REPUBLIC OF SOUTH AFRICA

HIGH ALERT: SCAM WARNING!!!

TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works (GPW)*.

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

PROCUREMENT@GPW-GOV.ORG

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

GPW has an official email with the domain as [@gpw.gov.za](mailto:GPW@gpw.gov.za)

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

Government Printing Works gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at www.gpwonline.co.za
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

AGRÉMENT SOUTH AFRICA
(Approval of innovative construction products and systems)

Notice is hereby given that Agrément South Africa has, with effect from 29 July 2022, issue a **reinstatement** of Agrément certificate, details of which appear in the schedule hereto.

SCHEDULE

Agrément certificate 2017/555 (Re-instated June 2022): Everite Hebel AAC Block Building System

Certificate holder: Everite (Pty) Ltd

Subject: Everite Hebel AAC Block Building System

Description: Everite Hebel Autoclaved Aerated Concrete (AAC) Block Building System is light-weight concrete masonry product. The blocks are manufactured from widely available materials including hydraulic binders (cement, lime & fly ash), fine sand, aluminium powder (expansion agent) and water.

The blocks are factory produced in sizes of 600 mm long x 100 (110, 150 & 220) mm wide x 250 mm high sizes, with a density range of 580 – 600 kg/m³.

The walls (Interior & Exterior) are constructed by laying the blocks in a conventional stretcher bond using thin proprietary mortar. The walls are plastered on both sides with conventional 10 mm thick conventional cement plaster.

The foundations are conventional concrete strip footings or concrete raft with thickened edge beams. They are always the responsibility of a registered professional competent engineer.

Roof structures are conventional, steel or timber trusses that must be designed by a professional registered competent engineer and erected and fixed to the wall under his supervision. The roof structure is clad with light- or heavy-weight cladding.

All services are conventional and are chased into the wall surface as one would do with conventional brick structures. The grooves are then filled using thin proprietary mortar which is then sanded down and plastered over. Services on only 100 mm thick blocks must always be surface mounted. The services must be specified and installed in accordance with good building practice.

Agrément South Africa has approved Everite Hebel AAC Block Building System for single storey buildings. The system may however be used in multi storey application provided an approved competent engineer takes full responsibility.

The Agrément certificate contains detailed information on the product and can be accessed at <http://www.agrement.co.za>.

PARLIAMENT OF THE REPUBLIC OF SOUTH AFRICA**GENERAL NOTICE 1868 OF 2023****MS WENDY ALEXANDER, MP****NOTICE OF INTENTION TO INTRODUCE A PRIVATE MEMBER'S BILL, 2023 AND INVITATION FOR COMMENT**

Hon Wendy Alexander, MP, acting in accordance with section 73(2) of the Constitution of the Republic of South Africa, 1996, intends to introduce the Performing Animals Protection Amendment Bill, 2023 ("the Bill"), in Parliament. An explanatory summary of the Bill is hereby published in accordance with Rule 276(1)(c) of the Rules of the National Assembly (9th Edition).

In the Equality Court judgment of *SA Guide-Dog Association for the Blind and Amanda Bester v The Department of Home Affairs and the Western Cape Department of Home Affairs* Case No. EC 16/2018 (unreported), the Court held that the denial of access to the applicant, Amanda Bester and her assistance animal, Reo, to the premises and offices of the Department of Home Affairs, Western Cape amounted to unfair discrimination.

Following this judgment, it has become evident that people with disabilities who use assistance animals remain marginalised and are often turned away from public and private spaces, as well as from accessing public transport. There is currently a lack of legislation preventing assistance animals and their owners from being turned away from private and public areas, buildings and transport. It is therefore important that the Performing Animals Protection Act, 1935 (Act No. 24 of 1935) ("the Act") be amended in order to protect persons with a disability who use assistance animals and to create a licencing procedure for persons with a disability whose assistance animals accompany them to and on, especially, public areas, buildings and transport.

The licencing of assistance animals will provide persons with a disability with tangible proof of their right to enter or access any public or private area, building, facility or transport while accompanied by their assistance animal. Any person who denies a person with a licence access to these places will be committing an offence and will be liable to a fine or imprisonment.

Interested parties and institutions are invited to submit written representations on the proposed content of the Bill to the Speaker of the National Assembly within 30 days of the publication of this notice. Representations can be delivered to the Speaker, Africa House Building, Cape Town; mailed to the Speaker, PO Box 15, Cape Town, 8000; or emailed to speaker@parliament.gov.za and copied to legislation@da.org.za.

Copies of the Bill may be obtained upon request from legislation@da.org.za.
