (Please see Quotation section below for further details)
 - 8.1.3. A valid and legible Proof of Payment / Purchase Order: Government Printing Works account customer must include a copy of their Purchase Order. Non-Government Printing Works account customer needs to submit the proof of payment for the notice
 - 8.1.4. Where separate notice content is applicable (Z95, Z95 Prov and TForm 3, it should also be attached as a separate attachment. (Please see the Copy Section below, for the specifications).
 - Any additional notice information if applicable. 8.1.5.

- 9. The electronic *Adobe* form will be taken as the primary source for the notice information to be published. Instructions that are on the email body or covering letter that contradicts the notice form content will not be considered. The information submitted on the electronic *Adobe* form will be published as-is.
- To avoid duplicated publication of the same notice and double billing, Please submit your notice ONLY ONCE.
- 11. Notices brought to **GPW** by "walk-in" customers on electronic media can only be submitted in *Adobe* electronic form format. All "walk-in" customers with notices that are not on electronic *Adobe* forms will be routed to the Contact Centre where they will be assisted to complete the forms in the required format.
- 12. Should a customer submit a bulk submission of hard copy notices delivered by a messenger on behalf of any organisation e.g. newspaper publisher, the messenger will be referred back to the sender as the submission does not adhere to the submission rules.

QUOTATIONS

- 13. Quotations are valid until the next tariff change.
 - 13.1. Take note: GPW's annual tariff increase takes place on 1 April therefore any quotations issued, accepted and submitted for publication up to 31 March will keep the old tariff. For notices to be published from 1 April, a quotation must be obtained from GPW with the new tariffs. Where a tariff increase is implemented during the year, GPW endeavours to provide customers with 30 days' notice of such changes.
- 14. Each quotation has a unique number.
- 15. Form Content notices must be emailed to the *eGazette* Contact Centre for a quotation.
 - 15.1. The *Adobe* form supplied is uploaded by the Contact Centre Agent and the system automatically calculates the cost of your notice based on the layout/format of the content supplied.
 - 15.2. It is critical that these *Adobe* Forms are completed correctly and adhere to the guidelines as stipulated by **GPW**.

16. APPLICABLE ONLY TO GPW ACCOUNT HOLDERS:

- 16.1. GPW Account Customers must provide a valid GPW account number to obtain a quotation.
- 16.2. Accounts for GPW account customers must be active with sufficient credit to transact with GPW to submit notices.
 - 16.2.1. If you are unsure about or need to resolve the status of your account, please contact the GPW Finance Department prior to submitting your notices. (If the account status is not resolved prior to submission of your notice, the notice will be failed during the process).

17. APPLICABLE ONLY TO CASH CUSTOMERS:

- 17.1. Cash customers doing **bulk payments** must use a **single email address** in order to use the **same proof of payment** for submitting multiple notices.
- 18. The responsibility lies with you, the customer, to ensure that the payment made for your notice(s) to be published is sufficient to cover the cost of the notice(s).
- 19. Each quotation will be associated with one proof of payment / purchase order / cash receipt.
 - 19.1. This means that the quotation number can only be used once to make a payment.

COPY (SEPARATE NOTICE CONTENT DOCUMENT)

- 20. Where the copy is part of a separate attachment document for Z95, Z95Prov and TForm03
 - 20.1. Copy of notices must be supplied in a separate document and may not constitute part of any covering letter, purchase order, proof of payment or other attached documents.

The content document should contain only one notice. (You may include the different translations of the same notice in the same document).

20.2. The notice should be set on an A4 page, with margins and fonts set as follows:

Page size = A4 Portrait with page margins: Top = 40mm, LH/RH = 16mm, Bottom = 40mm; Use font size: Arial or Helvetica 10pt with 11pt line spacing;

Page size = A4 Landscape with page margins: Top = 16mm, LH/RH = 40mm, Bottom = 16mm; Use font size: Arial or Helvetica 10pt with 11pt line spacing;

CANCELLATIONS

- 21. Cancellation of notice submissions are accepted by GPW according to the deadlines stated in the table above in point 2. Non-compliance to these deadlines will result in your request being failed. Please pay special attention to the different deadlines for each gazette. Please note that any notices cancelled after the cancellation deadline will be published and charged at full cost.
- 22. Requests for cancellation must be sent by the original sender of the notice and must accompanied by the relevant notice reference number (N-) in the email body.

AMENDMENTS TO NOTICES

23. With effect from 01 October 2015, **GPW** will not longer accept amendments to notices. The cancellation process will need to be followed according to the deadline and a new notice submitted thereafter for the next available publication date.

REJECTIONS

- 24. All notices not meeting the submission rules will be rejected to the customer to be corrected and resubmitted. Assistance will be available through the Contact Centre should help be required when completing the forms. (012-748 6200 or email info.egazette@gpw.gov.za). Reasons for rejections include the following:
 - 24.1. Incorrectly completed forms and notices submitted in the wrong format, will be rejected.
 - 24.2. Any notice submissions not on the correct Adobe electronic form, will be rejected.
 - 24.3. Any notice submissions not accompanied by the proof of payment / purchase order will be rejected and the notice will not be processed.
 - 24.4. Any submissions or re-submissions that miss the submission cut-off times will be rejected to the customer. The Notice needs to be re-submitted with a new publication date.

APPROVAL OF NOTICES

- 25. Any notices other than legal notices are subject to the approval of the Government Printer, who may refuse acceptance or further publication of any notice.
- 26. No amendments will be accepted in respect to separate notice content that was sent with a Z95 or Z95Prov notice submissions. The copy of notice in layout format (previously known as proof-out) is only provided where requested, for Advertiser to see the notice in final Gazette layout. Should they find that the information submitted was incorrect, they should request for a notice cancellation and resubmit the corrected notice, subject to standard submission deadlines. The cancellation is also subject to the stages in the publishing process, i.e. If cancellation is received when production (printing process) has commenced, then the notice cannot be cancelled.

GOVERNMENT PRINTER INDEMNIFIED AGAINST LIABILITY

- The Government Printer will assume no liability in respect of—
 - 27.1. any delay in the publication of a notice or publication of such notice on any date other than that stipulated by the advertiser;
 - 27.2. erroneous classification of a notice, or the placement of such notice in any section or under any heading other than the section or heading stipulated by the advertiser;
 - 27.3. any editing, revision, omission, typographical errors or errors resulting from faint or indistinct copy.

LIABILITY OF ADVERTISER

28. Advertisers will be held liable for any compensation and costs arising from any action which may be instituted against the Government Printer in consequence of the publication of any notice.

CUSTOMER INQUIRIES

Many of our customers request immediate feedback/confirmation of notice placement in the gazette from our Contact Centre once they have submitted their notice – While **GPW** deems it one of their highest priorities and responsibilities to provide customers with this requested feedback and the best service at all times, we are only able to do so once we have started processing your notice submission.

GPW has a 2-working day turnaround time for processing notices received according to the business rules and deadline submissions.

Please keep this in mind when making inquiries about your notice submission at the Contact Centre.

- 29. Requests for information, quotations and inquiries must be sent to the Contact Centre ONLY.
- 30. Requests for Quotations (RFQs) should be received by the Contact Centre at least **2 working days** before the submission deadline for that specific publication.

PAYMENT OF COST

- 31. The Request for Quotation for placement of the notice should be sent to the Gazette Contact Centre as indicated above, prior to submission of notice for advertising.
- 32. Payment should then be made, or Purchase Order prepared based on the received quotation, prior to the submission of the notice for advertising as these documents i.e. proof of payment or Purchase order will be required as part of the notice submission, as indicated earlier.
- 33. Every proof of payment must have a valid **GPW** quotation number as a reference on the proof of payment document.
- 34. Where there is any doubt about the cost of publication of a notice, and in the case of copy, an enquiry, accompanied by the relevant copy, should be addressed to the Gazette Contact Centre, **Government Printing Works**, Private Bag X85, Pretoria, 0001 email: info.egazette@gpw.gov.za before publication.
- 35. Overpayment resulting from miscalculation on the part of the advertiser of the cost of publication of a notice will not be refunded, unless the advertiser furnishes adequate reasons why such miscalculation occurred. In the event of underpayments, the difference will be recovered from the advertiser, and future notice(s) will not be published until such time as the full cost of such publication has been duly paid in cash or electronic funds transfer into the **Government Printing Works** banking account.
- 36. In the event of a notice being cancelled, a refund will be made only if no cost regarding the placing of the notice has been incurred by the **Government Printing Works**.
- 37. The **Government Printing Works** reserves the right to levy an additional charge in cases where notices, the cost of which has been calculated in accordance with the List of Fixed Tariff Rates, are subsequently found to be excessively lengthy or to contain overmuch or complicated tabulation.

PROOF OF PUBLICATION

DR MJ PHAAHLA, MP MINISTER OF HEALTH

DATE: 09/09

SCHEDULE

Definition

1. In these regulations any word or expression to which a meaning has been assigned in the Act shall bear such meaning and, unless the context indicates otherwise-

"Regulations" means the Regulations relating to the Conduct of Inquiries into Alleged Unprofessional Conduct made under the Health Professions Act, 1974 (Act No. 56 of 1974), and published under Government Notice No. R. 102 06 February 2009 and amended by Government Notice No. 53 in Government Gazette No. 42980 of 31 January 2020; and

"the Act" means the Health Professions Act, 1974 (Act No. 56 of 1974).

Amendment of regulation 3 of the Regulations

2. Regulation 3 of the Regulations is hereby amended by substitution of the following –

"3. Mediation

- (1) The chief mediator must -
 - (a) mediate in the case of minor transgressions referred to him or her for mediation in terms of regulation 2(3)(d) with a view to resolving such matters;
 - refer cases that could not be resolved through mediation to the registrar for preliminary investigation; and
 - (c) refer matters not falling under the jurisdiction of the council to appropriate bodies or tribunals and inform the complainant of such referral.
- (2) The chief mediator may, after receiving a complaint for mediation, call for further information in any manner he or she deems appropriate from any person who, in his or her opinion, may assist in the mediation to resolve the matter.

- (3) The chief mediator must, after receiving the information referred to in subregulation (2), consider the matter and mediate between the parties with a view to making a determination to resolve the matter between the parties, advise the parties of his or her determination on the matter and require them to indicate whether or not they will abide by the determination.
- (4) If the parties agree to abide by the determination, the chief mediator must confirm the determination in writing and the determination will then be binding on both parties as a final resolution of the matter.
- (5) If either party does not agree to abide by the determination, the matter must be referred to the registrar for preliminary investigation.
- (6) The information obtained by the chief mediator in terms of subregulation
 (2) is confidential and privileged and, if a matter is referred for preliminary investigation in terms of subregulation (5), such information may not be considered by the preliminary committee of inquiry."

Insertion of regulation 4A in the regulations

The Regulations are hereby amended by insertion of regulation 4A after regulation 4
of the regulations-

"4A Appeal

- (1) A complainant who is aggrieved by the decision of the Preliminary Committee of Inquiry may appeal to the appeals committee of the relevant professional board against such decision.
- (2) Notice of appeal must be submitted within 30 days from the date on which such decision was made or from the date the complainant becomes aware of such decision."

Amendment of regulation 5 of the regulations

4. Regulation 5 of the Regulations is hereby amended by substitution for the following -

"5. Arranging an inquiry

- (1) After receipt of a directive referred to in regulation 4(8) or a notice of rejection of the penalty or if no response is received by the due date as contemplated in regulation 4(9)(6), the registrar must issue a notice, essentially in the form of Annexure A to these regulations, addressed to the respondent, stating the date and time when and the place where the inquiry will be held and enclosing a charge sheet as formulated by the proforma complainant.
- (2) The formulation of a charge sheet by the pro forma complainant shall not be subject to the approval of the preliminary committee of inquiry or the approval of the chairperson of the preliminary committee of inquiry.
- (3) The registrar must serve the notice and the charge sheet referred to in sub regulation (1) at the address of the respondent at least 30 days prior to the date of the inquiry, and a copy of the notice and charge sheet must be served at the address of the respondent's legal representative, if appointed at the time of service to the respondent.
- (4) The pro forma complainant may, at any time, effect immaterial amendments to a charge sheet without the approval of the preliminary committee of inquiry or the approval of the chairperson of the preliminary committee of inquiry"

Amendment of regulation 7 of the Regulations

- 5. Regulation 7 of the Regulations is hereby amended by substitution for the following-
 - "7. Exchange of documents

- (1) The pro forma complainant and the Respondent or his or her legal representative must, 30 days before the inquiry, exchange all documents which they intend using during the hearing of the complaint by the professional conduct committee.
- (2) The *pro forma* complainant must initiate the exchange of documents in terms of sub regulation (1).
- (3) The respondent or his or her legal representative must, 30 days before the inquiry, indicate the exceptions, objections (including an objection to the jurisdiction of a professional conduct committee to inquire into the matter) or points in limine he or she intends to raise"

Amendment of regulation 8 of the regulations

- **6.** Regulation 8 of the regulations is hereby amended by the substitution for sub regulation (1) of the following sub regulation:
 - "(1) In order to determine the issues in dispute, the *pro forma* complainant must arrange a pre-inquiry conference, which must be attended by both parties or their legal representatives, if any, on any date at least seven days before the date of the inquiry at a mutually convenient time and venue, at which conference-
 - (a) the respondent or his or her legal representative must indicate the exceptions, objections (including an objection to the jurisdiction of a professional conduct committee to inquire into the matter) or points in limine he or she intends to raise;
 - (b) the respondent or his or her legal representative must indicate how he or she intends to plead to the charge or charges;
 - (c) copies of all documents, reports, notes, X-rays or any other exhibits which became available after the exchange of documents in terms of regulation 7 and which a party intends to use at the inquiry must be furnished to the other party;
 - (d) perusal of the originals of the documents, reports, notes, X-rays or other exhibits referred to in paragraph (c) is allowed;

- (e) admissions may be made by both parties with regard to allegations or exhibits; and
- (f) any other matter concerning the inquiry must be resolved".

Amendment of regulation 11 of the regulations

- Regulation 11 of the regulations is hereby amended by the substitution for sub regulation (1) of the following sub regulation –
 - "(1) The respondent or the pro forma complainant may, after the imposition of a penalty on the respondent, appeal to the appeal committee against the findings or penalty of the professional conduct committee or both such finding and such penalty."

Amendment of regulation 13 of the regulations

- 8. Regulation 13 of the regulations is hereby amended by insertion of subregulation (5) after subregulation (4)-
 - "(5) The pre-inquiry conference and the professional conduct inquiry may be conducted through video conferencing of any form including but not limited to microsoft teams, skype, or webex".

Short title

 These Regulations are called Regulations Relating to the Conduct of Inquiries into Alleged Unprofessional Conduct Under the Health Professions Act, 1974: Amendment, 2021.

DEPARTMENT OF HEALTH

NO. 1067 22 October 2021

HAZARDOUS SUBSTANCES ACT 15 OF 1973

DECLARATION OF LEAD IN PAINT OR COATING MATERIAL AS A GROUP II HAZARDOUS SUBSTANCE

The Minister of Health intends in terms of section 2(1) of the Hazardous Substances Act, 1973 (Act No. 15 of 1973), to declare leaded paint or coating material, to be a Group II hazardous substance.

Interested persons are invited to submit substantiated comments or representations on the proposed Notice to the Director-General: Department of Health, Private Bag X 828, Pretoria, 0001 (for the attention of the Chief Director: Environmental Health & Port Health Services), by fax to: 012- 395 8802, attention: Ms Aneliswa Cele, or by e-mail to: Aneliswa.Cele@health.gov.za, within three months from the date of publication of this Notice.

SCHEDULE

Definitions

- 1. In this Notice any word or expression to which a meaning has been assigned in the Act shall have the meaning so assigned and, unless the context otherwise indicates:-
 - "Coating material" means a product, in liquid, paste or powder form, that, when applied to a substrate, forms a layer possessing protective, decorative and/or other specific properties;

"Leaded paint or coating material" means paint or a similar coating material used for any purpose with a total lead content above 0.009% (90 ppm) or 90 mg/kg, based on the weight of the total non-volatile content;

"Paint" means a pigmented or unpigmented coating material which, when applied to a substrate, forms an opaque dried film having protective, decorative or specific technical properties; and

"the Act" means the Hazardous Substances Act, 1973 (Act No. 15 of 1973).

Hazardous Substance Declaration

- **2.** (1) Leaded paint or coating material is hereby declared a Group II hazardous substance.
- (2) The declaration contemplated in subparagraph (1) applies to all paints and coating materials.

Repeal

3. The declaration of leaded paint as Group I hazardous substance, published in Government Notice No. 801, *Gazette* Number 32455 of 31 July 2009 is hereby repealed.

Commencement of Notice

4. This Notice comes into operation one year after the date of publication.

MINISTER OF HEALTH

DATE: 01/09/2021

DEPARTMENT OF HIGHER EDUCATION AND TRAINING

NO. 1068 22 October 2021

HIGHER EDUCATION ACT, 1997 (ACT No. 101 OF 1997)

NOTICE OF INTENT TO CANCEL THE REGISTRATION OF PM ACADEMY (PTY) LTD AS A PRIVATE HIGHER EDUCATION INSTITUTION

I, Phil Mjwara, Acting Director-General of the Department of Higher Education and Training, hereby, in terms of section 63(a) of the Higher Education Act, 1997 (Act No. 101 of 1997, as amended) (the Act) and Regulation 17(3) of the Regulations for the Registration of Private Higher Education Institutions, 2016 (the Regulations), give notice of intent to cancel the registration of PM Academy (Pty) Ltd as a private higher education institution. The reasons for my notice of intent to cancel the institution's registration is that PM Academy (Pty) Ltd has ceased to meet the eligibility criteria for providing higher education as required by section 1 of the Act and it ceases to meet the requirements for registration as required by sections 1 and 53(1)(b)(ii) of the Act and Regulations 21(a) and (d).

The notice of intent to cancel the registration of PM Academy (Pty) Ltd will take immediate effect. As of the date of this notice, PM Academy (Pty) Ltd must not enrol new students for higher education programmes. PM Academy must phase out pipe-line students by 31 December 2021.

Dr P Mjwara

DEPARTMENT OF WATER AND SANITATION

NO. 1073 22 October 2021

CALEDON MODDER SUBSYSTEM - LIMITING THE USE OF WATER IN TERMS OF ITEM 6 OF SCHEDULE 3 OF THE NATIONAL WATER ACT OF 1998 FOR URBAN AND IRRIGATION PURPOSES FROM THE DAMS WITHIN THE CALEDON-MODDER SUBSYSTEM

I, **Deborah Mochotlhi**, in my capacity as Acting Director-General of the Department of Water and Sanitation, on reasonable grounds believe that a potential water shortage exists in the Caledon Modder subsystem especially in the Modder River catchment. This is due to insufficient rains and infrastructural constraint that is limiting transfer capacity from the Caledon to the Modder sub-system.

In terms of Item 6(1) of Schedule 3 to the Act, the Minister of Water and Sanitation may limit the use of water if on reasonable grounds the Minister believes that a water shortage exists within the area concerned. This power has been delegated to me in terms of section 63 (1) (b) of the Act.

Therefore, in my capacity as the Acting Director-General of the Department of Water and Sanitation, I hereby under delegated authority in terms of item 6 (1) of Schedule 3 to the Act limit the taking of water from the Caledon-Modder subsystem by all users as follows:

a) 16% restriction on water use for Domestic and Industrial supply to the Mangaung Metropolitan Supply area.

The limitations apply from the date of this notice until further notice.

DATE: (| & 9/202)

In exercising the powers, I have given preference to the maintenance of the Reserve, treated all water users on a basis that is fair and reasonable, considered the actual extent of the water shortage, the likely effects of the shortage on the water users, the strategic importance of any water use and any water rationing or water use limitations by a water services institution having jurisdiction in the area concerned under the Water Services Act 108 of 1997.

Placing limitation on the taking of water use as set out in this notice is an administrative action affecting the rights of the public as contemplated in section 4 of the Promotion of Administrative Justice Act 3 of 2000 (PAJA). After I have taken into consideration all relevant factors, including those referred in section 4 (4) (b), I have decided that it is reasonable and justifiable in the circumstances to depart from the requirements referred to in section 4 (1) (a) to (e), (2) and (3) and instituted this limitation without allowing the water users affected and other role players to comment on the matter before I institute the limitation.

This notice overrides any other previous authorization on water restrictions issued by the Department relating to this area.

DEPARTMENT OF AGRICULTURE, LAND REFORM AND RURAL DEVELOPMENT NOTICE 618 OF 2021

GENERAL NOTICE IN TERMS OF SECTION 11 (A) (2) OF THE RESTITUTION OF LAND RIGHTS ACT, NO 22 OF

WHEREAS a land claim was lodged by Johannes Phumlani Phungula on behalf of the Embo Community, which claim was published in terms of section 11 (1) of the Restitution of Land Rights Act, No 22 of 1994 (as amended), herein referred to as the Act.

NOW THEREFORE NOTICE is hereby given in terms of section 11(A) (2) of the Act that at the expiry of **thirty (30)** days from the date of the publication of this notice in the Government Gazette, the notices of the claim previously published in terms of section 11 (1) of the Act under Notice No. 1128 of 2006 published in Government Gazette No. 29133 dated 25 August 2006, will be amended to **EXCLUDE** the properties listed below, unless cause to the contrary is shown to the satisfaction of the Regional Land Claims Commissioner.

The details of Notice No.1128 of 2006 published in Government Gazette No. 29133 dated 25 August 2006 include the following:

Reference No. : KRN6/2/2/E/47/0/0/19

Claimant : Johannes Phumlani Phungula on behalf of the Embo Community

Property Description : see attached schedule

Total extent : see attached schedule

Owner : see attached schedule

Any party who may have an interest in the above mentioned land claim is hereby invited to make representations, within 30 days from the publication of this notice, as to show cause why the claim should not be amended in terms of section 11 (A) (4) of the Act.

The representations must be forwarded to

The Regional Land Claims Commissioner: KwaZulu-Natal Private Bag X9120 Pietermaritzburg 3200

Tel: (033) 355-8400 Fax: (033) 342-3409

Submissions may also be delivered to African Life Building, Second Floor, 200 Church Street, Pietermaritzburg 3201.

General definitions:

Assumed fee level: This is an indicator ranging in value from 0.00 to 1.00 that indicates the expected level of fee-charging for each programme on the register of nationally approved TVET College programmes. A value of 0.20 would indicate that the DHET expected 20% of the full cost of the programme to be covered through college fees. The assumed fee level must be informed by clear analysis of historical trends with respect to college fees and the education and training market in general

Assumed value of fee income: This is the expected monetary value of college fee income.

Certification Rate: Refers to the number of students who successfully completed qualification that academic year, expressed as a percentage of the number of candidates who were eligible to complete qualifications and wrote the examinations.

Formula funding of programmes: This is the system for funding the nationally approved TVET College programmes. These programmes consume the great bulk of public funding destined for TVET Colleges. The system works basically as follows: The DHET determines a funding rate (programme cost), in rand terms, describing the costs of delivering TVET College programmes.

Formula funding grid: This is a schema used to organise formula funding of programmes. The formula funding grid appears in Appendix A of this policy. The schema, which appears in a blank version and a version with dummy data, should be used to illustrate the funding policy contained in the paragraphs that follow. The same formula funding grid applies to all public TVET Colleges in the country. One formula funding grid, as presented in Appendix A, is designed to cover the formula-funded services of one institution during the course of one academic year. Several versions of the grid should be used to cover several years in the planning cycle. The formula funding grid does not deal with the private income of colleges or public funding other than formula funding of programmes. The formula funding grid is a tool for the planning of public funded TVET services delivered by a college, plus a tool for determining how much formula funding of programmes a college should receive. Further details on how the formula funding grid should be used are provided from paragraph 34 onwards

Full-time equivalent students: Full-time equivalent (FTE) students are the number of individual students multiplied by the programme duration. The formula is as follows:

FTE students = Individual students \times Programme duration in a year

The number of FTE students per programme is a key determinant of the funding that should flow to each programme that is offered by a college. The FTE calculations are based on subject enrolments. Take the example of a student who must enrol in 7 subjects for the NC(V). If the student enrols for only 4 of the 7 subjects, the student enrolment is equal to 4/7 FTEs or 0.57 FTEs.

Individual students: This is the number of actual students enrolled in each programme entered in the formula funding grid. The determination of these numbers constitutes a crucial part of the DHET-College planning process. Where a student is enrolling for a number of subjects less than the total required by the programme e.g. seven subjects for NC(V) programmes a value of 1/7 per subject will be applied.

Programme: This refers to a nationally approved programme and is contained in the national register of programmes (see paragraph 38) approved by the Minister in terms of section 43(1) of the Continuing Education Training (CET) Act, 2006 (Act No. 16 of 2006). The definition of programme used in the formula funding grid and applicable to TVET Colleges is specific to this policy and is not necessarily the equivalent of the NQF definition of a programme.

OVERVIEW OF THE TVET COLLEGE SECTOR FUNDING

Where the word college is used in these norms, it refers to TVET College

What services are funded?

The emphasis is on a shift towards training that tackles skills and unemployment problems more aggressively through, for instance, more relevant training content and the cost effective use of college facilities and resources. The funding norms specify how Government, in collaboration with industry stakeholders, should determine what programmes should be offered where and to what extent, and how colleges must receive funding to respond to these needs.

Equity and redress

The funding norms are pro-poor in that they accord access to those who cannot afford to pay fees through a bursary scheme that is administered by the National Student Financial Aid Scheme (NSFAS). A means test is conducted to determine the eligibility for bursary funding. A bursary provided by the state enables poorer and academically capable students not to pay college fees.

The funding norms emphasise the importance of concentrating public funds on training that is not being adequately financed by the private sector, and this would to a large extent be training for the historically disadvantaged. Colleges are required to incorporate targets relating to race, gender and special needs representativity within the three-year strategic plans that they draw up in collaboration with the Department of Higher Education and Training (DHET).

The size of the TVET College sector

By international standards, the size of the Technical and Vocational Education and Training (TVET) College sector is too small for the size and level of development of South African economy. It is evident that in terms of both a proportion of the national education budget and as a percentage of GDP that TVET Colleges are underfunded especially in the light of the proposals in the *White Paper on Post-School Education and Training and the National Development Plan 2030*. Head-count enrolments increased from 345 566 in 2010, 688 028 in 2017 and have a target of 710 000 by 2024 though still expected to be 2.5 million by 2030. The education budget in 2018/19 financial year was divided as follows: Schooling 84%, University 11%, and TVET Colleges 4%. The correct balance between TVET College and University funding needs to be addressed incrementally over time.

Improved management of the sector flowing from the merger process, in conjunction with the TVET Colleges funding norms and an injection of new public funds into the sector will work together to bring about the necessary expansion, not just because more training is supplied, but also because transformation within the sector leads to stronger demand on the part of youth, employees, employers and the unemployed.

Governance at the national level

Currently, DHET strategic plan guide what happens in the public TVET Colleges sector. However, these mechanisms are inadequate to ensure that the quality and quantity of services offered by the colleges respond to social and economic needs.

The funding norms assign specific planning responsibilities and powers to the national and college levels. At all levels, collaboration with relevant government organs as well the private sector is emphasised. Specifically,

dedicated research into the cost of delivering programmes and into the optimal service delivery targets of the college sector as a whole is the responsibility of the DHET is to work closely with colleges to develop and implement three-year strategic and annual performance plans for each college. Through this mechanism national priorities are to be translated into funded activities run by the colleges.

The funding formula

In terms of these funding norms and standards, the bulk of DHET funding of colleges is in the form of formula funding of programmes, where the formula takes into account a range of service delivery issues, including type of programme being offered (the NC(V), NATED Report 191 programmes, Pre-Vocational Learning programmes(PLP) and other Occupational programmes as approved in a national register), FTE students, cost of delivery including staff, capital infrastructure requirements, and the ability of colleges to utilise resources efficiently. The funding formula introduced a system of resourcing that is more sensitive to the actual cost of service delivery and takes into consideration outputs and quality.

As in many other countries, funding formulae should take into account the variable costs of programmes and the factors that disadvantage certain institutions and the students that populate them. Rural colleges clearly need a funding adjustment through an additional weighting on the formula.

Collaborative funding

In the United Kingdom, main institutional forms of further education include further education colleges and tertiary colleges, specialist colleges (mainly colleges of agriculture and horticulture and of drama and dance) and private training companies which work with colleges and employers to provide practical training and qualifications in subjects such as engineering, construction, ICT and health and social care. They usually have strong links with companies and potential employers. They are autonomous statutory corporations invariably governed by independent boards of governors. Colleges are externally regulated and quality assured and must demonstrate accountability externally to learners, employers and communities.

College fees and affordability

Three measures in the funding norms tackle the problem of excessive private cost for poorer students. Firstly, the funding formula and the college planning frameworks makes a clear link between the public funding that is available and services that must be offered. Better public funding of public priority programmes is thus envisaged. Secondly, fees are to be capped at levels that are in tune with the level of public funding and the estimated total cost of service delivery. Thirdly, a bursary will be allocated to colleges to cover college fees for academically capable students who cannot afford to pay college fees. This policy makes it the responsibility of the DHET to determine the bursary across colleges and allocate bursary funds accordingly.

Services to other clients

Colleges currently charge a variety of organisations, both public and private, for training services provided. There is currently no legal framework dealing specifically with college income from organisations other than the DHET. The use of DHET-funded capital infrastructure to cross-subsidise services for other clients has been a concern. The measures to deal with cross-subsidisation by public colleges are dealt with under Fee-for-Service in paragraph 75 - 78.

Responsiveness of colleges to other clients parallel to the delivery of programmes covered by the funding formula will continue to be encouraged. However, this should support economic development and should not conflict with the core business of colleges to provide training according to agreements concluded with the

DHET. This policy outlines what existing financial management and reporting regulations should be applied in this regard, and new requirements will be established where gaps exist.

Planning and reporting cycles

In terms of this policy, clear steps for planning and reporting in the sector are established. Moreover, the explicit linking of plans, budgets and service delivery through three-year performance agreements following a basic national format is intended to assist in a more transparent planning process that will involve a greater range of stakeholders.

Economy and Education

Though education provides a foundation for development, its contribution to economic and social wellbeing depends on its quality (i.e. its ability to transmit skills and knowledge) and the responsiveness of the economy in ensuring a demand for educated labour. In the economic development context in South Africa, the role of technical and vocational education and training is particularly crucial to the development of the country's manufacturing sector which at this point is seriously underdeveloped given the country's level of development.

A. INTRODUCTION

The purpose of this policy

- 1. This policy governs all funding and expenditure by the Department of Higher Education and Training (DHET) of programmes listed in the register of nationally approved programme offered by public TVET colleges. Furthermore, this policy establishes certain approaches and procedures that the DHET and public colleges should follow to improve alignment between different streams of public and private funding in the area of technical and vocational education and training.
- 2. This policy emanates from section 23 of the *Continuing Education and Training (CET) Act*, 2006 (Act No.16 of 2006), which requires the Minister of Higher Education and Training to determine norms and standards for the funding of public education and training colleges.
- 3. This policy is intended to advance a number of the goals of government relating to people's education rights, skills development, curriculum transformation, job creation, poverty alleviation, economic growth, regional cooperation and the building of a free, democratic and equitable South Africa. Some of the key government policy documents that inform this policy are the following: Education White Paper 4; White Paper for Post School Education and Training (PSET), A Programme for the Transformation of Further Education and Training (1998); A New Institutional Landscape for Public Further Education and Training Colleges (2001); Human Resource Development Strategy for South Africa (2001); National skills development strategy (2005); the National Certificate (Vocational): A Oualification on Levels 2, 3 and 4 of the NQF (2006).
- 4. This policy further represents a major consolidation and refining of Government's position on the public funding of programmes offered at TVET College. However, there are aspects of this policy that must inevitably change and be further refined as the education and training sector in the country evolves and develops. This policy must thus be read as an important milestone in a process of ongoing debate and policy refinement with respect to the public funding of programmes offered at TVET College.

People's education rights

- 5. This funding policy is an important tool whereby Government supports and promotes the education rights of South Africa's people. The policy is explicitly designed to tackle the unequal access to technical and vocational education and training, and inequalities in terms of the quality of the education service.
- 6. The Bill of Rights confers on all people in the country the right to further education. The Bill specifies that the state must make further education progressively available and accessible, through reasonable means.
- 7. The public funding of TVET Colleges serves to promote the fulfilment of people's constitutional rights to further education. Moreover, this aspect of public funding assists people to realise their full potential in terms of their lifelong learning and their career paths, in particular where history and social inequities have put people at a disadvantage.

Specific challenges in the South African technical and vocational education and training sector

- 8. This funding policy will be used to address the following challenges that still persist in the TVET College system:
 - (a) This policy aims to reverse the low enrolments in colleges as compared to universities so that a pyramid shaped education system is gradually established in which the TVET College sector serves more students.
 - (b) Quality problems linked to the history of under-funding of colleges are a serious threat to the education and training offered by TVET Colleges. In the past, this has impacted negatively on the ability of graduates to find employment. The NATED Report 191 and the NC(V) policy is designed to ensure that TVET Colleges offer high quality priory skills programmes that are relevant and responsive to the needs of a growing economy. This funding policy will help ensure that more youth are enrolled in high priority skills programmes.
 - (c) Effective educators at the TVET Colleges are key to bringing about the transformation of these institutions. The development of the educator corps to deal with new challenges needs to go hand in hand with greater flexibility in terms of the timing, mode and location of the service offered. Physical facilities at the institutions should be more extensively utilised.

B. A FRAMEWORK FOR THE PUBLIC FUNDING OF TECHNICAL AND VOCATIONAL EDUCATION AND TRAINING

Positioning public funding of technical and vocational education and training at TVET Colleges

9. Technical and vocational education and training is clearly a joint responsibility of government and the private sector. It is important that public and private funding of this activity should complement each other. Two major public areas of responsibility stand out. One is the promotion of widespread and appropriate technical and vocational education and training programmes for the historically disadvantaged, who are usually not in a position to purchase these services privately. Another is the development of skills in industries, including niche industries offering special opportunities for the

- country, where the private sector is not investing adequately in the necessary human resources development.
- 10. The goal of prioritising the poor in the public funding system is to be balanced with an approach, similar to the approach followed in the FET schooling system that promotes broadly inclusive public institutions that are representative of society in general. This balance is required in the interests of nation-building. To achieve this, the funding formula has three keys components. The first is the government subsidy for which covers 80% of the programme costs. The second is placing a cap on college level fees, thus limiting the portion of programme cost which may be charged to 20% of the programme cost. The third is the establishment of a national bursary system to ensure that students who are academically capable but do not afford to pay fees are assisted to pay college fees.
- 11. The funding model for the TVET sector must ensure that baseline funding does not perpetuate past underfunding of the colleges in certain provinces. Additional allocations must be used to achieve a more equitable funding regime across the provinces
- 12. Intervention must be made to improve fiscal governance in TVET Colleges, including recruitment of appropriate skills, ongoing training, and credible financial systems and processes.
- 13. A plan for developing management capacity both in the short term and in longer term training programmes will need to be costed and linked to a much clearer specification of the funding principles for the adequate staffing of these institutions.
- 14. Research indicates that private funding of technical and vocational education and training outside of the school system in South Africa is high, probably higher than public funding. At the same time, private spending directed towards on-the-job training has been declining substantially. It is imperative that public funding should be positioned in such a way that it complements private funding in the achievement of the country's development goals. Specifically, this involves a few key imperatives:
 - (a) The current practice in public TVET Colleges of offering public services whilst also selling services to the private sector should continue, and is in fact encouraged by this policy as a way of making these institutions more responsive and innovative. However, this policy also lays down certain guidelines and restrictions in this regard. In particular, it is important for there to be a clear accounting division between publicly funded and privately funded services in colleges in order to avoid a situation in which public funding is used to cross-subsidise privately offered services. This can put the quality of the public service at risk, and results in prices for private services that are below the market value, because they do not capture the full cost of the service. The issue of avoiding cross subsidisation is dealt with under Fee for Service in paragraph 78 onwards.
 - (b) Some public resources should be dedicated towards the monitoring and regulation of private TVET Colleges. This can provide government with important information that is needed in the planning of public funding in public TVET Colleges. In addition the regulation of private TVET College is an important public service that can combat illegal and unethical practices in the training market. Provision for this has been made in Chapter 6 of the CET Act.
 - (c) South Africa has a well-developed legal framework for public-private partnerships (PPPs). Options such as PPPs in terms of which private TVET College utilises public facilities to offer training that is needed by the economy should be explored as part of the joint DHET-college planning process referred to in paragraph 95 onwards.

Performance of TVET Colleges

- 15. In the interests of quality TVET services in the public sector, and in order to minimise inefficient utilisation of funds, it is important that the new funding system should be sensitive to the outputs achieved by public colleges. This is made possible through the joint DHET-college planning process by administering input-output funding which should be considered a performance incentive that eligible colleges can utilise to improve their facilities, conduct further research, or for some similar developmental activity. The output-related aspects of the system are obviously dependent on the credible measurement of college performance, both in terms of successful completions (or the throughput rate) and in terms of the labour market performance of graduates.
- 16. TVET College management must take accountability and responsibility for poor performance by a TVET College and therefore corrective measures to improve college performance should be taken against college management rather than close the college or reduce enrolment that will bring instability in staff establishment and adversely affect the respective communities which are not the cause for college inefficiency.

Role of the public TVET Colleges

- This policy considers public TVET Colleges to be critical for the delivery of cost-effective public services that make a real difference to skills development, labour market readiness amongst our youth and the growth of the economy. At the same time, the funding system described here establishes new roles and responsibilities for the college councils and college management. What is strongly emphasised in this policy is a collaborative planning approach involving the college stakeholders, government and employer and employee organisations from the private sector. To a large degree, public funding of public TVET Colleges is envisaged as the procurement of specific training services by government, linked to a clear and three year joint DHET-college planning cycle that considers local, provincial and national demands, as well as the adequacy of the physical and human capital of colleges to deliver the specific services.
- 18. Public TVET Colleges should continue to be responsible for the structuring of their college fees, including college fees charged for publicly funded programmes. This arrangement allows managers in colleges to be responsive to local cost pressures and pressures relating to the ability of students to pay fees. However, this policy assumes that it is important for the structuring of college fees, particularly fees charged for publicly funded programmes, to be subject to certain guidelines and restrictions aimed at advancing equity and efficiency in the delivery of public services.
- 19. White Paper 4 does not preclude the possibility of TVET Colleges offering Higher Education programmes, though it opposes excessive mission drift in colleges away from the TVET sector. The White Paper further states that HE programmes should be funded through the relevant HE funding policies, and not this policy. This policy, therefore, applies to TVET services only. In this policy, all income received for HE training services in colleges is considered part of the fee-for-service income described in paragraph 76 onwards.
- 20. The Higher Education qualifications being taught at TVET Colleges (particularly Higher Certificates and Diplomas) need to articulate with further qualifications in Higher Education institutions and fair credit transfer be allowed.
- 21. Some specialised TVET colleges which are referred as centres of specialisation offer occupational trades that are included in the Ministerial Approved Programmes for state funding.

Programme types funded at TVET Colleges

- 22. The TVET colleges focuses on four types of programme offerings:
 - (a) The National Certificate: (Vocational) NC(V)) introduced in 2007 with a wide range of variants to choose from. Grade 9 is a minimum qualification to enter into the NC(V), although a growing proportion of students have Grade 12. A certificate can be obtained for each year of three years of technical/vocation orientated study at NQF levels 2, 3 and 4. NC(V) level 2 to 4 are equivalent to grades 10 to 12 respectively and are at NQF levels 2, 3 and 4. After completing the NC(V), students are required to do approximately two years of work experience. They may then sit the national trade test skills in their field of specialisation.
 - (b) The NATED Report 191 lists national programmes N1 N6 which are largely theoretical in nature and require candidates to complete an extended apprenticeship before sitting the national trade test to become a qualified artisan. Artisan qualifications include plumbing, welding, carpentry, boiler-making and many others. Grade 9 is a minimum qualification to enter into the NC(V) or N1-N3 programmes, although a growing proportion of students have Grade 12. The N1 N3 programmes have never been directly aligned with the NQF, but N3 broadly equates to grade 12. N4 N6 programmes correspond to three years of study post-grade 12, culminating in a National Diploma at NQF level 6.
 - (c) Occupational Programmes which some are offered by Centres of Specialisation and by the Sector Education and Training Authorities (SETAs). These are typically skills based programmes with structured work integration.
 - (d) Pre-Vocational Learning Programmes (PLP).
 - i. Bridging and foundation programmes were developed to assist underprepared students who enter TVET colleges. These programmes are fully government-funded. The cost of these offerings will be offset by the savings made through improved efficiency as a result of better throughput rates and fewer repeaters in the system.
 - ii. The task teams involved in the development of the national plan for post-school education is considering recommending the offering of foundation programmes with compulsory elements on work readiness, ICT skills, life orientation as well as fundamental foundations for mathematics, science and language. These programmes should be coordinated across the colleges.

Other programme types

23. TVET colleges may offer highly skilled short programmes which must be approved by the Minister and may be publicly or privately funded. Other programmes other than the four Ministerial approved published in the National register must not constitute more than 20% of the programmes offered at TVET Colleges.

Research, monitoring and planning

- 24. Public expenditure on research, monitoring and systems development is important for the success of the new funding system. The following clearly require on-going funding.
 - (a) Research focussing on the effectiveness of public expenditure in the sector.
 - In this respect, comparisons by DHET across programmes being offered, across public colleges, across provinces and between the public and private sectors are important. There should be a strong emphasis on the generation of time series data that can indicate whether the effectiveness of the system is improving. Tracer studies that gauge the success rates of graduates in the labour market should be undertaken. Paragraphs 85 87 below deal with the important matter of the costing of TVET College programmes.
 - (b) Monitoring of the sector, and the development of monitoring systems that can improve the relevance and reliability of data.
 - (c) The development and maintenance of a national plan for college enrolments, spending and outputs.
 - This work depends strongly on there being good research and effective monitoring systems. The DHET's role in determining national strategies for the volume and type of training to be offered, at an aggregate level, in TVET Colleges across the country is crucial.
 - (d) The development of information systems, including financial accounting systems.
 - Given the need for nationally standardised systems, and the cost of developing these systems, this responsibility should rest with the DHET at the national level. This policy has implications for the information systems that are required in the sector.
- 25. The National Skills Authority, established in terms of the *Skills Development Act*, 1998, will continue to play an important role in guiding DHET strategies with respect to the funding of TVET. Moreover, the South African Institute of Vocational and Continuing Education and Training (SAIVCET) will, amongst others, provide a much needed support to TVET colleges and the skills development system.

Policy development in the sector

26. This funding policy is expected to evolve as other related policies evolve, and as new best practices emerge. Polices and frameworks that can be expected to shape this policy very directly in the future are the TVET College curriculum, the learnership system maintained by the DHET, and the policies governing the Sector Education and Training Authorities (SETAs).

C. THE SYSTEM FOR FUNDING PUBLIC FURTHER EDUCATION AND TRAINING COLLEGES

Redress principles for public funding

- 27. Public funding of public TVET Colleges must contribute towards the redress of past inequalities. This means that the funding system must deal with two things. Firstly, it must ensure that students or potential students from socio-economically disadvantaged households receive funding at a favourable level, both to deal with additional costs relating to, for example, additional tuition time needed, and to deal with inability to pay college fees. Secondly, funding should be linked, even if indirectly, to targets dealing with the representativity of college student populations in terms of gender, race and disability.
- 28. The aim of government is to ensure that the TVET College sector as a whole is representative of the country's population in terms of gender, race and disability. Moreover, it is the aim of government to bring about better representativity within different programmes, for example a greater presence of female students in Engineering, Finance and ICT programmes. At the college level, the aim should be to promote the national representativity targets through better recruitment of under-represented groups

Input – output funding mix

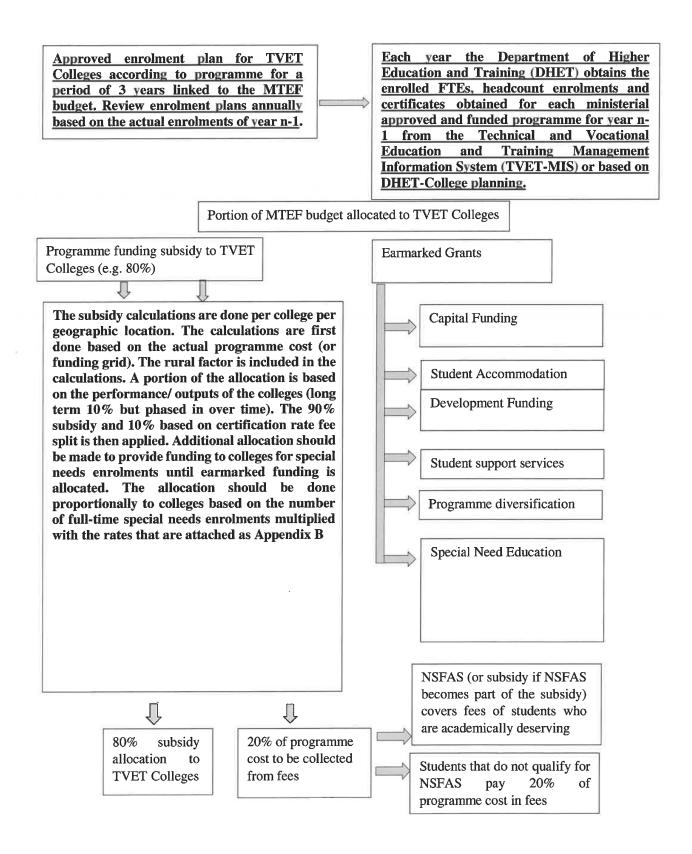

29. Funding mechanism for TVET colleges is changed from the current system of "input-funding" to one based on both inputs and outputs. A 90:10 input-output mix is recommended that up to 10% of the programme subsidy for year n +1 be based on the certificate rate of year n-1 to allow for data collection.

Types of funding for public TVET Colleges.

- 30. The income of TVET Colleges can be divided into the following seven streams:
 - (a) Formula funding of programmes
 - (b) Earmarked capital funding
 - (c) College fees
 - (d) Student financial aid
 - (e) Fee-for-service income
 - (f) Other private funding
 - (g) Other earmarked grants.
- 31. Section D below deals with the formula funding of programmes stream. The remaining funding streams are dealt with in Section E

D. FORMULA FUNDING OF PROGRAMMES

Funding Framework for TVET Colleges

32. The earmarked grants should be allocated as follows:

- (a) Capital funding was allocated as Capital Infrastructure Efficiency Grant (CIEG) on a project basis addressing national priority areas as well as needs and it is explained in paragraph 61 onwards.
- (b) There should be a special funding for student accommodation to fund all the cost of managing residences which cover all the three economic categories.
- (c) Development funding, this public funding stream is similar to the earmarked capital stream, except that it deals with development items:
 - i. It is earmarked for projects of a developmental nature, in particular staff development and implementation of computerised systems, and college-level research. In addition, the earmarked development funding stream covers inputs that are considered part of a basic minimum package of recurrent inputs required more or less equally by all colleges.
 - ii. DHET may determine a basic minimum package required by all colleges to cover basic overhead expenses outside of the formula funding of programmes stream. Such a package, which should be considered earmarked recurrent funding, could take the form of a financial transfer, employee posts or goods and services. Regardless of its form, the monetary value of the basic minimum package should be clearly reflected in the financial statements of colleges. DHET may vary the size of the basic minimum package by college, based on criteria that are fair and fully transparent.
 - iii. Transparency and equity requirements for earmarked recurrent grants directed towards development projects are the same as those applicable to earmarked capital grants and described in paragraph 59 onwards.
- (d) Student support services can be allocated on the basis of full-time equivalents of government funded programmes.
- (e) Programme diversification must be allocated on a project basis at colleges earmarked for the establishment of centres of excellence and need to establish new programmes in certain colleges.
- (f) Special needs education to provide additional funding to colleges for special needs enrolments.

Subsidy Calculation is proposed as followed:

- (a) If a college did not deviate more than 3% from the planned enrolment targets, the DHET should fund the college based on all the enrolled FTEs.
- (b) If the actual enrolments deviate more than 3% from the target, the DHET must adjust the enrolment targets for year n+1.
- (c) If there is no adequate additional funding, over enrolments should not be funded, since it affects the subsidy allocations of other colleges that have managed their enrolments within the targets. This implies that the college will have to fund the over enrolment itself from its own coffers.

- (d) The DHET should allocate a portion of the programme funding based on the performance/outputs of the colleges. In the longer term this should constitute a maximum of 10% of the allocation but to ensure financial stability it could be phased in over a period of time.
 - i. A simple way of implementing such an output subsidy is to allocate output weights to various types of certificates and diplomas awarded by Colleges based on either the duration or credits of the programmes. One could for example allocate an output credit of 1 to one full year of study (1 full-time equivalent) and then allocate credits to other programmes in relation to a full year of study. This approach would allow for the determination of output weights for a variety of programmes as new programmes are introduced in TVET Colleges. Only certificates awarded for ministerial funded programmes should qualify for output subsidy. All certificates and diplomas obtained in year n-1 then gets an output credit weight. The total for the system is calculated and the portion obtained by each college is calculated. The total amount set aside for output funding is then allocated to each college based on their share of the total weighted outputs. As noted, the percentage of the programme funding set aside for this could be a small percentage in the beginning of implementation but it should be increased over time.
- (e) The DHET should introduce an additional funding weight for Rural Colleges, e.g. a 10% additional weight or multiplying their unweighted full-time equivalents with 1.1. There is a need to identify the cost drivers and distance appear to be the most important factor. Rurality contributes to additional delivery and travel costs, accommodation costs, and need for rural allowances for travel and accommodation costs for staff, etc. The classification of colleges/campuses of colleges as urban and rural is needed to identify those that qualify for a rural funding weight. If only certain campuses of a TVET College are rural then the weighting should only be applied to the FTEs of those campuses. Rural costs need to be benchmarked against urban cost. Rural colleges will also attract more disadvantaged students that will require more student support to be successful. There would probably have to be a weight for peri-rural (e.g. 5% additional unweighted FTEs). The exact additional FTEs need to be determined by a technical exercise that will focus on determining the cost differentials for the three groupings of colleges. This will be catered for in the funding rates or in the programme costing.
- (f) Additional funding for Special education needs (SNE) in TVET must be catered for and funded by adding weightings for SNE per category on the funding grid. The amount needed could be calculated on the basis of the indicative category given in Appendix B (Attached) per special needs education student in the funding grid.
- 33. The funding formulae must take into account variables, including: Performance-based funding for student success, weighting for disability, staff development and academic support.

What the funding system is designed to do

- 34. Formula funding of programmes as captured in the formula funding grid is designed to promote particular goals in service delivery. The intention is for the formula funding grid to be only as complex as is necessary for the promotion of these goals. The goals are as follows:
 - (a) To promote transparency and easy comparability in colleges in terms of what programmes are being offered, the number and categories of people reached by programmes, how programmes are funded and success rates.

- (b) To promote predictability over the medium term whilst providing the necessary space for flexibility. It is important to interpret the formula funding grid together with the paragraphs in this policy that allow for flexibility in the implementation process, particularly during the transition to the new system. The funding system should promote good planning, whilst not stifling effective management.
- (c) To promote equity through the provision of bursary funding to colleges for students who are academically capable but cannot afford to pay college fees.
- (d) To promote quality and efficiency in a manner that is sensitive to historical inequities through an incentive system that takes into account both absolute success rates and improvements over historical success rates.
- Formula funding of programmes is intended to cover the recurrent costs of delivering TVET programmes, but also certain capital costs associated with those programmes, specifically costs is intended to cover college overhead costs, specifically those relating to administration and student support. Overhead costs have been incorporated within the formula funding of programmes based on the understanding that most overhead costs are sensitive to college size. The approach taken in the policy is aimed at encouraging efficient practices with respect to the organisation of administration, student support services, college marketing, management and other activities associated with overhead costs.
- 36. The funding system does not envisage a different level of funding for distance education. This position is in line with White Paper 4, which stipulates that funding should not be differentiated by mode or locus of training. Where the offering of distance programmes by a college results in financial savings, this should be adequately reported on, and the alternative utilisation of the funds should be made clear in the relevant reports. A priority should be given to distance education, e-learning or any other online education students in the alternative utilisation of funds by providing for learning devices such as laptops or tablets as well as provision of data.
- 37. It is recognised that delivering services to special needs students may entail a higher unit cost. This additional cost is not explicitly linked to enrolment figures by special needs categories and per college, partly because of the information difficulties associated with such an approach. Instead, the cost of an expected level of special needs coverage is incorporated within the funding rate referred to in paragraph 90 and used where enrolment targets for these students are set. Moreover, attainment of enrolment targets by colleges, including enrolment targets for special needs students, receives explicit attention in the annual joint DHET-college planning process referred to in paragraphs 95 100.

The register of nationally approved TVET College programmes

- 38. The formula funding grid uses information provided in the register of nationally approved TVET College programmes. The national register must contain details relating to the nationally approved TVET College programmes. The DHET maintains this register, and makes it available to the public and stakeholders in the TVET College sector on an annual basis.
- 39. The register of nationally approved TVET College programmes must, as a minimum, include the following information relating to each programme (see paragraphs 40 58 for definitions of the various pieces of information):
 - (a) Programme name

- (b) Programme type
- (c) NQF level
- (d) NQF Sub-framework
- (e) DHET programme code
- (f) NQF organising field
- (g) SAQA credits
- (h) Funding weights for personnel
- (i) Funding weights for capital expenditure
- (i) Funding weights for non-personnel non-capital

Details on the determination of funding weights are provided in paragraph 87. In addition, the national register should indicate the typical programme duration, for example whether the programme is typically trimester, semester or a one-year programme. The national register does not indicate hard and fast programme duration, as this aspect of service delivery requires some flexibility.

The in-line part of the formula funding grid

- 40. The following paragraphs describe the meaning of each of the columns, from left to right, of the inline part of the formula funding grid appearing in Annexure A. The in-line part of the formula funding grid indicates the programme choice and information from the national register of approved TVET College programmes. The information in the columns influences the formula funding of the college.
- 41. **DHET programme code:** This is the unique identifier of a programme included in the register of nationally approved TVET College programmes.
- 42. **National Qualifications Framework Organising field:** This is the organising field of the programme. (i.e. 06: Manufacturing, Engineering and Technology)
- 43. **National Qualifications Framework level:** This is the NQF level of the programme (i.e. NQF Level 02)
- 44. **SAQA credits:** This is the number of credits that the programme carries within the NQF. This is indicated in the register of nationally approved TVET College programmes. (i.e. 130 credits)
- 45. **Programme duration:** This is the duration of the programme in terms of the academic year. The value is a number expressed to two decimal places, and may be 1.00 or less than 1.00. A value of 1.00 indicates that the programme covers one academic year on a full-time basis. In the case of the approved National Certificate (Vocational) (NC(V)) TVET programmes, each programme has by definition a programme duration of 1.00. With respect to other programmes, SAQA specifications, relating for instance to the contact time required for the programme, should guide the determination of the programme duration wherever possible. In the absence of some other benchmark stipulated in policy, the applicable benchmark is that a full-time programme is one that involves 1200 hours of contact time. For example, a programme that covers only 300 hours of contact time would have programme duration of 0.4. A programme with programme duration of 1.00 in one line of the formula

funding grid may reappear in another line with lower programme duration, if the same programme is also being offered part-time to another group of students.

- 46. Funding weights (by economic category): This is a weight attached to each economic category of each nationally approved TVET programme to represent the cost of delivering the programme relative to the funding rate (explained in paragraph 87). The economic categories to be used are (1) personnel cost, (2) capital infrastructure cost and (3) non-personnel non-capital (or 'npnc' or non-personnel recurrent) cost. A specific programme may therefore have the funding weights 1.0, 1.1 and 1.3 for the personnel, capital and 'npnc' categories respectively. The funding weight is always expressed to one decimal point. A funding weight of 1.0 means that the cost of delivering the programme with respect to the economic category in question is equal to the funding base rate value for that category. A personnel funding weight of 1.1, to take an example, would mean that the actual delivery cost with respect to personnel is 10% higher than what is indicated in the funding base rate for personnel. Funding weight values are specified on the register of nationally approved TVET College programmes. All programmes would have funding weights specified. When a funding weight is multiplied by the corresponding economic category of the funding base rate (described in paragraph 86), the expected cost as determined by the DHET is obtained.
- 47. **Assumed fee level:** This is an indicator ranging in value from 0.00 to 1.00 that indicates the expected level of fee-charging for each programme on the register of nationally approved TVET College programmes. A value of 0.20 would indicate that the DHET expected 20% of the full cost of the programme to be covered through college fees. The assumed fee level must be informed by clear analysis of historical trends with respect to college fees and the education and training market in general.
- 48. Actual total funding weight: This is the weight that indicates the allocation that will be transferred to the college per programme and per full-time equivalent student, relative to the overall funding rate (explained in paragraph 88). A value of 1.00 indicates that the allocation is expected to be equal to the overall funding base rate. The actual total funding weight (ATFW) takes into account several things: programme cost as reflected in the funding weights (FWp, FWc and FWn); the funding base rates per economic category as determined by the DHET (FR_p, FR_c, FR_n and their sum FR_{Tot}); and the assumed fee level for the programme (AFL). Each funding weight is multiplied by the corresponding funding base rate, and the sum of the three values is then adjusted downwards according to the assumed fee level. The formula is as follows:

$$T = \frac{(FW_p \times FR_p) + (FW_c \times FR_c) + (FW_n \times FR_n)}{FR_{Tot}} \times (1 - AFL)$$
 (where T represents ATFW)

49. **Programme weight:** This is the total weight of the programme, after the actual approved cost of service delivery, enrolment numbers and programme duration have been taken into account. The programme weight (*PW*) is expressed to one decimal place, and T is the actual total funding weight (*ATFW*) multiplied by full-time equivalent students (*FTE*):

$$PW = T \times FTE$$
; (where T represents ATFW)

50. **Labour market segment:** This is the segment of the labour market receiving the chief focus of a programme entered in the formula funding grid. This specification occurs in the formula funding grid to encourage a focus on labour market imperatives. It does not influence the funding formula directly. The values in this column would refer to the following labour market segments: employed persons; unemployed persons 15-24 years of age, unemployed persons 25-34 years of age; unemployed adults over age 35. Values are entered in the column to represent the most prevalent labour market status of

enrolled students. If the same programme is being offered to different groups of students that are clearly distinct in terms of their labour market status, the same programme should be repeated in the formula funding grid. The determination of the labour market segment, which would often relate to anticipated, not actual, enrolment, must occur during the joint DHET-college planning process described in paragraph 95 below.

- Past successful completions: This is the number of students who successfully completed the programme in question during one or more past years. The precise number of past years to be considered is determined during the medium-term joint DHET-college planning process. Past successful completions, together with past enrolments (see the next paragraph) are used to gauge the efficiency of service delivery during previous years, and hence the eligibility of the college for output bonus funding in the bottom-line determinations.
- Past enrolments: This is the number of students who could have completed the programme in question, in other words the number of enrolled students, during the past one or more years. The years considered and the rules for counting students would be the same as for the past successful completions (see previous paragraph).

The bottom-line part of the formula funding grid

- 53. College programme weight: This is the sum of all the programme weight values in the formula funding grid. This forms the basis of the formula funding for a college.
- 54. **Sum of past successful completions and enrolments:** This is the sum of the values referred to in paragraphs 51 and 52. These totals are important inputs into the determination of the output bonus referred to in paragraph 57.
- Assumed value of fees charged: This is a calculated value using values from the in-line part of the formula funding grid as well as the total funding base rate of the DHET. Specifically, the programme weight values and the assumed fee level values from the in-line part of the grid are needed. The assumed value of fees charged should reflect the total monetary value of the assumed fee level, and is used as an important benchmark against which to measure the correctness of the fee-setting processes described in paragraph 69
- College allocation before output funding: This is the total monetary allocation for the college before the addition of a possible output bonus. The college allocation before output bonus (CAI) is the college programme weight (CPW) referred to in paragraph 53 multiplied by the total funding base rate (FR_{Tot}) of the DHET.

$CAI = CPW \times FR_{Tot}$

- 57. **Output funding:** This is a monetary bonus which the college receives in recognition of efficient or outstanding service delivery. The methodology for calculating the bonus is a DHET determination. However, in arriving at the methodology, the following should be considered:
 - a) The ratio of past successful completions to past enrolments, and previous versions of this ratio, applicable to previous years (see paragraphs 50 and 52). Both absolute levels of this ratio, and improvements in this ratio over time, should be taken into account.
 - b) Attainment of development targets in the strategic plan of the college, including targets relating to the representativity of students.

- c) Average examination scores attained by students.
- d) Certification rate: TVET Colleges will be entitled to a 10% portion of the total budget allocation which will be allocated in proportion to the certification rate. TVET Colleges with higher certification rate will receive more allocation

The methodology must be transparent to all colleges in the country. Moreover, it should be determined at a sufficiently early point in time to allow colleges to adjust their planning and management towards the attainment of the identified outputs.

College allocation: This is the total allocation to the college by the state after all adjustments have been made. This is the final allocation provided by the formula funding grid. However, it may not be equal to the total funding for the college received from the DHET if (1) there is funding other than formula funding that is to be paid to the college (see Section E) or (2) there are funds allocated during a previous year that were not utilised and should thus be deducted off the allocation (see paragraph 109).

E. OTHER FUNDING STREAMS

Earmarked capital funding

- 59. This public funding stream covers items not covered by the capital infrastructure portion of the funding rate (see paragraph 86 below). Hence this stream covers two types of capital expenditure: (1) Capital expenditure to expand the infrastructure of existing campuses, or to construct new campuses; (2) Capital expenditure required to address capital infrastructure backlogs inherited from spending in the past.
- The Capital Infrastructure Efficiency Grant (CIEG) was introduced as earmarked grant by National Treasury for college new building and refurbishment as student numbers rise, as well as the increased maintenance costs consequent on rising numbers given the expansion in the college system. The maintenance situation (including the repair and updating of equipment) needs to be carefully monitored and funds for it specifically earmarked. Special conditions will be developed by DHET on the expenditure of CIEG. The CIEG allocation must be dedicated to an average of 10% for TVET College infrastructure to be compliant to disability needs.
- 61. DHET must ensure that transparent and fair procedures are followed in the allocation of earmarked capital funding to colleges. However, it is not a requirement that all colleges be funded equitably with respect to this stream in every financial year. Targeting of particular colleges during particular years is thus permissible. However, in the medium to long term, the distribution of earmarked capital funding across colleges must be equitably pro-poor.
- 62. Earmarked capital funding is an important means for making colleges more accessible for the physically disabled. DHET should ensure that sufficient earmarked capital funding is made available to adapt existing infrastructure in such a way that full access in this regard becomes possible.

Student Accommodation

- 63. There should be an earmarked grant for student accommodation as per paragraph 32(b). In the absence of this earmarked grant, students in college accommodation will be expected to pay the student accommodation fee.
- 64. Student residence should be funded through separate earmarked grant on a project basis. Development finance institutions and the banking sector should be encouraged to partner with institutions to provide loans matching the funding from the Ministry. Local government sponsorship may also be needed as well as private/public sponsors must also be considered

College fees

- 65. The CET Act makes it clear that public TVET Colleges may raise revenue through the charging of college fees. For the purposes of this policy, college fees are fees charged to students by public TVET Colleges to cover the portion of the training cost not covered by formula funding of programmes. For the purposes of this policy, then, college fees do not include hostel fees, or fees charged for programmes that do not receive public TVET funding.
- 66. Considered that fees are an important income stream for TVET Colleges, students that can afford tuition fee should pay. Students with academic potential should not be excluded because they cannot afford fees as per NSFAS guidelines.
- 67. According to CET Act 2006, section 5(2) (g), a College Council "determines tuition fees, accommodation fees and any other fees payable by students as well as accommodation fees payable by employees." However, students who are eligible to NSFAS bursary funding are not expected to be charged student fees by the college.
- 68. The formula funding of programmes, described from paragraph 35 has implications for what may be considered fair practice with respect to college fees. In particular, the level of the college fees charged should not deviate substantially from what is implied by the assumed fee level described in paragraph 47.
- 69. In accordance with paragraph 18, the responsibility for structuring college fees charged for programmes receiving formula funding rests with colleges. However, the net effect of this structuring should be that the total planned income from college fees should be more or less equal to what is implied by the assumed fee levels per programme. The total planned income from college fees may be up to 10% higher than the assumed fee level, without there being a need for DHET approval. Moreover, the college fee charged to a student for any particular programme, subject to formula funding should not deviate substantially from the rand amount implied by the assumed fee level for that programme. Any deviation outside of the bands referred to here require DHET approval, within the DHET-college planning process. The way the transition occurs from the outgoing fee structures of colleges to the new fee structures implied by this policy is linked to how the transition to more normalised per student spending is achieved across colleges.
- 70. The DHET must establish and maintain a national TVET College bursary system. The administration of this bursary scheme will be managed by NSFAS. This must include a means test designed to gauge the financial needs and academic capability of public TVET College students, as well as the necessary tools required to implement the means test. The DHET must further formulate rules and guidelines regarding the allocation of bursaries to colleges, as well the awarding of such bursaries. The bursary

.

systems shall be aimed at ensuring that an inability to pay college fees does not constitute a barrier to academically capable student's access to a formula funded programme at a public TVET College. The means test and accompanying rules and guidelines must be based on best practice and research findings, and be aimed at providing public TVET Colleges with a system within which responsiveness to student need and programme cost can be managed by the college. The DHET requirements and guidelines shall be sufficiently detailed and binding to establish a transparent system and to enforce key policy imperatives.

- 71. The rules and guidelines regarding bursaries referred to in the previous paragraph should incorporate an efficiency element whereby students who repeat programmes should be less eligible for bursaries than students who enrol for programmes for the first time.
- 72. Colleges must manage bursaries in accordance with paragraph 70 to 71.

Student financial aid

- 73. In this policy, student financial aid is funding, in the form bursaries or loans, provided by the state or private organisations to students, possibly through the public TVET College, to deal with costs such as college fees, accommodation, and transport as well as subsistence costs.
- 74. The DHET should monitor the situation with respect to needs-based funding over and above the bursaries, and make proposals for systems and partnerships where necessary. Options involving agreements between the state and public and private lending institutions should be explored.

Fee-for-service income

- 75. This stream of funding is income derived by public TVET Colleges from training services offered on a market basis to private and public clients outside of the formula funding system. Income received for HE training services offered under the auspices of HE institutions in terms of CET Act, is considered as part of the fee-for-service income.
- 76. Paragraph 19 of this policy explains the need to ensure that fee-for-service prices are not cross-subsidised by public funds intended for formula funded programmes. In other words, fee-for-service prices should reflect the true cost of offering the service. To enforce this, the DHET will monitor the prices of fee-for-service training offered, relative to the cost of formula funded training as reflected in the national register of TVET College programmes (see paragraph 38). The requirement is that fee-for-service training should not be offered at a price that is lower than the cost of an equivalent formula funded programme.
- 77. Clearer information in the training market relating to the cost of delivering training programmes, can greatly assist private and public employers in planning their human resource development activities. Given that the DHET will be engaged in extensive research work relating to the costing of training programmes, in order to realise the system of formula funding of programmes, the DHET will be well placed to provide the market with valuable information and guidance relating to training costs. The DHET, in collaboration with the Department of Trade and Industry, may develop pricing manuals that can be used by public TVET Colleges, other providers, and employers, to assist in the provision and procurement of training.
- 78. The DHET must investigate the feasibility of developing and maintaining a national list of recommended prices for training programmes other than those training programmes appearing in the

national register of TVET programmes. Such a list could assist in the monitoring of prices referred to in paragraph 74, and could be used by employers to plan their procurement of services offered by various providers, but in particular public TVET Colleges.

Other State funding

79. SETAs should invite employers to apply for grants and these applications must be approved before college enrolment planning begins. The employer responses must be based on occupational categories (trades) that permit aggregation across sectors. Aggregated data of all employers in a geographical area willing to take learners for workplace learning for a given trade(s) must be provided to the colleges in that area. This will set the broad quantum of learners that can be enrolled by that college in that programme. In time employers should enter into contracts with learners before they enrol in programmes.

TVET colleges may enter into agreements with National Skills Fund (NSF) for funding of certain projects and/or programmes.

Other private funding

80. This stream of private funding is all private funding not covered in the preceding paragraphs of Section E. This stream would include, amongst other things, development funding from international and local donor agencies, and income derived from the sale of goods produced by students as part of a training programme.

F. FINANCIAL MANAGEMENT AT PUBLIC TVET COLLEGES

- 81. It is not the purpose of this policy to provide general financial management rules for public TVET Colleges. The use of GRAP, external auditors, internal audit and risk management will become entrenched across all colleges. College financial management system developed by the DHET is being used in a number of colleges. It is important for this work to continue, and for financial management requirements to become nationally standardised.
- 82. The DHET must pay particular attention to the development of accounting structures and practices that allow for a clear separation of public and private income and expenditure. Financial accounts must be arranged in such a way that the utilisation of publicly financed infrastructure for fee-for-service programmes is reflected as such, so that the financial cost of this is clear. Similarly, the utilisation of the same staff members for the offering of public and private training services should result in separate public and private accounting of the related income and expenditure.
- 83. The DHET must pay special attention to the matter of the financial reserves of colleges, and private loans taken by colleges to fund infrastructural and other development. Practices in this regard should not place the sustainability of colleges at risk, nor should they result in excessive mission drift away from the role of colleges as public providers of TVET.

While section 24 (2) of the CET Act, says: "A public college may not raise money by means of loans or overdraft without approval of the Minister," these norms and standards do not provide the criteria and conditions under which the Minister may approve the raising of loans. The DHET in consultation with the National Treasury will develop procedures, criteria and conditions under which the Minister may consider approval.

G. NATIONAL PLANNING

Maintenance of the register of nationally approved TVET College programmes

84. The register of nationally approved TVET College programmes as described in paragraph 38, must be maintained by the DHET. The DHET must ensure that this register is easily accessible to public TVET Colleges, as well as to other stakeholders in the vocational education and training market.

The Funding Rate (FR) and the costing of programmes

- 85. Much of the maintenance of the register of nationally approved TVET College programmes involves updating the estimated costs of delivering the nationally approved TVET programmes. DHET must concentrate on updating costs on nationally approved TVET programmes in line with inflation rates and other incremental cost if applicable that are applicable to the inputs in question, and on the costing of new or revised training programmes.
- 86. A funding rate (FR) must be maintained and be used as a benchmark for the costing of all other nationally approved TVET programmes. The funding rate is split into the three economic categories of (1) personnel, (2) capital expenditure and (3) non-personnel non-capital. Capital expenditure will be meant for replacement of office furniture and workshop equipment as well as address emergency maintenance and repairs. The Department will develop a costing model that will determine the programme costs which are funding rates. These programmes costs and student enrolment will determine college budgets.
- 87. DHET must indicate the costs of all programmes on the register of nationally approved TVET College programmes relative to the funding rate.

Finalisation of public funding strategies

- 88. On the basis of the research referred to in paragraph 24, and through an appropriate consultation process, national targets must be formulated relating to the number of graduates for various programmes needed from the public colleges. It is important that these targets should only be as specific as credible research allows. Experience in other countries has shown that an excessively detailed level of national planning, often referred to as 'manpower planning', is not feasible, given the complexity of the training demand trends, and also the system that supplies the graduates. At the same time, however, there needs to be a critical level of national planning, and target-setting, particularly where it is very clear that there is an under-supply or an over-supply of particular types of graduates.
- 89. Public funding strategies, including targets relating to the output of the TVET College sector, will be shaped within a planning horizon that is at least 3 years (MTEF). Five to twenty year plans are common in other countries. However, it is important for national targets, to be confirmed on an annual basis, so that the annual DHET-college planning process can be guided by a clear and unambiguous set of priorities. For this reason, the DHET must confirm training targets for publicly funded TVET College training by March of each year. These training targets would focus in particular on overall output increases required, and increases in the outputs of specific types of graduates.
- 90. The development of public funding strategies for technical and vocational education and training must involve a critical level of participation by various government stakeholders, and non-government stakeholders. The DHET will ensure that a major series of national consultations occurs

at least every three years to deal specifically with public funding priorities in technical and vocational education and training, including the public funding of TVET Colleges. These consultations must include, as a minimum, representatives from the Department of Trade and Industry, National Treasury, several major employer and employee organisations, several Higher Education institutions, and several public TVET Colleges, and private TVET provider organisations. Prior to these consultations, the DHET will provide stakeholders with the basic information packages and research outputs necessary for successful consultations to occur. The DHET will also ensure that on an annual basis the National Economic Development and Labour Council (NEDLAC) becomes involved in the finalisation of public spending strategies for TVET.

Special needs education (SNE)

- 91. Additional funding for Students with disabilities in TVET sector must be provided for and funded by factoring weights for SNE per category. The amount needed is calculated on the basis of the indicative category given in Appendix B per special needs education student in the funding grid.
- 92. The special needs education students will be part of the funding grid to determine the budget allocation of a TVET College.

Compensation of Council members

93. Council members should be compensated for their daily allowance, travel and subsistence allowances. Apart from those who are already in state employ, compensation for meeting attendance should be set at the standard hourly or daily rates and should be capped at an annual maximum amount. DHET uses the rates determined by National Treasury regulations on annual basis for TVET colleges.

Funding of foreign students

94. Foreign students are not entitled to the bursary allocation, they should pay the full programme cost i.e. 80% plus 20%. The full programme cost is composed of the 80% that is paid through state subsidy to the college and the 20% that should be recovered from the student fee. Foreign students from Southern African Development Community (SADC) qualify for the 80% state subsidy as per the agreed upon protocol by the State.

H. THE ANNUAL JOINT DHET-COLLEGE PLANNING PROCESS

Basic elements

- 95. For the purposes of the paragraphs that follow, the 'medium term' means the coming three (3) college years for which planning must occur. This is partially in accordance with the Medium Term Expenditure Framework (MTEF) of the Public Finance Management Act, the difference being that the college year begins in January, whilst the government's financial year begins in April. The term 'first MTEF year' refers to the first college year within the medium term. The term 'current year' refers to the college year immediately prior to the medium term, and 'previous year' refers to the college year prior to the current year.
- 96. Section 10 of the CET Act, requires public TVET Colleges to develop strategic plans. This requirement is being fulfilled across all colleges, though the medium-term joint DHET-college planning process described here has wide-ranging implications for the formats and contents of the

- college strategic plans, and the annual processes that lead to the finalisation of strategic plans. For example, the formula funding grid in Appendix A of this policy should form part of the strategic plan of each college.
- 97. It is vital that various stakeholders apart from the DHET and colleges should comment on the medium-term joint DHET-college planning process. DHET must hence ensure that a minimum level of broad consultation occurs with a range of stakeholders, which should include, as a minimum, employers, employees, and private providers of TVET training. At least one regional consultation and at least one college-specific consultation per college should occur in each year. These consultations should be strongly guided by the national strategic priorities referred to in paragraph 91 and 92.
- 98. It is crucial for the medium-term joint DHET-college planning process to be informed by reliable and timely data. This implies major improvements to information systems which, as indicated in paragraph 24 require national funding. In particular, existing unit record systems that house data on individual college students would need to be enhanced, partly to deal adequately with student-level data relating to socio-economic status and with the aggregation of part-time students to full-time equivalent students.
- 99. The medium-term joint DHET-college planning process is partly about learning from experience, and thereby improving the capacity of colleges to deliver quality training efficiently and equitably. It is therefore important that this process should be characterised by honest and informed assessments of past performance. Such assessments should include analyses based on the available financial and non-financial data, as well as the consideration of the qualitative inputs of the various TVET College stakeholders. There should be a strong focus on building relationships of trust and mutual respect between stakeholders for this process to be successful.
- 100. Below, the medium-term joint DHET-college planning process is described with reference to, firstly, capital investment planning, secondly, a review of past formula funding and, thirdly, the forward planning of formula funding. All these activities should be scheduled in such a way that strategic plans, with finalised funding components approved by the DHET, are ready by 31 October of each year. The resultant plans must cover, as a minimum, the medium term.

Capital and Human Resource Investment Planning

- 101. This planning links strongly to earmarked capital and recurrent funding described in paragraphs 59 and paragraph 32 (c). This investment planning should in other words focus strongly on the physical capital needed to address infrastructure backlogs and expansion, and also on investment in systems and the college staff.
- 102. This should start with an assessment of the adequacy of the physical and human capital to deliver on government training requirements in the past. This assessment should include an analysis of how the college balances the offering of publicly funded and privately funded training programmes. If infrastructure inadequacies with respect to the offering of publicly funded programmes can be resolved through a reduction in the level of private services offered, then such a reduction should be regarded as optimal.
- 103. The assessment should lead to college-specific proposals, which will be prioritised by the DHET in accordance with the earlier paragraphs on earmarked funding. The result will be an updating of national plans for the capitalisation of the public TVET College sector.

Enrolment Planning

- 104. An enrolment plan for TVET colleges needs to be developed and linked to available funding provided in the Medium Term Expenditure Framework (MTEF). Enrolment should be based on a three-year rolling plan and should include the projected growth in the number of graduates.
- 105. SETAs must develop a three year plan of programmes that they want the colleges to offer and this should inform the enrolment planning process of the colleges. This needs to form the basis of guaranteed funding from the SETAs to the colleges. The DHET should also develop a long term plan for a college (for instance 3-5 years) to ensure the financial sustainability of colleges informed by agreed-upon enrolment plans.
- 106. Enrolments at colleges for those programmes that require workplace learning should be premised on the colleges having access to workplaces for the learners based on the consolidated information provided by the SETAs for that area. The SETA offices in colleges should therefore be primarily centres of data management derived from data consolidated centrally.

Review of past formula funding

- 107. The review should include an assessment of the deviation between the economic category breakdown of previous allocations, and the economic category breakdown reflected in accounts of actual expenditure. It is not a requirement that colleges must comply with the economic category breakdown of the allocation calculated in the formula funding grid. However, a substantial deviation should be analysed to assess whether the funding weights in the register of nationally approved TVET College programmes are inappropriate, or whether a college is allocating funds inefficiently across the three economic categories. In particular, the review must assess whether the college is investing sufficient funds from the formula funding stream into the maintenance and replacement of capital equipment and facilities given that the funding weights cover this cost.
- 108. Though not explicitly linked to the formula funding grid, representatively of students in terms of gender, race and disability must be considered in terms of the redress principles described in paragraph 27. The level of compliance with past targets should receive attention, and reasons for non-compliance should be assessed.
- 109. A clawback mechanism must be applied where the following has occurred: Less training took place in the previous year, in terms of FTE students, than was planned for in the formula funding grid applicable to the previous year. In this case, under-enrolment in certain programmes can be compensated for by over-enrolment in certain other programmes. However, under-enrolment where actual enrolment is less than 97% of the planned enrolment in terms of full-time equivalent students, must lead to the enforcement of the clawback mechanism. Where the college has been over funded and the Department cannot recoup the funds, DHET, should calculate the clawback amount applicable, and should deduct this amount from the funding of the first year of the next MTEF.
- 110. DHET must assess prices to determine fee-for-service income of colleges and determine whether there is evidence of cross-subsidisation of privately offered services through the use of funds intended for public services. Financial accounts with a separation between public and private services, as specified in paragraph 82, should also be scrutinised to assess whether cross-subsidisation has occurred. If this has occurred, plans for the future should correct this and continual and deliberate cross-subsidisation by a college can result in a financial clawback using the mechanism referred to in paragraph 109.

Forward planning of formula funding

- 111. Planning for the three years of the medium term should pay particular attention to bringing enrolments in nationally approved TVET programmes (as described in paragraph 38) in line with national strategies and targets in this regard. Moreover, the planning process should deal with the labour market segment focus, and the representativity of students. Future targets for the representativity of the student population must be set, in particular where it is clear that student groups are underrepresented.
- 112. The enrolment targets per programme must be consulted, but ultimately the DHET approves of the programmes and enrolments that are subject to formula funding. The process may involve reprioritising the emphasis placed on private services. For example, the need to increase the utilisation of college infrastructure for the offering of nationally approved TVET programmes may require a college to reduce private training. Planning in this regard should occur with care, taking cognisance of contracts between the college and private clients.

Reporting requirements

113. In terms of section 25 (3) of the CET Act, public TVET Colleges are required to produce annual financial reports, and to comply with any reasonable additional reporting requirement established by the Minister. Moreover, section 42 of the Act requires the Director-General of the DHET to produce an annual report on the quality of Technical and Vocational Education and Training in the country. This would include both Public and Private TVET Colleges which have been respectively declared or registered in terms of Act 16 of 2006. The DHET must ensure that the core national set of service delivery indicators and reporting requirements developed with National Treasury in terms of the Public Finance Management Act, and partly applicable to the TVET College sector, are applied at the college level in order to advance an integrated quality monitoring system embracing financial and non-financial data.

The annual cycle and medium-term of public resourcing

- 114. The following paragraphs establish the reporting and planning obligations of the DHET and TVET Colleges in terms of the annual cycle.
- By the last day of September of each year, final annual reports of TVET Colleges must be submitted to the DHET. These reports, which are referred to in section 25 (3) of the CET Act, must include audited financial statements and any additional information required by the Minister in terms of the Act.
- 116. By 31 March of each year, the DHET must release agreed upon national targets and priorities relating to number of students and types of training required in future years, in terms of paragraph 88. This step may involve the confirmation of targets set in previous years, as opposed to the setting of new targets.
- By 30 April of each year, DHET and TVET Colleges must have begun the medium-term DHET-college planning process, described elsewhere in this policy. This process always begins with a review of past trends, in particular as regards formula funding, enrolments, representativity and capital investments.

- 118. By 31 July of each year, the DHET must have finalised the funding rate applicable for the next college year, as described in paragraph 86. Moreover, funding weights and the assumed fee levels for new programmes, if any, on the register of nationally approved TVET College programmes should be confirmed by this date.
- 119. Also by 31 July of each year, means test data collected during the current year on the socio-economic status of students must have been processed by the DHET to determine the bursary needs for each college.
- 120. By 31 October of each year, the medium-term DHET-college planning process must have been completed. By this date, medium to long term strategic plans of colleges, which must include the formula funding grids for the following three years, agreed to in accordance with paragraph 113 must be submitted to the DHET by colleges.
- 121. By 30 November of each year, the DHET must provide colleges with a schedule of payments to be made to colleges for services to be rendered in the medium-term. This schedule must agree with the budgets and plans applicable to the medium-term. Payments to colleges should occur in line with this schedule, except where corrective measures such as clawback must implemented. The schedule must be compiled based on the cash flow drawings as advised by National Treasury for payment of tranches to the TVET Colleges for the academic year. Any correction or adjustments such as clawback must be made from the second last two tranches at this time. Any clawback action must be made after due consultation with the affected college.
- 122. At the time of the adjustments budget, the DHET will apply to Parliament to have any corrections made to the CoE for TVET Colleges, should the need arise to make such changes, given that CoE is specifically and exclusively allocated in the Appropriation Act.
 - (a) In terms of the CET Act, the staff of public colleges consists of persons appointed by the Minister in posts that the Minister establishes for the respective colleges and council established posts. The Minister is required to remunerate staff appointed by the Minister from funds allocated to the respective colleges in accordance with these norms and standards.
 - (b) In terms of Section 22 of the CET Act, the Minister must from money appropriated for this purpose by Parliament fund public colleges on a fair, equitable and transparent basis and the Minister may, subject to the norms and standards, impose any condition in respect of an allocation of funding and different conditions in respect of different public colleges, different technical and vocational education and training programmes or different allocations, if there is a reasonable basis for such differentiation. Also subject to the requirements in these minimum norms and standards, the Minister must determine further appropriate measures for the redress of past inequalities.
 - (c) In terms of Section 24 of the CET Act, the funds of a public college consist of funds allocated by the state and other sources of funding, such as donations or contributions received, money raised by the college, money raised by loans, subject to Ministerial approval as guided by conditions referred to in paragraph 83, income from investment, income from services rendered, student fees, student and employee accommodation and any other source.
 - (d) In terms of Section 25 of the CET Act, the public college must, keep complete accounting records of all assets, liabilities, income and expenses and any other financial transactions, adhere to standards not inferior to the requirements of the Public Finance Management Act.

- (e) In terms of Section 26 of the CET Act, if the management staff (or council) of a public college fails to comply with any provision of this Act under which an allocation from money appropriated by Parliament is paid to the college, or with any condition subject to which any allocation is paid to the public college, the Minister may call upon the management staff (or council) to comply with the provision or condition within a specified period. If the management staff (or council) thereafter fails to comply with the provision or condition timeously, the Minister may withhold payment of any portion of any allocation appropriated by Parliament in respect of the public college concerned.
- 123. The Department will retain funds, annually, from the subsidy allocation to public TVET Colleges, in order to remunerate the employees in posts established by the Minister for the TVET Colleges. The portion of the subsidy allocation to be retained by DHET will be set at 63% of the FULL cost of the funded programmes or as per the Post Provision Norms (PPN). Some identified TVET colleges may spend to a maximum of 70% on CoE of their total college allocation as per PPN staff requirements. The full cost of the funded programmes consists of 80% of government subsidy allocation and 20% of assumed college fee level as explained in paragraph 10.
- 124. In terms of the CET Act, the Minister must, on an annual basis, provide sufficient information to public colleges regarding the funding referred to in paragraph 122(b) to enable the colleges to prepare their budgets for the next financial year.

Academic performance

125. A student may be funded for a maximum of n+1 by the state at the same NQF Level in a nationally approved qualification unless a motivation by the college is made by means of a special request to the DHET for an extension for funding. A student will therefore be expected to pay the full programme cost if no longer funded by the state. A student with disability may be funded for up to a maximum of n+2.

I. THE TVET FUNDING SYSTEM

126. The transition from the various outgoing systems, some national, and some specific to individual provinces or even colleges, to the new system established by this policy, implies a number of key challenges, and possible solutions. A successful transition depends on a solid understanding of recent trends and practices, and the building of a common understanding of and commitment to the new system.

General challenges and solutions

127. Average spending on each full-time equivalent student, as well as the breakdown of spending across the three economic categories referred to in paragraph 86, varies greatly from college to college. The same applies to fees charged, and the way in which private and public funding is combined. Much of the variation is related to the fact that spending is inadequate in some colleges, and inefficient and excessive in some other colleges. Inadequate spending is associated with poor quality training, but even colleges with high spending levels are, in some cases, delivering a service below an acceptable level. The challenge is to bring spending in colleges in line with what it actually costs to deliver a quality service. Changes in spending levels that are too abrupt can result in instability in the sector, and an inability to spend new funds efficiently. It is thus important that the normalisation of spending levels should occur gradually, yet as rapidly as circumstances permit. It is envisaged that the per spending levels implied by the formula funding of programmes will be made clear from the outset, but that the convergence of historical spending patterns with the new spending patterns will take some

years. During the transitional period, then, certain colleges may on average spend more or less per full-time equivalent student than what is implied by the new policy. The DHET will develop and manage plans that will align the system with the funding norms of this policy. Moreover, there will be engagement with Treasury by the DHET aimed at ensuring that the MTEF budgets relating to TVET Colleges are harmonised with the readiness of the sector to implement the new funding norms, and to increase student enrolment levels.

		10: Physical, Mathematical, Computer and Life Sciences
		11: Services
		12: Physical Planning and Construction
NQF level	National	NQF level. Permissible values are any of the values 1 to 8, as specified in regulation 452. However, likely values are 2 to 4 which
	Qualifications	are the levels corresponding to the FET band.
	Framework level	
Prog name	Programme name	The name of the programme.
SAQA cred	SAQA credits	The number of credits assigned to a unit standard or a analification by SAOA
}		and the second of the second o

Prog dur	Programme duration	The proportion of a college year that is needed for the completion of the programme. This value is expressed as a number to two decimal points. The value can be equal to or less than 1.00, but not greater than 1.00. As an example, a programme conducted over a trimester would have the value 0.33 (or 0.34 for the third in a series of three trimesters).
FW pers	Funding weight for personnel	The funding weight for personnel applicable to the programme. The value is a number to one decimal point only. The value is taken from the national register of core programmes.
FW cap	Funding weight for capital expenditure	The funding weight for capital items applicable to the programme. The value is a number to one decimal point only. The value is taken from the national register of core programmes.
<i>FW прпс</i>	Funding weight for non-personnel non-capital	[The funding weight for items other than personnel and capital items applicable to the programme. The value is a number to one decimal point only. The value is taken from the national register of core programmes.
AFL	Assumed fee level	The proportion of total cost that is assumed to be covered by college fees. The value is a number to two decimal points. The value is taken from the national register of core programmes.
ATFW	Actual total funding weight	The overall funding weight for the programme before the programme duration and enrolment adjustments but after considering the assumed fee level (AFL) from the bottom-line part of the grid. The formula is described in paragraph 48 of the policy
Stud	Individual students	The number of individual students enrolled in the programme. This value is determined through the joint DHET-college planning process.
FTE	Full-time equivalent students	The number of full-time equivalent students in the programme. This value is calculated as follows: $FTE = Stud \times Prog \ dur$.
PW	Programme weight	The total weight assigned to the programme, with funding weights, assumed fees and bursaries, enrolment and duration taken into account. This value is calculated as follows: $PW = T \times FTE$: where T represents the actual total funding using the LTFW.
TWS	Labour market segment	The segment of the labour market receiving the chief focus of this service. Values, which are determined through the DHET-college planning process, are: 'BE' for mainly budding entrepreneurs 'EE' for mainly employed persons 'OE' for mainly operating entrepreneurs with employment potential 'UA' for mainly unemployed adults over age 35 'UY' for mainly unemployed youth up to age 35 These values are not used for any calculation. They are simply illustrative of the college plan.
AFS	Alternative funding source	The source of funding other than formula funding of programmes. Values can be: 'EL' for employers (learnerships) 'EO' for employers (other) 'SL' for SETA (learnerships) 'GE' for state (education department) 'GO' for state (other) These values are illustrative, and are not used in any calculation.

The number of successful completions amongst past enrolments. The value is a number calculated according to an agreement	between the DHET and the college relating to the number of past years to take into account	The number of students enrolled in past years, where that number is comparable to past successful completions.	
Past successful	completions	Past enrolments	
Past SC		Past enrol

	Deafness	5			
	Deaf-blindness	5			
	Partial sightedness/Low Vision	5			
	Hard of hearing	5			

Note: Rating 5 is 80% of average programme cost as disability is severe and requires an additional staff member.

NON-GOVERNMENTAL ORGANIZATION

NOTICE 612 OF 2021

Public Notice

Notice of application for nuclear vessel licence in terms of section 21 (3) of the national nuclear regulator act (Act No 47 of 1999)

Notice is hereby given that Eskom has made an application for a Nuclear Vessel Licence to enable a non-nuclear powered vessel to dock in Cape Town harbour for two days over the month of June 2022, for the purposes of transporting nuclear fuel destined for Koeberg Nuclear Power Station.

In terms of Section 21(4) of the National Nuclear Regulator Act, representations related to health, safety and environmental issues may be made by persons affected by the granting of such a Nuclear Vessel Licence, to the Board of the National Nuclear Regulator within 30 days from the date of publication.

Written representations must be addressed to:

- a. The Programme Manager: Nuclear Power Plants, National Nuclear Regulator, 12 Raatz Drive, Delphi Arch Building, Table View 7441, Telephone +27 21 553 9500,
- b. Copies of written representations may also be hand delivered to the offices of the National Nuclear Regulator, Block G, Eco Glades Office Park 2, 420 Witch Hazel Avenue, Highveld Ext 75, Eco Park, Centurion and marked for the attention of The Programme Manager: Nuclear Power Plants
- c. Written representations may also be e-mailed to pbester@nnr.co.za
- d. Copies of written representations may also be hand delivered during working hours to the offices of the National Nuclear Regulator, I2 Raatz Drive, Delphi Arch Building, Table View 7441

NOTICE 622 OF 2021

STANDARDS ACT, 2008 STANDARDS MATTERS

In terms of the Standards Act, 2008 (Act No. 8 of 2008), the Board of the South African Bureau of Standards has acted in regard to standards in the manner set out in the Schedules to this notice.

SECTION A: DRAFTS FOR COMMENTS

The following draft standards are hereby issued for public comments in compliance with the norm for the development of the South African National Standards in terms of section 23(2)(a) (ii) of the Standards Act.

Draft Standard No. and edition	Title, scope and purport	Closing Date
SANS 1050-4 Ed 1	Laboratory controlled environments – Part 4- Microbiological safety cabinets – Class II (type B). Specifies basic requirements for the construction, fittings, and pre-installation and post-installation performance of class II microbiological safety cabinets (also known as biological safety cabinets) which are powered by external exhaust air systems and also discharged externally to the building/facility, that are intended to provide protection from hazardous microbiological agents (and, if required by the customer or the user (or both), from organic toxins and non-corrosive volatile organic agents) for the operator, the environment, and also to protect material used in the cabinet from cross contamination.	2021-12-05
SANS 1928 Ed 3	Coal and coke – Determination of gross calorific value. Specifies a method for the determination of the gross calorific value of a solid mineral fuel at constant volume and at the reference temperature of 25 °C in a combustion vessel calorimeter calibrated by combustion of certified benzoic acid.	2021-12-09
SATS 80004-6 Ed 1	Nanotechnologies – Vocabulary – Part 6: Nano-object characterization. Defines terms related to the characterization of nano-objects in the field of nanotechnologies.	2021-12-09
SATS 80004-8 Ed 1	Nanotechnologies – Vocabulary – Part 8: Nanomanufacturing processes. Defines terms related to nanomanufacturing processes in the field of nanotechnologies.	2021-11-19

A.1: AMENDMENT OF EXISTING STANDARDS

The following draft amendments are hereby issued for public comments in compliance with the norm for the development of the South African National Standards in terms of section 23(2)(a) (ii) of the Standards Act.

Draft Standard No. and edition	Title	Scope of amendment	Closing Date
SANS 10400-D	The application of the National	Amended to update the subclause on	2021-12-09
Ed 4.1	Building Regulations – Part D:	change in level.	
	Public safety		
SANS 3001-GR1	Civil engineering test methods –	Amended to update the introduction, to	2021-12-09
Ed 1.3	Part GR1: Wet preparation and	update referenced standards, to update	
	particle size analysis	definitions, to update requirements for	
		apparatus, to include water quality for	
		testing, to change "aggregations" to be	
		"agglomerations", to update the test	
		procedure for dry sieving of material	
		retained on the 20 mm sieve, to clarify	
		removal of fines by brushing and	
		washing, and to update symbols used in	
		the calculation formulae.	

SANS 3001-GR31	Civil engineering test methods –	Amended to update the introduction,	2021-12-09
Ed 1.3	Part GR31: Determination of the	referenced standards, to update	
	maximum dry density and optimum	definitions and renumber accordingly, to	
	moisture content of laboratory	update the requirements for apparatus, to	
	mixed cementitiously stabilized	update requirements for samples, the	
	materials	testing procedure, and to update the	
		formulae in the annex on calculation of	
		the compaction mould factor by	
		determining the volume.	
SANS 3001-GR55	Civil engineering test methods –	Amended to update the introduction, to	2021-12-09
Ed 1.1	Part GR55: Determination of the	update referenced standards, to update	
	wet-dry durability of compacted	requirements for apparatus, to update the	
	and cured specimens of	temperature in the "testing procedure",	
	cementitiously stabilized materials	and to update the requirements in the	
	by hand brushing	"test report".	
SANS 3001-GR56	Civil engineering test methods –	Amended to update introduction, to	2021-12-09
Ed 1.1	Part GR56: Determination of the	update referenced standards, to update	
	wet-dry durability of compacted	requirements for apparatus, to update the	
	and cured specimens of	temperature in the "testing procedure",	
	cementitiously stabilized materials	and to update the requirements in the	
	by mechanical brushing	"test report".	

SCHEDULE A.2: WITHDRAWAL OF THE SOUTH AFRICAN NATIONAL STANDARDS

In terms of section 24(1)(C) of the Standards Act, the following published standards are issued for comments with regard to the intention by the South African Bureau of Standards to withdraw them.

Draft Standard No. and edition	Title	Reason for withdrawal	Closing Date

SECTION B: ISSUING OF THE SOUTH AFRICAN NATIONAL STANDARDS SCHEDULE B.1: NEW STANDARDS

The following standards have been issued in terms of section 24(1)(a) of the Standards Act.

Standard No. and year	Title, scope and purport
SANS 1983:2021 Ed 1	Liquid applied acrylic coating used in roofing. Covers liquid-applied water-dispersed acrylic latex elastomeric protective roof coatings.
SANS 8666:2021 Ed 2	Small craft – Principal data. Establishes definitions of main dimensions and related data and of mass specifications and loading conditions, and applies to small craft having a length of the hull (LH) of up to 24 m.
SANS 12217-1:2021 Ed 2	Small craft – Stability and buoyancy assessment and categorization – Part 1: Non-sailing boats of hull length greater than or equal to 6 m. Specifies methods for evaluating the stability and buoyancy of intact (i.e. undamaged) boats. Applicable to boats propelled by human or mechanical power of 6 m up to 24 m hull length.
SANS 12217-2:2021 Ed 1	Small craft – Stability and buoyancy assessment and categorization – Part 2: Sailing boats of hull length greater than or equal to 6 m. Specifies methods for evaluating the stability and buoyancy of intact (i.e. undamaged) boats. Applicable to boats propelled primarily by sail (even if fitted with an auxiliary engine) of 6 m up to and including 24 m hull length.

DEPARTMENT OF TRADE, INDUSTRY AND COMPETITION

NOTICE 623 OF 2021

INTERNATIONAL TRADE ADMINISTRATION COMMISSION

NOTICE OF INITIATION OF AN INVESTIGATION INTO THE ALLEGED DUMPING OF LAMINATED SAFETY GLASS ORIGINATING IN OR IMPORTED FROM THE PEOPLE'S REPUBLIC OF CHINA

The International Trade Administration commission of South Africa (the Commission) accepted an application alleging that laminated safety glass imported from the People's Republic of China (PRC) is being dumped into the Southern African Customs Union (SACU), causing material injury and threatening to cause material injury to the SACU industry.

The applicant submitted sufficient evidence and established a *prima facie* case to enable the Commission to arrive at a reasonable conclusion that an investigation should be initiated on the basis of dumping, material injury, threat of material injury and causality.

THE APPLICANT

The application was lodged by PFG Building Glass, a division of PG Group (Pty) Ltd, a manufacturer of the subject product in SACU. PFG Building Glass constitutes 52.89% of the SACU production volume of the subject product. The application is supported by Compass Glass.

PFG Building Glass, provided injury information in this regard, and constitutes a major proportion of the total SACU production.

THE PRODUCT

The product allegedly being dumped is laminated safety Glass, classifiable under tariff subheading 7007.29, originating in or imported from the PRC.

THE ALLEGATION OF DUMPING

The allegation of dumping is based on the comparison between the normal value and the

export price from the PRC. The normal value was determined based on a price quotation obtained from a manufacturer in the PRC.

The export price was based on official import statistics obtained from the South African Revenue Services.

On this basis, the Commission found that there was prima facie proof of dumping.

THE ALLEGATION OF MATERIAL INJURY

The applicant submitted evidence to show that there is price suppression and price undercutting. The applicant's information indicated a decline in sales and production volumes, negative net cash flow, negative return on investment, negative effects on capacity utilisation and declines in profits, market share, employment and productivity.

On this basis, the Commission found that there was *prima facie* proof of material injury.

THE ALLEGATION OF THREAT OF MATERIAL INJURY

The applicant submitted information indicating that there is substantial disposable capacity of the exporters in the PRC, significant increase of allegedly dumped imports into the SACU market which indicates the likelihood of substantially increased importation and that the subject product is entering the SACU market at prices which undercut the SACU manufacturers' prices that will have depressing or suppressing effects on SACU prices and are likely to increase demand for further imports due to the substantial disposable capacity in PRC.

On this basis the Commission found that there was *prima facie* proof of a threat of material Injury.

CAUSAL LINK

On this basis, the Commission found that there was prima facie proof of material injury and further threat of material injury to the SACU industry, and that there is a causal link

between the alleged dumped imports, the material injury suffered by the SACU industry and the further threat of material injury to SACU industry.

PERIOD OF INVESTIGATION

The period of investigation for purpose of determining the dumping margin is from 01 April 2020 to 31 March 2021. The period of investigation for purposes of determining the material injury is from 01 April 2018 to 31 March 2021.

It is noted that the POI for dumping ends at a period which is more than six months before initiation of this investigation, however to not cause undue delay the Commission decided to proceed with the initiation of the investigation.

LEGAL PROCEDURAL FRAMEWORK

Having decided that there is sufficient evidence and a prima facie case to justify the initiation of an investigation, the Commission has begun an investigation in terms of section 16 of the International Trade Administration Act, 2002 (the ITA Act). The Commission will conduct its investigation in accordance with the relevant sections of the ITA Act and the Anti-Dumping Regulations of the International Trade Administration Commission (ADR).

Both the ITA Act and the ADR are available on the Commission's website (www.itac.orq.za) or from the Trade Remedies section, on request.

PROCEDURES AND TIME FRAMES

In order to obtain the information it deems necessary for its investigation, the Commission will send non-confidential versions of the application and questionnaires to all known importers and exporters, and known representative associations. The trade representative of the PRC has also been notified. Importers and other interested parties are invited to contact the Commission as soon as possible in order to determine whether they have been listed and were furnished with the relevant documentation. If not, they should immediately ensure that they are sent copies. The questionnaire has to be

completed and any other representations must be made within the time limit set out below.

The Senior Manager: Trade Remedies II, should receive all responses, including non-confidential copies of the responses, not later than 30 days from the date hereof, or from the date on which the letter accompanying the abovementioned questionnaire was received. The said letter shall be deemed to have been received seven days after the day of its dispatch.

Late submissions will not be accepted except with the prior written consent of the Commission. The Commission will give due consideration to written requests for an extension of not more than 14 days on good cause shown (properly motivated and substantiated), if received prior to the expiry of the original 30-days period. Merely citing insufficient time is not an acceptable reason for extension. Please note that the Commission will not consider requests for extension by the Embassy on behalf of exporters.

The information submitted by any party may need to be verified by the Investigating officers in order for the Commission to take such information into consideration. The Commission may verify the information at the premises of the party submitting the information, within a short period after the submission of the information to the Commission. Parties should therefore ensure that the information submitted would subsequently be available for verification. It is planned to do the verification of the information submitted by the exporters within three to five weeks subsequent to submission of the information.

This period will only be extended if it is not feasible for the Commission to do it within this time period or upon good cause shown, and with the prior written consent of the Commission, which should be requested at the time of the submission. It should be noted that unavailability of, or inconvenience to consultants will not be considered to be good cause.

Parties should also ensure when they engage consultants that they will be available at the requisite times, to ensure compliance with the above time frames. Parties should also ensure that all the information requested in the applicable questionnaire is provided in the specified detail and format. The questionnaires are designed to ensure that the Commission is provided with all the information required to make a determination in accordance with the rules of the Anti-Dumping Agreement. The Commission may therefore refuse to verify information that is incomplete or does not comply with the format in the questionnaire, unless the Commission has agreed in writing to a deviation from the required format. A failure to submit an adequate non-confidential version of the response that complies with the rules set out under the heading **Confidential Information** will be regarded as an incomplete submission.

Parties who experience difficulty in furnishing the information required, or submitting in the format required, are therefore urged to make written applications to the Commission at an early stage for permission to deviate from the questionnaire or provide the information in an alternative format that can satisfy the Commission's requirements. The Commission will give due consideration to such a request on good cause shown.

Any interested party may request an oral hearing at any stage of the investigation in accordance with Section 5 of the ADR, provided that the party indicates reasons for not relying on written submissions only. The Commission may refuse an oral hearing if granting such hearing will unduly delay the finalisation of a determination. Parties requesting an oral hearing shall provide the Commission with a detailed agenda for, and a detailed version, including a non-confidential version, of the information to be discussed at the oral hearing at the time of the request.

If the required information and arguments are not received in a satisfactory form within the time limit specified above, or if verification of the information cannot take place, the Commission may disregard the information submitted and make a finding on the basis of the facts available to it.

CONFIDENTIAL INFORMATION

Please note that if any information is considered to be confidential then <u>a non-confidential</u> <u>version of the information must be submitted</u> for the public file, simultaneously with the confidential version. In submitting a non-confidential version the following rules are strictly applicable and parties must indicate:

- where confidential information has been omitted and the nature of such information;
- reasons for such confidentiality;
- a summary of the confidential information which permits a reasonable understanding of the substance of the confidential information; and
- in exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be placed on the public file and be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

Subsection 33(1) of the ITA Act provides that any person claiming confidentiality of information should identify whether such information is *confidential* by *nature* or is *otherwise confidential* and, any such claims must be supported by a written statement, in

each case, setting out how the information satisfies the requirements of the claim to confidentiality. In the alternative, a sworn statement should be made setting out reasons why it is impossible to comply with these requirements.

Section 2.3 of the ADR provides as follows:

"The following list indicates "information that is by nature confidential" as per section 33(1)(a) of the Main Act, read with section 36 of the Promotion of Access to Information Act (Act 2 of 2000):

- (a) management accounts;
- (b) financial accounts of a private company;
- (c) actual and individual sales prices;
- (d) actual costs, including cost of production and importation cost;
- (e) actual sales volumes;
- (f) individual sales prices;
- (g) information, the release of which could have serious consequences for the person that provided such information; and
- (h) information that would be of significant competitive advantage to a competitor; Provided that a party submitting such information indicates it to be confidential."

ADDRESS

The response to the questionnaire and any information regarding this matter and any arguments concerning the allegation of dumping and the resulting material injury or threat of material injury must be submitted in writing to the following address:

DEPARTMENT OF TRADE, INDUSTRY AND COMPETITION NOTICE 624 OF 2021

INTERNATIONAL TRADE ADMINISTRATION COMMISSION

INITIATION OF AN INVESTIGATION INTO THE ALLEGED DUMPING OF SPADES AND SHOVELS OF A MAXIMUM BLADE WIDTH OF MORE THAN 150MM BUT NOT EXCEEDING 200MM ORIGINATING IN OR IMPORTED FROM THE PEOPLE'S REPUBLIC OF CHINA AND THE ALLEGED DUMPING OF SPADES AND SHOVELS OF A MAXIMUM BLADE WIDTH OF MORE THAN 150MM BUT NOT EXCEEDING 320MM, PICKS, OTHER RAKES (EXCLUDING THOSE WITH NOT MORE THAN 8 PRONGS) AND OTHER FORKS, WITH A PRONG LENGTH EXCEEDING 150MM ORIGINATING IN OR IMPORTED FROM THE REPUBLIC OF INDIA

The International Trade Administration Commission of South Africa (the Commission) accepted an application alleging that spades and shovels of a maximum blade width of more than 150mm but not exceeding 200mm originating in or imported from the People's Republic of China (PRC) and spades and shovels of a maximum blade width of more than 150mm but not exceeding 320mm, picks, other rakes (excluding those with not more than 8 prongs) and other forks, with a prong length exceeding 150mm originating in or imported from the Republic of India (India) are being dumped in the Southern African Customs Union (SACU) market, causing material injury and threatening to cause material injury to the SACU industry concerned.

The applicant submitted sufficient evidence and established a *prima facie* case to enable the Commission to arrive at a reasonable conclusion that an investigation should be initiated on the basis of dumping, material injury, threat of material injury and causality.

THE APPLICANT

The application was lodged by Ussher Inventions (Pty) Ltd (trading as Lasher Tools) supported by Ottimo Products CC. Lasher Tools represents a major percentage by production volumes of the SACU producers for the subject products.

THE PRODUCTS

The products allegedly being dumped are spades and shovels, picks, other rakes (excluding those with not more than 8 prongs) and other forks, with a prong length exceeding 150mm.

The subject products originating in or imported from India are classifiable under the tariff subheadings 8201.10.05; 8201.10.10; 8201.30.03; 8201.30.90; and 8201.90.20. The subject product originating in or imported from the PRC is classifiable under tariff-subheading 8201.10.05.

THE ALLEGATION OF DUMPING

The allegation of dumping is based on the comparison between the normal value and the export price.

India

The normal values of the subject products were determined from domestic price quotations sourced from manufacturers in India.

The export prices for spades and shovels, picks and forks were determined from the South African Revenue Service (SARS) official import statistics.

The export price for rakes was determined based on the export price quotation obtained from the manufacturer of the subject product in India. The basis for using the export quotation was that tariff subheading 8201.30.90 is used to clear other products such as hoes which are not part of this investigation.

On this basis, the Commission found that there was *prima facie* proof of dumping.

PRC

The normal value of the subject product was determined from domestic price quotation sourced from a manufacturer in the PRC.

The export price for the subject product was determined from SARS official import statistics.

On this basis, the Commission found that there was prima facie proof of dumping.

THE ALLEGATION OF MATERIAL INJURY

The applicant submitted *prima facie* evidence to show that there is material injury as follows: price undercutting and price suppression. There is a decline in profits and net cash flow on spades and shovels classifiable under tariff subheading 8201.10.05.

The information also shows a decline in sales volumes and growth (except for spades and shovels classifiable under tariff subheading 8201.10.05 and forks); decline in market share (except for spades and shovels classifiable under tariff subheading 8201.10.10 and forks); decline in output (except for spades and shovels classifiable under tariff subheading 8201.10.05); decline productivity (except for rakes); decline in capacity utilisation (except for spades and shovels classifiable under tariff subheading 8201.10.05); and decline in number of employees (except for forks).

On this basis, the Commission found that there was prima facie proof of material injury.

THE ALLEGATION OF THREAT OF MATERIAL INJURY

The applicant submitted information indicating that increasing trends in global exports from China and offerings to the SACU market suggest that there is disposable capacity of exporters in China and India, significant increase of allegedly dumped imports into the SACU market which indicates the likelihood of substantially increased importation and that the subject products are entering the SACU market at prices that will have a suppressing effect on SACU prices and are likely to increase demand for further imports. The applicant stated that with the influx of the imports of the subject products, it appears that there is sufficient inventories to supply the importers.

On this basis, the Commission found that there was *prima facie* proof of threat of material injury to the SACU industry.

CAUSAL LINK

On this basis, the Commission found there was *prima facie* proof of material injury, threat of material injury to the SACU industry and that there is causal link between the alleged dumped imports, the material injury suffered by the SACU industry and threat of material injury to the SACU industry.

PERIOD OF INVESTIGATION

The period of investigation for purposes of determining dumping margin is from 01 May 2020 to 30 April 2021. The period of investigation for purposes of determining the material injury is from 01 May 2018 to 30 April 2021.

LEGAL PROCEDURAL FRAMEWORK

Having decided that there is sufficient evidence and a *prima facie* case to justify the initiation of an anti-dumping investigation, the Commission has begun an investigation in terms of section 16 of the International Trade Administration Act, 2002 (the ITA Act). The Commission will conduct its investigation in accordance with the relevant sections of the ITA Act, and the Anti-Dumping Regulations of the International Trade Administration Commission of South Africa (ADR) giving due regard to the World Trade Organisation Agreement on Implementation of Article VI of the GATT 1994 (the Anti-Dumping Agreement). Both the ITA Act and the ADR are available on the Commission's website (www.itac.org.za) or from the Trade Remedies section, on request.

PROCEDURES AND TIME LIMITS

In order to obtain the information it deems necessary for its investigation, the Commission will send non-confidential versions of the application and questionnaires to all known importers and exporters, and known representative associations. The trade representatives of the exporting countries have also been notified.

Importers and other interested parties are invited to contact the Commission as soon as possible in order to determine whether they have been listed and were furnished with the relevant documentation. If not, they should immediately ensure that they are sent the necessary documents.

The questionnaire has to be completed and any other representations must be made within the time limit set out below.

The Senior Manager: Trade Remedies II, should receive all responses, including non-confidential responses, not later than 30 days from the date hereof, or from the date on which the letter accompanying the abovementioned questionnaire was received.

Late submissions will not be accepted except with the prior written consent of the Commission. The Commission will give due consideration to written requests for an extension of not more than 14 days on good cause shown (properly motivated and substantiated), if received prior to the expiry of the original 30 day period. Merely citing insufficient time is not an acceptable reason for extension. Please note that the Commission will not consider requests for extension by the Embassy on behalf of exporters.

The information submitted by any party may need to be verified by the Investigating Officers in order for the Commission to take such information into consideration. The Commission may verify the information at the premises of the party submitting the information, within a short period after the submission of the information to the Commission. Parties should therefore ensure that the information submitted would subsequently be available for verification. It is planned that verification of the information submitted by the exporters within three to five weeks subsequent to submission of the information. This period will only be extended if it is not feasible for the Commission to do it within this time period or upon good cause shown, and with prior written consent of the Commission, which should be requested at the time of submission. It should be noted that unavailability of, or inconvenience to consultants will not be considered to be good cause.

Parties should also ensure when they engage consultants that they will be available at the requisite times, to ensure compliance with the above time frames. Parties should also ensure that all the information requested in the questionnaire response is provided in the specified detail and format.

The questionnaires are designed to ensure that the Commission is provided with all the information required to make a determination in accordance with the rules of Anti-Dumping Agreement. The Commission may therefore refuse to verify information that is incomplete or does not comply with the format in the questionnaire, unless the Commission has agreed in writing to a deviation from the required format. Failure to submit an adequate non-confidential version of the response that complies with the rules set out above under the heading *Confidential Information* will be regarded as an incomplete submission.

Parties, who experience difficulty in furnishing the information required, or submitting in the format required, are therefore urged to make written applications to the Commission at an early stage for permission to deviate from the questionnaire or provide the information in an alternative format that can satisfy the Commission's requirements. The Commission will give due consideration to such a request on good cause shown.

Any interested party may request an oral hearing at any stage of the investigation in accordance with Section 5 of the ADR, provided that the party indicates reasons for not relying on written submission only. The Commission may refuse an oral hearing if granting such hearing will unduly delay the finalisation of a determination.

Parties requesting an oral hearing shall provide the Commission with a detailed agenda for, and a detailed version, including a non-confidential version, of the information to be discussed at the oral hearing at the time of the request.

If the required information and arguments are not received in a satisfactory form within the time limit specified above, or if verification of the information cannot take place, the Commission may disregard the information submitted and make a finding on the basis of the facts available to it.

DEPARTMENT OF TRADE, INDUSTRY AND COMPETITION NOTICE 625 OF 2021

INTERNATIONAL TRADE ADMINISTRATION COMMISSION <u>CUSTOMS TARIFF APPLICATIONS</u> LIST 13/2021

The International Trade Administration Commission (herein after referred to as ITAC or the Commission) has received the following applications concerning the Customs Tariff. Any objection to or comment on these representations should be submitted to the Chief Commissioner, ITAC, Private Bag X753, Pretoria, 0001. Attention is drawn to the fact that the rate of duty mentioned in these applications is that requested by the applicant and that the Commission may, depending on its findings, recommend a lower or higher rate of duty.

CONFIDENTIAL INFORMATION

The submission of confidential information to the Commission in connection with customs tariff applications is governed by section 3 of the Tariff Investigations Regulations, which regulations can be found on ITAC's website at http://www.itac.org.za/documents/R.397.pdf.

These regulations require that if any information is considered to be confidential, then a <u>non-confidential version of the information must be submitted</u>, simultaneously with the confidential version. In submitting a non-confidential version the regulations are strictly applicable and require parties to indicate:

- Each instance where confidential information has been omitted and the reasons for confidentiality;
- □ A summary of the confidential information which permits other interested parties a reasonable understanding of the substance of the confidential information; and
- □ In exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless clearly indicated to be confidential, will be made available to other interested parties.

The Commission will disregard any information indicated to be confidential that is not accompanied by a proper non-confidential summary or the aforementioned reasons.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due).

Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

1. INCREASE IN THE RATE OF CUSTOMS DUTY ON BIAXIALLY ORIENTATED POLYPROPYLENE ("BOPP") CLASSIFIABLE UNDER TARIFF SUBHEADINGS 3920.20.50 AND 3920.20.55 FROM FREE OF DUTY TO 10 PER CENT *AD VALOREM* THROUGH THE CREATION OF TWO ADDITIONAL 8-DIGIT TARIFF SUBHEADINGS:

Other plates, sheets, film, foil and strip of plastics, non-cellular and not reinforced, laminated, supported or similarly combined with other materials: Biaxially oriented with a thickness exceeding 0.009 mm but not exceeding 0.012 mm, not heat shrinkable as defined in Additional Note 2 to Chapter 39, unprinted, not metallized under tariff heading 3920.20

Other plates, sheets, film, foil and strip of plastics, non-cellular and not reinforced, laminated, supported or similarly combined with other materials: Biaxially oriented with a thickness exceeding 0.009 mm but not exceeding 0.012 mm, not heat shrinkable as defined in Additional Note 2 to Chapter 39, unprinted, metallized under tariff heading 3920.20

APPLICANT:

SRF Flexipak (South Africa) (Pty) Ltd

5 Eddie Hagan Drive

Cato Ridge

KWA-ZULU NATAL

Ref: 10/2021 **Enquiries**: Ms. Khosi Mzinjana, E-mail: kmzinjana@itac.org.za, Mrs. Amina Varachia, E-mail: avarachia@itac.org.za, and Mrs. Dolly Ngobeni, E-mail: dngobeni@itac.org.za.

REASONS AS STATED BY THE APPLICANT:

As reasons for the application, the Applicant submitted, amongst others, that BOPP continues to be imported into South Africa, despite the presence of SRF and the availability of locally manufactured BOPP. It was submitted that SRF continues to face challenges from imports of BOPP from various countries, including Europe. Despite the tariff increase application for protection, the duty will only provide protection for goods imported under the general rate, whilst imports from European countries will not attract a duty given the free trade agreement between

the EU and SACU. In addition, the Applicant highlighted that BOPP has gained more popularity throughout the world, particularly in South Africa due to its diverse end applications as flexible packaging material. Due to the growth, the Applicant is of the view that South Africa is becoming an increasing attractive target for BOPP imports. In addition, SRF has undertaken various initiatives to protect and grow their investment and market share and show that they are committed to growing the South African market. In addition, SRF has remained supportive of the converters projects in applying for duty protection as manufacturers.

PUBLICATION PERIOD:

Representation should be submitted within **four (4) weeks** of the date of this notice.

2. CREATION OF A TEMPORARY REBATE FACILITY UNDER SCHEDULE 4 OF THE CUSTOMS AND EXCISE ACT FOR THE IMPORTATION OF BULK WHITE CHOCOLATE, CLASSIFIABLE UNDER TARIFF SUBHEADING 1704.90 AS FOLLOWS:

"White chocolate, in immediate packaging of a content of 25 kg or more, classifiable in tariff subheading in 1704.90, for use in the manufacture of chocolate containing cocoa, in blocks, slabs or bars, classifiable in tariff heading 1806.3, and other chocolates classified in tariff subheading 1806.90, in such quantities, at such times and subject to such conditions as the International Trade Administration Commission may allow by specific permit, provided the product is not available in the SACU market".

AIDS HELPLINE: 0800-0123-22 Prevention is the cure

THE APPLICANT SUBMITTED, AMONGST OTHERS, THE FOLLOWING REASONS FOR THE APPLICATION:

"Bulk white chocolate production in the SACU is mainly produced for own use by large chocolate producers who are predominantly multinational companies. Production of industrial bulk white chocolate for resell is minimal to non-existent locally

Bulk white chocolate required by Kees Beyers is imported from Europe and attracts a 25% customs duty, yet the final retail-ready chocolate products originating from the EU enter the SACU market duty free because of the Economic Partnership Agreement (EPA). Retail ready chocolate products originating from the EU have been a significant challenge for years as EU manufacturers do not pay import duties on raw materials and their final retail."

PUBLICATION PERIOD:

Representation should be submitted to the officials listed above within **four (4) weeks** of the date of this notice.

3. MINISTERIAL DIRECTIVE TO REVIEW REBATE ITEMS 311.18/63.09/01.04 AND 460.11/00.00/01.00 TO THE CUSTOMS AND EXCISE ACT, NO.91 of 1964.

Rebate item 311.18/63.09/01.04 reads as follows:

"Worn clothing and other worn articles of textile materials containing 35 per cent or more by mass of cotton fibres (excluding brassieres, girdles, corsets, braces, suspenders, garters, jackets, blazers, jerseys, pullovers, cardigans, overcoats, car-coats, raincoats, anoraks, ski-jackets, duffle-coats, mantles, parkas, swimwear, socks and similar clothing articles) at such times, in such quantities and subject to such conditions as the International Trade Administration Commission may allow by specific permit for the manufacture of wiping rags and cleaning cloths"

Rebate item 460.11/00.00/01.00 reads as follows:

"Used overcoats, car-coats, raincoats, anoraks, ski-jackets, duffle-coats, mantles, three-quarter coats, greatcoats, hooded caps, trench coats, gabardines, padded waistcoats and parkas (excluding any other clothing articles) classifiable in tariff headings 61.01, 61.02, 62.01, 62.02 and 6309.00.13, in such quantities, at such times and subject to such conditions as the International Trade Administration Commission may allow by specific permit"

ENTITY:

The Department of Trade, Industry and Competition (The dtic)

Private Bag X84,

PRETORIA,

Gauteng,

0001

Enquiries contact: Mr C Sako, Tel: (012) 394 3669, Email: csako@itac.org.za, or Mrs E

Gandi, Tel: (012) 394 3672, Email: endou@itac.org.za, or Ms T Morale, Tel: (012) 394 3694,

Email: tmorale@itac.org.za

THE REASONS PROVIDED FOR THE REVIEW ARE AS FOLLOWS:

a) The Ministerial Directive follows concerns which were raised by the Intergovernmental Illicit Economy Trade Task Team about the potential abuse and/or misuse of the aforementioned rebate items, their contribution to illicit trade and the detrimental and negative effect this may have on the domestic clothing and textile industry.

b) It was further considered that the subject rebate items have not recently been reviewed.

PUBLICATION PERIOD:

Representation should be submitted to the aforementioned ITAC officials within **four (4)** weeks of the date of this notice.

[NOTE: Representations/comments must be provided in the format of a questionnaire obtainable on ITAC's website at www.itac.org.za by following the links: "Services – Tariff investigations – Government Gazette Notices – Other publication notices.']

DEPARTMENT OF TRADE, INDUSTRY AND COMPETITION

NOTICE 626 OF 2021

STANDARDS ACT, 2008 STANDARDS MATTERS

In terms of the Standards Act, 2008 (Act No. 8 of 2008), the Board of the South African Bureau of Standards has acted in regard to standards in the manner set out in the Schedules to this notice.

SECTION A: DRAFTS FOR COMMENTS

The following draft standards are hereby issued for public comments in compliance with the norm for the development of the South African National Standards in terms of section 23(2)(a) (ii) of the Standards Act.

Draft Standard No. and edition	Title, scope and purport	Closing Date
SANS 24748-4 Ed 1	Systems and software engineering – Life cycle management – Part 4: Systems engineering planning. Identifies the processes as defined in ISO/IEC/IEEE 15288 to perform the necessary project planning activities to accomplish the project's technical effort and to develop the project's SEMP.	2021-11-19
SANS 61439-7 Ed 1	Low-voltage switchgear and controlgear assemblies – Part 7: Assemblies for specific applications such as marinas, camping sites, market squares, electric vehicle charging stations. Defines the specific requirements of ASSEMBLIES for which the rated voltage does not exceed 1 000 V in case of a.c. or 1 500 V in case of d.c; stationary or movable ASSEMBLIES with enclosure; ASSEMBLIES intended for use in connection with the generation, transmission, distribution and conversion of electric energy, and for the control of electric energy consuming equipment; ASSEMBLIES operated by ordinary persons; ASSEMBLIES intended to be installed and used in marinas, camping sites, market squares, electric vehicle charging stations and other similar external public sites or similar sites.	2021-11-19
SANS 60034-1 Ed 5	Rotating electrical machines – Part 1: Rating and performance. Applicable to all rotating electrical machines except those covered by other IEC standards, for example, IEC 60349.	2021-11-19
SANS 61243-1 Ed 3	Live working – Voltage detectors – Part 1: Capacitive type to be used for voltages exceeding 1 kV a.c. Applies to portable voltage detectors, with or without built-in power sources, to be used on electrical systems for voltages of 1 kV to 765 kV a.c., and frequencies of 50 Hz and/or 60 Hz.	2021-11-19
SANS 61083-1 Ed 1	Instruments and software used for measurement in high-voltage impulse tests — Part 1: Requirements for instruments. Applies to digital recorders, including digital oscilloscopes, used for measurements during tests with high impulse voltages and high impulse currents, and specifies the measuring characteristics and calibrations required to meet the measuring uncertainties and procedures specified in IEC 60060-2 and IEC 62475.	2021-11-19
SANS 12207-2- Ed 1	Systems and software engineering – Software life cycle processes – Part 2: Relation and mapping between ISO/IEC/IEEE 12207:2017 and ISO/IEC 12207:2008. Provides the mapping expressing corresponding relations between software life cycle processes in ISO/IEC/IEEE 12207:2017 and the processes in ISO/IEC 12207:2008.	2021-11-19
SANS 60137 Ed 4 SANS 61083-2	Insulated bushings for alternating voltages above 1 000 V. Specifies the characteristics and tests for insulated bushings. Instruments and software used for measurement in high-voltage and high	2021-11-19
Ed 1	current tests – Part 2: Requirements for software for tests with impulse voltages and currents. Applies to software used for evaluation of impulse parameters from recorded impulse voltages and currents, and provides test waveforms and reference values for the software required to meet the measuring uncertainties and procedures specified in IEC 60060-1, IEC 60060-2, IEC 60060-3 and IEC 62475.	2021-11-19

SANS 61083-3 Ed 1	Instruments and software used for measurement in high-voltage and high-current tests – Part 3: Requirements for hardware for tests with alternating and direct voltages and currents. Applicable to digital recording instruments used for measurements during tests with high alternating and direct voltages and currents, and specifies the measuring characteristics and calibrations required to meet the measuring uncertainties and procedures specified in the relevant IEC standards (e.g. IEC 60060-1, IEC 60060-2, IEC 60060-3, IEC 62475, IEC 61180).	2021-11-19
SATS 63107 Ed 1	Integration of internal arc-fault mitigation systems in power switchgear and controlgear assemblies (PSC-Assemblies) according to IEC 61439-2. States requirements for integration and testing of IAMS in low-voltage switchgear and controlgear assemblies - power switchgear and controlgear assemblies according to IEC 61439-1 and IEC 61439-2 (PSC-assemblies) to demonstrate their correct operation.	2021-11-19
SANS 62271-213 Ed 1	High-voltage switchgear and controlgear – Part 213: Voltage detecting and indicating system. Applicable to the voltage detecting and indicating system (VDIS) to be installed on indoor and outdoor high-voltage equipment.	2021-11-22
SATS 62257-4 Ed 1	Recommendations for renewable energy and hybrid systems for rural electrification – Part 4: System selection and design. Provide to different players involved in rural electrification projects (such as project implementers, project contractors, project supervisors, installers, etc.) documents for the setting up of renewable energy and hybrid systems with AC voltage below 1 000 V and DC voltage below 1 500 V.	2021-12-07
SATS 62257-9-7 Ed 1	Recommendations for renewable energy and hybrid systems for rural electrification – Part 9-7: Recommendations for selection of inverters. Specifies the criteria for selecting and sizing inverters suitable for different off-grid applications integrating solar as an energy source.	2021-12-07
SATS 62257-2 Ed 1	Recommendations for renewable energy and hybrid systems for rural electrification – Part 2: From requirements to a range of electrification systems. Provides some structures as technical solutions that could be recommended, depending on the qualitative and quantitative energy demands, consistent with the needs and financial situation of the customers.	2021-12-07

A.1: AMENDMENT OF EXISTING STANDARDS

The following draft amendments are hereby issued for public comments in compliance with the norm for the development of the South African National Standards in terms of section 23(2)(a) (ii) of the Standards Act.

Draft Standard No. and edition	Title	Scope of amendment	Closing Date
SANS 164-1	Plug and socket-outlet systems for	Amended to update the note on	2021-11-19
Ed 5.6	household and similar purposes	explanation of reference numbers on	
	for use in South Africa – Part 1:	standard sheet 1-1.	
	Two-pole and earth, 16 A 250 V		
	a.c. system		
SANS 927	Precast concrete kerbs, edgings	Amended to update the sub-clause on	2021-12-07
Ed 3.4	and channels	procedure.	
SANS 1015	Fire resisting door units for record	Amended to delete appendix B on notes	2021-12-07
Ed 1.3	rooms	to purchasers.	
SANS 60601-2-54	Medical electrical equipment –	Amended to update the scope, object and	2021-11-19
Ed 1.1	Part 2-54: Particular requirements	related standards, referenced standards	
	for the basic safety and essential	and terms and definitions, to update the	
	performance of X-ray equipment	subclauses on accompanying documents,	
	for radiography and radioscopy	mechanical hazards associated with	
		support systems, protection against	
		unwanted and excessive radiation	
		HAZARDS, protection against excessive	
		temperatures and other HAZARDS,	
		accuracy of controls and instruments and	

protection against hazardous outputs, ME
SYSTEMS, ME EQUIPMENT
identification, marking and documents,
RADIATION management,
RADIATION QUALITY, limitation of
the extent of the X-RAY BEAM and
relationship between X-RAY FIELD
AND IMAGE RECEPTION AREA,
FOCAL SPOT TO SKIN DISTANCE,
test for STRAY RADIATION, and to
update the annexes on guide to marking
and labelling requirements for ME
EQUIPMENT and ME SYSTEMS and
on particular guidance and rationale.

SCHEDULE A.2: WITHDRAWAL OF THE SOUTH AFRICAN NATIONAL STANDARDS

In terms of section 24(1)(C) of the Standards Act, the following published standards are issued for comments with regard to the intention by the South African Bureau of Standards to withdraw them.

Draft Standard No. and edition	Title	Reason for withdrawal	Closing Date

SECTION B: ISSUING OF THE SOUTH AFRICAN NATIONAL STANDARDS SCHEDULE B.1: NEW STANDARDS

The following standards have been issued in terms of section 24(1)(a) of the Standards Act.

Standard No. and year	Title, scope and purport	
SANS 61158-3-4:2021 Ed 1	Industrial communication networks – Fieldbus specifications – Part 3-4: Data-link layer service definition – Type 4 elements. Provides common elements for basic time-critical messaging communications between devices in an automation environment.	
SANS 3000-2-2-1:2021 Ed 2	Railway safety management Part 2-2-1: Requirements for systemic engineering and operational safety standards - Track and associated civil infrastructure and installations - Level crossings. Describes the minimum requirements for level crossings to be met by developers, agents, network operators, and where relevant by train operators, road authorities, private road owners and other relevant and affected parties to accomplish the required levels of safety and performance for those operations throughout their life cycle.	
SANS 61158-3-20:2021 Ed 1	Industrial communication networks – Fieldbus specifications – Part 3-20: Data-link layer service definition – Type 20 elements. Provides common elements for basic time-critical messaging communications between devices in an automation environment.	
SATR 62681:2021 Ed 1	Electromagnetic performance of high voltage direct current (HVDC) overhead transmission lines. Provides general guidance on the electromagnetic environment issues of HVDC transmission lines. Concerns the major parameters adopted to describe the electromagnetic environment of a High-Voltage Direct Current (HVDC) transmission line, including electric fields, ion current, magnetic fields radio interference, and audible noise generated as a consequence of such effects.	
SANS 21998:2021 Ed 1	Interpreting services – Healthcare interpreting – Requirements and recommendations. Specifies requirements and recommendations for healthcare interpreting services in spoken and signed communication.	

Standard No. and year	Title, scope and purport
SANS 60793-2:2021 Ed 4	Optical fibres – Part 2: Product specifications – General. Contains the general specifications for both multimode and single-mode optical fibres.
SANS 60947-6-2:2021 Ed 3	Low-voltage switchgear and controlgear – Part 6-2: Multiple function equipment – Control and protective switching devices (or equipment) (CPS). Applies to control and protective switching devices (or equipment) (CPS), the main contacts of which are intended to be connected to circuits of rated voltage not exceeding 1 000 V AC or 1 500 V DC.
SANS 61386-21:2021 Ed 2	Conduit systems for cable management – Part 21: Particular requirements – Rigid conduit systems. Specifies the requirements for rigid conduit systems.
SANS 61386-22:2021 Ed 2	Conduit systems for cable management – Part 22: Particular requirements – Pliable conduit systems. Specifies the requirements for pliable conduit systems including self-recovering conduit systems.
SANS 20904:2021 Ed 2	<i>Hard coal – Sampling of slurries</i> . Sets out the basic methods for sampling fine coal, coal rejects or tailings of nominal top size <4 mm that is mixed with water to form a slurry.

SCHEDULE B.2: AMENDED STANDARDS

The following standards have been amended in terms of section 24(1)(a) of the Standards Act.

Standard No. and year	Title, scope and purport	
SANS 10142-1:2021 Ed.3.1	The wiring of premises — Part 1: Low-voltage installations. Consolidated edition incorporating amendment No.1. Amended to move reference to legislation and to an association to the foreword, to update the clauses on compliance, fundamental requirements, installation requirements, special installations or locations, and on verification and certification, and to update the annex on classification of safety services necessary for medical locations.	
SANS 1515-4-1:2021 Ed 1.1	Gas measuring equipment primarily for use in mines – Part 4-1: Battery-operated portable, oxygen-deficient/oxygen-enriched measuring instruments and warning devices. Consolidated edition incorporating amendment No.1. Amended to update the sub-clause on flameproof sensor enclosure, the sub-clause on sensor enclosure marking – flameproof sensor enclosure, the annex on assessment of compliance with this part of SANS 1515, and the referenced standards.	
SANS 60335-2-8 Ed 3.1	Household and similar electrical appliances – Safety Part 2-8: Particular requirements for shavers, hair clippers and similar appliances. Consolidated edition incorporating amendment No.1. Amended to update the scope, terms and definitions, and the clauses on classification, marking and instructions, heating, stability and mechanical hazards, mechanical strength, construction, and on supply connection and external flexible cords components requirements.	
SANS 1879:2021 Ed 2.1	Precast concrete suspended slabs. Consolidated edition incorporating amendment No.1. Amended to update referenced standards, definitions, the clause on requirements, and to delete the annex on notes to purchasers.	
SANS 439:2021 Ed 1.1	Vests – Short sleeved, long sleeved and athletic type. Consolidated edition incorporating amendment No.1. Amended to update referenced standards, and to delete the annex on notes to purchasers.	
SANS 888:2021 Ed 3.2	<i>Interlining. Consolidated edition incorporating amendment No.2.</i> Amended to update referenced standards, and to delete the annex on notes to purchasers.	
SANS 10160-5:2021 Ed 1.2	Basis of structural design and actions for buildings and industrial structures Part 5: Basis for geotechnical design and actions. Amended to update the annex on basic guidance on design of foundations and evaluation of earth pressures.	

SCHEDULE B.3: WITHDRAWN STANDARDS

In terms of section 24(1)(C) of the Standards Act, the following standards have been withdrawn.

Standard No. and year	Title

SCHEDULE B4: DISBAND OF TECHNICAL COMMITTEES

Committee No	Title	Scope

If your organization is interested in participating in these committees, please send an e-mail to Dsscomments@sabs.co.za for more information.

SCHEDULE B5: ADDRESS OF THE SOUTH AFRICAN BUREAU OF STANDARDS HEAD OFFICE

Copies of the standards mentioned in this notice can be obtained from the Head Office of the South African Bureau of Standards at 1 Dr Lategan Road, Groenkloof, Private Bag X191, Pretoria 0001.

DEPARTMENT OF TRANSPORT

NOTICE 627 OF 2021

INTERNATIONAL AIR SERVICE ACT, (ACT NO.60 OF 1993) GRANT /AMENDMENT OF INTERNATIONAL AIR SERVICE LICENSE

Pursuant to the provisions of section 17 (12) of Act No.60 of 1993 and Regulation 15 (1) and 15 (2) of the International Air Regulations, 1994, it is hereby notified for general information that the applications, detail of which appear in the Schedules hereto, will be considered by the International Air Services Council (Council) Representation in accordance with section 16(3) of the Act No. 60 of 1993 and regulation 25(1) of International Air Services Regulation, 1994, against or in favour of an application, should reach the Chairman of the International Air Services Council at Department of Transport, Private Bag X 193, Pretoria, 0001, within 28 days of the application hereof. It must be stated whether the party or parties making such representation is / are prepared to be represent or represented at the possible hearing of the application.

APPENDIX I

- (A) Full name, surname and trade name of the applicant. (B) Full business or residential address of the applicant. (C) Class of licence applied for. (D) Type of International Air Service to which application pertains. (E) Category or kind of aircraft to which application pertains. (F) Airport from and the airport to which flights will be undertaken. (G) Area to be served. (H) Frequency of flight.
- (A) Capital Air (Pty) Ltd; Capital Air. (B) Hangar #3, Rand Airport, Germiston, 1419. (C) Class II & III. (D) Type N1, N2, G2, G3, G4, G5, G10, G11, G15 & G16 (NVG). (E) Category H1 & H2. (F) FAGM Airport.
- (A) BAC Helicopters CC. (B) Office 3, Virginia Airport, 220 Fairways Road, Durban North, 4051. (C) Class II. (D) Type N1 & N2. (E) Category H1 & H2. (F) (G) Africa.

APPENDIX II

- (A) Full name, surname and trade name of the applicant. (B) Full business or residential address of the applicant. (C) Class and number of licence in which the amendment is made. (D) Type of International Air Service in respect which amendment was made. (E) Category or kind of aircraft in respect of which license was made. (F) Airport in respect of which the amendment was made. (G) Area to be served. (H) Frequency of flight of which the amendment was made. (I) Condition under which amendment was made.
- (A) Henley Air (Pty) Ltd, Henley Air. (B) Hangar 6, Rand Airport, Germistone. (C) Class II & III; I/N417 & I/G418. (D) Type N1, N4, G2, G3, G4, G5, G7, G8, G10, G11, G13, G15 & G16 (Ship to shore, Night Vision Googles, Powerline Erecting & Stringing operations). (E) Category H1 & H2 (F) Rand Airport. Changes to the MP: H. H. Dippenaar replaces J. A. Coetzee as the Chief Executive Officer & S. A. Shiel replaces H. H. Dippenaar as the RP: Flight Operations.
- (A) Cemair (Pty) Ltd; CenAir / FlyCemAir. (B) Hangar 6, Eastern Precinct, OR Tambo International Airport, Bonaero Park. (C) Class I & II; I/S231 & I/N189. (D) Type S1, S2, N1 & N4. (E) Category A1, A2 & A3. (F) Cape Town International Airport & OR Tambo International Airport (G) Worldwide. Change to the MP: Iain Findlay replaces Russell Patterson as the RP: Flight Operations, Jurie Gouws replaces Johan Liebenberg as theRP: Aircraft & Essery Hamilton replaces Ernest Claassen as the Air Service Safety Officer and adding the following.

State	Destination	Frequencies	
CTIA: Angola	Luanda	Seven (7) return flights per week.	
ORTIA: Zambia	Livingstone	Seven (7) return flights per week.	

DEPARTMENT OF TRANSPORT

NOTICE 628 OF 2021

NOTICE 519 OF 2021

AIR SERVICE LICENSING ACT, 1990 (ACT NO.115 OF 1990) APPLICATION FOR THE GRANT OR AMENDMENT OF DOMESTIC AIR SERVICE LICENCE

Pursuant to the provisions of section 15 (1) (b) of Act No. 115 of 1990 and Regulation 8 of the Domestic Air Regulations, 1991, it is hereby notified for general information that the application detail of which appear in the appendix, will be considered by the Air Service Licensing Council. Representation in accordance with section 15 (3) of the Act No.115 of 1990 in support of, or in position, an application, should reach the Air Service Licensing Council. Private Box X 193, Pretoria, 0001, within 21 days of date of the publication thereof.

APPENDIX I

- (A) Full name and trade name of the applicant. (B) Full business or residential address of the applicant. (C) Class of licence applied for. (D) Type of air service to which application applies. (E) Category of aircraft to which application applies.
- (A) 14U Logistics (Pty) Ltd. (B) 101 Macgillivray Road, Kyalami, 1683. (C) Class III. (D) Type G3, G4 & G16 (RPAS). (E) Category A4 & H1.
- (A) Survey & Resource Management CC. (B) Etienne Lewis Centre, Shop 12, 978 Veda Road, Montanapark X72. (C) Class III. (D) Type G3, G4 & G16 (RPAS). (E) Category A4, H1 & H2.
- (A) Full Name and trade name of the applicant. (B) Full business or residential address of the applicant. (C) The Class and number of license in respect of which the amendment is sought (D) Type of air service and the amendment thereto which is being applied for (E) Category of aircraft and the amendment thereto which is being applied for.
- (A) Banzoflash (Pty) Ltd. (B) 86 Bland Street, Mossel Bay, 6506. (C) Class III; Gl301D (D) Type G3, G4 & G16 (RPAS). (E) Category H1. Changes to the MP: Stephen Murray replaces Keith Murray as the Accountable Manager, Chantal Hourihan replaces Karen Kleu as the Air Service Safety Officer, Verona du Toit replaces Karen Kleu as the RP: Aircraft & Chantal Hourihan replaces Stephen Murray as the Quality Assurance Manager,
- (A) DC Geomatics (Pty) Ltd. (B) 28 San Te Fe 1, Seaward Estate, Ballito, 4420. (C) Class III; G1240D. (D) Type G3, G4, G5 & G16 (RPAS). (E) Category A4, H1 & H2. Changes to the MP: Daniel Dolpire is appointed as the Air Service Safety Officer & Security Manager.
- (A) Drone Systems Africa (Pty) Ltd. (B) 24 Chester Road, Bryanston, Sandton, 2060. (C) Class III; G1500D. (D) Type G3, G4 & G16 (RPAS). (E) Category A4 & H1. Adding category A4 (Fixed Wing).
- (A) RPAS Consulting (Pty) Ltd. (B) 16 Selati River Avenue, Cashan x4, Rustenberg, 0300. (C) Class III; G1377D. (D) Type G3, G4 & G16 (RPAS). (E) Category A4 & H1. Changes to the Shareholding of the Company: Bertus Greef Trust has 100%.
- (A) John Bassi Helicopters CC; Bassair Aviation. (B) Hangar #B6, New Tempe Airport, Bloemfontein. (C) Class II & III; N685D & G534D. (D) Type N1, N2, G3, G10 & G15. (E) Category H2. Changes to the MP: John Bassi is appointed as the RP: Aircraft (Fixed Wing) & Ms Nelmari Dal Bianco replaces John Bassi as the RP: Flight Operations.
- (A) Higher Results People (Pty) Ltd; Drone IT. (B) 25 Kareeboom Avenue, Fourways Gardens, Johannesburg, 2055. (C) Class III; G1412D. (D) Type G3, G4 & G16 (RPAS). (E) Category A4, H1 & H2. Addition of type G5, G7, G8, G11 & G13
- (A) African Skies Aviation CC; African Skies Aviation. (B) O. R. Tambo International Airport, Terminal 1, Lower Roof Office Block, Suite WL. 18. (C) Class II; N894D. (D) Type N1 & N2. (E) Category A3 & A4. Changes to the MP: B. L. Eriank replaces T. Ranchod as the RP: Flight Operations & M. C. Minnaar replaces R. Botha as the Air Service Safety Officer.
- (A) Sky Sprayers (Pty) Ltd. (B) Hangar S1, Secunda Airfield, Secunda. (C) Class III; G627D. (D) Type G4, G5 & G8. (E) Category A3 & A4. Changes to the MP: Mr J. F. Kayser replaces Mr C. J. Cohoe as the RP: Flight Operations & Mr L. G. Du Plessis replaces Mr H, S. Viviers as the Air Service Safety Officer.

BOARD NOTICE 133 OF 2021

THE SOUTH AFRICAN PHARMACY COUNCIL

FEES PAYABLE TO THE COUNCIL UNDER THE PHARMACY ACT, 53 OF 1974

In terms of Section 4(zG) of the Pharmacy Act, 53 of 1974, Council may determine the fees payable to Council. This means that any new fees or amendments to existing fees are determined annually by Council. As in the past, all efforts will be made to curtail costs and keep any increases in fees to a minimum. The fees payable to Council for 2021 were published in Board Notice 188 of 2019 (GG 42845, published on 15 November 2019), as amended by Board Notice 132 of 2020 (GG 43870, published on 4 November 2020). The fees hereunder are additional fees payable to Council for the year 2021 and are published below for general information:

Description	Excluding VAT R	VAT R	Including VAT R
OTHER FEES – the following fees are payable by:			
A Provider of pharmacy education and training on the and the Higher Education Qualification Sub-framework purpose of:			
approval of an Occupational Certificate: Pharmacist's Assistant (Basic)	55 546,96	8 332,04	63 879,00

BOARD NOTICE 135 OF 2021

REMOVAL OF RESTRICTIVE TITLE DEED CONDITIONS FOR ERF 1214 BEACON BAY, 5 PENTLANDS PLACE

In terms of Section 47(1) of the Spatial Planning and Land Use Management Act No.16 of 2013, read with Section 59 of the Buffalo City Metropolitan Municipal Spatial Planning and Land Use Management Bylaw of 2016, approval is hereby granted for the removal of restrictive title conditions C. 3. (a-d) found in Deed of Transfer No. T4676/2011.

Please be advised that you will be required to place a notice of the approval in the Provincial Gazette and thereafter arrange for the endorsement of your Title Deed with the local Registrar of Deeds in King Williams Town to ensure that the conditions/ clauses are removed.

Please note that you can request a quote for the Provincial Gazette notice at www.qpwonline.co.za. Alternatively, you can contact the GPW contact centre on (012)7486200 or email info.egazette@gpwco.za.

Please provide the City Planning Division with the following information for your application to be finalized:

- a) Proof of Gazette notice.
- b) Proof of lodgment with the Deeds office.

Should you require any additional information regarding the approval for Erf 797 Beacon Bay, please do not hesitate to contact Mr. H. Schluter on 043 705 2267 or alternatively Mr. A. Kotzee on 043 705 2268.

Yours faithfully

N. MBALI-MAJENG
